Wire Mesh Texas 401(k) Plan

Notes to Financial Statements

December 31, 2019

Note 1 - Description of Plan

General

The following description of the Wire Mesh Texas 401(k) Plan (the "Plan") provides only general information. Participants should refer to the *Plan Document* for a more complete description of the Plan's provisions.

The Plan was established on March 31, 2018 following the acquisition of Gerdau Ameristeel US Inc. Upon acquisition, the assets of the Gerdau Ameristeel US Savings Plan (the "Gerdau Plan") were transferred into the Plan. The Plan is a defined contribution plan covering generally all employees of Wire Mesh Texas, LLC (the "Company" or "Employer") and participating employers including WMC Industrial, LLC, WMC Sales, LLC, and Optimus Steel, LLC (collectively, the "Participating Employers"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

During 2019, certain assets of an affiliated defined contribution plan were transferred into the Plan due to a reorganization following the acquisition that established the affiliated defined contribution plan.

Plan trustee and recordkeeper

Reliance Trust Company (the "Trustee") serves as the Plan's trustee. Massachusetts Mutual Life Insurance Company (the "Custodian" or "Mass Mutual") serves as the Plan's custodian and recordkeeper. My Benefits, LLC (the "TPA") serves as the Plan's third-party administrator.

Eligibility

All employees, except for leased, non-resident alien, and union employees, interns, and employees eligible under other retirement plans offered by the employer or an affiliate, are eligible to participate in the Plan upon completing a 45 day service requirement. Entry to participate in the Plan is immediately upon meeting the eligibility requirements.

Participant contributions

The Plan provides for voluntary employee contributions expressed as a percentage of the participant's eligible compensation, as defined, up to 100% of a participant's compensation. The contributions are not to exceed the limits set by the Internal Revenue Code (the "IRC"), which limits the annual amount of salary deferrals that may be made by any participant. Eligible participants may also make catch-up contributions upon attaining 50 years of age, as defined by the IRC. Participants may also rollover amounts representing distributions from other qualified plans.

Employer contributions

The Company has elected for the Plan to include an employer matching contribution in an amount equal to 100% of participant's elective deferrals up to a maximum of 6% of the participant's eligible compensation each pay period. The Company also may make a qualified non-elective contribution to the Plan. No such qualified non-elective contribution was made in 2019.

Note 1 - Description of Plan (Continued)

Employer contributions (continued)

During 2019, overstated administrative expenses were erroneously deducted from participant accounts. The necessary corrections were made in February 26, 2021 and are recorded as other employer contributions receivable as of December 31, 2019 in the statements of net assets available for benefits.

Vesting

Participants are immediately vested at 100% in their voluntary employee contributions, rollover contributions, employer matching contributions, and qualified non-elective contributions plus actual earnings.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching and qualified non-elective contributions, and Plan earnings/losses, and at times, charged with an allocation of administrative expenses. Allocations are based on participant contributions, participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Participants direct the allocation of their account balance in any of several investment options. Participants can change their investment options among the various investment funds either through direct transfers from one fund to another or by changing the percentage allocation of future contributions.

Notes receivable from participants

Participants may borrow a minimum of $1,000 from their fund accounts up to a maximum equal to the lesser of 50% of their vested account balance or $50,000 reduced by the highest outstanding note receivable balance in the participant's account during the prior 12 month period. The loans are made for terms not to exceed five years unless the loan is used to acquire a principal residence, in which case, the administrator may permit a longer repayment term. The maximum number of loans that a participant may have outstanding at any one time is one. All notes receivable shall bear a reasonable rate of interest defined as the Prime rate plus 1%.

Benefit payments

Participants are eligible for distributions of their vested account balances upon the event of death, retirement, termination of employment, reaching the age 59 ½, or by incurring disability or hardship, as defined by the Plan. In the case of death, distributions are made to the participant's beneficiary.

Distributions may be made in lump-sum payments. If the vested balance of the participant's account is less than $5,000, the payment will be made in cash in a single lump-sum. Any taxable distribution paid directly to the participant will be subject to mandatory federal income tax withholding of 20% of the requested distribution.

Note 1 - Description of Plan (Continued)

Administrative expenses

All administrative expenses, unless paid by the Company, are paid by the Plan.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets would be allocated among participants of the Plan in accordance with the provisions of the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from these estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation or depreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation or depreciation of investments held at the end of the year.

Notes receivable from participants

Notes receivable from participants are measured as their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions, based upon terms of the *Plan Document*, upon liquidation of their account balance.

Note 2 - Summary of Significant Accounting Policies (Continued)

Financial instruments and credit risk

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan participants bear the risk of any investment losses.

Benefit payments

Benefit payments are recorded when paid.

Recent accounting pronouncement

The Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement* in August 2018. The ASU modifies the disclosure requirements for the fair value measurements in Topic 820, including the removal, modification to, and addition of certain disclosure requirements. The ASU will be effective for the Plan's fiscal year beginning after December 15, 2019. The provisions of the ASU are not expected to have a material impact on the Plan's financial statements.

Note 3 - Fair Value Measurements

The Plan uses a three-level hierarchy, in accordance with their fair value standard, that establishes a hierarchy for grouping assets and liabilities, based on the significance of inputs.

The hierarchy of fair value measurements is described below:

- Level 1 - quoted prices in active markets for identical assets or liabilities;
- Level 2 - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 - unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds – these investments are valued daily based on the quoted market value of the fund assets. All mutual funds are valued using Level 1 inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - General Investment Account

Effective March 31, 2018, the Plan entered into a fully benefit-responsive investment contract with Mass Mutual, the issuer. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings at guaranteed crediting rates, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawals or transfer all or a portion of their investment at contract value.

The interest crediting rate is calculated by dividing the annual interest credited to the participants during the Plan year by the average annual fair value. The interest crediting rate is determined annually and was 1.98% and 1.60% at December 31, 2019 and 2018, respectively.

Certain events may limit the ability of the Plan to transact at contract value with Mass Mutual. Such events include but may not be limited to a participant termination of employment due to: (1) removal of a group of participants from plan coverage as a result of temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business. Such events also include: (1) removal from the plan of one or more groups or classifications of participants; (2) partial or complete plan termination; or (3) plan disqualification.

Note 5 - Tax Status

The volume submitter plan adopted by the Company received its latest opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable requirements of the IRC. The Plan has been established since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and is being operated within the applicable requirements of the IRC and therefore, believe that the Plan is qualified and the related trust is tax exempt as of December 31, 2019. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Note 5 - Tax Status (Continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Information Certified by the Trustee (Unaudited)

For the Plan year 2019, the financial information included in the Plan's financial statements and Schedule H, line 4i, except for contributions receivable, contributions, benefits paid to participants, administrative expenses, and transfer in from another qualified plan, has been derived from information certified as complete and accurate by the Trustee of the Plan in accordance with 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Certain Plan investments are funds managed by the Custodian and therefore these transactions qualify as party-in-interest transactions.

Note 9 - Uncertainty

The Company is currently researching certain participant and employer contributions that must be made to the Plan to true up employer matching contributions on an annual basis. The Company is in the process of determining the contribution amount and intends to fund such amount in 2021. As the amount has not been determined, a true-up receivable has not been recorded in the 2019 financial statements.

Note 10 - Subsequent Events

The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was passed by Congress and signed into law on March 27, 2020. Plan management is reviewing the CARES Act and its impact on the Plan.

Management has evaluated subsequent events through July 21, 2021, which was the date that the financial statements were available to be issued, and has determined that there are no other subsequent events to be disclosed.
