Note A – Description of Plan

The following description of ICI Homes Residential Holdings LLC Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of ICI Homes Residential Holdings LLC and its participating Employers (collectively, the "Company" or "Employer") who have completed sixty days of service and are at least 21 years of age. The Plan was formed and adopted on June 1, 1995 and most recently amended effective October 1, 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan had the option to implement certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts are not going to be implemented, nor adopted, by the Plan

Employees may enter the Plan on the first day of January, April, July, or October coinciding with or following the date eligibility requirements are satisfied.

Administration

The Plan is administered by the Company. The Plan's assets for the year were maintained and administered by Principal Life Insurance Company (the "Custodian").

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code ("IRC") limitations. Participants may also make after-tax Roth contributions. The maximum participant deferral for December 31, 2020 and 2019 was $19,500 and $19,000, respectively. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,500 and $6,000, respectively, for December 31, 2020 and 2019.Participants may also contribute amounts representing rollover distributions from other qualified defined benefit plans.

The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral set at 6% of eligible compensation and their contributions invested in a target date fund until changed by the participant. The salary deferral percentage will be automatically increased each January 1st by 1% up to a maximum of 10%.

Under the terms of the Plan, the Company has the option to make discretionary matching contributions up to the first 5% of the employee's eligible compensation, with a maximum of $1,000 per eligible participant. During the year ended December 31, 2020, the Company made matching contributions equal to 25% of elective deferrals for the first 5% of the employee's compensation, up to $1,000. Additional discretionary contributions may be contributed at the option of the Company's board of directors. To be eligible for discretionary Company contributions, the participant must be employed on the last day of the Plan year and have 1,000 or more hours of service in the plan year or have been an active participant at some time during the plan year and had retired, died or became totally disabled as defined in the plan during the plan year.

Note A – Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

Vesting

Participants are 100% vested in their elective salary deferral contributions and rollovers plus actual earnings thereon. Vesting in Company contributions and related earnings is based on years of continuous service. A participant is 100% vested after six years of credit service as follows:

Years of Services	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant who reaches normal retirement age 65, becomes totally disabled, or dies, whichever comes first while under the Company's employment, shall be 100% vested on such date.

Investment Options

Under the Plan, participants may currently direct investments to any of 39 investment options. Participants may change their investment elections daily through a telephone access system or online system.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant may only have a maximum of one loan outstanding at any given time. The notes are secured by the balance in the participant's account, or other acceptable collateral, and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the first day of the second calendar quarter following the calendar quarter in which the participant failed to make a required installment payment.

Note A – Description of Plan (continued)

Distribution of Benefits

Upon termination of service due to death, disability, attainment of early retirement at age 55 or normal retirement at 65, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments, as defined in the Plan agreement, less any applicable taxes. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Participants may also request in-service distributions at age 59 ½. Hardship withdrawals for qualifying expenses may be requested from the portion of their accounts attributable to participant deferral balances for distribution.

Forfeitures

Forfeited accounts are used to pay administrative fees and reduce Employer contributions, with any remaining amounts allocated to participants on the last day of the Plan year. As of December 31, 2020 and 2019, forfeited non-vested accounts totaled $0. During the year ended December 31, 2020, the Plan utilized approximately $7,000 of forfeitures to reduce Plan expenses.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions to the Plan at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan terminates, the net assets will be allocated to the participants and beneficiaries based on the balance of each participant's account subject to adjustments for gains or losses incurred or accrued as of the termination date.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of pooled separate accounts and mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end. The Plan's interest in the common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Note B – Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments

Fair Value Measurements

The Financial Accounting Standards Board has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the Plan year ending December 31, 2020 and 2019.

Pooled separate accounts and common/collective trusts: Valued at the NAV provided by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. There were no unfunded commitments to purchase investments at December 31, 2020 and 2019. Participant-directed redemptions have no restrictions and are recorded at the end of every business day.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

		Fair Value Measurements at Reporting Date Using:		
	Assets Measured at Fair Value at 12/31/2020	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 5,904,289	$ 5,904,289	$ -
Total assets in the fair value hierarchy	5,904,289	5,904,289	-
Investments measured at net asset value	8,305,584		
Investments at fair value	$ 14,209,873		

		Fair Value Measurements at Reporting Date Using:		
	Assets Measured at Fair Value at 12/31/2019	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 5,050,615	$ 5,050,615	$ -
Total assets in the fair value hierarchy	5,050,615	5,050,615	-
Investments measured at net asset value	6,671,909		
Investments at fair value	$ 11,722,524		

Investments measured using NAV as a practical expedient are exempt from being presented in the fair value hierarchy.

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Custodian, except for comparing such information to the related information included in the financial statements and supplemental schedules of assets (held at end of year). The Plan Administrator has obtained a certification from the Custodian that the information provided to the Plan Administrator by the Custodian as of December 31, 2020, and for the year ended December 31, 2020, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the underlying prototype document is qualified under Section 401(a) of IRC, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2018.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments and the related transactions were in investment funds managed by the Custodian; therefore, these investments and transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid to parties-in-interest by the Plan for services amounted to approximately $57,000 during the year ended December 31, 2020.

Note G – Subsequent Events

Subsequent events have been evaluated through July 13, 2021, which is the date the financial statements were available to be issued.
