1. DESCRIPTION OF THE PLAN

General

The following description of the Alliance, Inc. 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

The Plan, which was established on July 1, 2008, is a single employer defined contribution plan covering substantially all employees of Alliance, Inc. (the Company). There are no age or service requirements to participate in the Plan. Participants receive credit for prior service with North Baltimore Center, Inc., Granite House, Inc., and Mosaic Community Services, Inc. Employees who who are eligible to participate in a plan of the Company offering a qualified cash or deferred election under Code section 401(k) or a contract described in Code section 403(b) are excluded from making elective employee deferrals into the Plan.

Employees are eligible to receive Company matching and non-elective contributions after one month of service if they are 18 years of age and have not terminated employment before the end of the Plan year. In addition, highly compensated employees are not eligible to receive Company matching and non-elective contributions. Employees who work less than 1,000 hours in the preceding 12-month period are not eligible to receive Company matching and non-elective contributions. Effective November 27, 2018, for purposes of matching and non-elective contributions, the Plan was amended to waive the hours of service and end of year employment requirements for participants who terminate employment before the end of the year due to death, disability, or voluntary termination due to retirement upon normal retirement age.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions

Participants may contribute a percentage of their eligible pre-tax compensation not to exceed the maximum allowable contribution limit under the Internal Revenue Code (the Code), which totaled $19,500 and $19,000 for the participants' tax years ended December 31, 2020 and 2019, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, subject to limitations imposed by the Code, which totaled $6,500 and $6,000 for the participants' tax years ended December 31, 2020 and 2019, respectively. Contributions withheld are invested in accordance with the participants' elections and may be redirected online at any time.

Participants are permitted to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such rollover contributions are deposited in the appropriate investment funds in accordance with the participant's election and the Plan's provisions.

1. DESCRIPTION OF THE PLAN – cont'd.

Company Contributions

Upon approval by the board of directors, the Company may make a discretionary matching contribution on an annual basis to all eligible employees. The Company will match at least 100% of participant contributions (excluding catch-up contributions) up to 1% of a participant's eligible compensation. The Company may make an additional discretionary matching contribution on an annual basis to all eligible employees if approved by the board of directors. During the year ended June 30, 2020, the Company matched 100% of participant contributions up to 1% of eligible compensation. Company matching contributions totaled $30,887 for the year ended June 30, 2020. These Company contributions were remitted to the Plan subsequent to June 30, 2020, and, accordingly, are included as Company contributions receivable in the accompanying statement of net assets available for benefits as of June 30, 2020.

The Company may also make non-elective contributions on behalf of eligible participants. Prior to December 29, 2019, such contributions were to be allocated to participants based on the ratio that each participant's compensation bore to the total compensation paid to all eligible participants. Effective December 29, 2019, the Plan was amended to change the calculation for non-elective contributions to be a prevailing wage contribution. Participants providing service for the Company under an applicable prevailing wage statute shall receive a contribution on a monthly basis so long as they meet the eligibility requirements above for non-elective contributions. Accordingly, the end of year service requirement is no longer applicable as part of this amendment. The Company's contribution is the hourly contribution rate designated for that employee's employment classification on which work was performed under an applicable prevailing wage statute. Contributions are subject to certain limitations. Non-elective contributions totaled $14,660 for the year ended June 30, 2020, of which $1,277 is included as Company contributions receivable in the accompanying statement of net assets available for benefits as of June 30, 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching and non-elective contributions, and allocations of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable from Participants

The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance, reduced by the participant's highest outstanding loan balance in the previous 12 months over the existing loan balance, if any, on the date a new loan is made. The notes are secured by the participant's vested account balance and no more than one outstanding note is permitted at any time.

1. DESCRIPTION OF THE PLAN – cont'd.

Notes Receivable from Participants – cont'd.

The notes bear interest at 2% above the prime rate at the time the note is issued and must be repaid within five years, unless the note is used to purchase a principal residence, which is to be repaid within 10 years. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Benefit payments are available to participants (or their beneficiary, in the event of death) upon retirement (age 65), termination of employment, death, disability, early retirement (age 59), or attainment of age 59 ½. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed by the participant may be withdrawn for a hardship purpose. Participants are entitled to a benefit equal to the vested portion of their account, which will be distributed in the form of a lump sum payment. For terminated participants with vested account balances less than $5,000 that meet the provisions, a mandatory distribution will automatically be paid to participants in a cash distribution if the participant does not elect the distribution method. In all cases, certain income taxes and penalties may apply to withdrawals or distributions prior to age 59 ½. Distributions are subject to the applicable provisions of the Plan agreement. As of June 30, 2020 and 2019, there were no net assets available for benefits of the Plan that were allocated to accounts of participants who had elected to withdraw from the Plan but had not received such distributions as of year-end.

Vesting

Participants are immediately vested in their salary deferral, rollover contributions and the related earnings. Prior to December 29, 2019, vesting in the Company's matching and non-elective contributions is based on years of continuous service as presented in the following chart:

Years of Service	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Effective December 29, 2019, the Plan was amended to change the calculation for non-elective contributions to be a prevailing wage contribution. In accordance with prevailing wage statutes, these contributions are 100% vested. Participants will become fully vested in Company matching and pre-December 29, 2019 non-elective contributions if participants terminate employment due to death, disability, or after attainment of age 59.

1. DESCRIPTION OF THE PLAN – cont'd.

Forfeitures

Forfeitures of non-vested Company contributions may be applied to reduce future Company contributions and pay administrative expenses. There were forfeitures available totaling $19 and $10 as of June 30, 2020 and 2019, respectively. During the year ended June 30, 2020, there no were forfeitures used to reduce Company contributions or pay administrative expenses.

