

Form 5500 Department of the Treasury Internal Revenue Service Department of Labor Employee Benefits Security Administration Pension Benefit Guaranty Corporation	Annual Return/Report of Employee Benefit Plan This form is required to be filed for employee benefit plans under sections 104 and 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) and sections 6057(b) and 6058(a) of the Internal Revenue Code (the Code). ▶ Complete all entries in accordance with the instructions to the Form 5500.	OMB Nos. 1210-0110 1210-0089 <div style="text-align: center; font-size: 24pt; font-weight: bold;">2019</div> This Form is Open to Public Inspection
---	--	---

Part I	Annual Report Identification Information		
For calendar plan year 2019 or fiscal plan year beginning <u>01/01/2019</u> and ending <u>12/31/2019</u>			
A	This return/report is for:	☐ a multiemployer plan ☐ a multiple-employer plan (Filers checking this box must attach a list of participating employer information in accordance with the form instructions.)	
	☒ a single-employer plan ☐ a DFE (specify) ____		
B	This return/report is:	☐ the first return/report ☐ the final return/report	
	☒ an amended return/report ☐ a short plan year return/report (less than 12 months)		
C	If the plan is a collectively-bargained plan, check here. ☐		
D	Check box if filing under:	☒ Form 5558 ☐ automatic extension ☐ the DFVC program	
	☐ special extension (enter description)		

Part II	Basic Plan Information —enter all requested information		
1a	Name of plan <u>AVIALL, INC. RETIREMENT PLAN</u>	1b	Three-digit plan number (PN) ▶ <u>001</u>
		1c	Effective date of plan <u>01/01/1994</u>
2a	Plan sponsor's name (employer, if for a single-employer plan) Mailing address (include room, apt., suite no. and street, or P.O. Box) City or town, state or province, country, and ZIP or foreign postal code (if foreign, see instructions) <u>AVIALL, INC. A WHOLLY OWNED SUB OF THE BOEING CO</u> <u>P.O. BOX 619048</u> <u>DALLAS, TX 75261-9048</u>	2b	Employer Identification Number (EIN) <u>65-0433083</u>
		2c	Plan Sponsor's telephone number <u>972-586-1810</u>
		2d	Business code (see instructions) <u>336410</u>

Caution: A penalty for the late or incomplete filing of this return/report will be assessed unless reasonable cause is established.

Under penalties of perjury and other penalties set forth in the instructions, I declare that I have examined this return/report, including accompanying schedules, statements and attachments, as well as the electronic version of this return/report, and to the best of my knowledge and belief, it is true, correct, and complete.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB (Form 5500) 2019
v. 190130

Part II Beginning of Year Carryover and Prefunding Balances

	(a) Carryover balance	(b) Prefunding balance
7 Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	13596954	0
8 Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	0
9 Amount remaining (line 7 minus line 8)	13596954	0
10 Interest on line 9 using prior year's actual return of <u>-3.93</u> %	-534360	0
11 Prior year's excess contributions to be added to prefunding balance:		
a Present value of excess contributions (line 38a from prior year)		0
b(1) Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of <u>5.78</u> %		0
b(2) Interest on line 38b from prior year Schedule SB, using prior year's actual return		0
c Total available at beginning of current plan year to add to prefunding balance		0
d Portion of (c) to be added to prefunding balance		0
12 Other reductions in balances due to elections or deemed elections	2000000	0
13 Balance at beginning of current year (line 9 + line 10 + line 11d – line 12)	11062594	0

Part III Funding Percentages

14 Funding target attainment percentage	14	98.53 %
15 Adjusted funding target attainment percentage	15	106.94 %
16 Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	110.78 %
17 If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage	17	%

Part IV Contributions and Liquidity Shortfalls**18** Contributions made to the plan for the plan year by employer(s) and employees:

(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees
11/10/2020	9000000	0			
Totals ▶			18(b)	9000000	18(c) 0

19 Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:

a Contributions allocated toward unpaid minimum required contributions from prior years	19a	0
b Contributions made to avoid restrictions adjusted to valuation date	19b	0
c Contributions allocated toward minimum required contribution for current year adjusted to valuation date	19c	8131973

20 Quarterly contributions and liquidity shortfalls:

- a** Did the plan have a "funding shortfall" for the prior year? ☐ Yes ☒ No
- b** If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner? ☐ Yes ☐ No
- c** If line 20a is "Yes," see instructions and complete the following table as applicable:

Liquidity shortfall as of end of quarter of this plan year			
(1) 1st	(2) 2nd	(3) 3rd	(4) 4th

Part I	Service Provider Information (see instructions)
--------	---

You must complete this Part, in accordance with the instructions, to report the information required for **each person** who received, directly or indirectly, \$5,000 or more in total compensation (i.e., money or anything else of monetary value) in connection with services rendered to the plan or the person's position with the plan during the plan year. If a person received **only** eligible indirect compensation for which the plan received the required disclosures, you are required to answer line 1 but are not required to include that person when completing the remainder of this Part.

1 Information on Persons Receiving Only Eligible Indirect Compensation

- a Check "Yes" or "No" to indicate whether you are excluding a person from the remainder of this Part because they received only eligible indirect compensation for which the plan received the required disclosures (see instructions for definitions and conditions)..... ☐ Yes ☒ No
- b If you answered line 1a "Yes," enter the name and EIN or address of each person providing the required disclosures for the service providers who received only eligible indirect compensation. Complete as many entries as needed (see instructions).

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation
(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation
(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation
(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

2. Information on Other Service Providers Receiving Direct or Indirect Compensation. Except for those persons for whom you answered "Yes" to line 1a above, complete as many entries as needed to list each person receiving, directly or indirectly, \$5,000 or more in total compensation (i.e., money or anything else of value) in connection with services rendered to the plan or their position with the plan during the plan year. (See instructions).

SCHEDULE H (Form 5500) <small>Department of the Treasury Internal Revenue Service</small> <small>Department of Labor Employee Benefits Security Administration</small> <small>Pension Benefit Guaranty Corporation</small>	Financial Information This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA), and section 6058(a) of the Internal Revenue Code (the Code). ► File as an attachment to Form 5500.	<small>OMB No. 1210-0110</small> 2019 This Form is Open to Public Inspection
For calendar plan year 2019 or fiscal plan year beginning 01/01/2019 and ending 12/31/2019		
A Name of plan AVIALL, INC. RETIREMENT PLAN	B Three-digit plan number (PN) ►	001
C Plan sponsor's name as shown on line 2a of Form 5500 AVIALL, INC. A WHOLLY OWNED SUB OF THE BOEING CO	D Employer Identification Number (EIN) 65-0433083	

Part I	Asset and Liability Statement		(a) Beginning of Year	(b) End of Year
1	Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.			
	Assets			
a	Total noninterest-bearing cash	1a		
b	Receivables (less allowance for doubtful accounts):

i	Acquisition indebtedness	1i	
j	Other liabilities	1j	
k	Total liabilities (add all amounts in lines 1g through 1j)	1k	2990 104178
Net Assets			
l	Net assets (subtract line 1k from line 1f)	1l	134717007 147928454

Part II Income and Expense Statement

2 Plan income, expenses, and changes in net assets for the year. Include all income and expenses of the plan, including any trust(s) or separately maintained fund(s) and any payments/receipts to/from insurance carriers. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 2a, 2b(1)(E), 2e, 2f, and 2g.

