1. DESCRIPTION OF PLAN:

The following description of the Chillicothe Telephone Company Union Employees' Pension Plan and Trust Agreement (the Plan) is provided for general informational purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory, defined benefit plan covering all eligible employees of the Chillicothe Telephone Company (the Company and Employer) who are covered by a collective bargaining agreement. Effective December 31, 2006, benefit accruals under the Plan were frozen and the Plan was closed to new entrants. Benefits continue to vest in accordance with the existing vesting schedule. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Contributions

Employer contributions are made in amounts sufficient, on an actuarial basis, to fund at a minimum, the Plan's normal cost on a current basis and to fund the actuarial liability for past service costs in accordance with Department of Treasury Regulations. The Employer's contributions to the Plan during the years ended August 31, 2020 and 2019 satisfied the minimum funding requirements established by ERISA and did not exceed the Employer's maximum allowable contributions for that Plan year.

Eligibility

The Plan covers all eligible employees, with certain exclusions per the plan document, who are covered by the terms of a collective bargaining agreement between the Company and an employee representative and were employed before September 1, 2006. Effective December 31, 2006, participation in the plan was frozen. Employees hired after September 1, 2006, are not eligible for plan benefits. Existing participant's accrued benefits will not increase after December 31, 2006.

Pension benefits

Participants are fully vested in accrued benefits after completing 5 years of service. Fully accrued benefits are provided at the normal retirement age of 65. Benefits are provided to employees electing early retirement at reduced amounts, as defined by the Plan. Employees receive their pension benefits in the form of an annuity unless another form of payment is elected. The Trustees may elect to pay in one lump-sum the actuarial equivalent of the aggregate amount of unpaid monthly benefits.

Beneficiaries of vested participants are entitled to death benefits according to the Plan provisions. Active participants who become totally disabled receive monthly disability benefits that are equal to the normal retirement benefits had the employee continued service with the Company to normal retirement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The financial statements are prepared on the accrual basis of accounting under accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as administrative expenses. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through June 14, 2021, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE:

All financial data related to investments used in the preparation of the statements of net assets available for benefits, statements of changes in net assets available for benefits and the supplemental schedules have been certified as to the completeness and accuracy by the Plan's trustee, Huntington National Bank, as of and for the years ended August 31, 2020 and 2019.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2020 and 2019.

Interest-bearing cash: Valued at observable market quotations for identical assets and priced on a daily basis.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Pension Plan and Trust Agreement
Notes to the Financial Statements
August 31, 2020 and 2019

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at August 31, 2020 and 2019.

5. ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by employees through December 31, 2006. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances, retirement, death, disability and termination of employment, are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

Chillicothe Telephone Company Union Employees'
Pension Plan and Trust Agreement
Notes to the Financial Statements
August 31, 2020 and 2019

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the computations are as follows at September 1:

	<u>2019</u>	<u>2018</u>
Discount rate	6.75%	6.75%
Retirement	100% at age 65	100% at age 65
Form of benefit payment	Life annuity	Life annuity
Mortality rate tables	Pri-2012 Mortality Table with MP-2019 Scaling (amount weighted)	RP-2014 Blue Collar Generational (Scale MP- 2018) - healthy and disabled

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of plan benefits.

The actuarial present value of accumulated plan benefits as of the beginning of each Plan year is as follows at September 1, 2019:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 4,016,750
Other participants	<u>2,695,256</u>

Total vested benefits	6,712,006
-----------------------	-----------

Nonvested benefits for other participants	<u>-</u>
	\$ <u><u>6,712,006</u></u>

The changes in accumulated plan benefits during the year ended September 1, 2019, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>6,863,752</u>
Decrease during the year attributable to:	
Benefits accumulated and actuarial gain	253,539
Interest accumulated	436,405
Assumption changes	(31,461)
Benefits paid	<u>(810,229)</u>
Total decrease	<u>(151,746)</u>
Actuarial present value of accumulated plan benefits at end of year	\$ <u><u>6,712,006</u></u>

6. INCOME TAX STATUS:

The Internal Revenue Service has determined and informed the Company by a letter dated March 18, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

7. PARTY-IN-INTEREST TRANSACTIONS:

The Plan utilizes a third-party administrator, Huntington Bank (Huntington). Huntington is a named plan trustee and provides investment management and custodial services to the Plan. Certain plan investments held during the year are managed by Huntington. Transactions with Huntington qualify as party-in-interest transactions.

