Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Ninth Amended and Restated Owens-Illinois Hourly Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2019 and 2018 and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Ninth Amended and Restated
Owens-Illinois Hourly Retirement Plan

Notes to Financial Statements

1. Description of Plan

General

The Ninth Amended and Restated Owens-Illinois Hourly Retirement Plan ("Plan") is a defined benefit plan established to provide normal and early retirement, termination and death benefits to qualified hourly employees of O-I Glass, Inc. ("Company") and certain of its subsidiaries.

The Plan was previously amended to allow for the accumulated plan benefits of certain participants to be settled through the purchase of annuity contracts from an insurance company. The Plan purchased allocated annuity contracts of \$93,481,000 for 761 retirees during the year ended December 31, 2018.

Contributions

The Company contributes such amounts as are deemed necessary on an actuarial basis to provide assets sufficient to meet the future benefits to be paid to Plan participants. As of December 31, 2019 and 2018, the minimum funding requirements as defined by the Employee Retirement Income Security Act of 1974, as amended ("ERISA") have been met.

Benefits

A traditional participant is entitled to annual pension benefits beginning at normal retirement age (65) based on a benefit formula amount stipulated by labor class in the applicable union contract multiplied by the participant's years of credited service. A cash balance participant is entitled to annual pension benefits beginning at normal retirement age (65) based on a pay credit rate stipulated by years of credited service in the applicable union contract. Effective in 2011, new hires were only cash balance participants. For any nonunion participants, the Company establishes the benefit formula amount as determined from the plan document. Accrued benefits become vested after completion of five years of credited service for a traditional participant and three years of credited service for a cash balance participant or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement.

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, its assets will first be used to provide participants' accrued benefits unless they are insufficient. In that case, whether a particular participant's accrued benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the available assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

Ninth Amended and Restated
Owens-Illinois Hourly Retirement Plan

Notes to the Financial Statements - Continued

The above information is a brief description of the Plan. Information about the vesting and benefit provisions and the PBGC's benefit guarantee is contained in the Plan's Summary Plan Description, which is available at the corporate office of the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Basis of Presentation and Plan Investments

The Plan's assets are included in the Owens-Illinois Master Retirement Trust ("Master Trust") along with the assets of another pension plan at the Company. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master trust. At December 31, 2019 and 2018, the Plan's interest in the net assets of the Master Trust was approximately 70% and 67%, respectively.

The Master Trust holds an investment in a Harbor Capital Group Trust for Defined Benefit Plans ("Group Trust") and a short term investment fund. The trustee of the Plan is State Street Bank and Trust Co. ("State Street"). The Group Trust is under a separate trust agreement.

The Group Trust's assets are managed by designated advisors across a wide range of investment strategies and these investment funds consist of public securities such as domestic and foreign equity, intermediate and longer duration corporate debt issues and government securities. The Group Trust's assets are designed to preserve principal and maximize returns.

The Plan's earnings of the Group Trust are allocated in proportionate interest to each participating plan based on the fair market value of its net assets. The accompanying financial statements reflect the Plan's total interest in the net assets and transactions of the Group Trust as allocated by State Street.

Investment Valuation and Income Recognition

The Plan's interest in the Group Trust is valued at the unit price established by the trustee, which is deemed to be fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion and disclosures related to fair value measurements.

Ninth Amended and Restated
Owens-Illinois Hourly Retirement Plan

Notes to the Financial Statements - Continued

The O-I Glass, Inc. Investment Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated April 8, 2015, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code ("the Code") and therefore, the related trust is tax-exempt. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of trustee fees for investments held outside of the Master Trust, PBGC fees and actuarial fees. These expenses are reported on the statements of changes in the net assets available for benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain from the Master Trust. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund in which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the reported amounts of certain additions and deductions during the reporting period. Most significantly, estimates and assumptions are used in the determination of the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates and assumptions.

