INDEPENDENT AUDITOR'S REPORT

To the Trustees of
Cattlemens Profit Sharing Plan
Santa Rosa, California

Report on the Financial Statements
I have audited the accompanying financial statements of the Cattlemens Profit Sharing Plan, which comprise the statements of net assets available for benefits as of August 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Other Matter – 2019 Financial Statements
The financial statements of the plan as of August 31, 2019, were audited by predecessor auditors. Their report, dated June 5, 2020, stated the 2019 financial statements present fairly, in all material respects, the net assets available for benefits of the Cattlemens Profit Sharing Plan as of August 31, 2019, in accordance with accounting principles generally accepted in the United States of America.

Opinion
In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Cattlemens Profit Sharing Plan as of August 31, 2020, and the changes in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

My audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of Schedule of Assets (Held at End of Year) as of August 31, 2020 and Schedule of Reportable Transactions for the year ended August 31, 2020, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

CATTLEMENS PROFIT SHARING PLAN
Notes to Financial Statements
August 31, 2020 and 2019

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Cattlemens Profit Sharing Plan (the Plan) provides only general information. The Plan's sponsor is Cattlemens, Inc. (the Company). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a profit sharing plan. The Plan was established August 30, 1976 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was amended and restated on August 8, 2015. The Plan Trustees are responsible for oversight of the Plan.

Eligibility – Employees of the Company are eligible to participate in the Plan as of the September 1st that occurs immediately before the date that all of the age and service requirements have been met. Employees must be 18 years of age, completed 12 consecutive months of employment, worked at least 1,000 hours of service during the applicable Plan year, and be employed as of the last day of the Plan year.

Contributions – Contributions to the Plan are made at the discretion of the Board of Directors of Cattlemens, Inc. Employer contributions are allocated and credited to each eligible participant on each anniversary date. The participants allocable share is based on eligible compensation. The Company did not make an employer contribution during the fiscal year ended August 31, 2020. Under the provisions of the Plan, employee contributions are neither required or allowed.

Participant Accounts – The Plan maintains separate accounts for each eligible participant. Each participant's account is credited with the Company's contributions, the Plan earnings, and the forfeitures of terminated participants' nonvested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's accounts.

Investment Direction – All of the Plan's investments are non-participant directed. The Plan's trustees have authority to supervise and direct the investments of the Plan and monitor investment performance.

Vesting - Participants who are employed on or after his or her Normal Retirement Age or terminate employment for reasons of death or disability, will be 100% vested in their accounts. Vesting is in accordance with a graded vesting schedule based on the number of years of credited service in which at least 1,000 hours are worked in a plan year. A participant vests 20% after two years of services and 20% for each additional year of credited service. A participant is fully vested after accumulating six years of credited service.

NOTE 1 – DESCRIPTION OF THE PLAN (continued)

Forfeited Accounts - Available forfeitures of the nonvested portion of terminated participants' accounts can be used to reduce administrative expenses, to reduce employer contributions, or to allocate as additional discretionary employer contributions. During the year ended August 31, 2020, forfeitures totaling $19,947 were allocated to participant accounts in the same manner as Company contributions. Forfeited nonvested accounts totaled $11,851 and $19,947 at August 31, 2020 and 2019, respectively.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms generally range from one to five years. The loans are secured by the vested balance in the participant's account. A participant's account is charged monthly interest on the outstanding loan balance. Interest rates on loans ranged from 5.75% to 6.5% per annum during the fiscal year ended August 31, 2020. Notes receivable mature at various dates through June 30, 2023. Principal and interest are paid ratably through payroll deductions.

Allocations of Earnings – Earnings and losses on the Plan's investments are allocated each valuation date based on (a) each participant's account balance as of the preceding valuation date reduced by his or her distributions or withdrawals during the plan year subsequent to the valuation date, divided by (b) the total value of the trust fund reduced by any distributions or withdrawals during the plan year subsequent to the valuation date.

Payment of Benefits – A terminated participant whose vested account balance exceeds $1,000 may elect to receive either a lump-sum amount equal to the value of the vested portion of his or her account, or the value of the vested portion of his or her account payable in installments. Participants who have been participants for a minimum of five year can also make in-service withdrawals on or after attaining age 59 ½. The Plan will make a mandatory distribution for terminated participants whose vested account balance, excluding any rollover amount, is $1,000 or less.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their account balances.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of August 31, 2020 and 2019.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Expenses of maintaining the Plan are primarily paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs reflect the Trustees' own assumptions about the assumptions market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances and may include the Trustee's own data.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2020 and 2019.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

Level One Investments

Mutual Funds

Mutual Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. These investments are reflected as Level 1 because the inputs used to determine fair value are quoted prices in an active market.

Exchange Traded Funds

Exchange Traded Funds (ETF) are valued at the closing price as reported by the active market on which the ETF is traded. ETFs are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) at the end of each day. These investments are reflected as Level 1 because the inputs used to determine fair value are quoted prices in an active market.

