NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Directions for Youth & Families, Inc. Pension Plan (Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General - The Plan is a defined benefit plan covering all eligible employees who are employed by Directions for Youth & Families, Inc. (Company). On December 1, 2009, the Company froze the Plan and all individuals in the Plan stopped accruing additional benefits, and no new entrants were allowed into the Plan. The actuarial assumptions for the Plan have been adjusted based on this action. Due to the Plan freezing on December 1, 2009, there are no current service costs for the years ended June 30, 2020 and 2019.

Contributions - The minimum annual employer contribution is based on an actuarial calculation of the Plan's normal cost for the year, plus amortization of past service costs. The Plan meets the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding standards.

Vesting - A participant who had completed five years of continuous service by the date the Plan froze and who, for reasons other than retirement or death, ceases to be employed by the Company, is eligible for a deferred vested retirement allowance.

Retirement Benefits - A participant can retire with full pension benefits at the normal retirement age of 65. Participants may retire as early as age 50 with a reduced pension benefit if the participant had five years of Company service.

Death and Disability Benefits - A participant's accrued benefit shall become fully vested upon death. Disability benefits are not provided. The Plan also includes surviving spouse benefits upon a participant's death.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by Plan management in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results might differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 6 for discussion of fair value measurement.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded when paid.

Plan Expenses - All expenses incurred in administering the Plan are paid from plan assets, unless otherwise paid by the Company.

Subsequent Events - The Plan has evaluated subsequent events through April 15, 2021, the date the financial statements were available to be issued.

NOTE 3 - CERTIFICATION

The custodian of the Plan's assets, Nationwide Trust Company, has certified that certain information is complete and accurate. Such information includes the composition, cost and current value of investments reported in the statements of net assets available for benefits and interest and dividend income and net change in fair value of investments reported in the statements of changes in net assets available for benefits.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is the present value of future benefit payments that are attributable, under the Plan's provisions, to employees' service rendered prior to December 1, 2009, the date the Plan was frozen. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation for the highest five consecutive years of service during the last 10 consecutive years of service prior to normal retirement age, or if different, the last date of active plan participation. Benefits payable under all circumstances (retirement, death and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, JH Benefits, Ltd., and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of July 1, 2019 and 2018 are as follows:

Actuarial Funding Method - The unit credit method was used for 2020 and 2019.

Discount Rate - The rate used to discount pension liabilities was 2.5% and 3.0% in 2020 and 2019, respectively.

DIRECTIONS FOR YOUTH & FAMILIES, INC.
PENSION PLAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

Investment Return - The expected rate of return on plan assets was 6.0% for 2020 and 2019.

Mortality Basis - For 2020, active employees and employees retired on normal or early pensions, mortality was based on the SOA RP-2014 Total Dataset Mortality with Scale MP-2019, and for 2019, SOA RP-2014 Total Dataset Mortality with Scale MP-2019.

Retirement Age - Retirement age is calculated using rates varying by age, resulting in an average retirement age of 65.

Rate of Compensation Increase - Assumed compensation increases for 2020 and 2019 were not applicable due to the Plan being frozen as of December 1, 2009.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of July 1, 2019 and 2018 is summarized as follows:

	<u>2019</u>	<u>2018</u>
Vested benefits:		
Participants currently receiving payment	\$ 2,311,570	\$ 2,447,331
Terminated participants with benefits deferred	856,530	776,089

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The change in actuarial present value of accumulated plan benefits for the years ended June 30, 2019 and 2018 is as follows:

	<u>2019</u>	<u>2018</u>

Actuarial present value of accumulated plan benefits, beginning of year	\$ 3,824,719	\$ 5,305,066

Actuarial Present Value Of Accumulated Plan Benefits, End Of Year	\$ <u>3,699,889</u>	\$ <u>3,824,719</u>

NOTE 5 - PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA. See subsequent event footnote ten.

Under provisions of ERISA, if the Plan is terminated, the Company may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits through insurance provided by the Pension Benefit Guaranty Corporation (PBGC). Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of those benefits guaranteed by the PBGC at that time. Certain benefits may be fully or partially provided for by the then-existing assets of the Plan and/or the PBGC guaranty. However, because the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations, there is the possibility that some benefits may not be provided for. A description of the priority of participants' claims to the assets of the Plan upon termination is published in the Plan document and made available to participants.

NOTE 6 - FAIR VALUE MEASUREMENT

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2020 and 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed Income Fund: The trustee uses unit values to perform daily account valuations based on the fund's guaranteed interest rates/periods. The fund's unit value is a product of the crediting interest rate and will increase incrementally to reflect interest that is earned daily. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

Money Market Fund: Valued at the NAV of shares held by the plan at year-end.

The following table represents the Plan's Level 3 asset, the valuation techniques used to measure the fair value of the asset, and the significant unobservable inputs and the ranges of values for those inputs:

June 30, 2019	Fixed Income Fund	\$ 211,977	Unit value	Crediting rates	2.20% over 1 year

NOTE 7 - TAX STATUS

The Plan adopted a form of a prototype plan. The prototype plan received an opinion letter dated March 31, 2008 from the IRS, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to tax examinations prior to 2016.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. At June 30, 2020 and 2019, the Plan held certain investment interests in a fixed income fund, of which Nationwide Life Insurance Company is the trustee. Accordingly, the Plan's investments in the fixed income fund qualify as a party-in-interest transaction. Fees paid by the Plan to parties-in-interest, including the trustee, totaled \$8,820 and \$8,920 for the years ended June 30, 2020 and 2019, respectively. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund. Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan. These transactions qualify as party-in-interest transactions.

JUNE 30, 2020 AND 2019

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The coronavirus pandemic could materially and adversely affect the Plan, its operations and its performance. Government-imposed quarantines have caused market performance of the investments to decline. Management of the Plan is unable to accurately predict how the pandemic will affect the results of Plan operations because the severity and duration of the pandemic are uncertain. However, while it is premature to accurately predict the ultimate impact of these developments, Plan management expects that the Plan's results for the year ended June 30, 2021 could be materially impacted.

NOTE 10 - SUBSEQUENT EVENT

Subsequent to year end the Company approved a plan of liquidation. As of the date of these financial statements the liquidation process has not commenced.