Ninth Amended and Restated
Owens-Illinois Hourly Retirement Plan

Notes to the Financial Statements - Continued

Risks and Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Related Party and Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

Funding Relief

The Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted on March 27, 2020, in response to the COVID-19 emergency. The CARES Act Section 3608 provides a pension funding holiday for contributions to a single-employer defined benefit pension plan that otherwise would be required to be paid in calendar year 2020. Specifically, no minimum required contributions under IRC Section 430(j) that would be due in 2020 must be paid. The due date of delayed contributions is January 1, 2021, and interest accrues from the original due date until the contribution is made. The Plan has elected this deferral and will continue accruing the contributions until they are paid.

Reclassifications

Certain prior year amounts on the statement of net assets available for benefits and statement of changes in net assets available for benefits have been reclassified to conform to the current year presentation. Plan interest in Master Trust is shown in aggregate as one line item on the statements of net assets available for benefits and net investment gain (loss) from plan interest in Master Trust is shown in aggregate as one line items on the statements of changes in net assets available for benefits.

3. New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*, (ASU 2017-06). ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest as separate line items in the statement of net assets available for benefits and in

Ninth Amended and Restated
Owens-Illinois Hourly Retirement Plan

Notes to the Financial Statements - Continued

the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 eliminates the requirement for a health and welfare plan to provide investment disclosures for 401(h) account assets. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. The adoption of this standard did not have a material impact on the Plan's financial statements. The Plan adopted ASU 2017-06 for the year ended December 31, 2019.

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for net asset value per share practical expedient in accordance with ASC 820, *Fair Value Measurement*. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. Management is currently evaluating the effect that the provisions of ASU 2018-09 will have on the Plan's financial statements.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments and lump sum distributions to which participants are entitled under the Plan's provisions based on services rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to: a) retired employees or their beneficiaries, b) terminated employees with vested benefits, c) beneficiaries of deceased employees, and d) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal or early retirement) between the valuation date and the expected date of payment. The amount of accumulated plan benefits is estimated actuarially under the accrued benefit cost method (unit credit method).

The more significant assumptions underlying the actuarial computations are as follows:

Assumed Rate of Return on Investments	7.25% and 7.25% at December 31, 2018 and 2017, respectively.
Mortality basis (Healthy/Disabled)	2018 - Separate male and female tables of rates for non-annuitants (based on RP-2014 "Employees" table with Blue Collar and an 18.2% increase in rates adjustment, with generational projection using the MP-2018 projection scale, unadjusted) and annuitants

Owens-Illinois Hourly Retirement Plan

Notes to the Financial Statements - Continued

If the Plan would terminate, different actuarial assumptions determined by the PBGC and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of accumulated plan benefits ("APVAPB") are as follows:

	December 31, 2018
Vested benefits:	
Participants currently receiving benefits	\$ 436,510,459
Other participants	209,144,263

Nonvested benefits	<u>14,473,749</u>
Total APVAPB	<u><u>\$ 660,128,471</u></u>

The following table details the changes in the APVAPB:

	Year ended December 31, 2018
APVAPB at beginning of year	\$ 726,674,400
Increase (decrease) during the year attributable to:	
Increase in benefits accumulated	8,613,206
Change in plan assumptions	4,733,216
Increase due to decrease in the discount period	50,195,141
Purchase of annuity contracts	(93,481,000)
Change due to Actuarial gains and Plan amendments	18,114,218
Benefits paid	<u>(54,720,710)</u>
Net decrease	<u>(66,545,929)</u>
APVAPB at end of year	<u><u>\$ 660,128,471</u></u>

5. Investments

Other than the fair value of the investments in a money market fund and interest-bearing cash held outside of the Master Trust and the related interest, certain information related to investments for the Plan and the Master Trust disclosed in the accompanying financial statements including investments held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2019 and 2018, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by State Street.

6. Fair Value Measurements

GAAP defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs for which there is little or no market data, which requires the Company to develop assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The investment valuation policy of the Master Trust is to value investments at fair value. The Master Trust invests in the Group Trust, which consists of investment funds valued at their respective net asset value as calculated by the trustee. There are no redemption restrictions related to assets in the Group Trust or Short Term Investment Fund. Short-term investments are stated at amortized cost, which approximates fair value.

