1 Description of Plan

The following description of the Great Lakes Cheese Co., Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which began July 1, 2007, is a 401(k) plan covering all employees of Great Lakes Cheese Co., Inc. (the Company) who meet the age requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

All employees of the Company age eighteen and older are eligible to participate in the Plan.

Contributions:

Employee contribution - Participants may elect a portion of their compensation, up to 100%, to be contributed to the Plan. If no election is made, employees are automatically enrolled at a contribution rate of 6% for the first payroll of their eligibility date, either January 1st or July 1st, depending on their hire date.

In addition, Roth elective deferrals are allowed by the employee.

Rollover contributions from other plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

Participants' Accounts:

Each participant's account is credited with the participant's elective contribution and earnings. The participant accounts are charged with withdrawals and an allocation of losses. Earnings and losses are allocated based upon the selected portfolio of assets the participants selected. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon.

1 Description of Plan, Continued

Notes Receivable from Participants:

Loans are permitted under certain circumstances and are subject to limitations. Participants may borrow from their fund with a minimum of $1,000, to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loans are repaid over a period not to exceed five years with exceptions for the purchase of a primary residence.

Loans are measured at their unpaid principal balance plus any accrued unpaid interest. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 4.75%. Principal and interest are paid ratably through payroll deductions.

Other Plan Provisions:

Normal retirement age is 60. The Plan also provides for early payment of benefits after reaching age 59-1/2.

Payment of Benefits:

A participant is entitled to receive the balance held in his/her account upon reaching normal retirement age (and after incurring a break in service as defined by the Plan). Such participants will receive an amount equal to the vested interest in the account. All payments of benefits shall be paid in a cash lump sum. Upon termination of service, the participant is entitled to their account balance as soon as administratively feasible. Benefits are recorded when paid.

Investment Options:

Upon enrollment in the Plan, a participant may direct his or her contributions in any of the investment options offered by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

2 Summary of Significant Accounting Policies, Continued

Investment Valuation:

Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment holder. Investment in Voya Fixed Account is based on the value of the underlying assets held in the insurance company's general account. Loans are valued at cost which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Plan.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Risks and Uncertainties:

The Plan's investments include investments in pooled separate accounts and unallocated insurance contracts with varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through July 22, 2021, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

As defined in FASB ASC 820, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

* Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
* Level 2: Inputs to the valuation methodology include:
  * Quoted prices for similar assets or liabilities in active markets:
  * Quoted prices for identical or similar assets or liabilities in inactive markets:
  * Inputs other than quoted prices that are observable for the asset or liability;
  * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
* Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund:

The fair value of the money market fund is valued at $1 and is classified in the Level 1 category.

Pooled Separate Accounts:

The fair value of the pooled separate accounts is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 2 category of the valuation hierarchy.

Participant transactions (purchased and sales) may occur daily. The obligation to make benefit payments is the obligation of Voya, as deemed by the contract. To the extent the benefits paid to contract owners exceed their account values, Voya will contribute additional funds.

3 Fair Value Measurements, Continued

Unallocated Insurance Contract (Voya Fixed Account):

The fair value of the unallocated insurance contract is based on the value of the underlying assets, which are held in the insurance company's general account. The fair value is expressed in units. The unallocated insurance contract is not fully benefit responsive and is classified in the Level 3 category of the valuation hierarchy. Participant transactions may occur daily, there are no liquidity provisions and there are no restrictions on redemptions.

The following tables present the financial instruments carried at fair value, on a recurring basis, by ASC 820 valuation hierarchy (as described above). There were no assets that fell within Level 3 of the valuation hierarchy.

For years ended December 31, 2020 and 2019, the Plan had purchases and sales of assets using significant unobservable inputs (Level 3) of $1,843,292 and $1,046,090 (2020) and $1,602,860 and $1,020,953 (2019), respectively, and there were no transfers in or out of Level 3.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value to those financials

Unallocated Insurance Contract 2020

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
(Voya Fixed Fund)	$ 7,268,189	Net Surrender Value	Standard credited rate	1.00%	n/a

Unallocated Insurance Contract 2019

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
(Voya Fixed Fund)	$ 6,362,057	Net Surrender Value	Standard credited rate	1.25%	n/a

4 Tax Status

The U.S. Department of Treasury made a determination on August 24, 2017, that the Plan constitutes a qualified trust under Section 401 (b) of the Internal Revenue Code and is, therefore, exempt from federal income tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2020, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

5 Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Custodian:

	2020	2019
Investments	**$ 79,810,182**	$ 66,569,048
Investment Income	**$ 8,720,834**	$ 10,597,040
Interest income on notes receivable	**$ 134,725**	$ 125,665

6 Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. The Plan pays National Associates for administrative services and the Plan auditors for audit fees. These transactions qualify as party-in-interest transactions.

Certain Plan investments are shares of pooled separate accounts managed by Voya Retirement Insurance and Annuity Company, the Custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid by the funds for the investment management services.

In addition, the Plan has arrangements with various other service providers and these arrangements qualify as party in interest transactions.

7 Subsequent Events

Effective July 2021, the Plan changed the custodian and recordkeeper from Voya Retirement Insurance and Annuity Company to Principal Trust Company.
