ULTRA ELECTRONICS INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Ultra Electronics Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide retirement benefits for employees of Ultra Electronics, Inc. (the Company) and the following related participating employers below:

Ultra Electronics Measurement Systems, Inc.
EMS Development Corporation
Ultra Electronics Flightline Electronics, Inc.
Undersea Sensor Systems, Inc.
Ultra Electronics Advanced Tactical Systems, Inc.
Ultra Electronics Ocean Systems, Inc.
Ultra Electronics ICE, Inc.
Prologic, Inc.
3e Technologies International, Inc.
Forensic Technology, Inc.
Weed Instrument Company, Inc. (d/b/a NSPI Inc.)
Herley Industries, Inc.
Gigasat, Inc.

There are no age or service requirements to become eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make contributions to the Plan as pre-tax or Roth deferrals. Newly eligible employees are automatically enrolled into the Plan with a default pre-tax contribution rate equal to 3% of the participant's compensation, unless they affirmatively elect otherwise. Additionally, unless otherwise elected by the participant, the default pre-tax contribution rate will increase by 1 percentage point for each year that the participant is employed, up to a maximum rate of 10%. Eligible employees may also contribute amounts representing distributions from other qualified retirement plans (rollovers). The Company makes a safe harbor matching contribution of 100% of the first 1% of compensation deferred by the employee and 60% of the next 5% of compensation deferred by the employee. In addition, the Company may make additional profit-sharing contributions at the discretion of the Board of Directors. There were no discretionary profit-sharing contributions for the year ended December 31, 2020. All contributions are subject to certain limitations imposed by the Plan and the Internal Revenue Code (the Code).

Participant Accounts

Each participant's account is credited with the participant's contributions and Company contributions, and allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations of Company contributions, investment income and administrative expenses are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

ULTRA ELECTRONICS INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Investment Options

Participants may direct their contributions into any of the funds offered by the Plan, which are held at Fidelity. These funds include a variety of investment options with various objectives and degrees of financial risk. In addition, the Plan offers a self-directed account fund in which the investments are directed by the individual participant.

Vesting

Participants are immediately vested in their deferral and rollover contributions, including the earnings on those amounts. Vesting in the Company contributions portion of their accounts is based on years of continuous service. Participants are fully vested in employer contributions made prior to January 1, 2008 upon the completion of five years of service. Participants are 100% vested in safe harbor employer matching contributions made after January 1, 2008 after two years of service. Participants are also fully vested upon reaching normal retirement age, death or total disability.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Loan terms range from one to five years, except for loans to purchase a primary residence, which may be offered over a term of up to thirty years. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with local prevailing rates, as determined by the plan administrator. The notes currently bear interest at rates ranging from 4.25% to 7.50%. Participants may only have one loan outstanding at any given time. Generally, principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon retirement, disability, death or termination of employment, the participant shall become entitled to the total value of his or her vested account. Distributions will be paid in a lump sum or in installments over a number of years, based upon election of the participant or as defined in the Plan or the Code. If a participant terminates employment for any reason and his or her vested account balance does not exceed \$1,000, the plan administrator may distribute such amount in a lump-sum payment to the participant without consent of the participant. If the participant's balance is between \$1,000 and \$5,000, the plan administrator may roll the amount into an individual retirement account on behalf of the participant without the consent of the participant.

The Plan also provides for in-service withdrawals by participants who have attained the age of 59½. In addition, upon financial hardship, a participant is entitled to the value of his or her deferral accounts, but not the earnings thereon, which is payable immediately in a lump-sum distribution.

Forfeitures

Forfeitures of discretionary profit-sharing contributions are allocated to the remaining plan participants at the end of the plan year in proportion to their compensation. Forfeitures of matching contributions are used to pay the Plan's administrative expenses or to reduce the Company's matching contributions.

Forfeited nonvested matching accounts totaled \$228,227 and \$129,659 at December 31, 2020 and 2019, respectively. Company matching contributions were reduced by \$182,145 from forfeited nonvested matching accounts for the year ended December 31, 2020. Forfeited nonvested matching accounts totaling \$94,493 were used to pay administrative expenses for the year ended December 31, 2020.

ULTRA ELECTRONICS INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Company. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

ULTRA ELECTRONICS INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Subsequent Events

Subsequent events were evaluated through June 21, 2021, the date the financial statements were available to be issued.

NOTE 3 - CERTIFICATION BY THE INVESTMENT TRUSTEE

Information presented in the accompanying statements and schedules as of December 31, 2020 and 2019, and for the year ended December 31, 2020 for investments, notes receivable from participants, investment income and interest income on notes receivable from participants was derived, without audit, from information certified to be complete and accurate by Fidelity, the trustee, as permitted by the election made by the plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 4 - FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets valued using the net asset value practical expedient are not required to be reported within the hierarchy.

The following is a description of the valuation methodology used for assets measured at fair value:

ULTRA ELECTRONICS INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Mutual Funds

Mutual funds are valued at the quoted price of shares held by the Plan at year end.

Self-Directed Investments

Self-directed investments include money market funds, mutual funds, certificates of deposit, common stocks, preferred stocks and exchange traded funds.

Money market and mutual funds held within self-directed accounts are valued at the quoted price of shares held by the Plan at year end and are valued using Level 1 inputs.

Certificates of deposit are valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer and are valued using Level 2 inputs.

Common stocks held within self-directed accounts are valued at the closing price reported in the active market in which the individual securities are traded and are valued using Level 1 inputs.

Preferred stocks held within self-directed accounts are valued at the closing price reported in the active market in which the individual securities are traded and are valued using Level 1 inputs.

Exchange traded funds held within self-directed accounts are valued at the closing price reported in the active market in which the individual securities are traded and are valued using Level 1 inputs.

Common and Collective Trusts

Common and collective trusts are composed primarily of fully benefit-responsive investment contracts and are valued at the net asset value of the units held of the collective trust. Other common and collective trusts are stated at their net asset values as reported by the investment manager of the fund based on the fair value of the underlying assets and liabilities at the measurement date. The net asset value is used as a practical expedient to estimate fair value.

There have been no changes in the methodologies used at December 31, 2020 and 2019.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ULTRA ELECTRONICS INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

2020					
	Level 1	Level 2	Level 3	Investments Measured at Net Asset Value (a)	Total

(a) Certain investments that are measured using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

There were no transfers between levels of investments during the years ended December 31, 2020 and 2019.

Investments in common and collective trusts provide for daily liquidity and have no redemption features or other restrictions.

ULTRA ELECTRONICS INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Other parties-in-interest include recordkeepers and professional service firms who provide services to the Plan. Certain employees of the Company who participate in the Plan perform administrative services to the Plan at no cost to the Plan. Notes receivable from participants are also party-in-interest transactions.

NOTE 6 - INCOME TAX STATUS

The Plan has adopted a volume submitter plan document that received a favorable opinion letter from the Internal Revenue Service (IRS) that it was in compliance with the applicable requirements of the Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

NOTE 8 - CARES ACT

In April 2020, certain provisions under the CARES Act relating to participant distributions and participant loans were enacted which expired as of December 30, 2020. The CARES Act allowed for utilization of these provisions immediately but requires formal adoption of the amendment no later than the last day of the plan year beginning on or after January 1, 2022.

NOTE 9 - CORONAVIRUS

The coronavirus pandemic effects on the economy and financial markets in the future is uncertain. Subsequent changes in interest rates and volatility in financial markets could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. Because of the uncertainty, Plan management is unable to estimate the total impact the pandemic will have.
