Independent Auditors' Report

To the Administrator of
The Dun & Bradstreet Corporation 401(k) Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Dun & Bradstreet Corporation 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 10, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2020 and 2019, and for the year ended December 31, 2020, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Other Matter

Supplementary Information

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2020, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Background and Plan Description

The Dun & Bradstreet Corporation (the "Company") sponsors The Dun & Bradstreet Corporation 401(k) Plan, (the "Plan"), a defined contribution plan, that is intended to be qualified under Sections 401(a) and 401(k) of the Internal Revenue Code of 1984, as amended (the "IRC"), and is offered to all eligible employees of the Company and its affiliates in the United States. The Plan was established for employees of the Company and is designed to help employees supplement their retirement income. The funding of the Plan is made through employee and Company contributions.

The following summary of major Plan provisions in effect for the Plan years 2020 and 2019 is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted on March 27, 2020. Under the CARES Act, the Plan added a distribution option which allowed for penalty free withdrawals up to $100,000 until December 31, 2020 that may be repaid over a three-year period (including income taxes). The Plan also increased the maximum loan amount from $50,000 or 50% of a participant's vested account balance to $100,000 or 100% of a participant's vested balance for loans issued up until September 23, 2020 and permitted new and existing loan repayments to be deferred through December 31, 2020. Also, the processing of required minimum distributions was suspended for 2020, except upon participant request and in cases where a participant's first required minimum distribution was for 2019, and was deferred until 2020.

Eligibility

All active employees of the Company and its affiliates in the United States are immediately eligible to participate in the Plan on their date of hire. Newly hired employees, as well as employees who may be reemployed, who have not enrolled in the Plan within 60 days of their hire date, are automatically enrolled at a contribution rate of 3% of pre-tax eligible earnings in the default investment option under the Plan which is the age appropriate Vanguard Target Retirement Trust. A participant may opt out of the automatic enrollment by electing his or her own contribution rate or choosing not to participate in the 401(k) Plan within 60 days of their hire date. If an employee has an automatic enrollment date after June 1, 2014, the contribution rate will automatically increase 1% on each anniversary of the automatic enrollment date, up to a maximum of 7% of an employee's annual compensation.

Contributions

Each eligible participant may contribute between 1% to 50% of their annual compensation (subject to the Internal Revenue Service ("IRS") compensation limit of $285,000 in 2020 and $280,000 in 2019) to the Plan on a pre-tax and/or Roth basis, subject to an overall IRS limit ($19,500 in 2020 and $19,000 in 2019). Additionally, an eligible participant may contribute between 1% to 16% of compensation to the Plan on a post-tax basis. The total pre-tax, Roth and post-tax contribution percentage cannot exceed 50% of compensation. In addition, participants age 50 and over can contribute up to an additional $6,500 in 2020 and $6,000 in 2019 in pre-tax and /or Roth contributions through the Plan's catch-up contribution provisions. Catch-up contributions are not eligible for Company matching contributions. The total pre-tax, Roth, post-tax and catch-up contribution percentage cannot exceed 75% of compensation. Contributions are made to the Plan each payroll period by participants through payroll deductions and by the Company on behalf of participants. Contributions will be invested in the default age appropriate Vanguard Target Retirement Trust, if an employee fails to make an investment election.

The Company matches $0.50 per dollar of the first 7% of a participant's eligible compensation, or a maximum employer match of 3.5%. The Company made matching contributions of $10,130,425 during the year ended December 31, 2020.

Participant Accounts
A separate account is established and maintained for each Plan participant. Contributions by the participant and the Company are invested in one or more of the Plan's investment funds as designated by the participant. Income earned, administrative expenses, and net appreciation or depreciation on Plan investments for a given fund is allocated in proportion to the participant's account balance in that fund on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings on the contributions. The Plan provides for 100% vesting in the value of Company contributions plus actual earnings thereon to a participant's Plan account at the end of three years of service. In addition, a participant becomes 100% vested in the value of Company contributions if actively employed and attains age 65, becomes totally and permanently disabled or dies.