		(a) Amount	(b) Total
a	Contributions:		
(1)	Received or receivable in cash from: (A) Employers	2a(1)(A)	
	(B) Participants	2a(1)(B)	
	(C) Others (including rollovers)	2a(1)(C)	
(2)	Noncash contributions	2a(2)	
(3)	Total contributions. Add lines 2a(1)(A) , (B) , (C) , and line 2a(2)	2a(3)	0
b	Earnings on investments:		
(1)	Interest:		
	(A) Interest-bearing cash (including money market accounts and certificates of deposit)	2b(1)(A)	
	(B) U.S. Government securities	2b(1)(B)	
	(C) Corporate debt instruments	2b(1)(C)	
	(D) Loans (other than to participants)	2b(1)(D)	
	(E) Participant loans	2b(1)(E)	
	(F) Other	2b(1)(F)	
	(G) Total interest. Add lines 2b(1)(A) through (F)	2b(1)(G)	0
(2)	Dividends: (A) Preferred stock	2b(2)(A)	
	(B) Common stock	2b(2)(B)	
	(C) Registered investment company shares (e.g. mutual funds)	2b(2)(C)	
	(D) Total dividends. Add lines 2b(2)(A) , (B) , and (C)	2b(2)(D)	0
(3)	Rents	2b(3)	
(4)	Net gain (loss) on sale of assets: (A) Aggregate proceeds	2b(4)(A)	
	(B) Aggregate carrying amount (see instructions)	2b(4)(B)	
	(C) Subtract line 2b(4)(B) from line 2b(4)(A) and enter result	2b(4)(C)	0
(5)	Unrealized appreciation (depreciation) of assets: (A) Real estate	2b(5)(A)	
	(B) Other	2b(5)(B)	
	(C) Total unrealized appreciation of assets. Add lines 2b(5)(A) and (B)	2b(5)(C)	0

		(a) Amount	(b) Total
(6) Net investment gain (loss) from common/collective trusts	2b(6)		
(7) Net investment gain (loss) from pooled separate accounts	2b(7)		
(8) Net investment gain (loss) from master trust investment accounts	2b(8)		26197907
(9) Net investment gain (loss) from 103-12 investment entities	2b(9)		
(10) Net investment gain (loss) from registered investment companies (e.g., mutual funds)	2b(10)		
c Other income	2c		
d Total income. Add all income amounts in column (b) and enter total	2d		26197907

Expenses

e Benefit payment and payments to provide benefits:			
(1) Directly to participants or beneficiaries, including direct rollovers	2e(1)	11692340	
(2) To insurance carriers for the provision of benefits	2e(2)		
(3) Other	2e(3)		
(4) Total benefit payments. Add lines 2e(1) through (3)	2e(4)		11692340
f Corrective distributions (see instructions)	2f		
g Certain deemed distributions of participant loans (see instructions)	2g		
h Interest expense	2h		
i Administrative expenses: (1) Professional fees	2i(1)	1730	
(2) Contract administrator fees	2i(2)	178965	
(3) Investment advisory and management fees	2i(3)	9984	
(4) Other	2i(4)	1103441	
(5) Total administrative expenses. Add lines 2i(1) through (4)	2i(5)		1294120
j Total expenses. Add all expense amounts in column (b) and enter total	2j		12986460

Net Income and Reconciliation

k Net income (loss). Subtract line 2j from line 2d	2k		13211447
l Transfers of assets:			
(1) To this plan	2l(1)		
(2) From this plan	2l(2)		

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Did the accountant perform a limited scope audit pursuant to 29 CFR 2520.103-8 and/or 103-12(d)? ☐ Yes ☒ No

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: MOSS ADAMS LLP

(2) EIN: 91-0189318

d The opinion of an independent qualified public accountant is **not attached** because:

(1) ☐ This form is filed for a CCT, PSA, or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)

b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)

	Yes	No	Amount
4a		X	
4b		X	

	Yes	No	Amount

Report of Independent Auditors

To the Plan Administrator
Aviall, Inc. Retirement Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Aviall, Inc. Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule G, Part III – Schedule of nonexempt transactions is presented for the purpose of additional analysis and is not a required part of the financial statements but is a supplemental schedule required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 – Description of the Plan

The following description of the Aviall, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined benefit pension plan covering all eligible non-bargained exempt and nonexempt employees of Boeing Distribution, Inc. (formerly Aviall, Inc.) (the Company) hired or rehired on or before March 5, 2014, except independent contractors, independent consultants, nonresident aliens, and leased employees. To be eligible for participation in the Plan, an employee must be at least 21 years of age and must have completed 1,000 hours of service in a 12 consecutive month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company, a subsidiary of The Boeing Company (Boeing), was the Plan sponsor and had delegated the fiduciary oversight of the assets of the Plan to Boeing's Employee Benefit Investment Committee (EBIC). The Aviall Benefits Committee was the administrator of the Plan. Effective January 1, 2020, sponsorship of the Plan was assumed by Boeing. The assets of the Plan, along with eight defined benefit pension plans sponsored by Boeing, are held in The Boeing Company Employee Retirement Plans Master Trust (the Master Trust). JPMorgan Chase (JPM) serves as the trustee (the Trustee) for the Master Trust.

Effective January 1, 2016, pay-based benefit accruals for participants in the Plan ceased. As a result of the freezing of the benefit accruals, effective January 1, 2016, the Company increased the employer matching percentage for the Aviall, Inc. Employee Savings Plan (the Savings Plan). In addition, beginning January 1, 2016, the Company is making additional Company contributions to the Savings Plan (or The Boeing Company Voluntary Investment Plan (VIP) after the Savings Plan merger into the VIP effective December 31, 2016) for eligible employees who previously accrued benefits from the Plan and also were eligible to participate in the Savings Plan, including a three-year transition benefit consisting of the following:

- 9% of eligible compensation in 2016
- 8% of eligible compensation in 2017
- 7% of eligible compensation in 2018

Pension benefits – Pension benefits are generally determined based on years of service, compensation, and the participant's annual benefit accrual as defined in the Plan document and subject to the freezing of the benefit accruals. Participants become fully vested upon completion of five years of credited service and are eligible for normal retirement at age 65. Early retirement and benefit payments are available after reaching age 55 and completing ten years of service, however the participant's benefits are decreased for each month the participant's age at early retirement precedes age 65. Participants may select the form of benefit payment from various annuity options or a lump sum payment for commencement of benefits on or after July 1, 2016 for participants who terminated employment with, retired directly from, or were laid off on or after February 1, 2015. Certain enhanced benefits are available to participants of record as of September 20, 2006 under change in control provisions.

Death and disability benefits – Participants who are 100% vested and who are totally and permanently disabled are eligible for Plan disability benefits if they are actively employed at the time they suffer the disability, have reached age 45, and have accrued at least 15 years of continuous service.

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 1 – Description of the Plan (continued)

If a vested participant dies prior to the payment of benefits from the Plan, an eligible spouse is entitled to a qualified pre-retirement survivor annuity. Generally, the qualified pre-retirement survivor annuity is a monthly retirement income payable for the life of the spouse in an amount equal to 50% of the amount the vested participant would have received if the participant had survived to the earliest commencement date and elected to receive a benefit under the 50% joint and survivor annuity option. The amount of the death benefit depends upon whether the participant was a current employee, former employee, or a retiree on the participant's date of death and whether the participant's death occurred before or after the participant was eligible for retirement under the Plan.

Contributions – Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to contribute an amount at least equal to the minimum required contribution under ERISA. The Plan has met the minimum funding requirements of ERISA, and no contributions were required under ERISA for the years ended December 31, 2019 and 2018.

Plan termination – Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided by the then existing assets and the PBGC guaranty while other benefits may not be provided at all.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Accumulated plan benefits – The actuarial present value of accumulated plan benefits (PVAB) information in Note 3 is presented as of the beginning of the Plan year, as allowed by Accounting Standards Codification (ASC) 960, *Plan Accounting – Defined Benefit Pension Plans*.

Note 2 – Summary of Significant Accounting Policies (continued)

Use of estimates – The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, the disclosure of contingent assets and liabilities, and the actuarial PVAB at the date of the financial statements. Actual results could differ from those estimates.

Risks and uncertainties – The Master Trust utilizes various investment instruments. Investment instruments, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, and such changes could materially affect the values reported in the financial statements.

Plan contributions are made and the actuarial PVAB is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Valuation of investments – Investments in the Master Trust are generally stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. Investments at contract value are investment contracts valued at cost, plus accumulated earnings thereon, computed in accordance with contract formulas, less expenses. The Master Trust's investments stated at fair value are valued as follows:

- Corporate bonds, government bonds, mortgage-backed and asset-backed securities, and municipal bonds are primarily valued using a market approach using matrix pricing, which considers a security's relationship to other securities for which quoted prices in an active market may be available, or alternatively based on an income approach, which uses valuation techniques to convert future cash flows to a single present value amount. The valuation approach is designed to maximize the use of observable inputs, such as observable trade prices, multiple broker-dealer quotations, related yield curves, and other assumptions about the security (prepayment projections, cash flows, other security characteristics, etc.) and minimize unobservable inputs. The securities are valued as of the last trading day of the year. To-be-announced securities (TBAs) and treasury forwards, which have a delayed future settlement, are valued similarly to securities in active markets. The unrealized market appreciation or depreciation is included in other receivables and other liabilities on the Master Trust's statements of net assets.
- Common and preferred stock and certain other investments, including real-estate investment trusts, American depository receipts, global depository receipts, rights, and warrants traded in active markets on national and international exchanges are primarily valued using a market approach based on the closing market prices of identical instruments on the last trading day of the year.
- Mutual funds, which are registered investment companies, are valued using quoted market prices to represent the net asset value (NAV) at year-end.

