Note 1. Plan Description

The following description of the Lincoln International LLC 401(k) Plan, formerly the Lincoln International LLC Deferred Compensation Plan, (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established by Lincoln International LLC and affiliates (collectively, the Company) covering all eligible employees who have attained age 18. Eligible employees may begin participating as of the first day of the following quarter, subsequent to meeting eligibility requirements. The assets of the Plan are managed and administered under the terms of an agreement between the Company and Fidelity Investments Institutional Operations Company, Inc. (the Recordkeeper). Fidelity Management Trust Company, as the trustee for the Plan, holds the Plan's assets and is responsible for the investment of the plan assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 90 percent of pre-tax or post tax (Roth) annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants age 50 or older before the end of the plan year may also contribute catch-up contributions to the Plan. The Company may make discretionary matching contributions; however, the Company has not elected to do so for 2020. The Company may also make a discretionary profit-sharing contribution. In 2020, the Company made discretionary profit sharing contributions of $466,251. To receive discretionary matching contributions and discretionary profit sharing contributions, eligible participants must be 18 years of age and be employed at year-end. Contributions are subject to limitations as provided in the Internal Revenue Code (IRC) as described in the Plan.

Safe harbor non-elective contributions: Effective January 1, 2017, safe harbor non-elective Company contributions are made annually on behalf of all eligible participants during the Plan year who are non-highly compensated employees (as defined by the Plan) in an amount equal to three percent of his or her eligible compensation. The Company authorized safe harbor non-elective Company contributions of $1,010,019 for the plan year 2020.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary matching contribution, if any, (b) the Company's safe harbor contribution, (c) the Company's discretionary profit-sharing contribution, if any, and (d) plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their deferral and rollover contributions, and safe harbor non-elective Company contributions plus actual earnings thereon. Participants vest in the Company discretionary matching and profit-sharing contributions portion of their accounts plus actual earnings thereon based on years of continuous service. A participant vests in this portion of their account balance equally each year beginning after two years of service so that he/she is 100 percent vested after six years of credited service. Participants who attain normal retirement age of 65, or who terminate employment due to death or disability, are 100 percent vested in their account balances.

Investment options: Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various registered investment companies and money market funds as investment options for participants. Participants have the ability to change their investment options on a daily basis.

Note 1. Plan Description (Continued)

Payment of benefits: Upon death, termination of service, disability, retirement or due to other reasons, as defined in the Plan, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his/her account. A participant who is not a 5 percent or greater owner of the Company is required by law to receive a minimum distribution from the Plan no later than April 1 of the calendar year following the calendar year in which the participant attains 70 ½ or terminates employment, whichever is later. A 5 percent or greater owner of the Company is required to receive a minimum distribution no later than April 1 of the calendar year following the calendar year in which the participant attains age 70 ½ even if the participant has not retired.

Forfeited accounts: At December 31, 2020 and 2019, forfeited non-vested accounts totaled $91,008 and $133,921, respectively. These accounts can be used to reduce future Company discretionary matching and discretionary profit sharing contributions, if any, or to pay administrative expenses of the Plan. In addition, the Company contribution and related contribution receivable as of and for the year ended December 31, 2020, was recorded net of $150,000 of forfeitures available at the time of payment.

Recent accounting pronouncements: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Changes to the Disclosure Requirements for Fair Value Measurement*. The amendments remove or modify certain disclosures, while others were added. The guidance is effective beginning January 1, 2020, with early adoption permitted. The amendment was adopted at the beginning of the year and did not have a material impact on the Plan's financial statements.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for a detailed discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Investment management and administrative expenses of the Plan are paid by the Plan as provided in the plan document. Certain other administrative expenses are paid by the Company on behalf of the Plan, without reimbursement, and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Note 3. Information Certified by the Plan's Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by Fidelity Management Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

Fidelity Management Trust Company also certified to the completeness and accuracy of $6,577,114 of net appreciation in fair value of investments and $1,617,903 of interest and dividends related to the aforementioned investments for the year ended December 31, 2020.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2020 and 2019:

Money market funds and registered investment companies: Valued at the daily closing price as reported by the fund. Shares of money market funds and registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The shares of money market funds and registered investment companies held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	2020 (Level 1)	2019 (Level 1)
Registered investment companies	$ 55,938,704	$ 45,303,417
Money market funds	1,763,115	1,108,748
Total investments	$ 57,701,819	$ 46,412,165

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2020, there were no transfers in or out of Levels 2 or 3.

Note 5. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of registered investment companies managed by an affiliate of Fidelity Management Trust Company (Fidelity). Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity amounted to $46,451 for the year ended December 31, 2020.

Some of the Company's employees provide certain accounting and administrative services to the Plan for which no fees are charged.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

Effective June 5, 2015, the Plan adopted a volume submitter defined contribution plan sponsored by Fidelity Management Trust Company. The volume submitter plan has received an opinion letter dated March 31, 2014, from the Internal Revenue Service (IRS) as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan has been amended since the adoption date. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management evaluated the Plan's tax positions and concluded that no uncertain tax positions exist. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2017.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
