20 **PBGC missed contribution reporting requirements.** If this is a multiemployer plan or a single-employer plan that is not covered by PBGC, skip line 20.

a Is the amount of unpaid minimum required contributions for all years from Schedule SB (Form 5500) line 40 greater than zero? ☐ Yes ☐ No

b If line 20a is "Yes," has PBGC been notified as required by ERISA sections 4043(c)(5) and/or 303(k)(4)? Check the applicable box:

☐ Yes.

☐ No. Reporting was waived under 29 CFR 4043.25(c)(2) because contributions equal to or exceeding the unpaid minimum required contribution were made by the 30th day after the due date.

☐ No. The 30-day period referenced in 29 CFR 4043.25(c)(2) has not yet ended, and the sponsor intends to make a contribution equal to or exceeding the unpaid minimum required contribution by the 30th day after the due date.

☐ No. Other. Provide explanation_____

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial Assumptions

Other than those prescribed, the assumptions below represent an estimate of future experience for the plan. The non-prescribed assumptions were selected by prior actuaries, in conjunction with the plan sponsor. We believe these assumptions reflect their expectation of future experience, and in comparing these assumptions with our expectations for experience based on observations of this plan and similar plan participant behavior, we do not believe that these assumptions significantly conflict with the assumptions that we would have selected for the purpose of this measurement and determined to be reasonable.

In our professional judgment, these assumptions are internally consistent, and we have concluded that the assumptions are reasonable because we expect that they will accurately predict the costs of the plan related to the application of these assumptions, in that they reflect expected future behavior based on past behavior and expected changes in future behavior.

Mortality: For all calculation results shown in this report except for liabilities under ASC 960, the IRS-prescribed Combined Static Mortality Table for Small Plans, as applicable for valuation dates in 2020, has been used. For liabilities under ASC 960, the RP-2014 Mortality Table (headcount weighted) with Improvement Scale MP-2019 has been used to match other calculations prepared for FASB accounting purposes.

Interest Rate for Participant Disclosure and Target Funding Liability purposes: Prescribed HATFA segment rates used are 3.64% for the first 5 years, 5.21% for the next 15 years, and 5.94% for the rest of the period.

Compensation Increases: Not applicable since the plan is not pay-related.

Marriage: It was assumed that 100% of all active and terminated employees are married to an eligible spouse. Wives are assumed to be 3 years younger than husbands.

Disability and Withdrawal Rates: Graduated rates (see table below for sample rates).

	Rates per 100 Participants	
Attained Age	Disability Rates	Withdrawal Rates
25	.15	37.98
30	.16	32.08
35	.19	24.40
40	.30	18.00
45	.45	12.56
50	.69	7.92
55	1.19	4.08
60	1.80	.92

Retirement Age: Age 65 with 5 years of participation, or present age, if greater.

Assumed Age of Commencement for Deferred Vested Benefits: Age 65.

Form of Payment: Each participant not yet already in payment status is assumed to elect a lifetime annuity.

Recognition of IRC Section 415 Limitations: The benefit limitations under IRC Section 415(b) have been reflected in the determination of plan costs.

Loading for Expenses: Expenses paid from the trust each year are assumed to be 0.75% of plan assets. This is the approximate average of the expenses paid from the trust over the last three years and represents the expectation for future years.

Changes Since Last Year: The expense load percentage has been increased from 0.45% to 0.75% of assets to reflect the higher PBGC premiums being paid from plan assets. Also, we have made the prescribed changes in mortality rates and interest rates described above.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Asset Valuation Method

As of January 1, 2019, the actuarial asset valuation method has been changed from market value to a 4-year smoothing asset method. The gain/(loss) is the difference between the actual and expected return (based on the third HATFA segment rate in effect for that valuation year) on the market value of assets. The actuarial value of assets will be determined by subtracting from (or adding to) the current year-end market value the sum of the following:

(i) 75% of the gain (or loss) during the first year preceding the valuation date,
(ii) 50% of the gain (or loss) during the second year preceding the valuation date, and
(iii) 25% of the gain (or loss) during the third year preceding the valuation date.

The result is constrained to be no more than 110% of market value of assets or less than 90% of market value of assets.

The market value of assets shown by plan within the master trust has been determined by an asset split developed by the plan sponsor.

Valuation Procedures

We used employee and financial data submitted by the plan sponsor without further audit. This information would customarily not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

No actuarial accrued liability is included for participants who terminated non-vested prior to the valuation date. Any liabilities for participants transferred to another plan have been included with the liabilities for terminated vested participants.

The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Based on our understanding of the plan sponsor's controlled group of corporations, the plan meets minimum coverage requirements under IRC Section 410(b) and the minimum participation rules under IRC Section 401(a)(26) since the plan only covers employees under a collective bargaining agreement and because the plan meets the definition of a "frozen plan", specifically under IRC Section 401(a)(26)-2(b) and the prior benefit structure requirements, specifically under IRC Section 401(a)(26)-3.

Schedule SB, Part V – Summary of Plan Provisions

Effective Date of Plan and Plan Year
The plan provisions used were based on the provisions of the plan as restated effective December 31, 2013.

The plan year is the calendar year.

Sponsoring Employer
Acme Brick Company.

Participation Requirements
Each Acme Brick Company employee who is represented by the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (USW), Local No. 602 of Perla, Arkansas is eligible to participate in the plan on the January 1st or July 1st after having worked at least 1,000 hours during the first 12 months of employment (or any subsequent calendar year).

However, in association with the plan freeze, any employee who has not met the eligibility requirements of the plan by January 14, 2006, will not be eligible to participate.

Type of Plan
Self-administered, trusteed defined benefit pension plan.

Contributions to the Plan
Employer contributions to the trust will be made in such amounts and at such times as are required to maintain the plan and trust in compliance with ERISA and IRC Section 412. Participant contributions are not required or permitted.

Benefit Service
Benefit service is the period of employment used in determining the amount of pension benefits. A full year of benefit service will be granted for each calendar year beginning in 1976 that an employee works or is paid for 2,080 hours or more of service. If less than 2,080 hours are worked, benefit service is granted at the rate of 1/2,080 for each hour of service (in a year in which an employee works at least 1,000 hours). Also, in the initial year of hire and the ultimate year of termination, partial benefit service will be granted for years in which fewer than 1,000 hours are worked. Benefit service for participants of the prior plan up to January 1, 1976 will be granted for all continuous, uninterrupted employment with the employer.

However, in association with the plan freeze, no benefit service will accrue in this plan after March 31, 2006.

Vesting Service
Vesting service is the period of employment used in determining eligibility for benefits. A year of vesting service is granted for each calendar year beginning in 1976 in which an employee has completed 1,000 or more hours of service with an employer. Also, in the initial year of hire and the ultimate year of termination, partial vesting service will be granted for years in which fewer than 1,000 hours are worked. Vesting service for participants of the prior plan up to January 1, 1976 will be granted for all continuous, uninterrupted employment with the employer.

Vesting service accrual will continue in this plan, even after the plan freeze date (March 31, 2006).

Plan Compensation
Not applicable. This is not a pay-related plan.

Schedule SB, Part V – Summary of Plan Provisions (continued)

Normal Retirement Benefit
Eligibility is the first day of the month coincident with or next following attainment of age 65 and completion of at least 5 years of vesting service, or 5 years of participation if earlier. The monthly lifetime only benefit is equal to:

- $130, plus $8 for each year of service in excess of 15 years (if service is under 20 years); or
- $160, plus $8 for each year of service in excess of 15 years (if service is 20 or more years, but less than 25 years); or
- $195, plus $8 for each year of service in excess of 15 years (if service is 25 or more years).

However, in association with the plan freeze, there are no further benefit accruals in this plan after March 31, 2006.

Late Retirement Benefit
The benefit is determined as for normal retirement considering service up to actual retirement, but not later than March 31, 2006.

Payments begin at actual retirement without actuarial increase because of age. In no event will this late retirement benefit be less than the actuarial equivalent of the normal retirement benefit.

Early Retirement Benefit
At or after age 60, provided the employee has completed at least 5 years of vesting service. The monthly lifetime only annuity, payable at the employee's normal retirement date, is equal to the benefit as defined above for normal retirement using the number of years of benefit service the participant would have accumulated had his employment continued uninterrupted to normal retirement date, multiplied by a fraction, the numerator of which is equal to the number of years of benefit service accrued to the earlier of date of retirement and March 31, 2006, and the denominator of which is the number of years of benefit service the participant would have accumulated had his employment continued uninterrupted to normal retirement date.

The participant may elect to start receiving benefits as early as his early retirement date. The monthly pension is reduced 1/15th for each year (1/180th for each month) by which commencement of payments precedes normal retirement date.

Termination Benefit
At any age, provided the employee has completed at least 5 years of vesting service. The monthly lifetime only annuity is computed as for early retirement, considering benefit service earned at termination. Payments will commence at normal retirement date, if the participant is living, although if requested, a reduced pension may be paid as early as age 60. The reduction for early commencement is the same as for early retirement.

However, in association with the plan freeze, there are no further benefit accruals in this plan after March 31, 2006.

Disability Benefit
Benefits are payable if the employee has completed at least 15 years of vesting service, retires because of total and permanent disability, and is eligible to receive federal Social Security disability benefits. The monthly lifetime only annuity is payable on the first day of the month coinciding with or next following a 5-month waiting period. The benefit amount is computed as for early retirement, considering service to date of disability, but is unreduced for early commencement.

Pre-Retirement Death Benefit
If a participant dies after becoming vested in any benefit, his spouse is eligible for a qualified joint and 50% survivor pension with payments commencing at the earliest date permissible and assuming his death occurred the day before commencement.

Schedule SB, Part V – Summary of Plan Provisions (continued)

Optional Forms of Benefits
Automatic--If the participant is married on his benefit commencement date, a joint and 50% survivor annuity option will be payable, actuarially reduced. If the participant is not married on his benefit commencement date, a lifetime only annuity will be payable.

Optional forms available include a joint and 100% survivor annuity and a certain and life pension.

Actuarial equivalent forms of payment are calculated using a 6½% interest rate and the 1975 Group Annuity Mortality Table using unisex rates of 50% male rates and 50% female rates.

Lump Sum Payments
Upon termination of service, if the lump sum value of the accrued benefit is less than $5,000, the lump sum amount is paid as soon as practical after termination.

Any active participant eligible for a normal or late pension as of March 31, 2006 (or as of any later date) will have the option to commence his pension, even while still employed. Such a participant can elect any available form of payment, including the lump sum option (even if greater than $5,000).

Expenses
Paid by the trust if not paid by the employer.

Company Transfers
If an employee transfers employment between employers who have adopted this plan, his coverage will continue unaffected by such transfer except that any pension to which he may later become entitled will be provided jointly by the plan accounts maintained for each of the employers for whom he was employed. The amount of his pension provided by any such plan account will be computed on the basis of the total benefit service under all plan accounts (excluding any overlap) with the amount so computed multiplied by the ratio that his benefit service under such plan account bears to his total benefit service under all such plan accounts.

Special Lump Sum Payments
All participants with deferred, vested benefits who terminated by September 30, 2012 could elect special lump sum benefits during a special election period between November 1, 2012 and November 30, 2012. All such special lump sum payments were paid during the month of December 2012 and were calculated based on the assumptions outlined in Amendment No. Four.

Changes Since Last Year
None.