The methods used to produce a fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements - Continued

The assets held outside of the Master Trust include interest-bearing cash, which is valued at cost that approximates fair value as well as a Money Market fund, which is valued at net asset value as provided by the administrator of the fund.

7. Subsequent Events

Effective January 1, 2020 the Plan was amended to freeze the majority of the cash balance plan for new participants and benefit accruals. In addition, participants became 100% vested in their cash balance.

Subsequent to December 31, 2019, the COVID-19 pandemic has resulted in substantial volatility in the global financial markets. Because the value of the Plan's investments will fluctuate in response to changing market conditions, the amount of future losses, if any, that will be recognized in subsequent periods, cannot be determined.

The Company has evaluated subsequent events for the Plan through October 15, 2020, the date the financial statements were available for issuance.

Mortality

■ Healthy

Separate male and female plan specific mortality tables were developed for the Hourly Plan and approved by the IRS. Rates were developed separately for non-annuitants and annuitants based on the RPEC-2006 employee and healthy annuitant mortality tables projected from 2006 to the midpoint of the study, 2015, using MP-2016.

Representative Mortality Rates for Annuitants:

Attained Age	Males	Females
25	0.100	0.100
40	0.044	0.044
55	0.020	0.020

Disability

Rates varying by age.

Retirement

Rates varying by from age 55 to age 70 and based on service average.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage leaving during the year		
Attained Age	Service<30	Service>30
55	.060	.100
60	.120	.120
62	.240	.270
65	.500	.300
70	1.000	1.000

Unpredictable Contingent Event Benefit (UCEB) assumptions

O-I provides unreduced early retirement benefits for collectively bargained employees in the Hourly Plan in the event of plant closures, as defined by the collective bargaining agreements. There is no specific load for these benefits in the 2019 valuation.

Benefit commencement date:

■ Preretirement death benefit

The later of the death of the active participant or the date the participant would have attained age 55.

SCHEDULE SB ATTACHMENTS

■ Deferred vested benefit The later of age 65 or termination of employment.

■ Disability benefit Upon disablement.

■ Retirement benefit Upon termination of employment.

Form of payment

Life annuity unless noted otherwise below.

For active GMP contract participants the normal form is six years certain and continuous.

For cash balance participants, benefits are assumed to be taken as a lump sum on the account balance at date of retirement 80% of the time, with the remaining 20% being taken as an annuity.

It is assumed that those that are married and elect an annuity take the qualified joint and survivor annuity available.

Percent married

80% of males; 80% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age

Spouses of female participants are assumed to be three years older than the participant. Spouses of male participants are assumed to be three years younger than the participant.

Covered pay

Assumed plan compensation for the year beginning on the valuation date was determined as estimated current year W-2 pay based on actual plan compensation of the prior year.

Administrative expenses

Return on asset assumption is net of any expenses paid by the trust. For the 2019 plan year administrative expenses were assumed to be \$7,800,000.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2019. The data was provided through the Plan's third party administrator and record-keeper, John Hancock. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with O-I, the following assumptions were made for missing or apparently inconsistent data elements:

- Participants with missing gender are assumed to be female
- Participants with missing birthdates are assumed to have the prior year's birthdate; those who did not have a birthdate in the prior year (due to a new record) are assumed to be the average age of their status cohort
- Deceased participants whose beneficiaries have not been located by the time of the valuation are assumed to be alive and paid in the survivor amount paid by the plan administrator
- Accrued benefits for participants who terminate close to the census date and therefore do not have a final accrued benefit calculated by the plan administrator are estimated based on valuation data
- Missing beneficiary birth date for participants with joint and survivor benefits are assumed to be equal to the valuation assumption age difference between males and females
- Missing beneficiary gender for participants with joint and survivor benefits are assumed to be opposite of the participant's gender
- A group of Terminated Vested participants who have historically not been in the data provided by John Hancock and are currently being researched by O-I were carried forward from prior valuations