Investment Options
The Plan allows participants to direct their contributions and the Company's contributions to a variety of different investments offered by the Plan. At December 31, 2020 and 2019, the Plan offered Mutual Funds, Common /Collective Investment Trust Funds and the Dun & Bradstreet Stable Value Fund which invests in guaranteed investment contracts ("GICs"), synthetic GICs and a short-term investment fund. The following is a summary of the investment options:

Mutual Funds

The Balanced Index Fund is an investment portfolio which will invest approximately 60% of its assets in the Vanguard Institutional Index Fund Institutional Plus Shares and 40% in the Vanguard Total Bond Market Index Fund Institutional Shares. The Vanguard Institutional Index Fund Institutional Plus Shares tracks the S&P 500® Index which contains 500 predominantly large U.S. based companies and represents more than 75% of the value of all publicly-traded common stocks in the U.S. The Vanguard Total Bond Market Index Fund Institutional Shares tracks the Barclays Aggregate Bond Index.

The *Vanguard Developed Markets Index Fund* is invested to match the total return of a diversified developed market index of non-US stocks.

The *Vanguard Institutional Index Fund Institutional Plus Shares* tracks the performance of the S&P 500® Index that measures the investment return of large-capitalization stocks.

The *Vanguard Extended Market Index Fund* is invested in securities to match the total return of an equity index composed of mid and small cap stocks.

The *Vanguard Total Bond Market Index Fund Institutional Shares* seeks the performance of a broad, market weighted bond index.

The *BlackRock Small Cap Growth Equity Portfolio Institutional Class* invests at least 80% of its net assets in equity securities issued by U.S. small capitalization growth companies.

The *Fidelity Low-Priced Stock Fund Class K* invests at least 80% of its assets in "low-priced" common stocks. Low-priced stocks are stocks that are priced at or below $35 per share at the time of investment.

The *Fidelity Diversified International Fund Class K* is invested primarily in non-U.S. equity securities. The fund may invest in emerging markets, convertible securities and cash-equivalent investments.

The *Fidelity Blue Chip Growth Fund Class K* is invested in common stocks of well-known and established companies considered "blue chip" by the fund's portfolio manager. The fund may also invest in companies believed to have above-average growth potential.

The *JP Morgan Equity Income Fund Class R6* is invested in high quality U.S. companies to provide a large cap value strategy with an emphasis on quality and sustainable dividend yields.

The *Northern Small Cap Value Fund* invests at least 80% of its assets in equity securities of small capitalization companies with market capitalizations that are, at the time of purchase, within the range of the Russell 2000 Index. The fund primarily invests in the securities of U.S. issuers, but it may also invest to a limited extent in the securities of foreign issuers.

The *PIMCO Total Return Fund Institutional Class* is invested primarily in investment-grade bonds, including U.S. government, corporate, mortgage-backed and foreign bonds.

The *Wells Fargo Discovery Fund Class R6* invests at least 80% of its net assets in equity securities of small- and medium-capitalization companies; and up to 25% of the fund's total assets in equity securities of foreign issuers through ADRs and similar investments. This fund became available to plan participants beginning on September 4, 2020.

The *Victory Munder Mid-Cap Core Growth Fund Class* R6 invests at least 80% of its assets in equity securities of mid-capitalization companies. The fund defines these as companies with a market capitalization similar to those represented by the S&P Mid-Cap 400® Index. This fund was closed to plan participants on September 4, 2020.

The *Wells Fargo Advantage Special Mid-Cap Value Fund Class R6* invests at least 80% of its net assets in equity securities of medium capitalization companies, which the managers define as securities of companies with market capitalizations within the range of the Russell Mid Cap Index at the time of purchase.

*Common /Collective Investment Trust Fund*s

The *Vanguard Target Retirement Trusts, including the Vanguard Target Retirement 2020, 2025, 2030, 2035, 2040, 2045, 2050, 2055, 2060 Trusts II and the Vanguard Target Retirement Income Trust II*, invest in several Vanguard funds, primarily low-cost index funds, to create a broadly diversified mix of stocks and bonds. Each trust seeks to provide capital appreciation and current income consistent with its asset allocation. The year in a Target Retirement Trust's name is its target date, the approximate year in which an investor in the trust expects to retire and leave the work force.

