Weaver Brothers, Inc. Profit Sharing Plan
Notes to Financial Statements

Note 1 - Description Of Plan:

The following description of the Weaver Brothers, Inc. (Company) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investments, monitors investment performance, and reports to the Plan's Board of Trustees.

Contributions

The amount and timing of Company contributions to the Plan are at the discretion of the Company's board of directors.

Participant Accounts

Each participant's account is credited with an allocation of (a) the Company's contribution, (b) Plan earnings and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant is 100 percent vested after six years of credited service.

Payment of Benefits

On termination of service, participants may elect to receive either a lump-sum amount equal to the value of his or her account, or installments.

Administrative Expenses

Administrative expenses consist of asset management fees, audit fees, and third party administration fees.

Forfeitures

Forfeitures are reallocated on a salary ratio basis. Forfeitures were \$5,562 and \$769 for the years ended December 31, 2020 and 2019.

Note 2 - Summary Of Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Note 2 - (Continued)

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has benefit-responsive investment contracts with Provident Life Insurance Company and Baltimore Life Company. The insurance companies maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administration expenses. The contracts are included in the financial statements at fair value and adjusted for the difference between fair value and contract value as reported to the Plan by Provident Life Insurance Company and Baltimore Life Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against value for credit risk of the contract issuer or otherwise.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of management's estimates. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Actual results could differ from those estimates.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Administrative expenses of the plan are allocated to participant accounts.

Subsequent Events

Management has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

Note 3 - Investments:

Unrealized investment gains (losses) for the year, per fund, are as follows:

	<u>12/31/2020</u>	<u>12/31/2019</u>
Equity Mutual Funds	\$ 57,953	\$ 111,002
Common Stock	108,828	108,660
U.S. Government Securities	8,695	14,180
Bond Mutual Funds	61,157	60,917
Life Insurance	(535)	(3,257)
Total Unrealized Gains (Losses)	<u>\$ 236,099</u>	<u>\$ 291,502</u>

Note 4 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 5 - Tax Status:

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed. The Plan is no longer subject to examination by the IRS for years before December 31, 2017.

Note 6 - Risk And Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 7 - Related Party And Party In Interest Transactions:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan.

Certain employees and the officer of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost to the plan.

Note 8 - Market Conditions:

Changes in investment returns and fair values can have a significant effect on the Plan. Management is monitoring investment market conditions and the impact such volatility is having on the Plan's investment portfolio. Due to the volatility of the financial markets as of the date of this report, there is uncertainty regarding the impact which continued volatility may have on the Plan's investment portfolio.

Note 9 - Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits, except for fully benefit-responsive investment contracts, which are reported at contract value. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. The Investment Committee determines the Plan's valuation policies. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Basis of Fair Value Measurement

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2020 and 2019. As required by FASB ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value

measurement. The insurance contracts values are determined by the insurance company. The values are based on premiums paid less mortality charges and other expenses plus earnings.

Note 11 - Subsequent Event

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 ("COVID-19") as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to extreme volatility in financial markets and has affected, and may continue to affect, the market price of Plan investments. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

The Plan is in the process of operationally being amended to implement certain changes permitted by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, Among others, allow certain eligible individuals to receive coronavirus-related distributions. Written amendments to the Plan to reflect these operation changes will be adopted at a later date in accordance with applicable law and IRS guidance. No other subsequent events were identified through the report date, the date these financial statements were issued.