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable

(discounted using the effective interest rate for the 2018 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except unreduced early retirement benefits for collectively bargained employees in the Hourly Plan in the event of plant closures, as defined by the collective bargaining agreements. Based on discussions with O-I, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Willis Towers Watson has reviewed the plan provisions with O-I and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the 30-year Treasury rate as of the November preceding the plan year. Based on an analysis of historical relationships between 30-year Treasury rates and the discount rate used for accounting we have set the assumed interest credit rate to be the discount rate used for accounting less 1.50%; however, the result of this process is reviewed each year for reasonableness given current and expected future conditions.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Rates of increase in:	
■ Compensation	Assumed compensation increases are based on a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. CPI increases assumed are as described below. Productivity increases are consistent with the assumed real increases in NAW described below (i.e., increases in assumed NAW less increases in assumed CPI). Promotional increases were based on plan sponsor expectations and a study of increases received by plan participants in the years 2006-2011.
■ Increases in statutory limits (CPI)	The assumed CPI is based on a combination of historical average CPI, current conditions, and future forecasts by economists.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items such as expected PBGC premiums.

Assumptions Rationale – Significant Demographic Assumptions

Termination	<p>Termination rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by gender because of observed differences in termination rates by gender.</p>
Disability	<p>Disability rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p>
Retirement	<p>Retirement rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Retirement rates differ by eligibility for unreduced retirement benefits because of the observed effects the availability of these benefits has on retirement rates.</p>
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	<p>Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.</p>
■ Deferred vested benefit	<p>Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.</p>

Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over the period 2010-2013.
Percent married	The assumed percentage married is based on the percentage married observed among recent retirees.
Spouse age	The assumed age difference for spouses is based on the age difference observed among recent retirees.

Source of Prescribed Methods

Funding methods	The methods as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Owens-Illinois, Inc.
EIN/PN	22-2781933/002
Plan Name	Ninth Amended and Restated Owens-Illinois Hourly Retirement Plan
Valuation Date	January 1, 2019
Enrolled Actuary	Dean Nicholas
Enrollment Number	20-08394

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

This 2019 plan year Schedule SB has been revised to reflect additional 2019 plan year contributions. The provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act that was signed into law in March 2020 allowed plan sponsors to delay contributions with due dates in 2020 to a date later than the filing due date for the 2019 Form 5500. In Notice 2020-61 Q-8 the IRS instructed plan sponsors to complete an amended filing when the delayed contribution(s) for the 2019 plan year were eventually deposited. This amended Schedule SB filing includes the additional contribution(s) and shows no unmet minimum required contribution on line 39.

Other Plan Provisions

The Accrued Benefit formula for Kontes Glass Company Employees is a career average pay formula. The benefit formula is 1.0% of career average pay plus 0.65% of career average pay in excess of Covered Compensation multiplied by up to 35 years of Credited Service.

The Accrued Benefit formula for Brockway Non-Union employees is 1.5% of base pay in effect for the first payroll cycle paid during the plan year in each calendar year of Credited Service (since June 1, 1984).

The Accrued Benefit formula for Specialty Packaging Products, Inc., Non-Union employees is 1.2% of base pay in effect for the first payroll cycle paid during the plan year for each calendar year.

For an active employee on August 11, 1990, the Accrued Benefit can be no less than the greatest of (i), (ii), (iii), or (iv), as applicable, minus (v) below. If credited service is at least:

- (i) 23.00 years at August 11, 1990; \$300.00 minimum benefit.
- (ii) 23.00 years at January 1, 1993; \$300.00 minimum benefit.
- (iii) 25.00 years at August 11, 1990; \$325.00 minimum benefit.
- (iv) 25.00 years at January 1, 1991; \$325.00 minimum benefit.
- (v) \$10.00 for each full or partial year which termination, death or retirement precedes normal retirement date.

The Accrued Benefit formula for Treitler Owens, Inc. is 35% of Average Annual Earnings reduced proportionately for Credited Service less than 25 years.

Additional Provisions Recognized for Pension Cost Basis

Future benefit level increases for active participants were anticipated in determining service cost and pension benefit obligations but not in calculating accumulated benefit obligations.

Change in Plan Provisions Since the Prior Year
