INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Frazier Farms 401(k) Plan
Vista, California

We have audited the accompanying financial statements of Frazier Farms 401(k) Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2019, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Frazier Farms 401(k) Plan as of December 31, 2019, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter – Report on Compiled 2018 Financial Statement

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2019 and the related notes to the financial statements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Plan management is responsible for the accompanying 2018 financial statement. We did not audit or review the accompanying statement of net assets available for benefits as of December 31, 2018 and the related notes to the financial statement, nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by Plan management. Accordingly, we do not express an opinion, or conclusion, nor provide any form of assurance on the 2018 financial statement.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2019, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 – Description of the Plan

The following description of the Frazier Farms 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of Call Grocery Inc. (dba) Frazier Farms (Company) who are age 21 or older and have completed one year of service, except for non-resident aliens who receive no earned income from services rendered within the United States, or employees whose employment is governed by a collective bargaining agreement under which retirement benefits are the subject of good faith bargaining, unless such agreement expressly provides for participation in this Plan. The Plan provides participants with a salary deferral option pursuant to Section 401(k) of the Internal Revenue Code (IRC). The Plan engages Massachusetts Mutual Life Insurance Company (Mass Mutual), Wells Fargo Clearing Services, LLC (Wells Fargo), and California Bank & Trust (Custodians) to hold and invest Plan assets and execute Plan transactions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions
Each year, participants may contribute up to 100% of pretax and after-tax annual compensation, subject to limits of the tax law as defined in the Plan. Under the IRC, participants who are at least 50 years old may also make additional "catch-up" contributions, the amount of which is determined annually. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Effective January 1, 2019 the Plan was amended to add a safe-harbor match to the Plan. The Company makes a safe-harbor contribution equal to 100% of the participant's deferrals up to 3% of eligible compensation, and 50% of additional deferrals up to 5% of eligible compensation.

The Plan also allows the Company to make discretionary non-elective contributions and profit-sharing contributions. To be eligible for the discretionary non-elective contribution, a participant must have completed 1,000 hours and 1 year of service. To be eligible for profit-sharing contributions, the participant must have obtained age 18 and must have completes 1,000 hours and one year of service. Contributions are subject to certain limitations. No discretionary profit-sharing or non-elective contributions were made during 2019.

Investment Elections
Participants direct the investment of their contributions into various investment options offered by the Plan. Participants can change their investment combinations daily.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are made in a manner which recognizes each participant’s account balance, investment selection and timing of contributions and withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants
Participant loans are not permitted by the Plan.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Additionally, participants are 100% vested in their non-elective contributions (safe harbor) as well as the Company’s discretionary match plus the actual earnings. Participants become 100% vested in profit sharing contributions after 6 years of service.

Forfeitures
At December 31, 2019 and 2018, forfeited nonvested accounts totaled $6,091 and $5,988 respectively. During the year ended December 31, 2019, no forfeitures of were used to reduce employer contributions or pay Plan expenses.

Note 1 – **Description of the Plan, continued**

Payment of Benefits
On termination of service due to any reason other than death, participants with vested account balances of less than $5,000 receive an automatic distribution to an Individual Retirement Account (IRA). Participants with vested account balances of $5,000 or more may elect to receive a single lump-sum amount or choose to rollover their balance into another qualified retirement plan or IRA. Upon termination of service due to death, the participant's balance will be distributed to the named beneficiaries within 5 years of the death of such employee. Participants may also elect to take in-service withdrawals subject to the terms of the Plan document and Internal Revenue Service (IRS) regulations.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition
Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Plan permits the payment of Plan expenses to be made from the Plan's assets. Fees are charged to participants on a pro rata basis, equally to participant accounts, or specifically to a participant account for transactions specifically related to that participant.

Accounting Pronouncement
In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)". This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. In addition, this ASU removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The provisions of ASU No. 2015-07 have been adopted in 2019 and were applied retrospectively to 2018. As a result, the pooled separate accounts have been excluded from the fair value hierarchy table in Note 4.

Note 2 – Summary of Significant Accounting Policies, continued

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events
The Plan has evaluated subsequent events through May 12, 2021, the date the financial statements were available to be issued.

