NOTE 1. DESCRIPTION OF THE PLAN

General: The Plan is a 401(k) defined contribution plan, which was established by Steuben Foods, Inc. and became effective on September 1, 1986. Worcester Creameries Corp., Steuben Sales, Inc., Elmhurst Dairy, Inc. and Dora's Naturals, Inc., affiliates of Steuben Foods, Inc., have also adopted the Plan. Steuben Foods, Inc., Worcester Creameries Corp., Steuben Sales, Inc., Elmhurst Dairy, Inc. and Dora's Naturals, Inc. are referred to as "the Company" in the financial statements. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Plan administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan trustees.

Effective October 30, 2016, the Company closed the Elmhurst Dairy, Inc. location and the majority of the employees were terminated.

Employees of the Company, who are not covered by a collective bargaining agreement, are eligible to participate in the Plan, subject to a length of service requirement. The Plan covers employees of the Company who have completed 3 months of service and have attained age 18.

The Plan was amended and restated effective January 1, 2018. Effective on and after August 1, 2018 the Plan was amended to allow participants to contribute Roth contributions. Effective on and after August 1, 2019 the Plan was amended to exclude fringe benefits and bonus from compensation for participant contributions.

In June 2020, Mountainside Farm Plan (MSF) transferred one employee into the Plan. As a result, $97,082 of investments for the employee were transferred into the Plan.

Contributions: Each year, participants may contribute an elective deferred contribution not to exceed the limits imposed by the Internal Revenue Code. All new participants are automatically enrolled in the Plan and have elective deferrals withheld in the amount of 5% of compensation unless they elect otherwise and participants with a deferral rate greater than 0% will have that deferral rate increased annually by 1% until a deferral rate of 6% is reached. The Company will make a matching contribution equal to 30% of the first 5% of base compensation that a participant contributes to the Plan.

The Plan allows the Company to make a discretionary profit sharing contribution. To be eligible for the discretionary contribution the participant shall have completed one year of service, attained age 21, and must be employed on the last day of the Plan year. The discretionary profit sharing contribution will be allocated among participants eligible to share in the contribution for the Plan year. The Company may contribute a different amount on behalf of each group, as defined in the Plan. The amount contributed on behalf of the participant will be allocated using an "age weighting" approach. Effective August 1, 2013, the Company may contribute a different amount on behalf of each participant of the Plan. The Company's discretionary profit sharing contribution included in employer contributions receivable on the statements of net assets available for benefits amounted to approximately $421,000 and $458,000 for the years ended July 31, 2020 and 2019, respectively.

Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions as of January 1, of that calendar year. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct their contributions and contributions made on their behalf into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, and Company's matching contribution, as well as allocations of the Company's discretionary profit sharing contribution and Plan earnings. Investments of participant accounts are participant-directed. Earnings on the investments held in each account are credited to that account, and accounts are charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Vesting: Participants are immediately vested in their contributions and in the Company's matching contributions, plus actual earnings thereon net of any allocation of administrative expenses. Employees eligible to receive a discretionary profit sharing contribution are 100% vested after three years of service for participants who entered the Plan before August 1, 2013. For those participants who entered the Plan on or after August 1, 2013, discretionary profit sharing contributions are 20% vested after two years, 40% after 3 years, 60% after 4 years, 80% after 5 years, and 100% after 6 years of service.

Notes Receivable from Participants: Participants may borrow from their fund accounts the lesser of $50,000 or 50% of their non-forfeitable account balance. Terms of the notes range from one to five years or in excess of five years for the purchase of a primary residence. The notes are collateralized by the balance in the participant's account and bear interest at a rate commensurate with similar loans from commercial lending institutions. Principal and interest are paid in equal installments over the term of the receivable through payroll deductions.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or one of several other options offered by the Plan, subject to the amount of the participant's vested interest in his or her account. On termination of employment for other reasons, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, leave the account under the Plan until death, disability or retirement, or one of several other options offered by the Plan, subject to the amount of the participant's vested interest in his or her account.

Forfeited Accounts: At July 31, 2020, forfeited non-vested accounts totaled $20,710 ($9,121 - 2019). These accounts can be used to reduce future employer contributions to the Plan or to pay plan expenses. There were no forfeitures used during the year ended December 31, 2020. During the year ended July 31, 2019, there were approximately $49,000 of forfeitures used to reduce employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus an accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of July 31, 2020 or 2019. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits: Benefits are recorded when paid.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized gains on investment transactions.

