General – The following description of the Actelion 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan was a defined contribution plan that was established in 2000 by Actelion Pharmaceuticals US, Inc. (the Company), to provide benefits to eligible employees, as defined in the plan document. The Plan was designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In June 2017, the Company was acquired by Janssen Pharmaceutical Companies, a subsidiary of Johnson and Johnson. Effective January 1, 2019, contributions to the Plan were frozen, accounts of all employees of the Company became 100% vested, and all eligible employees of the Company became eligible to participate in the Johnson and Johnson Savings Plan (the Johnson and Johnson Plan). In September 2020, the Board of Directors of the Company approved the merger of the Plan with the Johnson and Johnson Plan and assets of approximately \$79,245,000, including participant loans of approximately \$526,000, were transferred on December 3, 2020.

Administration – The Company had appointed a plan administrator to manage the operation and administration of the Plan. The Company had contracted with Fidelity Management Trust Company (Fidelity) to act as the trustee and custodian, and an affiliate of Fidelity to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan were paid by the Company.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts – Forfeited nonvested amounts could have been used first to pay plan administrative expenses, and then used to reduce future employer contributions.

Investment valuation and income recognition – The Plan's investments are stated at fair value. The Plan's trustee, Fidelity, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Notes to Financial Statements

Notes receivable from participants – Notes receivable from participants (notes receivable) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions upon the occurrence of a distributable event based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2019.

Income taxes – The Plan had adopted a Volume Submitter plan that had received an advisory letter from the Internal Revenue Service. The plan administrator believes that the Plan was operated in accordance with, and qualified under, the applicable requirements of the Code and related state statutes, and that the trust, which formed a part of the Plan, was exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes Accounting Standards Codification 740-10, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The Plan provided for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term could have materially affected participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent events – The Plan has evaluated subsequent events through June 3, 2021, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value.

Mutual and money market funds: Valued at the daily closing price as reported by the fund. Mutual and money market funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Self-directed brokerage accounts are comprised primarily of mutual funds, common stock and cash which are valued on the basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	2019			Total
	Level 1	Level 2	Level 3	
Money market fund	\$ 1,941,340	\$ -	\$ -	\$ 1,941,340
Mutual funds	87,101,616	-	-	87,101,616
Self-directed brokerage accounts	677,540	-	-	677,540
Investments at fair value	<u>\$ 89,720,496</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 89,720,496</u>

NOTE 3 – RELATED-PARTY TRANSACTIONS

Certain plan investments were managed by an affiliate of Fidelity, the trustee of the Plan. Any purchases and sales of these funds were performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, were permitted under the provisions of the Plan and were specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 – PARTICIPATION AND BENEFITS

Participant and employer contributions – Effective January 1, 2019, participant and employer contributions to the Plan were frozen.

Participants were allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions were deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Vesting – Effective January 1, 2019, as a result of the acquisition of the Company (see Note 1), the Plan was amended to vest all currently unvested employer contributions for participants with an account balance.

Participant accounts – Each participant's account was credited with the participant's contribution and Plan earnings or losses.

Payment of benefits – Upon termination, the participants or beneficiaries could have elected to leave their account balance in the Plan or received their total benefits in a lump-sum equal to the value of the participant's interest in their account. The Plan allowed for the automatic distribution of participant vested account balances that did not exceed \$5,000.

Notes receivable from participants – The Plan allowed participants to borrow not less than \$1,000 and up to the lesser of \$50,000 or 50% of their account balance. The notes receivable were secured by the participant's balance. Such notes receivable bore interest at the available market financing rates and had to be repaid to the Plan within a five-year period, unless the proceeds were used for the purchase of a principal residence in which case the maximum repayment period could have been longer. The specific terms and conditions of such notes receivable were established by the plan administrator.

NOTE 5 – CERTIFIED INFORMATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable reflected on the accompanying statements of net assets available for benefits as of December 3, 2020 and December 31, 2019.
- Net appreciation in fair value of investments, dividends and interest, and interest income from notes receivable reflected on the accompanying statements of changes in net assets available for benefits for the period January 1, 2020 through December 3, 2020, and for the year ended December 31, 2019.