8. PLAN TERMINATION:

Effective December 31, 2006, benefit accruals under the Plan were frozen and the Plan was closed to new entrants. The Company intends to continue the Plan and the payment of contributions until the existing obligations are satisfied. However, the Company reserves the right under the Plan to terminate the Plan at any time. In the event of termination of the Plan, the net assets of the Plan shall be used for the exclusive benefits of the participants and their beneficiaries in a manner consistent with the requirements of ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the plan and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. PLAN OPERATIONS IMPACTED BY COVID-19:

On March 11, 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is ongoing and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in net assets available is uncertain and cannot be reasonably estimated at this time.

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS

Changes to the actuarial methods and assumptions from the prior valuation report include the following:

COST METHOD

In accordance with PPA, the annual cost is equal to the target normal cost plus the shortfall amortization charge minus any prefunding and carryover balances.

Unit Credit method. The normal cost is the sum of the individual normal costs for active participants. The normal cost for an individual is the present value, as of the valuation date, of the participant's retirement, death, and withdrawal benefits which he is expected to accrue during the current plan year.

The actuarial accrued liability is the sum of the individual present values, for all participants, of the benefits accrued, based on service to the valuation date.

ACTUARIAL ASSUMPTIONS

Interest Rate (as prescribed by PPA and modified by MAP-21, HATFA and BBA)

Without Adjusted Interest Rates:

Liabilities are valued using the three segment rates based on the 24-month average of the corporate bond yield curve published by the Secretary of the Treasury for the applicable month of May.

With Adjusted Interest Rates:

Adjusted 24-month segment rates using 25-year average segment rate corridors under MAP-21, further adjusted by HATFA/BBA permissible corridors (90%/110%) for the plan year beginning in 2019.

PBGC Premiums:

Liabilities are valued using the three segment rates based on the 24-month average of the corporate bond yield curve published by the Secretary of the Treasury for the applicable month of May.

	Without Adjusted Interest Rates	With Adjusted Interest Rates	PBGC Premiums
Segment 1 (0 to 5 years)	2.71%	3.74%	2.71%

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS

(continued)

RATIONALE FOR ASSUMPTIONS

1. Prescribed Assumptions: The Interest Rates and Mortality Assumptions are prescribed by the IRS and/or Plan Sponsor elections.
2. The Retirement, Withdrawal, and Disability Assumptions were chosen based on the assumptions utilized by the previous actuary.
3. The Expected Return on Plan Assets is based on the plan's current and expected future asset portfolio, as supported by the plan's Investment Manager.

ASSET VALUATION

The actuarial value of plan assets is developed as the 3-year average of the plan assets based on the market value of assets as of the valuation date and the "adjusted value" of market assets for each of the two immediately preceding valuation dates. The adjusted value of assets at each preceding valuation date is equal to the market value of assets on such valuation date plus the net cash flow amount (including expected earnings on investments) for each following year up to the current valuation date. In this way, one third of the investment gain or loss over the preceding twelve months is recognized in plan assets immediately, and the other two thirds is deferred. Valuation assets are further limited to a 10% corridor around market value.

ATTRIBUTION PARAMETERS

Attribution parameters determine how growth in the benefit formula is allocated to years of service.

Linear proration to decrement – This method spreads the projected benefit as of each decrement age linearly over attribution service until the decrement age.