Administrative Expenses

All administrative expenses are paid with assets of the Plan, unless paid by the Company, at its discretion. During the year ended June 30, 2020, the Company elected to pay a portion of the Plan's direct expenses. Other fees are included in net appreciation in fair value of investments as they are paid through revenue sharing, rather than a direct payment. There is no balance maintained in a revenue sharing account for the Plan. Expenses that are paid directly by the Company are excluded from the Plan's financial statements. Loan and distribution fees are paid by the Plan and its participants. Investment related expenses are included in net appreciation in fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been presented using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets available for benefits and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value (see Note 4).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Investment Valuation and Income Recognition – cont'd.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Recently Issued Accounting Pronouncement and Accounting Changes

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 eliminates, amends and adds disclosure requirements relating to fair value reporting. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 for all entities, with early adoption permitted only for eliminated and modified disclosure requirements. All changes should be prospectively applied to all periods presented. Management has not elected to early adopt ASU 2018-13 during the year ended June 30, 2020 and is currently evaluating its future effect on the financial statements.

Risks and Uncertainties

The Plan provides for investments in assets that are exposed to risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur and materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Fair Value Measurement

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Fair Value Measurement – cont'd.

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Interests in registered investment companies: Valued at the closing price reported in the active market in which the fund is traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of June 30, 2020 and 2019.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2020:

	Level 1	Level 2	Level 3	Total
Interests in registered investment companies	$ 971,735	$ -	$ -	$ 971,735
Total investments, at fair value	$ 971,735	$ -	$ -	$ 971,735

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2019:

	Level 1	Level 2	Level 3	Total
Interests in registered investment companies	$ 831,595	$ -	$ -	$ 831,595
Total investments, at fair value	$ 831,595	$ -	$ -	$ 831,595

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued, but unpaid, interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the Plan administrator deems the note to be in default, the note balance is reduced, and the delinquent note receivable is recorded as a benefit payment based on the terms of the Plan document. No allowance for credit losses has been recorded as of June 30, 2020 and 2019.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through April 14, 2021, the date the financial statements were available to be issued and determined there were no material events that warrant disclosure, except as disclosed in Note 9.

3. INVESTMENTS

All investment data contained in the accompanying financial statements and supplemental schedule, including assets held at June 30, 2020 and 2019, interest and dividend income and net appreciation in fair value of investments for the year ended June 30, 2020, and excluding notes receivables from participants, was obtained or derived from the information supplied to the Plan administrator and certified as complete and accurate by Matrix Trust Company, the Trustee of the Plan.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan participates in a fully benefit-responsive investment contract with The Lincoln National Life Insurance Company (Lincoln) via an investment in a fixed annuity contract. The assets of the investment contract are comingled with other assets in a general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Lincoln is contractually obligated to repay the principal and a guaranteed minimum interest rate to the Plan.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT – cont'd.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date, except under specific circumstances, including the following: any charges billed by Lincoln to the contract owner have not been paid within 30 days, the Plan ceases to meet the requirements of the Internal Revenue Code for purchasers of this contract, the contract owner's account balance is less than $15,000 any time following the end of the third contract year, there is no deposit activity for a 24-month consecutive period and the contract owner's account balance is less than $50,000 following the end of the third contract year, the contract owner fails to furnish requested information or other documentation, any misrepresentation of material information, the insurance company discontinues offering this contract form to the public, or the Plan terminates its recordkeeping agreement with the insurance company.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants are ordinarily able to direct withdrawals or transfers of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are determined quarterly. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations is affected by future economic and regulatory developments.

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include the following: amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

No events are probable of occurring that would limit the ability of the Plan to transact at contract value with the contract issuers that also would limit the ability of the Plan to transact at contract value with the participants.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows participants to take out notes against their vested account balance according to the applicable provisions of the Plan agreement. The Company provides the Plan with certain accounting and administrative services for which no fees are charged. All such transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. TAX STATUS

The Plan adopted a volume submitter 403(b) plan which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2017, stating that the Plan is qualified under Section 403(b) of the Code and therefore, the related trust is exempt from taxation. Subsequent to the issuance of the opinion letter, the Plan has been amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Given the Plan is tax exempt and has no unrelated business income, the provisions of ASC 740 do not have an impact on the Plan's financial statements. The Plan recognizes interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of June 30, 2020 and 2019.

The Plan is subject to routine audits by the IRS and Department of Labor; however, there are currently no audits for any periods in progress.

8. CORONAVIRUS

In December 2019, a novel strain of coronavirus (COVID-19) was reported and the World Health Organization has declared COVID-19 to constitute a "Public Health Emergency of International Concern." In March 2020, COVID-19 began to spread throughout the United States. Efforts to contain COVID-19, including restrictions mandated by the Federal and state governments caused numerous businesses to close or operate remotely in an effort to prevent COVID-19 from spreading more rapidly. As of the report date, the Plan has experienced an immediate impact from COVID-19 due to the volatility of the financial markets.

8. CORONAVIRUS – cont'd.

The future extent of the impact of COVID-19 on the Plan's operations including, but not limited to, further market volatility and future Company contributions will depend on future developments, including the duration and spread of the outbreak, which is highly uncertain and cannot be predicted.

On March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act (CARES) Act for President Trump's signature in order to help the US economy and workers in the midst of the Coronavirus pandemic. The CARES Act includes numerous provisions related to retirement plans. The Plan has decided to adopt the provisions related to distributions and loans through December 31, 2020.

9. SUBSEQUENT EVENTS

Effective July 1, 2020, the Plan was amended to make the matching contribution fully discretionary that will be determined by the Plan administrator on an annual basis. Effective November 17, 2020, the Plan was amended to remove the one month of service and age requirement for non-elective contributions effective July 1, 2019.
