Participants were required to attain the age of 21 and have one year of service to qualify for sponsor contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company (Principal Trust Company), serves as the custodian of the Plan. Principal Trust Company's affiliate, Principal Life Insurance Company, serves as plan recordkeeper.

The Plan was amended, effective December 31, 2013, to freeze all future contributions (including employee and employer contributions).

Contributions

Prior to December 31, 2013, the Plan permitted eligible employees through a salary deferral election to make contributions of up to the maximum allowed by the Internal Revenue Code. Employee rollover and catch-up contributions were also permitted. For participants who had at least one year of service, the Sponsor made matching contributions equal to 25% of participants' deferrals to the Plan, including employee catch-up contributions, up to a maximum of 4% of compensation, as defined in the plan document.

The Sponsor also made employer safe harbor qualified nonelective contributions equal to 3% of compensation on behalf of eligible employees who had at least one year of service.

1. Description of the Plan (continued)

Participant Investment Account Options

The investment of a participant's account is directed by the participant.

Participant Accounts

Each participant's account is credited with allocations of plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary and rollover contributions plus earnings thereon. Participants were immediately vested in the Sponsor's qualified nonelective contributions plus earnings thereon. Vesting in the Sponsor's matching contribution portion of their accounts plus earnings thereon was based on years of continuous service. A participant was fully vested after three years of continuous service.

Payment of Benefits

Benefits are paid as a single lump-sum payment.

If a participant ceases to be an employee of the Sponsor and his account balance is less than \$1,000, the entire vested account balance will be payable to the participant or his beneficiaries in a single lump-sum payment. Balances greater than \$1,000 but less than \$5,000 are to be rolled over to an individual retirement account as designated by the Plan, absent an election by the participant. Participant balances in excess of \$5,000 can remain in the Plan until such time the participant elects to receive a distribution.

Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Plan Termination

Although it has not expressed an intention to do so, the Sponsor has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participant's rights to their accrued benefits are nonforfeitable and the benefit will be paid to the participant in accordance with the terms of the plan document.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan (except for fully benefit-responsive investment contracts) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

Administrative expenses may be paid by the Sponsor or the Plan, at the Sponsor's discretion.

Transfers

The Plan permits fully vested participants who participate in the UPMC 403(b) Retirement Savings Plan and/or the UPMC 401(a) Retirement Savings Plan to elect a plan-to-plan transfer to those plans.

3. Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at June 30, 2020 and 2019, and net appreciation in fair value of investments and interest and dividends for the years ended June 30, 2020 and 2019, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Trust Company, the custodian of the Plan.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active

Home Nursing Agency ERISA 403(b) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value.

- *Mutual Funds*: These funds are stated at fair value as determined by quoted market price, which represents the net asset value (NAV) of shares held by the Plan at year-end.

The following tables set forth, by fair value hierarchy level, the Plan's assets carried at fair value:

	Level 1	Level 2	Level 3	Total
June 30, 2020				
Mutual funds	\$ 668,009	\$ –	\$ –	\$ 668,009

5. Fully Benefit-Responsive Investment Contract

The Plan invests in the Principal Fixed Income Guaranteed Option (PFIGO) Fund, a traditional guaranteed investment contract (Contract) with Principal Life Insurance Company (PLIC). This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus earnings, less participant withdrawals, and administrative expenses.

PLIC maintains the contributions in a general account. The account is credited with participant contributions plus earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with PLIC, but may not be less than 1% or greater than 3%. Such interest rates are reset on a semiannual basis.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuers' ability to meet their financial obligations. The issuers' ability to meet their contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (2) premature termination of the Contract by the Plan, and (3) a transfer exceeding certain thresholds as defined in the Contract by the plan sponsor of assets from the PFIGO Fund to another plan investment option. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the issuer or with participants are probable of occurring.

The Contract has a 5% surrender fee, should the Plan discontinue the Contract without proper notification as prescribed in the Contract.

The Contract does not permit the insurance company to terminate the Contract without at least a 60-day advanced notice of when no future contributions will be accepted into the Contract. The Contract will be terminated when the remaining balance in the Contract is paid out to participants.

6. Related-Party and Party-in-Interest Transactions

Certain plan investments are funds managed by affiliates of Principal Trust Company, the custodian of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

The Sponsor provides certain administrative services at no cost to the Plan. The Sponsor pays certain administrative fees relating to the Plan.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Tax Status

The underlying standardized prototype plan has not received an opinion letter from the Internal Revenue Service (IRS) stating that the underlying prototype plan is qualified under Section 403(b) of the Internal Revenue Code (the Code). However, the plan administration believes that the Plan has been designed to comply with the requirement of the Code and has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Subsequent Events

Management evaluated subsequent events for the Plan through March 30, 2021, the date the accompanying financial statements were available to be issued.