The Dun & Bradstreet Stable Value Fund

The Fund seeks to provide safety of principal and a stable credited rate of interest. Galliard Capital Management, ("Galliard") the fund's advisor, invests in guaranteed investment contracts ("GICs") and synthetic GICs. The synthetic GICs are comprised of a high quality fixed income portfolio invested in fixed income funds and wrap contracts issued by highly rated financial institutions. These wrap contracts serve to stabilize the return of the fund by offsetting price fluctuations in the underlying fixed income portfolio.

Payment of Benefits

If a participant leaves the Company, the participant is entitled to receive the vested value of his or her account balance. If a participant's vested account value is $1,000 or less, it will be automatically paid in a lump-sum payment. If the vested value of the account balance is greater than $1,000, a participant may request an immediate lump-sum payment, or a participant may choose to delay payment to a later date, but not beyond April 1 of the year after the participant reaches age 72. If a lump-sum distribution is received, the participant may be eligible to roll it over into another employer plan or an Individual Retirement Account ("IRA").

All participants who are no longer actively employed with the Company may elect to receive installment payments under the Plan. Installment payments can be paid monthly, quarterly and annually, for a period not to exceed 20 years.

A participant who has been called to active military duty for a period in excess of 30 days may request a distribution of his or her pre-tax and Roth 401(k) contributions under the Plan. Taking such withdrawal would prohibit the participant from making contributions under the Plan for a six month period following the date of distribution.

In the event of death of an employee, if a participant's account balance is $1,000 or less it will be paid to the employee's beneficiary in a lump-sum payment; if the account balance is greater than $1,000, the employee's beneficiary may request an immediate lump-sum payment or the beneficiary may choose to delay payment of the account balance until March 1 of the year following the death. If a participant commenced payment in the form of installments prior to death, the beneficiary will receive the remaining account balance in the form of installments with the same frequency as had been received by the deceased participant, unless the beneficiary elects and requests to receive the entire remaining amount in a lump-sum payment.

Notes Receivable from Participants

Participants may obtain loans from the Plan, which are collateralized by the vested balance in their accounts. The Plan limits the total number and amount of loans outstanding at any time for each participant, to two loans. The minimum loan amount is $500 and the maximum is the lower of 50% of a participant's vested account balance or $50,000, limited by existing outstanding loans. Additionally, a participant's loan repayment amount cannot exceed 15% of his or her semi-monthly gross compensation. Interest rates applicable to Plan loans are based on the prime rate as reported in Reuters on the last business day of the month before the loan is processed plus 2%. At December 31, 2020 and 2019, interest on participant loans ranged between 4.25% and 11.5%. Interest income from notes receivable from participants amounted to $369,494 in 2020 and $467,341 in 2019. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Forfeited Accounts
Forfeitures may be used to reduce future company contributions under the Plan. During 2020 and 2019, $203,436 and $147,735, respectively, of forfeitures were used to reduce company contributions. As of December 31, 2020 and 2019, unallocated forfeitures were $21,676 and $172,741, respectively.

Administration of the Plan
In November 2019, the Compensation Committee of the Board of Directors of the Company approved changes to the management committees, the Qualified Plan Oversight Committee (POC) and the Qualified Plan Administration Committee (PAC), to oversee the administration of the Plan. The Qualified Plan Oversight Committee is authorized to delegate certain administrative duties to one or more administrative service providers. The Qualified Plans Administration Committee has the exclusive right to determine all matters relating to eligibility, interpretation and operation of the Plan.

The Qualified Plan Administration Committee serves as the ERISA named fiduciary of the Plan. The Qualified Plan Administration Committee is responsible for the control and management of the operation and administration of the Plan. Members of the Qualified Plan Administration Committee are appointed by the Qualified Plan Oversight Committee.

Fidelity Management Trust Company (the "Trustee") is the Trustee of the Plan and has custody of the Plan's assets. Fidelity Workplace Services LLC is the record keeper. The expenses of administering the Plan are paid by the Company except for investment management fees, which are charged to the Plan, and certain loan and withdrawal transaction fees, which are paid by the participant.