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

- Short-term investments include treasury bills, commercial paper, certificates of deposit, and discounted notes with original maturities of up to one year. These investments are primarily valued using a market approach based on matrix pricing as referenced above. In the event that an instrument with an original maturity of less than three months does not have a market price, then those investments are valued at amortized cost, which approximates fair value.
- Other investments include over-the-counter (OTC) derivatives, such as options and swap contracts. These derivatives are valued based upon the expected amount that the Master Trust would receive or pay to exit the derivative at the reporting date. The valuation methodology uses the income approach and relies on inputs, including, but not limited to, benchmark yields, swap curves, cash flow analysis, ratings updates, and interdealer broker rates. Credit risk of the derivative counterparties is offset by collateralizing the expected amount that the Master Trust would receive or pay to terminate the derivative.
- Investments in funds that do not have a readily determinable fair value and meet the criteria of investment companies are valued using the NAV as the practical expedient. The NAV or its equivalent, such as member units or membership units in partners' capital to which a proportionate share of net assets is attributed, is based on the value of underlying investments. The NAV measurement may be adjusted to estimate net asset value per share for the investment in a manner consistent with measurement principles for investment companies. There were no adjustments in 2019 or 2018.
 - ◆ Investments in commingled funds, which include common/collective trusts/pooled funds (CCTs) are valued based on the year-end unit values. Unit values are determined by the issuer, investment manager or third-party administrator by dividing the fair values of the total net assets at year-end by the outstanding units.
 - ◆ Investments in partnerships are recorded based upon year-end valuations at NAV, which represent the unit of account, and are determined by the general partner and reflected in the audited financial statements of the partnerships. Where necessary, adjustments may be made to general partner valuations to reflect fair value when such valuations are inconsistent with NAV practical expedient criteria.
 - ◆ Investments in hedge funds consist of fund-of-fund structures and direct hedge funds. The fund-of-fund structures are primarily valued using a market approach based on the NAV calculated by the fund and is not publicly available. Direct hedge fund NAV is based on valuation of the underlying holdings including other assets and liabilities of the fund.
- Forward and spot currency contracts are valued using a market value approach based on spot foreign currency rates if the contract tenor is two days or less and interpolated forward rates for any contracts with a tenor greater than two days. Forward and spot currency contracts are included in other receivables and other liabilities on the Master Trust's statements of net assets.
- Securities sold short (included in other liabilities on the Master Trust's statements of net assets) represent obligations of the Master Trust to deliver the specified security and thereby create a liability to purchase the security at prevailing prices. Securities sold short are valued based on the fair value of the securities sold as described above.

Note 2 – Summary of Significant Accounting Policies (continued)

Cash and cash equivalents – Cash and cash equivalents include cash and cash collateral. Cash includes cash collateral received from counterparties on derivatives. Cash collateral is related to the collateral posted on derivatives.

Investment income – Net investment income or loss reflected in the statements of changes in net assets includes the Master Trust's net appreciation/depreciation in fair value of investments, interest income, and dividend income, less investment and administrative expenses. The net appreciation/depreciation in fair value of investments includes both realized and unrealized gains and losses and is calculated as the difference between the fair value of the investments as of the beginning of the year or the purchase date in the current year and either the sales price or the end-of-year fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Valuation oversight – Management has implemented processes that are designed to ensure that fair value measurements used by the Master Trust are appropriate and reliable, that they are based on observable inputs wherever possible, and that the valuation approaches are consistently applied and the assumptions used are reasonable. The valuation framework has a set of processes that provides for oversight and validation of the fair value methodologies, as well as valuations.

The Boeing Board of Directors has delegated the fiduciary oversight of Plan assets which are held within the Master Trust structures to the EBIC. The EBIC has sub-delegated this responsibility to Boeing's Chief Investment Officer (CIO), who manages Trust Investments and chairs the Valuation Committee. Trust Investments is responsible for the oversight of the Master Trust assets including selection and monitoring of investment managers, asset strategies, and risk management. The Valuation Committee is responsible for the oversight of the valuation practices of the Master Trust and is represented by members of Trust Investments, including Risk Management and Trust Operations, Public Markets, and Investment Strategy. The Valuation Committee meets periodically with the purpose of fulfilling the following responsibilities and provides an annual review to the EBIC of its findings and actions:

- Review and approve annually the valuation practices, including those used by third parties
- Review and approve the year-end valuations, including the methods used to develop and substantiate the unobservable inputs used in the fair value measurement
- Review analysis and benchmarks used by the Company and the Master Trust to assess the reasonableness of the year-end valuations and changes in fair value measurements from period to period
- Review and approve annual financial statement disclosures of the investments held in the Master Trust

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Investments in funds are generally valued using the NAV or its equivalent. This includes partnerships, hedge funds, and other commingled investments. Valuations provided by the funds are reviewed at least quarterly. The asset manager's audited financial statements are used in the Master Trust's annual financial reporting process, where applicable. Assessments of reasonableness include regular asset manager meetings and review of quarterly reports, third-party reviews and reconciliations, which includes escalation to Trust Investments for exceptions, quarterly CIO investment reviews, and reviews of manager valuation policies. Valuation policies are reviewed when a new mandate is entered into with an asset manager, on a rolling three-year basis for existing managers, or as changes to policies are provided by managers.

Corporate bonds, government bonds, mortgage-backed and asset-backed securities, municipal bonds, common and preferred stocks, mutual funds and derivative instruments are generally valued using valuations obtained from pricing vendors. Pricing vendor valuation methodologies and custodian pricing controls and related documentation are assessed for reasonableness on an annual basis. The pricing vendor due diligence process includes reviews of pricing controls and procedures, as well as discussions in order to maintain a current understanding of the valuation processes and related assumptions and inputs that may be used by the vendors to price instruments. The custodian due diligence process includes reviews of pricing controls and procedures that are carried out on the Master Trust's behalf. This includes various levels of tolerance checks on price changes, review of stale or unchanged prices, multi-price source comparisons, and vendor price challenges. Additionally, on a monthly basis, the custodian reconciles its valuations to valuations obtained from each investment manager and any exceptions are reported to Trust Investments for resolution, which may include escalation to the Valuation Committee.

Securities purchased with an agreement to resell – Resale agreements are treated as financing arrangements in receivables and are carried at contract amounts reflective of the amounts at which the securities will be subsequently resold, as specified in the respective agreements. Resale agreements are collateralized by high-quality, fixed-income securities. The Master Trust's policy is to take physical possession or control of the securities purchased under agreements to resell and is permitted by contract to sell or re-pledge. The Master Trust monitors the market value of the underlying securities as compared to the related receivable, including accrued interest, and requires additional collateral where deemed appropriate. At December 31, 2019, the fair value of the securities received as collateral for resale agreements of \$128,700,000 was \$130,261,162. At December 31, 2018, the fair value of the securities received as collateral for resale agreements of \$109,700,000 was \$111,891,717.

Benefits – Benefits are recorded when paid.

Administrative expenses – Necessary and proper expenses of the Plan and Master Trust are paid from assets at both the Plan and Master Trust levels, except for those expenses the Company is required by law or chooses to pay.

Recently adopted accounting guidance – During 2019, the Plan adopted Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting (Topics 960, 962, and 965): Employee Benefit Plan Master Trust Reporting* (ASU 2017-06). As a result of the adoption of ASU 2017-06, the Plan disclosed the dollar amounts of the Plan's interest in the Master Trust's investments by general type and its other assets and liabilities. The standard was adopted retrospectively. The adoption of this ASU did not have an impact on the Plan's statements of net assets available for benefits or statements of changes in net assets available for benefits.

