1. Description of Plan

The following description of the Jimmy John's 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Plan Transfer – On October 18, 2019, the plan sponsor was acquired by another company. As part of the acquisition, the Plan merged with the parent company's 401(k) plan effective December 31, 2020, and will be subsequently terminated. Thus, as of that date, the Plan's assets became legally controlled by the parent company's plan based on the terms of the merger agreements. The Plan's assets transferred from the Plan and merged into the parent company's plan in 2021 representing the transfer to other qualified plan on the statement of changes in net assets available for benefits. Because future corrections will be processed out of the parent company's plan, amounts payable to participants totaling $185,560 for contributions in excess of amounts allowed by the IRS are included in the transfer payable to other qualified plan on the statement of net assets available for benefits as of December 31, 2020, and transfer to other qualified plan on the statement of changes in net assets available for benefits for the year ended December 31, 2020.

Beginning December 24, 2020, through transfer, the Plan was under a blackout period, thus contributions and loan repayments subsequent to December 24 were directly recorded in the parent company's plan. Furthermore, no DOL schedule H, line 4i – schedule of assets held at end of year is presented as management has determined there were no assets held for investment purposes at December 31, 2020, as the Plan was in the process of transferring the Plan's assets to the parent company's plan. The assets included in Exhibit A are presented on the Schedule of Assets Held for Transfer to Other Qualified Plan for additional analysis.

General – The Plan is a defined contribution plan, covering employees of Jimmy John's, LLC, Jimmy John's Franchise, LLC, Jimmy John's Enterprises, LLC, and Jimmy John's Buying Group, LLC (collectively, the Company) who are 21 years of age or older. The Plan excludes leased employees, reclassified employees, and employees covered by a collective bargaining agreement. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Trustees are responsible for the oversight of the Plan and determine the appropriateness of the Plan's investment offerings and monitor investment performance. The Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Contributions – Each year, participants may elect to defer a percentage of their annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans

(rollover). Participants direct the investment of contributions into various investment options offered by the Plan. As of December 31, 2020 and 2019, the Plan offered mutual funds and a money market fund as investment options for participants.

Excess Contributions – Amounts payable to participants totaling $270,014 for contributions in excess of amounts allowed by the IRS were recorded as corrective distributions payable on the statements of net assets available for benefits and changes in net assets available for benefits as of and for the year ended December 31, 2019. The Plan distributed the 2019 excess contributions to the applicable participants in 2020.

Participant Accounts – Each participant's account is credited with the participant's contribution, if any, and allocations of (a) the Company's contribution, if any, (b) administrative expenses, and (c) plan earnings, net of investment fees. Allocations are based on participant earnings, account balances, or other participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting – Participants are immediately vested in all contributions plus actual earnings thereon.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years except for the purchase of a primary residence, which is a longer term determined by the plan administrator. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – Upon termination of service, for any reason, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan provides for an automatic lump-sum distribution of account balances of $5,000 or less. If the balance of the terminated participant's account is between $1,000 and $5,000, the plan administrator may authorize that the benefit payment be rolled into an individual retirement account in the participant's name. The Plan also allows for financial hardship withdrawals of all or part of the participant's deferral contributions, if the participant can prove financial hardship and is unable to meet their financial needs another way. In addition, in-service withdrawals of the participant's vested interest are allowed when a participant reaches age 59½.

Forfeited Accounts – Forfeited amounts, if any, are used to pay plan expenses.

2. Summary of Significant Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as deemed distributions based upon terms of the plan document.

Investment and Administrative Expenses – The Plan's expenses are paid either by the Plan or the employer, as provided by the Plan document. Expenses paid directly by the employer are excluded from these financial statements. Certain fees are charged to the Plan for services provided by the investment custodian of the Plan and are netted with investment earnings.

Payment of Benefits – Benefit payments are recorded when paid for financial statement purposes.

Subsequent Events – The Plan has evaluated subsequent events through July 16, 2021, the date on which the financial statements were available to be issued.

3. Information Certified by Charles Schwab Trust Bank, the Investment Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, as permitted under such election, no auditing procedures were performed on the following information certified by Charles Schwab Trust Bank, the investment custodian of the Plan, as complete and accurate, except for comparing such information certified by the investment custodian to information included in the Plan's financial statements and supplemental schedule:

	2020	2019
Investments, at Fair Value	$ 10,711,877	$ 10,478,212
Net Appreciation in Investments	$ 295,957	$ 1,520,505
Interest and Dividend Income	$ 231,027	$ 313,734

4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10 establishes a framework for measuring fair value (FV) under generally accepted accounting principles. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2020. The following is a description of the valuation methodologies used for assets measured at fair value.

- *Mutual Funds*: Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The mutual funds held by the Plan are deemed to be actively traded. Certain mutual fund investments held by the Plan are subject to short term purchase and redemption restrictions.

- *Money Market Fund:* Valued at the total of the invested deposits plus earnings thereon, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 10,603,098	$ -	$ -	$ 10,603,098
Money Market Fund	108,779	-	-	108,779
Investments, at Fair Value	$ 10,711,877	$ -	$ -	$ 10,711,877

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 10,471,388	$ -	$ -	$ 10,471,388
Money Market Fund	6,824	-	-	6,824
Investments, at Fair Value	$ 10,478,212	$ -	$ -	$ 10,478,212

5. Administrative Expenses and Party-In-Interest Transactions

A transaction with a plan service provider or a participant of the Plan qualifies as a party-in-interest transaction. Service provider fees, either directly or indirectly, are paid to Charles Schwab Trust Bank, investment custodian; Aspire Financial, Recordkeeper; Benefit Planning Consultants, third-party administrator; and Ruedi Holder & Associates, investment advisor. Of these fees, $70,069 and $65,580 are included in administrative expenses on Exhibit B for the years 2020 and 2019, respectively. Other investment fees are netted with investment earnings. Certain expenses incurred in the administration of the Plan were also paid by the plan sponsor.

Additionally, certain plan investments are both held and managed by the investment custodian.

Notes receivable from participants are considered to be both party-in-interest and a related-party transaction.

6. Tax Status

On March 31, 2014, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this opinion letter, the plan administrator and the prototype plan provider believe that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax-exempt. As such, no provision for income taxes has been included in the Plan's financial statements.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

On March 11, 2020, the World Health Organization declared the outbreak of coronavirus (COVID-19) a pandemic. Local, U.S., and world governments have encouraged self-isolation to curtail the spread of COVID-19 by mandating temporary work stoppage in many sectors and imposing limitations on travel and group sizes. Most industries are experiencing disruption to business operations and the impact of reduced consumer spending. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them. As the situation with COVID-19 was still unfolding as of July 16, 2021, management is uncertain of what, if any, additional financial impacts the Plan will face due to the global pandemic.
