NOTES TO FINANCIAL STATEMENTS

1 - DESCRIPTION OF PLAN

The following description of the Blair Medical Associates ("Company") Employees' 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering all full-time employees of the Company who completed six (6) months of service and were age twenty-one (21) or older, as defined. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective July 9, 2020, the Directors of the Company approved the termination of the Plan and the distribution of the assets of the Plan. All Plan assets were either distributed or transferred to another qualified plan by July 12, 2020.

Contributions

The Plan was frozen effective January 1, 2015. As a result, participant and employer contributions were no longer permitted.

Participant Accounts

Individual accounts were maintained for each of the Plan's participants. Each participant's account was credited with an allocation of Plan earnings, and charged with an allocation of administrative expenses. The benefit to which each participant was entitled was the benefit that could have been provided from the participant's vested account.

Vesting

All participant account balances were 100% vested when the Plan sponsor elected to freeze the Plan.

Notes Receivable - Participants

The Plan did not provide for loans to participants.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant could elect to receive either a lump-sum amount equal to the value in the participant's vested interest in his or her account, or annual installments over a specified period.

Forfeited Accounts

At December 31, 2019, the forfeited non-vested accounts totaled approximately \$300. These amounts were transferred to another qualified plan during 2020.

2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

For 2019, the financial statements of the Plan are prepared on the accrual basis of accounting and are prepared in conformity with U.S. generally accepted accounting principles ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"). For 2020, the financial statements of the Plan are reported on the liquidation basis of accounting in accordance with GAAP. There were no material changes to the 2019 financial statements as a result of the change under the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits were recorded when paid.

3 - INVESTMENTS

Fair Value Hierarchy

FASB ASC defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction to sell the asset or transfer the liability which occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1: Valuations based on unadjusted quoted prices available in active markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.
- Level 2: Valuations based on quoted prices for similar assets in active or inactive markets, inputs other than quoted prices that are observable, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

BLAIR MEDICAL ASSOCIATES EMPLOYEES' 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
(CONTINUED)

3 - INVESTMENTS (CONTINUED)

Fair Value Hierarchy (Continued)

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Processes and Structure

Management is responsible for the Plan's fair value valuation policies, processes, and procedures. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and that the assumptions are reasonable.

Fair Value Measurements

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that the Plan believes market participants would use in pricing the asset or liability at the measurement date.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2019:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Funds: Comprised of fixed income securities and valued at the NAV of units of the collective trust fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTES TO FINANCIAL STATEMENTS

3 - INVESTMENTS (CONTINUED)

Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments are initially recorded at their acquisition cost (if they were purchased) and at fair value (if they were received as a contribution). Subsequent to acquisition, investments are reported at their fair value. The net change in the difference between fair value and the cost of investments is reflected in the accompanying statements of changes in net assets available for benefits under the caption "Net Appreciation (Depreciation) in Fair Value of Investments."

The net realized gain (loss) on investments is the difference between the proceeds received and the carrying value of the investments sold. The cost of the investments includes earnings that are reinvested. Realized gains and losses on investments are accounted for on an individual security basis. Investment income is recorded on the accrual basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The following table summarizes the valuation of the Plan's investments by fair value hierarchy as described above as of December 31, 2019:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>December 31, 2019:</u>				
Mutual Funds	\$ 14,391,356	\$ -	\$ -	\$ 14,391,356
Collective Trust Fund	<u>-</u>	<u>2,760,741</u>	<u>-</u>	<u>2,760,741</u>
	<u>\$ 14,391,356</u>	<u>\$ 2,760,741</u>	<u>\$ -</u>	<u>\$ 17,152,097</u>

The Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by approximately (\$430,000) in 2020 and \$2.4 million in 2019.

4 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified as complete and accurate by Reliance Trust Company, the custodian of the Plan.

- a. Investments by fund group, at fair value;
- b. Dividend and interest income;
- c. Net appreciation (depreciation) in fair value of investments;
- d. Reportable transactions;
- e. Realized/unrealized gains on investments; and
- f. Administrative expenses.

5 - ADMINISTRATIVE EXPENSES

Plan administrative expenses consisted of service and asset charges of approximately \$440 and \$700 in 2020 and 2019, respectively. Remaining operating and administrative expenses were paid by the Plan sponsor.

6 - TAX STATUS

The Internal Revenue Service determined and informed the Sponsor by a letter dated March 31, 2014, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan was amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believed that the Plan was designed and was operating in compliance with the applicable sections of the IRC and therefore, believed that the Plan was qualified, and the related trust was tax exempt.

GAAP prescribes rules for the recognition, measurement, classification, and disclosure in the financial statements of uncertain tax positions taken or expected to be taken in the Plan's tax returns. Management has determined that the Plan did not have any uncertain tax positions and associated unrecognized tax benefits that materially impact the financial statements or related disclosures. Since tax matters are subject to some degree of uncertainty, there can be no assurance that the Plan's tax returns will not be challenged by the taxing authorities and that the Plan will not be subject to additional tax, penalties, and interest as a result of such a challenge. Generally, the Plan's federal returns remain open for income tax examination for three years from date of filing.

7 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were managed by Reliance Trust Company. Reliance Trust Company was the custodian under the Plan, and therefore, these transactions qualified as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made a direct payment to the third-party administrator of approximately \$400 and \$700 in 2020 and 2019, respectively.