Note 2 – Summary of Significant Accounting Policies (continued)

During 2019, the Plan adopted ASU No. 2018-13, *Fair Value Measurement (Topic 820) Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13), which modifies certain disclosure requirements of Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. As a result of the adoption of ASU 2018-13, the Plan primarily modified certain disclosures on changes in the fair value of Level 3 investments. The standard was adopted retrospectively. The adoption of this ASU did not have an impact on the Plan's statements of net assets available for benefits or statements of changes in net assets available for benefits.

Subsequent events – The Plan has evaluated subsequent events through July 30, 2020, the date the financial statements were available to be issued. See Note 11.

Note 3 – Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payment and lump-sum distributions attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to:

1. Retired or terminated participants or their beneficiaries
2. Beneficiaries of deceased participants
3. Disabled participants
4. Active participants or their beneficiaries

The PVAB has been determined by an independent actuary and is the sum of accumulated benefits adjusted to reflect the probability of payment (by means of decrements, such as death, disability, termination, or retirement) and the time value of money (through discounts for interest) between the valuation date and the expected date of payment. Significant actuarial assumptions underlying the actuarial computations in the December 31, 2018, valuation were as follows:

Discount rate	6.75%
Retirement	Average age at retirement is 64 years
Mortality (healthy)	Based on RP-2016 tables without collar or amount adjustments, projected to 2015 with scale MP-2017, but adjusted with a factor of 0.894 for males and 1.003 for females based on a study of annuitant mortality experience during the 2013-2017 plan years

The foregoing actuarial assumptions are based on the presumption that the Plan will continue in operation. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial PVAB.

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 3 – Accumulated Plan Benefits (continued)

The actuarial PVAB as of December 31, 2018, is as follows:

Vested benefits	
Participants and beneficiaries currently receiving payments	\$ 54,275,022
Other participants	<u>62,585,240</u>
Total vested benefits	116,860,262
Nonvested benefits	<u>3,936,069</u>
Total actuarial PVAB	<u>\$ 120,796,331</u>

The changes in actuarial PVAB for the year ended December 31, 2018, is as follows:

Total actuarial PVAB at December 31, 2017	<u>\$ 125,418,952</u>
Increase (decrease) during the year attributable to	
Actuarial loss	987,689
Decrease in the discount period	8,072,842
Benefits paid	(11,835,848)
Changes in actuarial assumptions	<u>(1,847,304)</u>
Net decrease	<u>(4,622,621)</u>
Total actuarial PVAB at December 31, 2018	<u>\$ 120,796,331</u>

The changes in actuarial assumptions represent the effect of a change in the lump sum mortality from 2018 Internal Revenue Code (IRC) 417(e) to 2019 IRC 417(e) mortality and updates to retirement and termination rates.

Note 4 – Master Trust

The Master Trust facilitates the commingling of employee benefit plan assets for investment and administrative purposes. Assets are invested in accordance with the Master Trust's investment policy. The Master Trust consists of the Investment Control Pool (the IC Pool) and four plan-specific pools. The participating plans can own a beneficial interest in one or more of the various investment pools. The IC Pool contains the majority of the assets of the participating plans and is diversified among various asset classes. These assets are invested in individual investment accounts, separately held assets, and investments held in various types of funds, all of which are managed in accordance with established investment guidelines. The IC Pool is valued at year end based on the fair value of underlying assets.

Note 4 – Master Trust (continued)

In addition to the Plan, as of December 31, 2019 and 2018, the assets of the following plans (collectively, the Plans) were combined in the Master Trust:

- The Boeing Company Employee Retirement Plan
- Non-Contributory Retirement Plan
- Boeing North American Retirement Plan
- BSS Retirement Plan
- BSS Retirement Plan for Bargained Employees
- Employee Retirement Income Plan – Hourly West
- Employee Retirement Income Plan – Hourly East
- The Pension Value Plan for Employees of The Boeing Company

On a daily basis, the Plans may have contributions, withdrawals, asset transfers (in combination with a liability transfer), and/or expense charges. The trustee calculates a market value for each plan for each day of the month. At month-end, these “dollar days” are aggregated to determine a daily dollar-weighted-average market value for each participating plan in the IC Pool for the prior month. This average is then used to allocate to each participating plan its share of realized gains/losses, unrealized appreciation/depreciation, income, and share expenses in the IC Pool to arrive at each plan’s ending beneficial interest in the IC Pool. All expenses that are plan specific are recorded on that basis. Similarly, the trustee calculates a participating factor in the investment contract pools, which are associated with specific plan(s). A plan’s total participation in the Master Trust is the sum of the beneficial interests it owns in the various pools. The Plan’s ownership interest percentage in the Master Trust’s IC Pool was 0.2% as of December 31, 2019 and 2018.

Note 5 – Fair Value of Financial Assets and Financial Liabilities

ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 for financial assets and financial liabilities are described below:

Level 1 – Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical and unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who owns an asset or owes a liability. Accordingly, when market observable data is not readily available, assumptions are set to reflect those that market participants would be presumed to use in pricing the asset or liability at the measurement date. Prices and inputs are used that are current as of the measurement date, including during periods of market disruption. In periods of market disruption, the ability to observe prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2, Level 1 to Level 3, or Level 2 to Level 3.

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 5 – Fair Value of Financial Assets and Financial Liabilities (continued)

The following tables set forth by level within the fair value hierarchy a summary of the Master Trust investments by general types of assets and liabilities measured at fair value on a recurring basis as of December 31, 2019 and 2018. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	December 31, 2019

*The amounts not leveled are related to investments using NAV as a practical expedient to estimate fair value, investments measured at contract value, and non-investment assets and liabilities. The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Master Trust's statements of net assets.

Master Trust net assets at fair value classified within Level 3 primarily consisted of investments in mortgage-backed and asset-backed securities as of December 31, 2019 and 2018. Such amounts were 0.77% and 0.57% of net assets as of December 31, 2019 and 2018, respectively.

Note 5 – Fair Value of Financial Assets and Financial Liabilities (continued)

Level 3 activity – A summary of purchases, issuances and transfers of the Master Trust's Level 3 financial assets and liabilities for the years ended December 31, 2019 and 2018, is as follows:

2019

	Purchases of Level 3	Issuances of Level 3	Transfers Into Level 3	Transfers out of Level 3
Financial assets				
Corporate bonds	\$ 3,501,483	\$ -	\$ 206,070	\$ -
Government bonds	-	-	-	-
Mortgage-backed and asset-backed securities	287,933,035	-	888,904	-
Common and preferred stock	1,115,467	-	1,275,637	-
Partnerships	-	-	-	-
Other investments	-	-	-	7,731
Total assets	292,549,985	-	2,370,611	7,731
Other liabilities	-	-	-	-
Total net assets	\$ 292,549,985	\$ -	\$ 2,370,611	\$ 7,731

2018

	Purchases of Level 3	Issuances of Level 3	Transfers Into Level 3	Transfers out of Level 3
Financial assets				
Corporate bonds	\$ 752,101	\$ -	\$ 180,947	\$ (278,864)
Government bonds	15,950	-	-	(15,950)
Mortgage-backed and asset-backed securities	93,798,322	-	5,126,237	(3,088,580)
Common and preferred stock	585,990	-	-	-
Partnerships	-	-	-	-
Other investments	-	-	-	3,243
Total assets	95,152,363	-	5,307,184	(3,380,151)
Other liabilities	20,761	-	-	(2,303)
Total net assets	\$ 95,131,602	\$ -	\$ 5,307,184	\$ (3,382,454)

Transfers between levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

During 2019, \$1,275,637 of common stock was reclassified from Level 1 to Level 3, as trading in the security was suspended. In addition, \$206,070 of corporate bonds and \$888,904 of mortgage-backed and asset-backed securities were reclassified from Level 2 to Level 3, as valuations used significant unobservable inputs.

During 2018, \$180,947 of corporate bonds and \$5,126,237 of mortgage-backed and asset-backed securities were reclassified from Level 2 to Level 3, as valuations used unobservable inputs. In addition, \$3,088,580 of mortgage-backed and asset-backed securities, \$278,864 of corporate bonds, and \$15,950 of government bonds were reclassified from Level 3 to Level 2, as valuations used observable inputs.