Partial Plan Termination
As a result of a reduction of the Plan Sponsor's workforce in 2019, the Plan experienced a partial plan termination as defined by ERISA. Under ERISA, a partial plan termination may occur if a significant percentage of the Plan participants are terminated because of an action taken by the Plan Sponsor. If a partial plan termination occurs, full vesting in the employer's contribution is required for the affected participants, but the remaining participants' vesting continues to be determined per the plan provisions.

All affected employees who were participants in the Plan were fully vested in their account balances at the date of their partial plan termination.

Plan Termination
The Compensation Committee of the Board of Directors of the Company reserves the right to amend, modify, suspend or terminate the Plan. While the Company has not expressed any intention to discontinue its contributions or to terminate the Plan, it is free to do so at any time subject to the provisions of ERISA and the IRC, which state that, in such event, all participants of the Plan shall be fully vested in the amounts credited to their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive

investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates
The preparation of the Plan's financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risk and Uncertainties
The Plan provides for various investment options in any combination of a Company stock fund, common/ collective trusts, mutual funds, a stable value fund, and short-term investments. Investment securities, in general, are exposed to various risks, such as interest rate, liquidity, credit and overall market volatility.

Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits, as well as participant account balances.

The Plan is exposed to credit loss in the event of non-performance by the companies with whom the investment contracts are placed. However, the Plan administrators do not anticipate non-performance by these companies.

Payment of Benefits
Benefit payments to participants are recorded when paid.

Investment Valuation and Investment Income
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments measured at fair value using net asset value (NAV) as a practical expedient are reported by the respective fund managers. The Qualified Plan Administration Committee determines the Plan's valuation policies utilizing information provided by investment advisors, custodians, and insurance companies.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation or depreciation in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation and depreciation on those investments held during the year.

New Accounting Pronouncements
In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework — Changes to the Disclosure Requirements for Fair Value Measurement* (ASU no. 2018-13). The primary focus of ASU No. 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements. The changes affect all companies that are required to include fair value measurement disclosures. ASU No. 2018-13 was effective for the Plan for fiscal year 2020, however an entity is permitted to early adopt

the removed or modified disclosures upon the issuance of ASU No. 2018-13. The adoption of the standard did not have a material impact on the related disclosures in the Plan's financial statements.

3. Fair Value Measurements

FASB Accounting Standard Codification (ASC) 820, *Fair Value Measurement and Disclosures (ASC 820)*, defines fair value and establishes a framework for measuring fair value under current accounting pronouncements. ASC 820 provides a fair value hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

The three levels of the fair value hierarchy under ASC 820 are described below as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted or published prices available in active markets for identical investments that the Plan can access at the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted or published prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology that are unobservable and significant to the fair values for the asset or liability.

A financial instrument's level or categorization within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy. There have been no changes in the methodologies used and the Plan had no Level 3 investments at December 31, 2020 and 2019.

Common/Collective Investment Trusts

These investments in the Vanguard Target Date Retirement Funds are valued at reported NAV. The NAV is based on the value of the underlying assets owned by the respective fund, minus its liabilities, and then divided by the number of shares outstanding. They are classified within Level 1 of the fair value hierarchy because the NAV is determined and published daily, and plan participants can transact on any date based on published NAV.

This asset category does not have any unfunded commitments or redemption restrictions.

Mutual Funds

These investments are public investment securities held by the Plan that are registered with the Securities and Exchange Commission and valued using the reported NAV. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Mutual funds are classified within Level 1 of the fair value hierarchy because mutual funds are publicly traded, and the NAV is quoted in active markets and may be redeemed daily.

