Note 1 - Plan Description

The following description of Behr Dayton Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. On August 3, 2020, the Plan merged into the MAHLE 401(k) Asset Accumulation Plan, which was renamed the MAHLE 401(k) Plan on that date. As a result of the merger, the Plan was terminated effective August 3, 2020.

General

The Plan was a defined contribution plan covering certain union employees of MAHLE Behr Dayton, LLC (the "Company") who had completed at least 21 days of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provided for employee salary 401(k) contributions up to a maximum of 75 percent of pretax annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Effective January 1, 2019, the Plan had an automatic enrollment feature that automatically enrolled newly hired and rehired participants 90 days after their date of hire or rehire, unless the participant filed an election to opt out. If automatically enrolled, a participant's deferral was set at 6 percent of eligible compensation until changed by the participant. Participants could also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Effective January 1, 2019, employer matching contributions for all participants were calculated as 100 percent of employee contributions up to 2 percent of a participant's eligible compensation, plus 50 percent of the next 4 percent of employee contributions up to 6 percent of a participant's eligible compensation. Prior to January 1, 2019, employer matching contributions for certain qualified participants were calculated as 100 percent of employee contributions up to 2 percent of a participant's eligible compensation. Additionally, participants must have been employed by the Company on the last day of the plan year (or retirement eligible at termination), a member of a qualified union, and enrolled in the Plan to be credited with any year-end true-up employer contributions.

Participant Accounts

Each participant's account was credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations were based on participants' compensation or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. Participants could direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants were immediately 100 percent vested in employee salary deferrals and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, was based on years of service. Following the plan restatement effective January 1, 2019, participants became fully vested in employer matching contributions after two years of service. Prior to January 1, 2019, participants vested in employer matching contributions 20 percent after two years of service, 40 percent after three years of service, and 66 percent after four years of service until they become fully vested after five years of service.

Benefit Payments

Distributions were payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. In-service distributions could be received while a participant was still actively employed if the participant had either reached age 59½ or was eligible to receive a hardship distribution.

August 3, 2020 and December 31, 2019

Note 1 - Plan Description (Continued)

Participants could request that all or a portion of their accounts be distributed in the case of financial hardship, as defined in the plan document.

Forfeitures

If a participant was not fully vested on his or her termination date, the nonvested amount of the account was forfeited. Forfeitures were used to reduce future company contributions or to pay administrative expenses of the Plan.

Participant Notes Receivable

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their vested account balances, not to exceed \$50,000. Notes receivable were collateralized by the participant's account balance and bore interest at a market rate.

Transfers

Participants in the Behr Retirement Savings Plan and MAHLE 401(k) Asset Accumulation Plan (related plans) who became employees of the Company could have their account balances transferred to the Plan. Participants in the Plan who became employees of MAHLE Behr USA, Inc. (f/k/a Behr America, Inc.) or MAHLE Industries, Inc. and certain related employers could have their participant account balances transferred to the Behr Retirement Savings Plan or MAHLE 401(k) Asset Accumulation Plan, respectively. During the period ended August 3, 2020, the Plan had \$1,041,817 in net transfers out prior to the plan merger. Including \$16,721,375 of transfers out on August 3, 2020 in conjunction with the plan merger, the total net transfers out were \$17,763,192 for the period from January 1, 2020 through August 3, 2020. During the year ended December 31, 2019, the Plan had \$136,916 in net transfers out to the related plans.

Termination

As discussed in Note 4, the Plan was merged and terminated effective August 3, 2020. As of August 3, 2020, all benefit payments are paid out of the assets of the MAHLE 401(k) Plan.

Party-in-interest Transactions

Certain plan assets were in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity was the trustee of the Plan; therefore, these transactions, as well as participant notes receivable, qualified as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value, except as noted below. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

The fully benefit-responsive investment contract is valued at contract value. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

August 3, 2020 and December 31, 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

All administrative costs are paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including February 26, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements are based solely on information certified by the Trustee.

Note 4 - Plan Merger

Effective August 3, 2020, the Plan merged and combined with the MAHLE 401(k) Asset Accumulation Plan, which was renamed the MAHLE 401(k) Plan. Accordingly, all assets, participants, and their related account balances totaling \$16,721,375 were transferred to the MAHLE 401(k) Plan. Subsequent to the merger, the Plan was terminated.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

August 3, 2020 and December 31, 2019

Note 5 - Fair Value Measurements (Continued)

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan measures mutual funds at fair value on a recurring basis. Mutual funds are valued at quoted prices reported in active markets, which are considered Level 1 inputs. At December 31, 2019, the fair value of mutual funds held by the Plan was \$15,576,169. As a result of the transfer and plan merger, there were no remaining assets measured at fair value on a recurring basis held by the Plan as of August 3, 2020.

Note 6 - Investment Contract

The Plan has a benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Under the contract, a crediting rate is established on a quarterly basis or for a three- or six-month period of time (a "Rate Period"), and all assets invested in the contract are credited with that rate. At the expiration of each Rate Period, a new crediting rate is declared. MassMutual assumes market, credit, and interest rate risks for the assets supporting the contract. MassMutual resets interest crediting rates quarterly or semiannually. When establishing interest crediting rates for this product, MassMutual considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within MassMutual's general account. The minimum crediting rate as of August 3, 2020 and December 31, 2019 was 0 percent.

August 3, 2020 and December 31, 2019

Note 6 - Investment Contract (Continued)

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Effective August 3, 2020, the Plan was merged into the MAHLE 401(k) Asset Accumulation Plan, as described in Note 4, which could be an event that limits the Plan's ability to transact at contract value with participants. However, the Plan's ability to transact at contract value with participants was not limited by the merger due to the fact that both the Behr Dayton Retirement Savings Plan and the plan that it merged into held the investment under the same investment contract.

As described in Note 2, because the investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 7 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.