Note 5 – Fair Value of Financial Assets and Financial Liabilities (continued)

Other financial instruments – The investment contracts held by plan-specific pools discussed in Note 4 are valued at contract value in the Master Trust's statements of net assets. The fair value of the investment contracts within these pools is \$53,941,270 and \$53,348,300 as of December 31, 2019 and 2018, respectively. Fair value for each investment contract is calculated by applying a factor determined by the corresponding insurance company to the contract value. Generally, the factor is an adjustment between contract value and market value, based upon predetermined parameters specific to each contract, including, but not limited to, current market yields, period to maturity, expenses, discounted cash flows, benefit payments, and any other applicable payments.

The Master Trust and the Plan also hold other assets and liabilities not measured at fair value on a recurring basis, including cash and cash equivalents, receivables and liabilities. The fair value of these assets and liabilities approximates the carrying amounts in the Master Trust's and the Plan's financial statements due to the short maturity of the instruments.

Note 6 – Investments Measured at Net Asset Value

In accordance with ASC 820, the following is a summary of the Master Trust investments in which the NAV per share of the investment is used to estimate its fair value. The summaries below are categorized by general types of assets as disclosed in the Master Trust's statements of net assets. For each general type of assets utilizing the NAV, the fair value, redemption frequency, and redemption notice period as of December 31, 2019 and 2018, are disclosed.

Commingled funds – This category includes investments in U.S. and non-U.S. securities held by a CCT, real estate and real asset investments via commingled funds and insurance company pooled separate accounts. Generally, redemptions may occur daily, weekly, monthly or quarterly depending upon the fund. For a majority of the funds, redemption notices may be given daily or up to five business days in advance, or up to 120 days in advance for the commingled funds. If the fund determines that it would be detrimental to the interests of remaining fund investors to pay wholly or in part with cash based on availability of cash for distributions, distributions may also include securities in kind. Additionally, for large withdrawals, the portfolio manager of the fund may require additional time (up to several weeks) to liquidate assets to satisfy the withdrawal requests. Under extraordinary circumstances, some of the funds may temporarily delay distributions or make distributions of securities in kind. For the CCTs with a quarterly redemption frequency, the notice period ranges from 45 to 90 days in advance of quarter-end. These funds are restricted to a redemption queue. A redemption queue is a restriction on withdrawals from a fund due to liquidity restrictions. The fund manager restricts the percentage of the fund that is available for redemption during each redemption period. All investors in the queue will receive an equal portion of the available liquidity. The queue continues until all investor redemption requests are satisfied or the queue is lifted in its entirety.

Redemption Frequency	Redemption Notice Period	As of December 31, 2019		As of December 31, 2018	
		Fair Value	Unfunded Commitments	Fair Value	Unfunded Commitments
Daily	From daily up to five business days	\$ 2,156,971,461	\$ -	\$ 1,980,517,711	\$ -
Weekly	From 60 up to 120 days	307,539,503			
Monthly	From three up to 120 days	1,778,366,506	-	1,689,939,487	-
Quarterly	From 45 up to 90 days	956,101,894	-	1,149,173,857	-
		<u>\$ 5,198,979,364</u>	<u>\$ -</u>	<u>\$ 4,819,631,055</u>	<u>\$ -</u>

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 6 – Investments Measured at Net Asset Value (continued)

Partnerships – This category includes investments in private equities held by limited partnerships that may include buyout, venture, special situations, distressed debt, or fund-of-fund strategies. This category also includes investments in private real estate (such as office, retail, apartment, and industrial properties) and real assets (such as infrastructure, energy, farmland, and timber) made through limited partnerships. Generally, limited partnerships require investors to commit to contribute additional capital during an investment period and do not provide redemption rights. As such, the Master Trust may receive distributions from the proceeds as the underlying assets are sold or income is distributed. The Master Trust maintains an active portfolio of private equity and real estate/real asset limited partnership investments that are in various stages of investment. The current portfolio of investments is expected to liquidate over a period of up to ten years.

Redemption Frequency	Redemption Notice Period	As of December 31, 2019		As of December 31, 2018	
		Fair Value	Unfunded Commitments	Fair Value	Unfunded Commitments
Quarterly	From 30 up to 60 days	\$ 695,067,821	\$ -	\$ 759,582,925	\$ 11,000,000
Liquidate over the next ten years	See narrative	5,497,441,042	2,632,358,292	5,277,501,027	2,859,601,410
		<u>\$ 6,192,508,863</u>	<u>\$ 2,632,358,292</u>	<u>\$ 6,037,083,952</u>	<u>\$ 2,870,601,410</u>

Hedge funds – This category includes investments in hedge funds. Common hedge fund strategies include event-driven, relative value, long-short, and market neutral. Types of hedge fund investments may include direct investments in various hedge funds and investments through fund-of-fund vehicles. The fund-of-fund vehicles are used for the purpose of making investments in a diverse portfolio of hedge funds, while the direct investments allow for larger targeted investments without the additional fund-of-fund fee structure.

Each hedge fund has its own redemption rights and distribution process specified in the fund prospectus. Redemption is generally allowed subject to liquidity and certain restrictions. These restrictions generally include fund-level gates and lockup periods. A “gate” provision allows a hedge fund manager to limit the amount of withdrawals on any withdrawal date to not more than a stated percentage of a fund’s net assets—often 10% to 25%, depending on how frequently investors have a right to withdraw capital. A “lock-up” provision restricts an investor’s ability to withdraw capital from a hedge fund for some stated period of time. It is common for hedge funds to lock-up an investor’s investments for one or two years. As of December 31, 2019, the lock-up restriction would lapse in 12 months, depending on each individual fund’s contractual terms. For the funds in liquidation, the timing of liquidation has not been communicated by the funds.

Redemption Frequency	Redemption Notice Period	As of December 31, 2019		As of December 31, 2018	
		Fair Value	Unfunded Commitments	Fair Value	Unfunded Commitments
Monthly	Up to 60 days	\$ 3,341,759,413	\$ -	\$ 2,947,108,049	\$ -

		<u>\$ 8,497,038,664</u>	<u>\$ -</u>	<u>\$ 7,823,289,879</u>	<u>\$ -</u>

Note 7 – Derivative Financial Instruments

ASC 815, *Derivatives and Hedging*, requires disclosures on how and why derivatives are used, accounted for, and affect the results of operations and financial position. Derivative instruments held by the Master Trust are not designated as hedging instruments under ASC 815. The Master Trust investments are exposed to the following financial instruments risks:

Interest rate risk – Interest rate risk is the risk of change in the market value of the assets due to a change in interest rates. Bond futures, interest rate swaps, and interest rate swaptions are generally used to manage interest rate risk or adjust portfolio duration. A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Interest rate swap agreements involve the exchange by the Master Trust, with a counterparty, of respective commitments to pay or receive interest, e.g., an exchange of floating rate payments for fixed rate payments, with respect to the notional amount of principal. Interest rate swaptions are options to enter into an interest rate swap based on predetermined conditions.

Credit risk – Credit risk is the risk of change in the market value of assets due to the change in creditworthiness of the underlying issuer. Credit default swaps are used to manage the credit exposure of a security or basket of securities. Credit default swap agreements involve one party (referred to as the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation, or index. Credit default options (also known as credit default swaptions) are options on credit default swaps. A credit default option gives its holder the right, but not the obligation, to buy (call) or sell (put) protection on a specified reference entity for a specified future time period for a certain spread.

Foreign currency risk – Currency risk is the risk of a change in market value due to the change in foreign currency exchange rates. Generally, currency futures and forward contracts are used to achieve the desired currency exposure, or generate value-added performance. Foreign currency futures and forwards are agreements between two parties to buy and sell a set of currencies at a set exchange rate on a specified future date. A currency option gives the buyer the right, but not the obligation, to buy one currency or sell another currency at a set exchange rate on or before a given date.

Equity risk – Equity risk is the risk of a change in market value of assets due to the change in equity or equity index prices. Equity futures, contracts for difference, and equity swaps are generally used to manage the market exposure of a security or index, or rebalance the total portfolio to the target asset allocation. An equity futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. A contract for difference is an agreement between two parties in which the seller will pay to the buyer the difference between the current value of an asset and its value at contract time (if the difference is negative, then the buyer will pay the seller). Equity swaps generally exchange the return on a stock or stock index for the return of another financial instrument such as a different stock or equity index or LIBOR.