Level Two Investments

Money Market Fund

Money Market Fund transactions may occur daily. The securities are valued at amortized cost, which approximates fair value. The amortized cost is determined by valuing it at its original cost and thereafter amortizing any discount or premium for its face value at a constant rate until maturity. Securities held are generally high quality and liquid; however, they are reflected as Level 2 because the inputs used to determine fair value are not quoted prices in an active market.

Level Three Investments

Limited Liability Company

The limited liability company's assets consist of real estate. The fair value is determined by the Company's chief financial officer and the Plan trustees using the estimated appraised value of the real estate. The asset is not actively traded, and significant inputs are unavailable.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2020 and 2019:

Assets at Fair Value as of August 31, 2020

		Fair Value Measurements Using		
	Fair Value 8/31/20	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$964,550	$964,550	$ -	$ -
Exchange Traded Funds	417,457	417,457	-	-
Money Market Fund	37,815	-	37,815	-
Totals	$1,419,822	$1,382,007	$37,815	$ -

Assets at Fair Value as of August 31, 2019

		Fair Value Measurements Using		
	Fair Value 8/31/19	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Exchange Traded Funds	$2,329,835	$2,329,835	$ -	$ -
Limited Liability Company	25,000	-	-	25,000
Totals	$2,354,835	$2,329,835	$ -	$25,000

Changes in Fair Value of Level 3 Assets

The Plan received a distribution of the remaining assets in the limited liability company during the year ended August 31, 2020.

NOTE 4 – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan's investments are primarily held by Charles Schwab & Company, Inc. in a Schwab One trust account. Investment related expenses paid by the Plan to Charles Schwab and its affiliates are party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Fees incurred by the Plan for investment transaction and management services are included in net appreciation in fair value of the investment. The Plan made direct payments to service providers totaling $44 in the year ended August 31, 2020. The Plan Sponsor pays directly any other fees related to the Plan's operations.

NOTE 5 – TAX STATUS

The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and the related trust's net income is exempt from income taxes. The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 27, 2016 that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing authorities. There are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

On January 21, 2020, the Center for Disease Control and Prevention confirmed the first case of 2019 Novel Coronavirus (2019-nCoV) in the United States. On March 13, 2020, President of the United States declared a national emergency due to the outbreak of 2019-nCoV in the United States of America. The financial markets for investment securities have become abnormally volatile, and the risk of material investment losses has significantly increased due to these events. The exact outcome on the Plan is not known.

NOTE 7 – SUBSEQUENT EVENTS

The plan has evaluated subsequent events for recognition and disclosure through June 15, 2021, the date the financial statements were available to be issued. Management concluded that no material subsequent events have occurred since August 31, 2020 that require disclosure in the financial statements.

Report on the Financial Statements
I have audited the accompanying financial statements of the Cattlemens Profit Sharing Plan, which comprise the statements of net assets available for benefits as of August 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Other Matter – 2019 Financial Statements
The financial statements of the plan as of August 31, 2019, were audited by predecessor auditors. Their report, dated June 5, 2020, stated the 2019 financial statements present fairly, in all material respects, the net assets available for benefits of the Cattlemens Profit Sharing Plan as of August 31, 2019, in accordance with accounting principles generally accepted in the United States of America.

Opinion
In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Cattlemens Profit Sharing Plan as of August 31, 2020, and the changes in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

My audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedules of Schedule of Assets (Held at End of Year) as of August 31, 2020 and Schedule of Reportable Transactions for the year ended August 31, 2020, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

CATTLEMENS PROFIT SHARING PLAN
Notes to Financial Statements
August 31, 2020 and 2019

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Cattlemens Profit Sharing Plan (the Plan) provides only general information. The Plan's sponsor is Cattlemens, Inc. (the Company). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a profit sharing plan. The Plan was established August 30, 1976 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was amended and restated on August 8, 2015. The Plan Trustees are responsible for oversight of the Plan.

Eligibility – Employees of the Company are eligible to participate in the Plan as of the September 1st that occurs immediately before the date that all of the age and service requirements have been met. Employees must be 18 years of age, completed 12 consecutive months of employment, worked at least 1,000 hours of service during the applicable Plan year, and be employed as of the last day of the Plan year.

Contributions – Contributions to the Plan are made at the discretion of the Board of Directors of Cattlemens, Inc. Employer contributions are allocated and credited to each eligible participant on each anniversary date. The participants allocable share is based on eligible compensation. The Company did not make an employer contribution during the fiscal year ended August 31, 2020. Under the provisions of the Plan, employee contributions are neither required or allowed.

Participant Accounts – The Plan maintains separate accounts for each eligible participant. Each participant's account is credited with the Company's contributions, the Plan earnings, and the forfeitures of terminated participants' nonvested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's accounts.

Investment Direction – All of the Plan's investments are non-participant directed. The Plan's trustees have authority to supervise and direct the investments of the Plan and monitor investment performance.

Vesting - Participants who are employed on or after his or her Normal Retirement Age or terminate employment for reasons of death or disability, will be 100% vested in their accounts. Vesting is in accordance with a graded vesting schedule based on the number of years of credited service in which at least 1,000 hours are worked in a plan year. A participant vests 20% after two years of services and 20% for each additional year of credited service. A participant is fully vested after accumulating six years of credited service.