CARES and SECURE Act: During 2020, the Plan adopted changes to certain distribution and loan provisions in response to the passing of the CARES Act and SECURE Act by the United States Congress. The CARES Act amendment enables participants impacted by the coronavirus to take a penalty-free distribution, allows current outstanding loan payments to be delayed for up to 12 months, and increases the maximum loan limits for loans taken as a result of the virus. The SECURE Act amendment changes the required minimum distribution age from 70½ to 72. An official amendment to the Plan is expected to be signed prior to December 31, 2022.

Subsequent Event: The Plan evaluated its financial statements for subsequent events through May 14, 2021. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which could potentially negatively impact future investment balances. Other financial impacts could occur though such potential impacts are unknown and/or are not reasonably estimable at this time. These financial statements have not been updated for subsequent events occurring after May 14, 2021, which is the date these financial statements were available to be issued.

NOTE 3. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at July 31, 2020 and 2019, as well as earnings and transactions for the years then ended, has been derived from information provided by Wells Fargo Bank, N.A. (Wells Fargo), the trustee, and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements and supplemental schedule is based solely on their certification and has not been audited by independent accountants.

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2020 and 2019.

Shares of Registered Investment Companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish daily net asset value (NAV) and to transact at that price.

Common/Collective Trusts: These investments are composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily if the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of July 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Investments at Fair Value as of July 31, 2020		
	(Level 1)	**(Level 2)**	**Total**
Shares of registered investment companies	$ 18,831,039	$ -	**$ 18,831,039**
Common/collective trusts (a)	-	-	**31,125,023**
Total investments at fair value	$ 18,831,039	$ -	**$ 49,956,062**

	Investments at Fair Value as of July 31, 2019		
	(Level 1)	**(Level 2)**	**Total**
Shares of registered investment companies	$ 20,239,412	$ -	$ 20,239,412
Common/collective trusts (a)	-	-	25,524,802
Cash	3	-	3
Total investments at fair value	$ 20,239,415	$ -	$ 45,764,217

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of their fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments in common/collective trusts are managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in realized gains on investments, as they are paid through revenue sharing, rather than direct payment. The Plan sponsor pays directly any other fees related to the Plan's operations. Fees paid by the Plan amounted to $198,143 for the year ended July 31, 2020 ($197,553 - 2019). Net appreciation on these investments (including gains (losses) on investments bought and sold, as well as held during the year) amounted to $1,400,369 for the year ended July 31, 2020 ($1,170,483 - 2019). Interest income from notes receivable from participants amounted to $103,382 for the year ended July 31, 2020 ($83,149 - 2019).

NOTE 6. PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

NOTE 8. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 1. DESCRIPTION OF THE PLAN

General: The Plan is a 401(k) defined contribution plan, which was established by Steuben Foods, Inc. and became effective on September 1, 1986. Worcester Creameries Corp., Steuben Sales, Inc., Elmhurst Dairy, Inc. and Dora's Naturals, Inc., affiliates of Steuben Foods, Inc., have also adopted the Plan. Steuben Foods, Inc., Worcester Creameries Corp., Steuben Sales, Inc., Elmhurst Dairy, Inc. and Dora's Naturals, Inc. are referred to as "the Company" in the financial statements. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Plan administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan trustees.

Effective October 30, 2016, the Company closed the Elmhurst Dairy, Inc. location and the majority of the employees were terminated.

Employees of the Company, who are not covered by a collective bargaining agreement, are eligible to participate in the Plan, subject to a length of service requirement. The Plan covers employees of the Company who have completed 3 months of service and have attained age 18.

The Plan was amended and restated effective January 1, 2018. Effective on and after August 1, 2018 the Plan was amended to allow participants to contribute Roth contributions. Effective on and after August 1, 2019 the Plan was amended to exclude fringe benefits and bonus from compensation for participant contributions.

In June 2020, Mountainside Farm Plan (MSF) transferred one employee into the Plan. As a result, $97,082 of investments for the employee were transferred into the Plan.

Contributions: Each year, participants may contribute an elective deferred contribution not to exceed the limits imposed by the Internal Revenue Code. All new participants are automatically enrolled in the Plan and have elective deferrals withheld in the amount of 5% of compensation unless they elect otherwise and participants with a deferral rate greater than 0% will have that deferral rate increased annually by 1% until a deferral rate of 6% is reached. The Company will make a matching contribution equal to 30% of the first 5% of base compensation that a participant contributes to the Plan.

The Plan allows the Company to make a discretionary profit sharing contribution. To be eligible for the discretionary contribution the participant shall have completed one year of service, attained age 21, and must be employed on the last day of the Plan year. The discretionary profit sharing contribution will be allocated among participants eligible to share in the contribution for the Plan year. The Company may contribute a different amount on behalf of each group, as defined in the Plan. The amount contributed on behalf of the participant will be allocated using an "age weighting" approach. Effective August 1, 2013, the Company may contribute a different amount on behalf of each participant of the Plan. The Company's discretionary profit sharing contribution included in employer contributions receivable on the statements of net assets available for benefits amounted to approximately $421,000 and $458,000 for the years ended July 31, 2020 and 2019, respectively.

Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions as of January 1, of that calendar year. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct their contributions and contributions made on their behalf into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, and Company's matching contribution, as well as allocations of the Company's discretionary profit sharing contribution and Plan earnings. Investments of participant accounts are participant-directed. Earnings on the investments held in each account are credited to that account, and accounts are charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Vesting: Participants are immediately vested in their contributions and in the Company's matching contributions, plus actual earnings thereon net of any allocation of administrative expenses. Employees eligible to receive a discretionary profit sharing contribution are 100% vested after three years of service for participants who entered the Plan before August 1, 2013. For those participants who entered the Plan on or after August 1, 2013, discretionary profit sharing contributions are 20% vested after two years, 40% after 3 years, 60% after 4 years, 80% after 5 years, and 100% after 6 years of service.

Notes Receivable from Participants: Participants may borrow from their fund accounts the lesser of $50,000 or 50% of their non-forfeitable account balance. Terms of the notes range from one to five years or in excess of five years for the purchase of a primary residence. The notes are collateralized by the balance in the participant's account and bear interest at a rate commensurate with similar loans from commercial lending institutions. Principal and interest are paid in equal installments over the term of the receivable through payroll deductions.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or one of several other options offered by the Plan, subject to the amount of the participant's vested interest in his or her account. On termination of employment for other reasons, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, leave the account under the Plan until death, disability or retirement, or one of several other options offered by the Plan, subject to the amount of the participant's vested interest in his or her account.

Forfeited Accounts: At July 31, 2020, forfeited non-vested accounts totaled $20,710 ($9,121 - 2019). These accounts can be used to reduce future employer contributions to the Plan or to pay plan expenses. There were no forfeitures used during the year ended December 31, 2020. During the year ended July 31, 2019, there were approximately $49,000 of forfeitures used to reduce employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus an accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of July 31, 2020 or 2019. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits: Benefits are recorded when paid.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized gains on investment transactions.

CARES and SECURE Act: During 2020, the Plan adopted changes to certain distribution and loan provisions in response to the passing of the CARES Act and SECURE Act by the United States Congress. The CARES Act amendment enables participants impacted by the coronavirus to take a penalty-free distribution, allows current outstanding loan payments to be delayed for up to 12 months, and increases the maximum loan limits for loans taken as a result of the virus. The SECURE Act amendment changes the required minimum distribution age from 70½ to 72. An official amendment to the Plan is expected to be signed prior to December 31, 2022.

Subsequent Event: The Plan evaluated its financial statements for subsequent events through May 14, 2021. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which could potentially negatively impact future investment balances. Other financial impacts could occur though such potential impacts are unknown and/or are not reasonably estimable at this time. These financial statements have not been updated for subsequent events occurring after May 14, 2021, which is the date these financial statements were available to be issued.

NOTE 3. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at July 31, 2020 and 2019, as well as earnings and transactions for the years then ended, has been derived from information provided by Wells Fargo Bank, N.A. (Wells Fargo), the trustee, and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements and supplemental schedule is based solely on their certification and has not been audited by independent accountants.

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2020 and 2019.

Shares of Registered Investment Companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish daily net asset value (NAV) and to transact at that price.

Common/Collective Trusts: These investments are composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily if the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of July 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Investments at Fair Value as of July 31, 2020		
	(Level 1)	**(Level 2)**	**Total**
Shares of registered investment companies	$ 18,831,039	$ -	**$ 18,831,039**
Common/collective trusts (a)	-	-	**31,125,023**
Total investments at fair value	$ 18,831,039	$ -	**$ 49,956,062**

	Investments at Fair Value as of July 31, 2019		
	(Level 1)	**(Level 2)**	**Total**
Shares of registered investment companies	$ 20,239,412	$ -	$ 20,239,412

Cash	3	-	3
Total investments at fair value	$ 20,239,415	$ -	$ 45,764,217

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of their fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments in common/collective trusts are managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in realized gains on investments, as they are paid through revenue sharing, rather than direct payment. The Plan sponsor pays directly any other fees related to the Plan's operations. Fees paid by the Plan amounted to $198,143 for the year ended July 31, 2020 ($197,553 - 2019). Net appreciation on these investments (including gains (losses) on investments bought and sold, as well as held during the year) amounted to $1,400,369 for the year ended July 31, 2020 ($1,170,483 - 2019). Interest income from notes receivable from participants amounted to $103,382 for the year ended July 31, 2020 ($83,149 - 2019).

NOTE 6. PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

NOTE 8. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