Commodity risk – Commodity risk is the risk of change in the market value of the underlying commodity due to a change in the price of the commodity. Commodity futures, swaps, and options are generally used to achieve the desired market exposure to commodities. A futures contract is an agreement between two parties to buy and sell a commodity at a set price on a future date. Commodity swaps are agreements involving the exchange by the Master Trust, with a counterparty, of respective commitments to pay or receive cash flows, e.g., an exchange of payments based on the price movement for the commodity, with respect to the notional amount of principal. Commodity options give the buyer the right, but not the obligation, to buy one commodity or sell another commodity at a set price on or before a given date.

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 7 – Derivative Financial Instruments (continued)

Future settlement risk – Future settlement risk is the risk of counterparty nonperformance resulting in not receiving the asset or associated gains specified in the contract. Gains are derived from the change in market value of the contract due to a change in price of the underlying security. Mortgage TBAs are used to manage the market exposure of a security or asset class. A TBA is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed-upon date.

As of December 31, 2019 and 2018, the Master Trust has invested in derivative contracts, which are reflected in the Master Trust's statements of net assets as follows:

Notes to Financial Statements

Note 7 – Derivative Financial Instruments (continued)

Realized gains and losses and the change in unrealized gains and losses are reflected in the Master Trust's statements of changes in net assets as net appreciation or depreciation in the fair value of investments. The effects of derivative contracts realized gains and losses and the change in unrealized gains and losses for the years ended December 31, 2019 and 2018, are reflected in the following tables:

	Interest Rate	Credit	Foreign Currency	Equity	Commodity	Future Settlement	Total
2019							
Net gains (losses)							
Contracts for difference	\$ -	\$ -	\$ -	\$ 5,966,753	\$ -	\$ -	\$ 5,966,753

Treasury forwards and TBAs	-	-	-	-	-	4,199,721	4,199,721
Total net gains and losses	\$ (69,540,714)	\$ (22,695,813)	\$ 11,402,394	\$ 64,821,671	\$ (94,661,417)	\$ 4,199,721	\$ (106,474,158)

The following tables summarize the gross notional value of derivative contracts outstanding as of December 31, 2019 and 2018. The gross notional amounts give an indication of the volume of the Master Trust's derivative activities and significantly exceed the fair value of the derivative investments, which is more representative of the theoretical economic exposure associated with derivatives in the Master Trust.

	Interest Rate	Credit	Foreign Currency	Equity	Commodity	Future Settlement	Total
2019							
Contracts for difference	\$ -	\$ -	\$ -	\$ 43,851,065	\$ -	\$ -	\$ 43,851,065

Derivatives are generally used to manage the market exposure of a security, index or currency, or adjust the portfolio duration. Derivative contracts are instruments that derive their value from underlying assets, indices, reference interest rates, or a combination of these factors. Refer to Note 2 for further description of how derivative instruments are valued. Certain cash instruments, such as mortgage-backed TBAs, meet the definition of a derivative instrument under GAAP.

Aviall, Inc. Retirement Plan

Notes to Financial Statements

Note 7 – Derivative Financial Instruments (continued)

The nature of the counterparty and the settlement mechanism of the derivative affect the credit risk to which the Master Trust is exposed. For OTC derivatives such as swaps, forwards, options and TBAs, the Master Trust is exposed to the credit risk of the derivative counterparty.

For exchange-traded derivatives, such as futures and options, and “cleared” OTC swaps, the Master Trust is generally exposed to the credit risk of the relevant exchange or clearinghouse. Where possible, the Master Trust seeks to mitigate its credit risk exposures arising on derivatives transactions through the use of legally enforceable master netting arrangements and collateral agreements.

The Master Trust is also exposed to liquidity risk in the following situations:

1. When the derivative contracts require the Master Trust to post additional cash or securities collateral with counterparties as the fair value of the contracts moves in the counterparties' favor and the Master Trust's receivables under related contracts are unavailable for offset or insufficient in value to offset the payment obligation to the counterparty.
2. When certain derivative contracts have credit-related contingent features under the International Swaps and Derivatives Association Master Agreement (generally swaps) with counterparties for contracts in a net liability position.

The Master Trust has liquidity risk if its assets decline by various, pre-specified rates over predetermined time periods. If this occurs, the Master Trust is required to post more collateral or may be required to pay off the open liability contracts given the counterparty's right to terminate the contract. At December 31, 2019 and 2018, the Master Trust had a fair value of \$1,607,806 and \$14,526,837, respectively, in contracts in a net liability position with contingent features; \$27,938,030 and \$18,440,983, respectively, were posted in collateral against derivative contracts. There was no additional collateral required to be posted in the event that a contingent event had occurred at December 31, 2019 and December 31, 2018. Certain derivatives contracts also provide for the right to terminate the contract if a contingent event occurs. At December 31, 2019 and 2018, these terminations would have required the Master Trust to settle trades with a fair value of \$3,660,833 and \$27,094,451, respectively.

The Master Trust holds credit derivatives which are included in other investments and other liabilities on the statements of net assets. The fair value of credit derivatives where the Master Trust is the seller of the credit derivative is \$4,833,017 and \$371,121 as of December 31, 2019 and 2018, respectively. The total gross notional value of credit derivatives where the Master Trust is the seller is \$302,930,000 and \$274,145,000 (0.49% and 0.49% of net assets) as of December 31, 2019 and 2018, respectively.

Note 8 – Related-Party and Party-in-Interest Transactions

Certain Master Trust investments are managed by J.P. Morgan Asset Management. J.P. Morgan Asset Management is an affiliate of JPM, the Trustee for the Master Trust and the Plan; therefore, these transactions qualify as related party and party-in-interest transactions. The investment management fees paid to J.P. Morgan Asset Management for the Plan are paid at the Master Trust level.

Aviall, Inc. Retirement Plan Notes to Financial Statements

Note 9 – Tax Status

The Plan received a determination letter dated February 6, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan's tax-exempt status has not been affected, and no provision for income taxes has been included in the Plan's financial statements.

Note 10 – Nonexempt Party-in-Interest Transactions

Certain reportable nonexempt party-in-interest transactions occurred. The Plan was corrected according to the guiding principles of the Department of Labor's Voluntary Fiduciary Correction Program, which involved remitting the total principal and associated lost earnings to the Plan. The table below details the principal amounts of the prohibited transactions (PT) for the Plan.

Date PT Occurred	Date PT Corrected	Description of PT	PT Amount
July 4, 2014 through June 7, 2017	January 3, 2018 January 18, 2018	Plan assets were inadvertently used to make overpayments to a third-party vendor	\$16
November 22, 2004 through November 8, 2010	September 28, 2016 August 15, 2017 May 10, 2018	Plan assets were inadvertently received by the Trustee	\$25
May 13, 2010 through November 24, 2016	January 12, 2018 May 15, 2018	Plan assets were inadvertently used to make overpayments to the Trustee	\$79
January 25, 2018	August 24, 2018 October 25, 2018	Plan assets were inadvertently used to make overpayments to a third-party vendor	\$2
October 2, 2018	October 4, 2018 October 25, 2018	Plan assets were inadvertently used to make an overpayment to a third-party vendor	\$133
December 12, 2019	March 6, 2020 May 15, 2020	Plan assets were inadvertently used to make an overpayment to a third-party vendor	\$113

Note 11 – Subsequent Events

The COVID-19 outbreak, which was declared a pandemic by the World Health Organization on March 11, 2020, has negatively impacted the world economy. The impact of COVID-19 on economic markets continues to evolve rapidly and its future effects on the Plans' net assets available for benefits, changes in net assets available for benefits, accumulated plan benefits and changes therein are uncertain.

EIN / PN: 65-0433083/001

Plan Sponsor: Aviall, Inc., a wholly owned subsidiary of the Boeing Company

Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month September 2018
- Interest rate basis 3-Segment Rates

Interest rates:

	Reflecting Corridors	Not Reflecting Corridors
■ First segment rate	3.74%	2.28%
■ Second segment rate	5.35%	3.81%
■ Third segment rate	6.11%	4.46%
■ Effective interest rate	5.62%	4.09%

Annual rates of increase

- Assumed earnings rate on investments 6.29%¹

Demographic Assumptions

- Inclusion date** The valuation date coincident with or next following the date on which the employee becomes a participant.
- New or rehired employees** It was assumed there will be no new or rehired employees.

¹ Used to develop the expected return in 2018 for the development of the actuarial value of assets. Represents the lesser of the long-term expected asset return and third segment rate used for the 2018 valuation.

