NOTES TO FINANCIAL STATEMENTS
Years Ended December 31, 2019 and 2018

Note 1 – Description of the Plan

The following description of the Pinnacle Plastic Products 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan, as amended and restated, is a defined contribution plan covering all eligible employees of Pinnacle Industrial Enterprises, Inc. (the Company and Plan Administrator) who have completed 1 year of service (as defined by the Plan document) and have attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions, and an allocation of Plan earnings (losses). The allocation of Plan earnings (losses) is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account. Participants direct the investment of their account balances among the investment funds offered by the Plan.

Contributions

Participants may elect to contribute pre-tax deferrals up to the maximum allowed by the IRS, as defined by the Plan document. Participants are also permitted to contribute amounts distributed from another qualified plan (rollover contributions).

The Plan provides for discretionary matching contributions, to be determined by the Company. For 2019, the Company elected to make discretionary matching contributions of 15% of the participant's deferrals. The Plan also provides for a discretionary profit sharing contribution to be allocated to eligible participants as defined by the Plan document. There was no discretionary profit sharing contribution in 2019.

During 2019, the Company contributed \$896,779 to correct operational defects relating to plan years 2007 through 2019, in accordance with the Employee Plans Compliance Resolution System.

Payment of Benefits

The Plan generally provides that upon retirement, death, disability, or termination, participants are entitled to receive the vested value of their account in a lump sum payment, in partial payments, or as a life annuity. Upon meeting certain other qualifications, participants may also be eligible for in-service distributions and hardship distributions.

Vesting

Participants are immediately vested in their contributions (including related earnings and losses). Company contributions and related earnings (losses) become fully vested according to the following schedule.

Forfeitures

Forfeitures may be used to offset plan expenses or to reduce Company contributions. Unused forfeitures are to be allocated to Plan participants, as further defined within the Plan document. Unallocated forfeitures at December 31, 2019 were \$11,804. Forfeitures totaling \$1,521 were used to reduce the Company's 2019 matching contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants become fully vested in the total value of their account.

Administrative Expenses

Administrative expenses are paid by the Company or by the Plan, as permitted in the Plan document. The services are rendered by parties-in-interest to the Plan.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments are reported at fair value. The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in non-benefit responsive guaranteed interest accounts are reported at fair value. There have been no changes in the valuation methods used. The Plan's investments were held by Principal Life Insurance Company (Principal, the Trustee).

NOTES TO FINANCIAL STATEMENTS
Years Ended December 31, 2019 and 2018

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Units held in pooled separate accounts are valued at net asset value (NAV). The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less any liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The Plan holds guaranteed interest accounts which are backed by Principal's general account. The account is credited with contributions and earnings on the underlying investments, and charged for participant withdrawals and administrative expenses. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity. The reference rate used to determine if a surrender charge applies is equal to the applicable fixed U.S. Treasury rate (as defined) plus 0.50%. A charge applies when the reference rate is higher than the rate being credited to the unmatured funds being transferred or withdrawn. The guaranteed interest accounts are considered non-benefit responsive, and are included in the financial statements at fair market value as reported to the Plan by Principal. Fair market value is the amount that would be received were the funds to be withdrawn or transferred within the Plan prior to maturity, and represents the guaranteed interest account contract value adjusted as previously described to reflect the rates of interest available in the marketplace for similar investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The Plan Administrator changed the Plan's trustee and record keeper effective March 13, 2020. These changes did not have a significant impact on the operations of the Plan. Management has evaluated subsequent events through April 1, 2021, the date the financial statements were available to be issued.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2019, net appreciation (depreciation) of investments, and dividends and interest for the year then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee. Investment information as of December 31, 2018 was presented for purposes of comparative financial statements.

Note 4 – Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; and
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table provides information about significant unobservable inputs related to the Plan's level 3 investment in guaranteed interest accounts for years ended December 31, 2019 and 2018:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Rates
Guaranteed Interest Accounts	\$464,761	Market Value Adjustment	Composite Guaranteed Rate	0.64% - 1.82%
December 31, 2019			Current Rate on 12/31/2019	2.07% - 2.16%
Guaranteed Interest Accounts	\$29,421	Market Value Adjustment	Composite Guaranteed Rate	0.37% - 1.46%

Net change in other employer contribution receivable	<u>846,620</u>
Net increase (decrease) in net assets available for benefits per the Form 5500	<u>\$ 765,193</u>

Note 6 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2014, that the Prototype Non-Standardized Profit Sharing Plan with CODA (the prototype plan of the Trustee upon which the Plan is based) qualifies under Section 401 of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. The Plan has since been amended. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator will take the necessary steps, if any, to bring the Plan's operations into compliance with the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
