The following description of the Illinois Central Companies 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Illinois Central School Bus, LLC, and adopting employers (collectively, the Company). Employees who are covered are employees of the plan sponsor, excluding highly compensated employees, as defined, are eligible for the Plan after meeting 90 days of service, and are over 18 years of age. Eligible employees may begin deferring the first of the month following meeting eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: A participant may elect to contribute any percentage of his/her annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company matches contributions of 50% of the first 6% of compensation that a participant contributes to the Plan. The Company may make a discretionary contribution to the Plan, but did not make a discretionary match for the year ended June 30, 2020. All contributions are subject to certain limitations.

Participant accounts: Each participant’s account is credited with the participant’s contribution and the Company’s matching contribution and receives an allocation of company discretionary contributions, if any, plan earnings/losses and administrative expenses. Allocations are based on participant account balances, compensation or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant’s vested account.

Vesting: Participants are immediately vested in their contributions plus the actual earnings thereon. Vesting for company contributions is based upon years of service as defined. Participants are 100% vested after three years of credited service. Participants who attain retirement age of 65, or terminate employment due to death or disability, are 100% vested in their accounts.

Investment options: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

Forfeitures: At June 30, 2020 and 2019, there were $6,196 and $3,114 in forfeited nonvested accounts, respectively. During 2020, the Company used $407 of forfeitures towards Company contributions and $3,680 towards administrative expenses.

Payment of benefits: On termination of service, death, retirement, or at the option of the employee, a participant will receive a lump-sum distribution. Withdrawals may also be made from the Plan in cases of financial hardship.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Note 2. Significant Accounting Policies (Continued)

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management and the Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded at the ex-dividend date. Capital gain distributions are included in dividends.

Contributions: Participant contributions are recognized when withheld. Company matching contributions are recognized concurrently with participant contributions. Company discretionary contributions are recognized annually, as applicable.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Various plan administrative expenses are paid by the Plan Sponsor. Record keeping, administrative and compliance service fees are paid by the Plan.

Recent accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820); Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement,* which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through January 28, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company (Principal))

The following is a summary of the Plan's asset and income information as of June 30, 2020 and 2019, and for the year ended June 30, 2020, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2020	2019
Investments, at fair value:		
Shares of registered investment companies	$ 329,169	$ 206,850
Shares of common/collective trust	3,054,243	2,161,685
Net appreciation in fair value of investments	120,854	
Dividends	6,435	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2020 and 2019.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Shares of common/collective trust: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value of calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2020 and 2019:

	Assets at Fair Value as of June 30, 2020			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 329,169	$ -	$ -	$ 329,169
Total assets in the fair value hierarchy	$ 329,169	$ -	$ -	329,169
Investments measured at net asset value (a)				3,054,243
Investments at fair value				$ 3,383,412

	Assets at Fair Value as of June 30, 2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 206,850	$ -	$ -	$ 206,850
Total assets in the fair value hierarchy	$ 206,850	$ -	$ -	206,850
Investments measured at net asset value (a)				2,161,685
Investments at fair value				$ 2,368,535

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy.

Note 4. Fair Value Measurements (Continued)

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth the fair value of investments in certain entities that calculate NAV per share (or its equivalent):

	Fair Value June 30,		Unfunded Commitment		Redemption	Redemption
Investment	2020	2019	2020	2019	Frequency	Notice Period
Common/collective funds	$ 3,054,243	$ 2,161,685	$ -	$ -	Daily	None

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2020, there were no transfers in or out of Level 3.

Note 5. Related-Party Transactions

Certain investments are managed by Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company), the trustee, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. The Plan paid $40,664 in fees to Principal during the year ended June 30, 2020.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services. Other expenses of the Plan are paid by the Company.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 23, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and is being operated in accordance with the applicable requirements of the IRC.

The FASB issued guidance on accounting for uncertainty in income taxes. Management of the Company evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 8. Risks and Uncertainties

The Plan provides for various investment options in funds which invest in any combination of stocks, bonds, fixed income securities, mutual funds and other investment activities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern", and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Plan Sponsor operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES act) was enacted to provide emergency assistance for individuals, families, and businesses affected by the coronavirus pandemic.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be on the plan.

Additionally, it is reasonable possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including investment valuations.
