NOTE 1 DESCRIPTION OF PLAN

The following description of Ashtabula County Medical Center (the Company) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan established July 1, 1969. The Plan was amended and restated throughout the years to comply with tax legislation and most recently amended effective July 1, 2015.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective December 31, 2006, the Plan was amended to freeze pension benefits and cease all future benefit accruals for all participants not covered by a collective bargaining agreement.

On December 21, 2007, the Ashtabula County Medical Center's Board of Trustees voted to freeze pension benefits and cease all future benefit accruals for participants covered by a collective bargaining agreement. Each participant elected whether to have their benefits frozen as of December 31, 2007 or December 31, 2008.

The Plan is administered by the Company's Investment Committee (the Committee), which is a committee of the Board of Directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

The Plan covers substantially all employees of the Company who have completed five or more years of service through the freeze dates of December 31, 2006 and December 31, 2007. The Plan excludes nonresident aliens with no U.S. source income, leased employees, employees covered by another Pension Plan to which Ashtabula County Medical Center contributes, and employees covered by a collective bargaining agreement, unless the collective bargaining agreement specifically allows for participation. The current collective bargaining agreement allows for participation in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits

Employees with five or more years of service prior to the freeze dates are entitled to retirement benefit payments upon reaching age 65. The amount of individual pensions is based upon several factors including compensation, years of service, age, and the estimated social security benefit. Compensation is based upon the average of the highest three consecutive calendar years of employment out of the last 10 years prior to the date of termination.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Death and Disability Benefits

If an active, eligible employee with at least 10 years of eligibility service dies, a death benefit equal to the normal retirement benefits the employee had accumulated as described above, reduced for early retirement and joint and survivor benefits (as applicable) is paid to the employee's surviving spouse beginning on the employee's early retirement date and continuing until such spouse's death. Active, eligible employees with at least 10 years of eligibility service who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits commence five months after the month in which the former employee became disabled and such payments continue until the death of the former employee.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. There were no Company contribution made during 2020. During 2019, the Company made contributions of \$4,940,000. The Company's contributions for 2020 and 2019 exceeded the minimum funding requirements of ERISA.

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth in ERISA.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid by the Plan as provided by the Plan document. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through April 9, 2021, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered through the freeze dates. Accumulated Plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died, and
- c) present employees or their beneficiaries.

**ASHTABULA COUNTY MEDICAL CENTER
RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019**

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

Benefits under the Plan are accumulated based on certain formulas determined by the Plan. The accumulated Plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the freeze dates. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the freeze dates. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of June 30, 2020 and 2019 were:

- a) Life expectancy of Participants (the PRI-2012 Blue Collar Mortality Tables using the Scale MP-2020).
- b) Retirement Age Assumptions based on a table of anticipated rates of retirement at each of the ages at which retirement eligibility occurs.
- c) Discount Rate and expected rate of return on Plan assets of 4.0% and 3.5% for 2020 and 2019, respectively. During 2019, management elected to decrease the discount rate to better align the rate of return with the current investment allocation.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The following is a summary of actuarial present value of accumulated Plan benefits as of June 30:

	<u>2020</u>	<u>2019</u>
Actuarial Present Value of Accumulated Plan Benefits:		
Vested Benefits:

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

First State Trust Company, the trustee of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of June 30, 2020 and 2019, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of June 30, 2020 and supplemental schedule of reportable transactions for the year ended June 30, 2020.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at June 30, 2020 and 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common and Preferred Stock: Investments in common and preferred stock are valued at the closing price reported on the active market on which the individual securities are traded.

Exchange Traded Funds: Valued at the daily closing price as reported by the fund. Exchange traded funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The exchange traded funds held by the Plan are deemed to be actively traded.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Corporate Bonds and Notes: Investments in bonds are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote is available.

Government Securities: Investments in U.S. government securities are valued using pricing models maximizing the use of observable inputs for similar securities.

Real Estate Income Trust: The real estate income trust is valued monthly based on the net asset value per unit, which is based on the fair value of the underlying investments, plus the addition of any other assets (such as cash on hand) and the deduction of liabilities. The underlying investments largely comprise real estate properties valued using a combination of a discounted cash flow analysis and valuations by a third-party appraiser. The asset is a Level 3 investment due to the limited trading market for the security and its underlying holdings.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30:

2020				
	Level 1	Level 2	Level 3	Total

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended June 30, 2020 and 2019, there were no significant transfers in or out of Levels 1, 2, or 3.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended June 30:

	2020	2019
Balance - July 1,	\$ 1,087,855	\$ 2,492,142
Dividends	10,773	87,698
Sale	(723,000)	(1,600,000)
Realized gain (loss)	(22,336)	16,392
Unrealized gain	64,248	91,623
Balance - June 30,	<u>\$ 417,540</u>	<u>\$ 1,087,855</u>

Gains and losses (realized and unrealized) included in the changes in net assets for the period above are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements (Continued)

In estimating fair value of the investment in Level 3, the Investment Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third-parties, the Investment Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

NOTE 6 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination
2. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations
4. All other vested benefits (that is, vested benefits not insured by the PBGC)
5. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. For Plan terminations occurring during 2020 and 2019, the statutory ceiling was approximately \$5,800 and \$5,600 per month, respectively.

The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings will be actuarially adjusted downward.

RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019**

NOTE 6 PLAN TERMINATION (CONTINUED)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 PLAN TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 3, 2013, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2020 and June 30, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by First State Trust Company, the trustee. First State Trust Company is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.