Plan Name: Aviall, Inc. Retirement Plan
EIN / PN: 65-0433083/001
Plan Sponsor: Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Mortality

- Healthy Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017).
- Disabled Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

Termination

The rates at which participants are assumed to leave the Company by age are shown below.

Representative Termination Rates

Percentage leaving during the year	
Attained Age	Rates
<35	10.0%
35-50	7.5%
51+	5.0%

Disability

Representative rates at which participants become disabled by age are shown below:

Percentage becoming disabled during the year	
Age	Rates
20	0.14%
25	0.15%
30	0.16%
35	0.19%
40	0.30%
45	0.45%
50	0.69%
55	1.19%
60	1.80%

Plan Name: Aviall, Inc. Retirement Plan
EIN / PN: 65-0433083/001
Plan Sponsor: Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year	
Age	Rates
55	5.0%
56	4.0%
57-60	3.0%
61	4.0%
62	5.0%
63-64	10.0%
65-69	15.0%
70	100.0%

Form of payment

25% of active participants are assumed to elect a single life annuity and 50% are assumed to elect lump sum, and 25% are assumed to elect 100% joint and survivor annuity.

50% of terminated vested participants are assumed to elect a single life annuity and 50% are assumed to elect 100% joint and survivor annuity.

Calculation of Lump Sum: Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

Benefit Commencement Date

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55 with 10 years of service or age 65.
- Deferred vested benefit Age 55 with 10 years of service or age 65 with less than 10 years of service.
- Disability benefit Age 55 with 10 years of service or age 65.
- Retirement benefit Upon termination of employment.

Plan Name: Aviall, Inc. Retirement Plan
EIN / PN: 65-0433083/001
Plan Sponsor: Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Benefit commencement for terminated vested participants

Terminated vested participants with at least 10 years of service are assumed to commence benefits at age 55 with their applicable early retirement factor or age 65 if less than 10 years of service. Terminated vested participants over age 65 are assumed to commence benefits immediately and collect an actuarially increased benefit.

Missing participants

Terminated vested participants who have been identified by the Plan Administrator as Missing Participants are deemed to have forfeited their benefits. It is assumed that no claim for these benefits will be made. Those identified by the Plan Administrator are excluded from the liabilities and included in participant counts and demographic information.

Spouse age

Spouse three years younger than male participant and three years older than female participant.

Administrative expenses

\$1,200,000 for 2019.

Plan-related expenses are assumed to be the actual prior year administrative expenses, adjusted for the expected change in the PBGC premium, rounded up to two significant digits.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Plan Name: Aviall, Inc. Retirement Plan
EIN / PN: 65-0433083/001
Plan Sponsor: Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Actuarial value of assets	Average of the fair market value of assets on the valuation date and the preceding two valuation dates, adjusted for contributions, benefits, administrative expenses and expected return (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of the market value on the valuation date, including contributions receivable (discounted using the effective interest rate for the prior plan year).
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Boeing regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Boeing and Aviall, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, furnished participant data as of 1/1/2019. Willis Towers Watson used asset data supplied by Boeing. Boeing furnished the dates and amounts of the plan contributions. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Pension Plan Administrative Expenses	Administrative expenses are based on the prior year's actual administrative expenses and expected changes in PBGC premiums rounded to two significant figures.

Plan Name:	Aviall, Inc. Retirement Plan
EIN / PN:	65-0433083/001
Plan Sponsor:	Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Assumed Earnings Rate on Investments for Asset Smoothing

The assumed return of 6.29% used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, the expected return on assets assumption chosen by Boeing with the help of their investment advisers under U.S. GAAP for 2018 is 6.75%. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Lump sum conversion rate

As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are among the choices prescribed by IRC §430(h).

Disabled Mortality

IRC §430(h)(3)(D) provides for the use of separate mortality tables with respect to certain individuals who are entitled to benefits on account of disability. Disabled mortality tables from IRS Revenue Ruling 96-7 have been selected. These separate mortality tables are permitted to be used with respect to disabled individuals in lieu of the generally applicable mortality tables provided pursuant to IRC §430(h)(3)(A) or the substitute mortality tables under IRC §430(h)(3)(C). Disabled mortality improvement is not assumed beyond the valuation date because the degree of improvement, if any, is unknown and the assumption is considered to be immaterial.

Termination

The assumed termination rates are based on actual termination experience by the plan over the period 2007 – 2017, with consideration for future conditions that might be expected to produce different results in the future. The analysis of historical termination rates was presented in the experience study delivered to Boeing on November 12, 2018.

Plan Name:	Aviall, Inc. Retirement Plan
EIN / PN:	65-0433083/001
Plan Sponsor:	Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Retirement

The assumed rates of retirement from active employment are based on actual retirement experience by the plan over the period 2007 – 2017, with consideration for future conditions that might be expected to produce different results in the future. The analysis of historical rates of retirement from active employment was presented in the experience study delivered to Boeing on November 12, 2018.

Lump Sum Election Rate From Active Status

The ongoing lump sum option is assumed to be elected by 50% of participants terminating from active status and the other 50% are assumed to elect annuities. The 50% lump sum election assumption is based on the plan's recent lump sum experience for this population and reflects expected future experience.

Deferred Vested Benefit Commencement Date

Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement, based on plan experience. Commencement Date is the earliest retirement date if participant has 10 years of service at termination, otherwise it's 65.

Prescribed Methods

Funding methods

The methods used for funding purposes, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Plan Name:	Aviall, Inc. Retirement Plan
EIN / PN:	65-0433083/001

Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Changes in methods and assumptions

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018 before application of interest rate stabilization corridors. In addition, the segment interest rates were updated from reflecting interest rate corridors applicable for a January 1, 2018 valuation to those applicable for a January 1, 2019 valuation.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.
- The lump sum mortality was changed from 2018 IRC 417(e) mortality to 2019 IRC 417(e) mortality.
- Retirement rates were updated to reflect the experience study done in 2018.
- Termination rates were updated to reflect the experience study done in 2018.

Change in methods since prior valuation

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under beginning of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the beginning of the year, and all other events are assumed to occur on valuation date anniversaries. This change in funding method was made in accordance with a class ruling issued to Willis Towers Watson on March 18, 2019, and the effects of the change fall within the parameters of the class ruling.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SCHEDULE SB ATTACHMENTS

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Aviall, Inc., a wholly owned subsidiary of the Boeing Company
EIN/PN	65-0433083/001
Plan Name	Aviall, Inc. Retirement Plan
Valuation Date	January 1, 2019
Enrolled Actuary	Brian Kabat
Enrollment Number	20-08371

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

This 2019 plan year Schedule SB has been revised to reflect additional 2019 plan year contributions. The provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act that was signed into law in March 2020 allowed plan sponsors to delay contributions with due dates in 2020 to a date later than the filing due date for the 2019 Form 5500. In Notice 2020-61 Q-8 the IRS instructed plan sponsors to complete an amended filing when the delayed contribution(s) for the 2019 plan year were eventually deposited. This amended Schedule SB filing includes the additional contribution(s) and shows no unmet minimum required contribution on line 39.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Plan Sponsor	The Boeing Company
Plan	Aviall, Inc. Retirement Plan
Effective Date and Most Recent Amendment	The plan was originally effective January 1, 1994. The last amendment reflected herein is Amendment Number 30.
Plan Year	The twelve-month period ending December 31.
Covered and Participation	<p>The Aviall, Inc. Retirement Plan closed to new entrants as of March 6, 2014.</p> <p>All employees are eligible to participate under the plan on the first January 1 or July 1 coincident with or next following the attainment of age 21 and the completion of one year of service. Employee means any person on the payroll whose wages are subject to withholding for the purposes of federal income tax, except that the following are excluded:</p> <ul style="list-style-type: none">■ Union employees, unless they have negotiated for coverage in this plan■ Nonresident aliens with no income from U.S. sources■ Leased employees <p><u>Note:</u> If an employee meets the age requirement but fails to complete 1,000 hours of service during the first year of employment, participation will begin on the January 1 following the plan year in which 1,000 hours of service are completed.</p>
Missing participants	Terminated vested participants past normal retirement age who have not been located after reasonable attempts are deemed to have forfeited their benefits. Such benefits will be reinstated after verification of a claim for the benefit.

