STG Logistics Retirement Plan

Notes to Financial Statements December 31, 2020 and 2019

Note A – Description of Plan

The following description of the STG Logistics Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a safe harbor defined contribution plan, which covers all full-time employees of STG Logistics, Inc. (the “Company” or “Employer”) who have completed three months of service and are age 18 or older. The Plan was established July 1, 2005 and most recently amended and restated effective January 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective March 9, 2020, the Plan was amended to change the name of the Plan from St. George Retirement Plan to STG Logistics Retirement Plan.

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the “SECURE Act”), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts are currently being assessed but have not been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Administration

The Company oversees the governance of the Plan. The Plan’s assets are maintained and administered by Voya Retirement Insurance and Annuity Company (the “Trustee”). Contributions are held by the Trustee, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute a percentage of their annual compensation, as defined, subject to limitations imposed by the Internal Revenue Code (“IRC”). The maximum participant deferral for December 31, 2020 and 2019 was \$19,500 and \$19,000, respectively. A participant who has attained age 50 was eligible to participate in catch-up contributions, subject to IRS limitations of \$6,500 and \$6,000 for December 31, 2020 and 2019. Participants may also make Roth deferral contributions to the Plan.

Participants who have met the eligibility requirements are also eligible to receive safe harbor Employer contributions. A year of service is defined as having completed at least 1,000 hours during the Plan year. Each Plan year, the Company provides a safe harbor matching contribution of 100% of the elective deferrals up to 3%, plus 50% of the elective deferrals between 3% and 5%.

Each Plan year, the Company may elect to make a discretionary profit sharing contribution to the Plan. In order to share in the allocation of profit sharing contributions, a participant is required to have completed 1,000 hours of service during the Plan year and be employed by the Company on the last day of the Plan year. During the year ended December 31, 2020, the Company did not make a discretionary profit sharing contribution.

The Plan also allows participants to contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions and Employer contributions into various investment options offered by the Plan.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and allocations of the Employer’s contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

STG Logistics Retirement Plan

Notes to Financial Statements December 31, 2020 and 2019

Note A – Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are also vested 100% in the Company safe harbor match contributions. Company profit sharing contributions are 100% vested after 3 years of service.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a fixed general account as investment options for participants.

Notes Receivable from Participants

Participants may borrow from their fund accounts, provided that specific hardship criteria is met, a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other acceptable collateral, and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

The Plan has implemented certain requirements by the CARES Act, which changed the Plan to allow certain eligible individuals to receive coronavirus-related relief for loan repayment. The plan implemented the optional provisions allowed by the CARES Act to permit participant loans up to \$100,000 due to the coronavirus and to permit suspension of participant loan payments between March 27, 2020 and December 31, 2020. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon terms of the Plan document. Loans are considered in default as of the end of the quarter subsequent to the quarter in which the payment was due.

Distribution of Benefits

On termination of service due to death, disability or retirement or upon reaching the age of 59½, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as defined in the Plan agreement. If the vested account balance is \$5,000 or less, the Plan Administrator may direct the Trustee to distribute this amount as a lump sum distribution without the participant's consent. Participants may request a hardship withdrawal from their vested account balance.

Forfeitures

Non-vested profit sharing contributions of terminated participants are forfeited on the date the participant receives a complete distribution of vested benefits. Forfeitures are used to reduce the Company's benefit plan administration costs and Employer contributions. At December 31, 2020 and 2019, forfeited non-vested accounts totaled approximately \$47,000 and \$38,000 respectively. During 2020, forfeitures of approximately \$11,000 were utilized by the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Notes to Financial Statements December 31, 2020 and 2019

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan’s investments are stated at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value as described in Note G. Quoted market prices are used to value investments. Shares of pooled separate accounts are valued at the net asset value of shares held at by the Plan at year end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|----------------|--|
| <i>Level 1</i> | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| <i>Level 2</i> | Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| <i>Level 3</i> | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

STG Logistics Retirement Plan

Notes to Financial Statements December 31, 2020 and 2019

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts: Valued at the net asset value ("NAV") provided by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There were no unfunded commitments to purchase investments at December 31, 2020 and 2019. Participant-directed redemptions have no restrictions and are recorded at the end of every business day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Investments measured using the NAV as a practical expedient are exempt from being presented in the fair value hierarchy. As all of the Plan's investments are exempt from the fair value hierarchy, the table has been excluded.

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2020 and 2019, and for the year ended December 31, 2020, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or participants of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are managed by the Trustee. Transactions related to these investments qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid to parties-in-interest amounted to approximately \$92,000 in total during the year ended December 31, 2020.

Note E – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2014 stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

STG Logistics Retirement Plan

Notes to Financial Statements December 31, 2020 and 2019

Note E – Income Tax Status (continued)

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2018.

Note F – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note G – Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts, at contract value, on the statement of net assets consist of the following investment(s):

<u>Investment Type</u>	<u>Investment name</u>	<u>December 31, 2020</u>	<u>December 31, 2019</u>
Guaranteed Investment Contract	Voya Fixed Account	\$ 1,251,972	\$ 1,001,867

As of December 31, 2020 and 2019, the Plan was invested in a guaranteed investment contract (Voya Fixed Account, "the Fund") provided through a group annuity contract. Under the Fund, a crediting rate is established and is credited with contributions and charged for participant withdrawals and administrative expenses charged by the Trustee of the Fund. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan,) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exempt under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note H – Reconciliation of Financial Statements to Form 5500

The Plan holds investments in pooled separate accounts, which is how they are reported on Form 5500, Schedule D, DFE/Participating Plan Information. Plan number "000" has been used to report these investments on Schedule D because Voya has not filed a Form 5500 directly with the Department of Labor for these investments. As such, the Plan's interest in such investments cannot be included in Schedule H, line 1c(10). Instead, the Plan's interest in the underlying assets of the pooled separate accounts must be allocated and reported in the appropriate categories on a line-by-line basis. Therefore, these investments are reflected as mutual funds on Form 5500, Schedule H, line 1c(13) and line 1c(9), respectively, but as pooled separate accounts for financial statement purposes.

STG Logistics Retirement Plan

Notes to Financial Statements December 31, 2020 and 2019

Note H – Reconciliation of Financial Statements to Form 5500 (continued)

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	<u>2020</u>	<u>2019</u>
Net assets available for benefits per the financial statements	\$ 13,619,190	\$ 9,609,302
Add: Deemed distributions	<u>5,673</u>	<u>5,673</u>
Net assets available for benefits per the Form 5500	<u><u>\$ 13,624,863</u></u>	<u><u>\$ 9,614,975</u></u>

Note I – Subsequent Events

Subsequent events have been evaluated through June 28, 2021, which is the date the financial statements were available to be issued.