ACCRUED AND VESTED BENEFITS

Vested benefits are based on the plan document's vesting schedule based on years of service. Please refer to the Summary of Plan Provisions section of this report for requirements for particular benefits.

Early retirement subsidies are only valued once participants become eligible by meeting the specified requirements.

Disability and death benefits (other than the qualified pre-retirement survivor annuity) are not treated as vested benefits for liability calculation purposes.

Compensation after December 31, 2006 will not be considered.

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit earned as of the accrual date. The benefit is calculated according to the formulas in the Normal Retirement Benefit section above, with the exception that formula (2) is multiplied by a fraction (not exceeding one) of the service at the accrual date over the participant's service projected to normal retirement.

Benefits were frozen effective December 31, 2006.

Early Retirement Benefit

Upon the attainment of age 60 and the completion of 10 years of vesting service or for those separating from service on or after November 16, 2003, with age and vesting service totaling at least 90, a participant may elect to retire. He may receive a monthly benefit normal retirement date based on his years of service at his early retirement date. Payments may commence prior to his normal retirement date, with the benefit calculated as of his early retirement date and being reduced by $\frac{1}{12}$ of 1% for each full month by which the commencement date precedes the normal retirement date.

Benefits were frozen effective December 31, 2006.

Disability Retirement Benefit

A participant who becomes totally and permanently disabled before his normal retirement date may retire and receive a disability retirement benefit calculated in the same manner as the normal retirement benefit, but payable at the disability retirement age. Payment of this disability benefit will cease upon death, reaching normal retirement, ending disability status or a total of 180 payments whichever occurs first. A participant is eligible for his normal retirement benefit if he is still disabled at his normal retirement age.

Benefits were frozen effective December 31, 2006.

SUMMARY OF PLAN PROVISIONS (CONTINUED)

Death Benefit

In the event of a vested active participant's death, a spouse's benefit will be payable assuming the participant had terminated on the day prior to death and elected a joint and one-half contingent annuitant survivor benefit commencing at the earliest possible retirement date. Reductions may apply to this benefit. For non-qualified spouses and children under age 21, an annuity to commence the second month following death to be paid until there is no longer a surviving spouse, any child under age 21 or a total of 120 monthly payments have been made, whichever comes first.

Benefits were frozen effective December 31, 2006.

Severance Benefits

Upon the termination of employment after five or more years of service, a participant shall have a vested interest in his accrued benefit which will be payable at the normal retirement date. The percentage vested shall be:

<u>Years of Service</u>	<u>Vested Percent</u>
Fewer than 5	0%
5 or more	100%

Normal Form of Payment

The normal form of payment is an annuity paid in monthly installments for life.

Optional Methods of Settlement

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall be automatically paid under option (1) below. The options are:

(1) An adjusted benefit to be paid during the participant's lifetime with one-half benefit to be continued to his spouse for her lifetime after his death.

(2) An adjusted benefit to be paid during the participant's lifetime with three-fourths benefit to be continued to his spouse for her lifetime after his death.

SUMMARY OF PLAN PROVISIONS (CONTINUED)

(3) An adjusted benefit to be paid during the participant's lifetime with the same adjusted benefit to be continued to his spouse for her lifetime after his death.

(4) An adjusted benefit to be paid for 180 months certain and thereafter for life.

(5) A lump sum benefit.

Optional forms of payment are actuarially equivalent based on the 1971 Group Annuity Mortality Table for males, with no mortality from age 59 to 64 and a 6% interest assumption. Lump sum benefits are based on the applicable mortality table and the applicable interest rates for the second month preceding the first day of the plan year.

Amendment or Termination of Plan

The employer reserves the right to amend or terminate the plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the plan if the employer fails to meet the minimum funding standards, or is unable to pay benefits when due.

If the plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the employer shall be liable for any unfunded vested benefits to the extent required by law.

The above description is a summary only; for additional details, reference should be made to the formal plan document.