Plan Name:	Aviall, Inc. Retirement Plan

Definitions

Continuous service	Total elapsed time from date of hire to date of termination.
Vesting service	<p>One year of vesting service is credited for each plan year with 1,000 or more hours of service.</p> <p>Due to the provisions of Section 9.2 of the plan, all plan participants as of September 20, 2006, became 100% vested as a results of the Change of Control.</p>
Basic Compensation	<p>A participant's basic compensation for a particular year (through December 31, 2015) is the portion of total wages subject to withholding for purposes of federal income taxes, including regular pay, overtime pay, vacation pay, cost-of-living allowances, bonuses, commissions, and certain severance pay. Compensation is limited to \$200,000 (indexed beginning in 2002) as required and does not include the value of restricted stock.</p> <p>Due to the provisions of Section 9.2 of the plan, all plan participants as of September 20, 2006, shall include total cash severance payments in Basic Compensation.</p>
Normal Retirement Benefit	<p>The Aviall, Inc. Retirement Plan is frozen to future benefit accruals effective December 31, 2015.</p> <p><u>Normal Retirement Date:</u> The first of the month coincident with or next following attainment of age 65.</p> <p><u>Benefit Amount:</u> The plan has a career average formula with the annual benefit accrual determined as follows:</p> <p style="padding-left: 40px;">1.45% times Basic Compensation up to \$15,600</p> <p style="padding-left: 40px;">plus</p> <p style="padding-left: 40px;">1.85% times Basic Compensation in excess of \$15,600.</p> <p><u>Minimum Benefit:</u> The minimum annual benefit is \$2,250.</p> <p><u>Additional Benefits:</u> Amendment Thirteen to the plan specifies a schedule of additional benefits payable to certain participants.</p> <p><u>Normal Form of Retirement Income:</u> Life only annuity payable monthly.</p>

SCHEDULE SB ATTACHMENTS

Late Retirement

If retirement occurs after the normal retirement date, the late retirement income will be the benefit calculated using the above formula with accruals through the late retirement date.

Accrued Benefit

The participant's accrued benefit at any given date is determined under the formula shown above.

Early Retirement Benefit

Eligibility: Age 55 with 10 years of continuous service.

Benefit Amount: Accrued benefit as of early retirement date multiplied by the early retirement factor shown below:

Age	Rates
65	100.0%
64	100.0%
63	100.0%
62	100.0%
61	91.7%
60	83.3%
59	79.2%
58	75.0%
57	70.8%
56	66.7%
55	62.5%

Immediate Disability Benefit

Eligibility: Total and permanent disability of participant prior to normal retirement date and age 45 with 15 years of continuous service.

Benefit Amount: Accrued benefit as of disability retirement date. The benefit is not reduced for early commencement. In lieu of this benefit, a participant may elect the deferred disability benefit described below.

Deferred Disability Benefit

Eligibility: 10 years of continuous service. (However, participants may not receive both an immediate and a deferred disability benefit. If eligible for both, one or the other must be elected.)

Benefit Commencement: Normal retirement date.

Benefit Amount: The benefit shall be calculated assuming that the participant's service and monthly rate of basic compensation as of the date of disability continued to normal retirement date.

Plan Name: Aviall, Inc. Retirement Plan
EIN / PN: 65-0433083/001
Plan Sponsor: Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Death of Disabled Participant Prior to Normal Retirement Date:

Prior to normal retirement date, disabled participants are entitled to a death benefit identical to the one for active employees. This benefit is determined as if the disabled participant had remained in service until the date of death and the monthly rate of basic compensation as of the date of disability continued unchanged.

Vested Benefits Upon Termination of Service

Vesting: A participant is 100% vested upon completion of 5 years of vesting service. However, all participants become 100% vested upon reaching age 65.

Termination Benefit: The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at normal retirement date. Optionally, participants with 10 years of continuous service may elect to receive a reduced benefit commencing prior to normal retirement date.

Change of Control Factor: Due to the Change of Control provisions of Section 9.2 of the plan, all participants who have attained age 45 or accrued 10 years of Continuous Service as of September 20, 2006, shall be entitled to receive enhanced early retirement factors at any time after termination and after reaching age 55. The reduction factors for early commencement are as follows:

Age	Factor for Participants Who Terminate Prior to Early Retirement Eligibility	Factor for Early Retirement or Applicable Change of Control Group
65	100.0%	100.0%
64	93.3%	100.0%
63	86.7%	100.0%
62	80.0%	100.0%
61	73.3%	91.7%
60	66.7%	83.3%
59	63.3%	79.2%
58	60.0%	75.0%
57	56.7%	70.8%
56	53.3%	66.7%
55	50.0%	62.5%

Plan Name:	Aviall, Inc. Retirement Plan
EIN / PN:	65-0433083/001
Plan Sponsor:	Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Death of Terminated Vested Participant Prior to Commencement: The participant's spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if the participant had survived to the earliest commencement date and elected to receive a benefit under the qualified joint and 50% contingent option commencing at that date.

Due to the Change of Control provisions of Section 9.2 of the plan, all participants who have attained age 45 or has accrued 10 years of Continuous Service as of September 20, 2006, shall be considered to have met the service requirement for early retirement for the purpose of pre-retirement death benefits.

Death Benefits for Participants in Active Service

Eligibility: Married with 5 years of vesting service.

Benefit Amount: The participant's spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if the participant had survived to the earliest commencement date and elected to receive a benefit under the qualified joint and 50% contingent option commencing at that date.

Due to the Change of Control provisions of Section 9.2 of the plan, all participants who have attained age 45 or has accrued 10 years of Continuous Service as of September 20, 2006, shall be considered to have met the service requirement for early retirement for the purpose of pre-retirement death benefits.

Optional Forms of Retirement Income in Lieu of Normal Forms

The plan provides optional payment forms, including the qualified joint and contingent benefit for married employees, on an actuarially equivalent basis. Actuarial equivalence for this purpose is based on a 4.75% interest rate and the 1951 Group Annuity Mortality Table projected by Scale C to 1965 with a weighting of male and female factors by 75% and 25%, respectively. Participants that terminate, retire, or are laid off after February 1, 2015, may also elect to receive a single lump sum payment that is actuarially equivalent to their monthly benefit determined under IRC 417(e).

Plan Name:	Aviall, Inc. Retirement Plan
EIN / PN:	65-0433083/001
Plan Sponsor:	Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Coordination with Ryder System, Inc. (RSI) Retirement Plan

The benefits under this plan include the benefits earned under the RSI Retirement Plan prior to December 8, 1993, and benefits under this plan are also offset by any benefits payable under that plan, assuming that the participant elects to begin his RSI benefits at the later of (i) the date the Aviall benefits commence, and (ii) the earliest date the RSI benefits can commence. Ryder determines eligibility for early retirement and for early commencement of termination benefits based on the participant's age and service as of December 7, 1993.

Plan Participants' Contribution

They are not required or permitted.

Special Provisions for Top-Heavy Plans

Not applicable; the plan is not top-heavy.

Future Plan Changes

Willis Towers Watson is not aware of any future plan changes that are required to be reflected.

Changes in Benefits Valued Since Prior Year

The plan was amended to clarify administration and for compliance purposes, but there was not an impact to the valuation. Willis Towers Watson is not aware of any additional future plan change that are required to be reflected.

Plan Name: Aviall, Inc. Retirement Plan
EIN / PN: 65-0433083/001
Plan Sponsor: Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 25 Change in Method

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under beginning of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the beginning of the year, and all other events are assumed to occur on valuation date anniversaries. This change in funding method was made in accordance with a class ruling issued to Willis Towers Watson on March 18, 2019, and the effects of the change fall within the parameters of the class ruling.

Plan Name:	Aviall, Inc. Retirement Plan
EIN / PN:	65-0433083/001
Plan Sponsor:	Aviall, Inc., a wholly owned subsidiary of the Boeing Company
Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 24 Change in Actuarial Assumptions

Retirement and withdrawal rates were updated to reflect the experience study done in 2018.

The assumed rates of retirement and withdrawal from active employment are based on actual retirement and withdrawal experience by the plan over the period 2007 – 2017, with consideration for future conditions that might be expected to produce different results in the future. The analysis of historical rates of retirement and withdrawal from active employment was presented in the experience study delivered to Boeing on November 12, 2018.
