Note 1 - Plan Description

The following description of Joint Township District Memorial Hospital Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Joint Township District Memorial Hospital (the "Hospital"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan, originally effective as of February 1, 1990, was amended and restated in its entirety effective as of August 1, 2008. Each employee who was eligible immediately prior to August 1, 2008 continued to be an eligible employee. Other employees shall become eligible as of the next enrollment date coinciding with the employee reaching 19 years of age and completing one year of credited service, as defined in the plan agreement.

Contributions

Employees who were hired prior to January 1, 2007 and were eligible for contributions shall receive a supplemental contribution of 5.5 percent of the participant's compensation plus 3.3 percent of any compensation in excess of $25,000. In addition, the Hospital matches 50 percent of the first 4 percent of participant compensation contributed to the Joint Township District Memorial Hospital Tax Deferred Annuity Plan.

For employees hired on or after January 1, 2007, no supplemental contribution will be made. The Hospital matches 50 percent of the first 8 percent of participant compensation contributed to the Joint Township District Memorial Hospital Tax Deferred Annuity Plan.

Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts

Each participant's account is credited with the participant's rollover contributions and allocations of the Hospital's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

A participant is 100 percent vested in the employer match portion of his or her account after three years of credited service, as defined in the plan agreement.

A participant is 100 percent vested in the rollover funds of another qualified plan, as defined in the plan agreement, and any income or loss thereon.

Benefit Payments

On termination of service due to death, disability, or retirement, a participant (or the participant's beneficiary in the case of death) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The designated beneficiary is entitled to a death benefit equal to the participant's account balance.

In accordance with the Coronavirus Aid, Relief, and Economic Security Act, between March and December 31, 2020, eligible participants could request a coronavirus-related distribution (CRD) of up to $100,000 from their participant accounts without being subject to the Internal Revenue Service 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

Note 1 - Plan Description (Continued)

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future hospital contributions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Talcott Resolution Life Insurance Company (TRLIC) or its affiliates. TRLIC is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are held in pooled separate accounts valued at fair value and an unallocated investment contract that is maintained by TRLIC valued at contract value. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the accounts, which is based on the fair value of the accounts' underlying net assets. The Plan's unallocated investment contract is a benefit-responsive group annuity contract with TRLIC that invests in TRLIC's general assets. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

See Notes 4 and 6 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses for the years ended December 31, 2020 and 2019 were paid by the Hospital. Additionally, the Hospital provides certain accounting and administrative services at no cost to the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 16, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Massachusetts Mutual Life Insurance Company (MassMutual) was appointed by TRLIC to provide administrative services for investments held by TRLIC.

TLRIC holds the Plan's investment assets and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by MassMutual, on behalf of TLRIC.

Note 4 - Unallocated Investment Contract

The Plan invests in a benefit-responsive unallocated investment contract with TRLIC. TRLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return TRLIC expects on new investments made by it and held with the TRLIC general account. When establishing interest crediting rates for these contracts, TRLIC considers past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. The crediting rate will always equal or exceed the contractually guaranteed rate.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rate is based on a formula agreed upon with the issuer but may not be less than 3 percent for the TRLIC contract. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with TRLIC. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with the plan participants, is probable.

Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from contract value. The unallocated investment contract does not permit the insurance companies to terminate the agreement prior to the scheduled maturity. This total liquidation is a contingent event, which cannot be initiated by the plan participants and can only be initiated by the plan trustee upon termination of the Plan or complete termination of the contract.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Fair Value Measurements

Investments in Entities that Calculate Net Asset Value per Share

The Plan holds shares or interests in pooled separate accounts for which fair values are estimated based on the net asset value per share (or its equivalent) of underlying assets in the accounts.

At year end, the fair value of those investments is as follows:

	2020	2019
Pooled separate accounts:		
Equity funds (1)	$ 23,509,068	$ 19,834,193
Balanced funds (2)	7,480,235	7,115,038
Bond funds (3)	2,249,107	2,094,002
Total	$ 33,238,410	$ 29,043,233

(1) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities, which may include common stocks, options, and futures.

(2) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed pooled separate accounts that invest primarily in debt securities. The investments may include U.S. government securities, convertibles, privately issued mortgage-based securities, corporate bonds, and other debt securities.

There were no unfunded commitments or redemption restrictions on the investments described above.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2020 - 12/31/2020 and indirect compensation is presented on a calendar year basis ending 12/31/2020.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

*****

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

---

[1]Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Float compensation **$0.32**

Bank accounts and investments associated with short-term investment pool

This is an estimate based on the annual average rate of float (0.904% for 2020) earned on the bank accounts and investments associated with the short-term investment pool for the 2020 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

MassMutual provided the Plan with the required written disclosure for float revenue received by MassMutual.

* Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Massachusetts Mutual Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The above list includes any investment option held by the plan on at least one month end during the 2020 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

[*] This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that some of the funds available through your service contract or arrangement are funds from The Hartford Financial Services Group, Inc.'s proprietary family of mutual funds (The Hartford Mutual Funds). These proprietary mutual funds have contracts for services with companies that are affiliated with Hartford Securities Distribution Company Inc.

Note 1 - Plan Description

The following description of Joint Township District Memorial Hospital Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Joint Township District Memorial Hospital (the "Hospital"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan, originally effective as of February 1, 1990, was amended and restated in its entirety effective as of August 1, 2008. Each employee who was eligible immediately prior to August 1, 2008 continued to be an eligible employee. Other employees shall become eligible as of the next enrollment date coinciding with the employee reaching 19 years of age and completing one year of credited service, as defined in the plan agreement.

Contributions

Employees who were hired prior to January 1, 2007 and were eligible for contributions shall receive a supplemental contribution of 5.5 percent of the participant's compensation plus 3.3 percent of any compensation in excess of $25,000. In addition, the Hospital matches 50 percent of the first 4 percent of participant compensation contributed to the Joint Township District Memorial Hospital Tax Deferred Annuity Plan.

For employees hired on or after January 1, 2007, no supplemental contribution will be made. The Hospital matches 50 percent of the first 8 percent of participant compensation contributed to the Joint Township District Memorial Hospital Tax Deferred Annuity Plan.

Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts

Each participant's account is credited with the participant's rollover contributions and allocations of the Hospital's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

A participant is 100 percent vested in the employer match portion of his or her account after three years of credited service, as defined in the plan agreement.

A participant is 100 percent vested in the rollover funds of another qualified plan, as defined in the plan agreement, and any income or loss thereon.

Benefit Payments

On termination of service due to death, disability, or retirement, a participant (or the participant's beneficiary in the case of death) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The designated beneficiary is entitled to a death benefit equal to the participant's account balance.

In accordance with the Coronavirus Aid, Relief, and Economic Security Act, between March and December 31, 2020, eligible participants could request a coronavirus-related distribution (CRD) of up to $100,000 from their participant accounts without being subject to the Internal Revenue Service 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

Note 1 - Plan Description (Continued)

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future hospital contributions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Talcott Resolution Life Insurance Company (TRLIC) or its affiliates. TRLIC is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are held in pooled separate accounts valued at fair value and an unallocated investment contract that is maintained by TRLIC valued at contract value. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the accounts, which is based on the fair value of the accounts' underlying net assets. The Plan's unallocated investment contract is a benefit-responsive group annuity contract with TRLIC that invests in TRLIC's general assets. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

See Notes 4 and 6 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses for the years ended December 31, 2020 and 2019 were paid by the Hospital. Additionally, the Hospital provides certain accounting and administrative services at no cost to the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 16, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Massachusetts Mutual Life Insurance Company (MassMutual) was appointed by TRLIC to provide administrative services for investments held by TRLIC.

TLRIC holds the Plan's investment assets and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by MassMutual, on behalf of TLRIC.

Note 4 - Unallocated Investment Contract

The Plan invests in a benefit-responsive unallocated investment contract with TRLIC. TRLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return TRLIC expects on new investments made by it and held with the TRLIC general account. When establishing interest crediting rates for these contracts, TRLIC considers past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. The crediting rate will always equal or exceed the contractually guaranteed rate.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rate is based on a formula agreed upon with the issuer but may not be less than 3 percent for the TRLIC contract. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with TRLIC. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with the plan participants, is probable.

Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from contract value. The unallocated investment contract does not permit the insurance companies to terminate the agreement prior to the scheduled maturity. This total liquidation is a contingent event, which cannot be initiated by the plan participants and can only be initiated by the plan trustee upon termination of the Plan or complete termination of the contract.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Fair Value Measurements

Investments in Entities that Calculate Net Asset Value per Share

The Plan holds shares or interests in pooled separate accounts for which fair values are estimated based on the net asset value per share (or its equivalent) of underlying assets in the accounts.

At year end, the fair value of those investments is as follows:

	2020	2019
Pooled separate accounts:		
Equity funds (1)	$ 23,509,068	$ 19,834,193
Balanced funds (2)	7,480,235	7,115,038
Bond funds (3)	2,249,107	2,094,002
Total	$ 33,238,410	$ 29,043,233

(1) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities, which may include common stocks, options, and futures.