NOTE 1 – DESCRIPTION OF THE PLAN (continued)

Forfeited Accounts - Available forfeitures of the nonvested portion of terminated participants' accounts can be used to reduce administrative expenses, to reduce employer contributions, or to allocate as additional discretionary employer contributions. During the year ended August 31, 2020, forfeitures totaling $19,947 were allocated to participant accounts in the same manner as Company contributions. Forfeited nonvested accounts totaled $11,851 and $19,947 at August 31, 2020 and 2019, respectively.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms generally range from one to five years. The loans are secured by the vested balance in the participant's account. A participant's account is charged monthly interest on the outstanding loan balance. Interest rates on loans ranged from 5.75% to 6.5% per annum during the fiscal year ended August 31, 2020. Notes receivable mature at various dates through June 30, 2023. Principal and interest are paid ratably through payroll deductions.

Allocations of Earnings – Earnings and losses on the Plan's investments are allocated each valuation date based on (a) each participant's account balance as of the preceding valuation date reduced by his or her distributions or withdrawals during the plan year subsequent to the valuation date, divided by (b) the total value of the trust fund reduced by any distributions or withdrawals during the plan year subsequent to the valuation date.

Payment of Benefits – A terminated participant whose vested account balance exceeds $1,000 may elect to receive either a lump-sum amount equal to the value of the vested portion of his or her account, or the value of the vested portion of his or her account payable in installments. Participants who have been participants for a minimum of five year can also make in-service withdrawals on or after attaining age 59 ½. The Plan will make a mandatory distribution for terminated participants whose vested account balance, excluding any rollover amount, is $1,000 or less.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their account balances.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of August 31, 2020 and 2019.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Expenses of maintaining the Plan are primarily paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs reflect the Trustees' own assumptions about the assumptions market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances and may include the Trustee's own data.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2020 and 2019.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

Level One Investments

Mutual Funds

Mutual Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. These investments are reflected as Level 1 because the inputs used to determine fair value are quoted prices in an active market.

Exchange Traded Funds

Exchange Traded Funds (ETF) are valued at the closing price as reported by the active market on which the ETF is traded. ETFs are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) at the end of each day. These investments are reflected as Level 1 because the inputs used to determine fair value are quoted prices in an active market.

Level Two Investments

Money Market Fund

Money Market Fund transactions may occur daily. The securities are valued at amortized cost, which approximates fair value. The amortized cost is determined by valuing it at its original cost and thereafter amortizing any discount or premium for its face value at a constant rate until maturity. Securities held are generally high quality and liquid; however, they are reflected as Level 2 because the inputs used to determine fair value are not quoted prices in an active market.

Level Three Investments

Limited Liability Company

The limited liability company's assets consist of real estate. The fair value is determined by the Company's chief financial officer and the Plan trustees using the estimated appraised value of the real estate. The asset is not actively traded, and significant inputs are unavailable.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2020 and 2019:

Assets at Fair Value as of August 31, 2020

		Fair Value Measurements Using		
	Fair Value 8/31/20	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$964,550	$964,550	$ -	$ -
Exchange Traded Funds	417,457	417,457	-	-
Money Market Fund	37,815	-	37,815	-
Totals	$1,419,822	$1,382,007	$37,815	$ -

Assets at Fair Value as of August 31, 2019

		Fair Value Measurements Using		
	Fair Value 8/31/19	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Exchange Traded Funds	$2,329,835	$2,329,835	$ -	$ -
Limited Liability Company	25,000	-	-	25,000
Totals	$2,354,835	$2,329,835	$ -	$25,000

Changes in Fair Value of Level 3 Assets

The Plan received a distribution of the remaining assets in the limited liability company during the year ended August 31, 2020.

NOTE 4 – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan's investments are primarily held by Charles Schwab & Company, Inc. in a Schwab One trust account. Investment related expenses paid by the Plan to Charles Schwab and its affiliates are party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Fees incurred by the Plan for investment transaction and management services are included in net appreciation in fair value of the investment. The Plan made direct payments to service providers totaling $44 in the year ended August 31, 2020. The Plan Sponsor pays directly any other fees related to the Plan's operations.

NOTE 5 – TAX STATUS

The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and the related trust's net income is exempt from income taxes. The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 27, 2016 that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing authorities. There are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

On January 21, 2020, the Center for Disease Control and Prevention confirmed the first case of 2019 Novel Coronavirus (2019-nCoV) in the United States. On March 13, 2020, President of the United States declared a national emergency due to the outbreak of 2019-nCoV in the United States of America. The financial markets for investment securities have become abnormally volatile, and the risk of material investment losses has significantly increased due to these events. The exact outcome on the Plan is not known.

NOTE 7 – SUBSEQUENT EVENTS

The plan has evaluated subsequent events for recognition and disclosure through June 15, 2021, the date the financial statements were available to be issued. Management concluded that no material subsequent events have occurred since August 31, 2020 that require disclosure in the financial statements.
