The accompanying notes are an integral part of these financial statements.

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Smith & DeShields, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision, which is available upon request.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements

To become eligible, participants must be full-time employees of Smith & DeShields, Inc. (the "Company") who have one year of service, worked at least 1,000 hours during the year, and are at least 21 years of age.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation. Participants may also make catch-up contributions in a taxable year if they will be at least age 50 by the end of the year. For 2020, the maximum catch-up contribution is $6,500. The Company may make a matching contribution equal to a percentage of a participant's 401(k) elective deferral contribution.

Additionally, the Company may make a discretionary contribution each plan year.

Contributions in excess of the above limitations are refunded to the participant and any matching portion to the Company.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's matching contribution, and Plan earnings; and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant, under a seven-year graded schedule, is 100% vested after six years of credited service for matching contributions and 100% vested after seven years of credited service for discretionary contributions.

Note Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are repaid over a period of one to five years, and are secured by the balance in the participant's account. The notes bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Interest rates range from 5.25% to 10.25%. Principal and interest are paid ratably through weekly payroll deductions.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Participants may receive an amount equal to the value of their vested interest upon termination of employment, death, disability or retirement. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest as a lump sum distribution.

Rollovers

The Plan accepts rollover contributions from other tax-qualified plans, governmental 457 plans, and traditional IRAs for those participants who choose to invest in the Plan.

Forfeitures

Forfeited accounts are used to offset employer contributions made after the forfeited amount is determined. Forfeitures may first be used to pay Plan expenses. Any forfeiture left after paying plan expenses are used to offset the next contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions to be vested in one or more of the investment options available to the Plan.

Administrative Expenses

The Employee Retirement Income Security Act of 1974 (ERISA) allows certain expenses directly related to operating the Plan to be paid from the participant accounts. Such expenses include investment management fees and commissions, Plan expenses for the general administration and recordkeeping, and other per-use fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments held by the Plan are required to be reported at fair value, except for investments in fully benefit-responsive investment contracts ("FBRIC"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FBRIC's are reported at contract value because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in fully benefit responsive investment contracts totaled $288,392 and $163,123 as of December 31, 2020 and 2019, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Risk and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and statement of changes in net assets available for Plan benefits.

Subsequent Events

The Plan has evaluated subsequent events through June 29, 2021, which is the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2020 and the supplemental Schedule H, Line 4i- Schedule of Assets (Held at End of Year) as of December 31, 2020; and the related investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2020.

NOTE 4 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts

NOTE 5 – TAX STATUS

The Internal Revenue Service, by a favorable opinion letter dated March 31, 2014, concluded that the form of the Standardized Paired Profit Sharing 401(k) Plan and related trust is acceptable in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

NOTE 6 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting *Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 – inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

- *Registered Investment Company:* valued at the quoted net asset value of share held by the Plan at the end of the Plan year.

NOTE 6 – FAIR VALUE MEASUREMENTS (Continued)

- *Common Collective Trust:* the fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices.

- *Pooled Separate accounts:* are comprised of common stock, corporate bonds, and U.S. government securities. Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2020 and 2019, the Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

December 31, 2020		Fair Value Measurements Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

December 31, 2019		Fair Value Measurements Using:

Common/Collective Trust	3,098,675	3,098,675	-	-
Total	$ 4,422,065	$ 4,422,065	$ -	$ -

NOTE 7 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit responsive investment contract with Principal Life Insurance Company. A rate of interest contractually guaranteed by Principal Life is credited to participant account balances. No redemption fees, early withdrawal charges, or market value adjustments are charged on participant transfers of assets into or out of the contract.

NOTE 8 – PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify-as-party in interest transactions.

NOTE 9 – COVID-19 PANDEMIC

In January 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty as to the volatility of investments in the Plan.

CARES Act

As a result of the coronavirus pandemic, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was created which has led to changes that affect employee benefit plans including penalty-free withdrawals. Participants, if given permission by the Plan sponsor, may take up to $100,000 in coronavirus-related distributions from retirement plans without being subject to the 10% additional tax for early distributions. Eligible distributions can be taken up to December 31, 2020. The act also permits the distributions to be repaid at any time over a three-year period to an eligible retirement plan.
