## NOTES TO FINANCIAL STATEMENTS

### Note 1. Plan Description

The following description of the HPS Mechanical, Inc. Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

*General:* The Plan is a defined contribution plan covering all full-time employees of HPS Mechanical, Inc. (Company). For purposes of wage rate contributions, an employee becomes eligible if they have rendered one hour of service on a prevailing wage contract job. For purposes of discretionary contributions, an employee becomes eligible if they are over 18 years of age and have completed 60 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

*Contributions:* Each year, participants may make salary deferral contributions in any percentage from 1% to 100% of pretax annual compensation, as defined in the Plan document. For purposes of the prevailing wage employees, the Plan's provisions stipulate that the employer will contribute to the Plan on an hourly contribution rate for the classification of employees. The Company may also make discretionary matching contributions and discretionary profit-sharing contributions. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain IRS limitations.

*Participant Accounts:* Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

*Vesting:* Participants are immediately vested in their salary deferral contributions and wage rate contributions plus actual earnings thereon. The portion of the participants' accounts attributable to the Company's discretionary contributions become 20% vested after two years of credited service as defined and continues to vest at the rate of 20% for each successive year of service until 100% vested after six years of service.

*Notes Receivable from Participants:* Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of: a) 50% of the un-loaned participant's vested account balance or b) $50,000. The loans are secured by the participant's account balance. The loan interest rates, determined quarterly, ranged from 5.75 to 8 percent. Principal and interest are paid ratably through monthly payroll deductions.

*Payment of Benefits:* Upon termination of service, a participant may elect to receive lump-sum payment or an annuity equal to the value of his or her account, or to have that amount rolled over into another retirement account.

*Forfeited Accounts:* Forfeited accounts may be used first to pay administrative expenses and then to reduce employer-matching contributions and Company discretionary contributions. At June 30, 2020 and 2019 there were no forfeited amounts.

### Note 2. Significant Accounting Policies

*Basis of Accounting*: The financial statements of the Plan are prepared on the accrual method of accounting.

*Use of Estimates*: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

## NOTES TO FINANCIAL STATEMENTS

*Investment Valuation and Income Recognition*: Investments are reported at fair value (except for the fully-benefit responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Notes 4 and 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

*Notes Receivable from Participants:* Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2020 or 2019. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

*Payment of Benefits:* Benefits are recorded when paid.

*Administrative Expenses:* Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

*Subsequent Events*: The Plan has evaluated subsequent events through April 9, 2021, the date the financial statements were available to be issued. There were no material subsequent events identified which would require disclosure in the financial statements.

### Note 3. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at June 30, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends for the year ended June 30, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Life Insurance Company, Principal Trust Company and Principal Global Investors Trust Company (the Custodians of the Plan).

### Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2020 or 2019.

*Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2020 and 2019:

| | Assets at Fair Value as of June 30, 2020 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |

## NOTES TO FINANCIAL STATEMENTS

### Note 5. Fair Value Measurements of Investments That Are Measured at Net Asset Value per Share

*Pooled separate accounts:* Units held in pooled separate accounts (PSAs) are valued using the net asset value practical expedient (NAV practical expedient) of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding.

The fair values of the following investments have been estimated using net asset value per share (or its equivalent) of the separate accounts as of June 30, 2020 and 2019. There are no unfunded commitments on any of these funds.

**Note 6. Guaranteed Investment Contract with Principal Life Insurance Company**

The Plan has a traditional fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal) totaling $10,207,057 and $8,836,555 at June 30, 2020 and 2019, respectively. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

## NOTES TO FINANCIAL STATEMENTS

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited trans-action exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

### Note 7. Related-Party Transactions and Party in Interest Transactions

Certain Plan investments are managed by Principal Life Insurance Company and Principal Trust Company (Principal). Principal is the custodian and record-keeper for the Plan and, therefore, these transactions qualify as party in interest transactions.

### Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

### Note 9. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan Administrator, by a letter dated November 15, 2005, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## NOTES TO FINANCIAL STATEMENTS

The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economics and financial markets of many countries, including the geographical area in which the Company operates. While it is unknown how long these conditions will last and what the complete financial effect will be to the Plan, to date, the Plan experienced volatility in the fair value of investment assets but has rebounded and is experiencing regular volatility.

During the year ended June 30, 2020, the Plan sponsor inadvertently failed to deposit $12,123 of participant deferrals and loan repayments within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan sponsor will file Form 5330 and pay applicable excise tax. The excise tax payments will be made from the Plan sponsor's assets and not from assets of the Plan.