On March 11, 2020, the outbreak of COVID-19 (coronavirus) caused by a novel strain of the coronavirus was recognized as a pandemic by the World Health Organization, and the outbreak has become increasingly widespread negatively affecting the world economy and as a result, performance of investment options available in the Plan. The full impact of the COVID-19 continues to evolve as of the date of this report and will depend largely on future developments, which are highly uncertain and cannot be accurately predicted, including among other things, new information which may emerge concerning the severity of the outbreak and actions taken by government authorities to contain the pandemic or treats its impact. The effect of the COVID-19 will have on the Plan operations and investments is currently unknown.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted providing $2.2 trillion of economic stimulus relief to address the market conditions due to COVID-19. The CARES Act provides immediate and temporary relief for retirement plan sponsors and their participants with respect to employer contributions, distribution of benefits, withdrawals and participant loans. These provisions include, but are not limited to, penalty-free withdrawals of up to $100,000 or 100 percent of the participants vested balance before December 31, 2020 for qualifying reasons associated with the COVID-19 pandemic, increased limits for participant loans, deferrals of loan payments for up to one year, and temporarily waiving the required minimum distributions through 2020. The provisions of the CARES Act may be effective and utilized immediately, prior to amending the Plan document. The Plan has adopted the CARES Act provisions.

Note 3 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 4 – Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Note 4 – Fair Value Measurements, continued

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets; 2) quoted prices for identical or similar assets or liabilities in inactive markets; 3) inputs other than quoted prices that are observable for the asset or liability; 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts (PSA): PSAs invest in a variety of domestic stock, international stocks, mutual funds, bonds and other securities. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are generally based on publicly quoted prices, the net asset value (NAV) of each PSA is not valued using publicly quoted prices. The NAV provided by the Custodian is used as the practical expedient to estimate fair value. PSA's can be redeemed on a daily basis.

Interest Bearing Cash: Valued at the closing balance, plus accrued interest.

Common Stocks: Valued at the closing price reported on the active market where the securities are traded.

Corporate Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings

U.S. Government Agency Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities.

Real Estate: Valued at the historical cost of the assets.

The investment strategies for the pooled separate accounts are as follows:

Target Date Funds

Target Date funds employ a strategy that seeks to provide long-term investors with an asset allocation strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associated with each fund. The Funds are designed to automatically adjust their risk over time in order to reduce the risk of investment in equity securities and shift from a focus on capital appreciation to one of capital preservation, while maintaining some exposure to capital appreciation asset classes.

Note 5 – Guaranteed Investment Contracts

The Plan invests in the Mass Mutual Total Fixed Account (the Contract), which is a fully benefit-responsive investment contract with Mass Mutual. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract.

Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the Contract, plus earnings, less participant withdrawals and administrative expenses. Mass Mutual maintains the contributions for the Contract in a general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan. The contract value of the Contract was $17,781 and $16,626 at December 31, 2019 and 2018, respectively.

There are no reserves against the contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on the earnings of the underlying assets in the entire portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly. The Contract does not specify any events which would limit the ability of the Plan to transact at contract value with the issuer or any events which would allow the issuer to terminate the Contract and settle for an amount different from contract value. The Contract provides payment options of the contract value for surrendering the Contract; however, the Company does not intend to surrender the Contract.

Note 6 – Tax Status

The IRS has determined and informed the Plan's volume submitter sponsor by an opinion letter dated March 31, 2014, that the Frazier Farms 401(k) Plan sponsored by CCH Incorporated DBA FTWilliam.com which has been adopted by the Plan, is acceptable pursuant to section 401 of the IRC and in compliance with the applicable requirements of the IRC. The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts, money market accounts, and mutual funds managed by Mass Mutual, California Bank & Trust, and Wells Fargo. Transactions with these entities qualify as party-in-interest transactions.

Note 8 – Reconciliation of Financial Statements to Form 5500

Net assets on the Form 5500 are reported on the modified cash basis. The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018.

	2019	2018
Net assets available for benefits per the financial statements	$ 3,629,788	$ 3,345,129
Less: Employer contribution receivable	(105,642)	-
Net assets per the Form 5500	$ 3,524,146	$ 3,345,129

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2019:

Change in net assets available for benefits per the financial statements	$ 284,659
Less: Employer contribution receivable	(105,642)
Net income per the Form 5500	$ 179,017

Note 9 – **Delinquent Employee Deferral Transmittals**

During the year ended December 31, 2019, the Company erroneously failed to remit certain employee deferrals totaling $19,412 to the Plan. The Company subsequently remitted the deferrals and is in the process of calculating the lost earnings on these remittances and will make a contribution for lost earnings to the Plan. The Company will also file the required Form 5330, Return of Excise Taxes Related to Employee Benefit Plans with the IRS, and pay the appropriate excise taxes.