Short-Term Investment Funds ("STIF")

This investment is part of the Dun & Bradstreet Stable Value Fund and valued at the reported NAV of $1. It is within Level 1 of the fair value hierarchy as plan participant may purchase or redeem units of the Fund daily based on the unit value determined on the respective date of the transaction.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

(dollars in thousands)	**Level 1**	**Level 2**	**Level 3**	**Total**

4. Investments

Investments held by the Plan at December 31, 2020 and 2019 are summarized as follows:

(dollars in thousands)	2020	2019
At fair value:		
Common/Collective Investment Trusts	$ 271,809	$ 248,077
Mutual Funds	788,029	700,370
Stable Value Fund - STIF & Net Receivable/Payable	7,485	8,569

Stable Value Fund - Synthetic GICs	94,982	84,378
Total Investments at Contract Value:	126,878	112,792
Total investments held by the Plan	$ 1,194,201	$ 1,069,808

5. Contracts with Insurance Company

The Plan offers an investment in the Dun & Bradstreet Stable Value Fund ("Stable Value Fund"). The Stable Value Fund holds a portfolio of investment contracts. These contracts meet the fully benefit-responsive criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive contracts because this is the amount received by participants if they were to initiate permitted transactions (for example, withdrawals) under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Stable Value Fund invests in cash equivalents, separate account GICs issued by banks or insurance companies, and synthetic GICs. Synthetic GICs include security-backed contracts which are comprised of two components, an underlying fixed income portfolio that invests primarily in U.S. domestic fixed income securities (bonds) and a wrap contract issued by a financial institution to provide stability of principal and interest. The Stable Value Fund is invested in broadly diversified portfolios of fixed income securities including financial instruments issued by highly rated companies.

There are no reserves required against contract value for credit risk of the contract issuer or otherwise. Credited interest rates for fixed rate contracts are fixed for the duration of such contracts and depend upon market conditions when the contract is negotiated. For floating rate contracts, interest rates are reset each quarter.

The following represents the disaggregation of contract value investments between types of investment contracts held by the Plan at December 31, 2020 and 2019.

(dollars in thousands)	**2020**	**2019**
Separate Account GICs	$ 31,896	$ 28,414
Synthetic GICs	94,982	84,378
Total	$ 126,878	$ 112,792

The difference between a synthetic investment contract and a separate account investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payment to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With separate account investment contracts, the Plan owns only the contract itself. Synthetic and separate account contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below zero percent. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustment to future contract crediting rates. Formulas are provided in each contract that adjust renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The separate account investment contracts are first supported by associated assets in a segregated separate account held by the issuing insurance company and then, to the extent necessary, by the insurer's general account assets and surplus. The crediting rate on a separate account GIC resets periodically based upon the earnings of the separate account assets. The securities held in the separate account are owned by the insurance company, but are held for the exclusive benefit of the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrators do not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

6. Tax Status

On May 31, 2013, the Company received a favorable determination letter from the IRS on the Plan which included all amendments made to the Plan and related Trust Document executed subsequent to the receipt of the prior determination letter. In IRS Announcement 2015-19, issued on July 21, 2015, the IRS said it is eliminating the staggered five-year determination remedial amendment cycles for individually designed tax-qualified retirement plans effective January 1, 2017.

The Plan administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt. Participants will not be subject to income tax for contributions made on their behalf by the Company, nor on money earned by the Plan and credited to their account until such time as they withdraw their balance.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to any uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. The Company believes it is no longer subject to income tax examinations for years prior to 2017.

7. Related-Party Transactions

Certain Plan investments are in shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The following is the activity for the year ended December 31, 2020.

(dollars in thousands)	Fidelity Mutual Funds
	2020
Purchases	$ 59,467
Sales	$ 65,050
Dividends paid	$ 12,921
Net appreciation	$ 55,187

Fees paid by the Plan to the Trustee for administrative expenses were approximately $368,000 for the year ended December 31, 2020, which is part of the total Administrative Expenses stated on the Statement of Changes in Net Assets Available for Benefits.

8. Reconciliation of Financial Statements to Form 5500

The accompanying financial statements present fully benefit-responsive contracts at contract value. The Form 5500 requires synthetic investment contracts to be reported at fair value. Therefore, there is an adjustment from fair value to contract value for synthetic investment contracts which represents a reconciling item.

The following is a reconciliation of Net Assets Available for Benefits from the Plan's financial statements to the Form 5500:
