1. DESCRIPTION OF THE PLAN:

The following description of the Graeter's Manufacturing Co. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1991, is a defined contribution plan covering employees of the Graeter's Manufacturing Company (the "Company") who have three months of service, as defined, and are age twenty-one or older, excluding those employees who are classified as part-time, seasonal, or temporary employees. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Effective July 1, 2020, the Plan was amended so as newly eligible employees are now automatically enrolled into the Plan at a 4% deferral rate upon reaching the eligibility requirements, unless the participant affirmatively elects otherwise.

Contributions

Participants may contribute up to the maximum amount allowed by law of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50 percent of the first 4 percent of base compensation that a participant contributes to the Plan. The matching company contribution is invested identical to the participants' contribution in the various investment options. Additional profit sharing amounts may be contributed at the discretion of the Board of Directors of the Company. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's matching contribution, and allocation of the Company's discretionary profit sharing contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are 100% vested in elective deferrals and rollover contributions. Vesting in the Company's matching and discretionary profit sharing contribution portion of their account is based on years of continuous service. Participants are 100% vested after six years of credited service or upon attainment of retirement age.

Notes receivable from participants

Participant notes receivable are permitted under certain circumstances and are subject to limitations. Participants may borrow from their funds up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at 2% above the USA Today prime rate. Principal and interest are paid ratably through payroll deductions.

Administrative expenses

Certain expenses incurred in the administration of the Plan are paid by the Employer.

Payment of benefits

Upon a participant's retirement, death, total and permanent disability, or other termination of employment with the Company or termination of the Plan, the participant's account is distributed in one lump sum.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship", a participant may apply to the plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code.

Forfeited accounts

Participant account forfeitures are available to offset employer contributions. At December 31, 2020 and 2019, forfeited nonvested accounts totaled \$16 and \$4,519, respectively. During 2020 and 2019, \$27,871 and \$12,403 of forfeitures were used to offset the employer matching contribution, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The Plan's transactions are reported on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefit

Benefit payments are recorded when paid. Certain deemed distributions of participant loans are included in benefits paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Accounting change

Recently issued accounting pronouncement - In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13. "Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement, (ASU 2018-13)," which amends ASC 820 to add, remove, and modify fair value measurement disclosure requirements. ASU 2018-13 became effective for all entities for fiscal years beginning after December 15, 2019. Certain requirements of the standard should be applied prospectively, while others are required to be adopted retrospectively. Adoption of ASU 2018-13 will not have a material impact on the Plan's financial statements.

Subsequent events

The Plan has evaluated subsequent events through June 15, 2021, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Financial Life Insurance Company, the trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, and the supplemental schedule of assets (held at end of year) as of December 31, 2020; the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate account: Pooled separate accounts are held in investment contracts with the custodian and are invested according to the stated objectives of the various accounts. The principal is not guaranteed. The pooled separate accounts are valued at the net asset value, which is based on the market value of its underlying investments. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Assets at NAV	Total
Pooled separate accounts	\$ -	-	-	7,259,560	7,259,560

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Assets at NAV	Total
Pooled separate accounts	\$ -	-	-	6,361,056	6,361,056

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2020	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate – accounts	\$7,259,560	N/A	Daily	30 days
December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate – accounts	\$6,361,056	N/A	Daily	30 days

5. GUARANTEED ANNUITY CONTRACT WITH NATIONAL INSURANCE COMPANY:

In 2016, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Transamerica Financial Life Insurance Company (Transamerica) totaling \$1,087,899 and \$1,023,325 for 2020 and 2019, respectively. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 4 percent. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by National, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. The trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

The Plan invests in shares of registered investment companies and common collective trust funds managed by Transamerica Financial Life Insurance Company. Transamerica Financial Life Insurance Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest.

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. At such time, participants would become fully vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. TAX STATUS:

The Plan's operating document is derived from a volume submitter plan provided by the Plan's administrator, McGregor & Associates, Inc. In a letter dated March 31, 2014, the Internal Revenue Service has issued a favorable opinion of the volume submitter plan. While the Plan has since been amended, management believes that the Plan is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

10. PLAN OPERATIONS:

On March 11, 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is on-going and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in net assets available is uncertain and cannot be reasonably estimated at this time.