(2) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed pooled separate accounts that invest primarily in debt securities. The investments may include U.S. government securities, convertibles, privately issued mortgage-based securities, corporate bonds, and other debt securities.

There were no unfunded commitments or redemption restrictions on the investments described above.

Note 1 - Plan Description

The following description of Joint Township District Memorial Hospital Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Joint Township District Memorial Hospital (the "Hospital"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan, originally effective as of February 1, 1990, was amended and restated in its entirety effective as of August 1, 2008. Each employee who was eligible immediately prior to August 1, 2008 continued to be an eligible employee. Other employees shall become eligible as of the next enrollment date coinciding with the employee reaching 19 years of age and completing one year of credited service, as defined in the plan agreement.

Contributions

Employees who were hired prior to January 1, 2007 and were eligible for contributions shall receive a supplemental contribution of 5.5 percent of the participant's compensation plus 3.3 percent of any compensation in excess of $25,000. In addition, the Hospital matches 50 percent of the first 4 percent of participant compensation contributed to the Joint Township District Memorial Hospital Tax Deferred Annuity Plan.

For employees hired on or after January 1, 2007, no supplemental contribution will be made. The Hospital matches 50 percent of the first 8 percent of participant compensation contributed to the Joint Township District Memorial Hospital Tax Deferred Annuity Plan.

Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts

Each participant's account is credited with the participant's rollover contributions and allocations of the Hospital's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

A participant is 100 percent vested in the employer match portion of his or her account after three years of credited service, as defined in the plan agreement.

A participant is 100 percent vested in the rollover funds of another qualified plan, as defined in the plan agreement, and any income or loss thereon.

Benefit Payments

On termination of service due to death, disability, or retirement, a participant (or the participant's beneficiary in the case of death) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The designated beneficiary is entitled to a death benefit equal to the participant's account balance.

In accordance with the Coronavirus Aid, Relief, and Economic Security Act, between March and December 31, 2020, eligible participants could request a coronavirus-related distribution (CRD) of up to $100,000 from their participant accounts without being subject to the Internal Revenue Service 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

Note 1 - Plan Description (Continued)

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future hospital contributions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Talcott Resolution Life Insurance Company (TRLIC) or its affiliates. TRLIC is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are held in pooled separate accounts valued at fair value and an unallocated investment contract that is maintained by TRLIC valued at contract value. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the accounts, which is based on the fair value of the accounts' underlying net assets. The Plan's unallocated investment contract is a benefit-responsive group annuity contract with TRLIC that invests in TRLIC's general assets. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

See Notes 4 and 6 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses for the years ended December 31, 2020 and 2019 were paid by the Hospital. Additionally, the Hospital provides certain accounting and administrative services at no cost to the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 16, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Massachusetts Mutual Life Insurance Company (MassMutual) was appointed by TRLIC to provide administrative services for investments held by TRLIC.

TLRIC holds the Plan's investment assets and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by MassMutual, on behalf of TLRIC.

Note 4 - Unallocated Investment Contract

The Plan invests in a benefit-responsive unallocated investment contract with TRLIC. TRLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return TRLIC expects on new investments made by it and held with the TRLIC general account. When establishing interest crediting rates for these contracts, TRLIC considers past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. The crediting rate will always equal or exceed the contractually guaranteed rate.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rate is based on a formula agreed upon with the issuer but may not be less than 3 percent for the TRLIC contract. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with TRLIC. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with the plan participants, is probable.

Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from contract value. The unallocated investment contract does not permit the insurance companies to terminate the agreement prior to the scheduled maturity. This total liquidation is a contingent event, which cannot be initiated by the plan participants and can only be initiated by the plan trustee upon termination of the Plan or complete termination of the contract.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Fair Value Measurements

Investments in Entities that Calculate Net Asset Value per Share

The Plan holds shares or interests in pooled separate accounts for which fair values are estimated based on the net asset value per share (or its equivalent) of underlying assets in the accounts.

At year end, the fair value of those investments is as follows:

	2020	2019
Pooled separate accounts:		
Equity funds (1)	$ 23,509,068	$ 19,834,193
Balanced funds (2)	7,480,235	7,115,038
Bond funds (3)	2,249,107	2,094,002
Total	$ 33,238,410	$ 29,043,233

(1) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities, which may include common stocks, options, and futures.

(2) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed pooled separate accounts that invest primarily in debt securities. The investments may include U.S. government securities, convertibles, privately issued mortgage-based securities, corporate bonds, and other debt securities.

There were no unfunded commitments or redemption restrictions on the investments described above.
