EMPLOYEE BENEFITS PLAN OF EDEN SERVICES

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

1. Description of the Plan

The following description provides only general information on the provisions of the Employee Benefits Plan of Eden Services (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan established by Eden Services (the "Company") under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

b. Eligibility and Participation

All Company employees, except for employees who are non-resident aliens, are eligible to participate in the Plan as follows:

With respect to a participant's voluntary contributions and the employer contribution for the Plan year, employees are eligible to participate on the first day of each month of the Plan year following attainment of age 21 and 90 days of service. The service requirement does not apply on March 1, 2018.

c. Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions to the Plan are not compulsory; if a Participant fails to follow election procedures the Participant is not enrolled in the Plan as a contributing Participant. Participants may elect to contribute a percentage or a flat dollar amount of their eligible compensation subject to certain overall limitations. The Company, in turn, will contribute an amount equal to 100% of elective deferrals that are not over 3% of the compensation of qualifying participants, plus 50% of elective deferral contributions which are over 3% but are not over 5% of the compensation of qualifying participants.

d. Participant Accounts

Individual accounts are maintained for each participant to reflect the participant's contributions and related employer matching contributions, as well as the investment income and any administrative expenses. Any required allocations are based on the proportion that each participant's account balance has to the total of all participants' account balances or compensation during the Plan year.

e. Vesting

Participants are fully vested in their pre-tax contributions, qualified matching contributions from the employer and qualified nonelective contributions.

1. Description of the Plan (Continued)

f. Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The form of payment is a lump-sum distribution or fixed period and fixed payment installment options over a specified period of time or a combination thereof, subject to the approval of the Plan Administrator. If the participant account balance is $5,000 or less, benefits will be paid in a lump sum upon termination.

g. Loans to Participants

Loans to a participant are not permitted.

h. Withdrawals

Withdrawal of voluntary contributions is not permitted. A participant may withdraw any part of their vested account resulting from rollover contributions; one withdrawal is permitted in any 12-month period. Once a participant reaches age 59 ½, a participant may withdraw any part of his vested account; two withdrawals are permitted in any 12-month period.

i. Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

2. Summary of Accounting Policies

a. Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

The Plan's investments were stated at fair value based on quoted market prices of the underlying investments. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

d. Payments of Benefits

Benefit payments to participants are recorded upon distribution. During the period ended December 31, 2019, there were no participants who elected to withdraw from the Plan but were not yet paid at December 31, 2019.

3. Fair Value Measurements

VALUATION OF INVESTMENTS – FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

LEVEL 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Pooled Separate Accounts: Valued at the daily closing price as reported by the fund. The Separate Account held by the Plan normally invests the majority of assets in common stocks of companies that are registered with the Securities and Exchange Commission. These underlying investments are required to publish their daily new asset value (NAV) and to transact at that price. The pooled separate account held by the Plan is not registered with the Securities and Exchange commission and is not considered actively traded. Separate accounts are available through a group annuity contract with Principal Life Insurance Co. and funds may not be redeemable daily.

Collective Trust Funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (Continued)

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Common/Collective Trusts	$ -	$101,132	$ -	$ 101,132
Separate Pooled Accounts	-	20,174	-	20,174
Total Investments	$ -	$ 121,306	-	$ 121,306

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Common/Collective Trusts	$ -	$36,097	$ -	$ 36,097
Separate Pooled Accounts	-	7,967	-	7,967
Total Investments	$ -	$ 44,064	-	$ 44,064

5. Information Certified by the Trustee (Unaudited)

Plan Financial Group, The Plan Administrator, has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included on the accompanying financial statements and supplemental schedule is complete and accurate:

a. Total investments as shown on the accompanying Statements of Net Assets Available for Benefits of $121,306 as of December 31, 2019 ($44,064 as of December 31, 2018).

b. Net appreciation in fair value of investments as shown on the accompanying Statements of Changes in Net Assets Available for Benefits of $14,417 for the period ended December 31, 2019 (net investment loss of $4,165 for the period ended December 31, 2018).

Additionally, the Trustee also certified all information on the Schedule of Assets (Held at End of Year) at December 31, 2019. This information may be found in the supplemental schedule.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included on the related financial statements and supplemental schedule.

6. Exempt Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts available through a group annuity contract with Principal Life Insurance Co., an affiliate of Principal Financial Group. Principal Financial Group is the Trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Tax Status

The Company has adopted an approved prototype plan, selecting only options permitted under the terms of the approved plan. The prototype plan was determined to be acceptable under section 401 of the IRC by an Internal Revenue Service letter dated March 31, 2014. While the Plan has not applied for a separate determination letter, the Plan Administrator believed that the Plan is currently designed and being operated in compliance with the applicable sections of the IRC.

The Plan has adopted recently issued accounting principles related to uncertain tax positions and has evaluated its tax positions taken for all open tax years.

Based on evaluation of the Plan's tax positions, the Plan Administrator believes all positions taken would be upheld under an examination. Therefore, no provision for the effects of uncertain tax positions has been recorded for the period ended December 31, 2019.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the Statement of Net Assets Available for Benefits.

10. Subsequent Events

The Plan has evaluated events to the date the financial statements were available to be issued, which is the date of the Independent Auditor's Report.

Covid-19 and Late Filing of Form 5500

The Company has taken a number of measures to monitor and mitigate the effects of Covid-19. At this stage the impact on the Company's operations and Plan's net assets has not been significant. However, resulting disruptions caused by the pandemic in administrative staffing and workflow has led to a late filing of the Plan's Form 5500 for the year ended December 31, 2019. The Company is taking steps to rectify the matter and assure future filings are timely.

Significant uncertainty remains around the breadth and duration of the effects of Covid-19 and, as such, the Organization is unable to determine if it will have a material impact on operations and net assets in future years.

EMPLOYEE BENEFITS PLAN OF EDEN SERVICES

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

1. Description of the Plan

The following description provides only general information on the provisions of the Employee Benefits Plan of Eden Services (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan established by Eden Services (the "Company") under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

b. Eligibility and Participation

All Company employees, except for employees who are non-resident aliens, are eligible to participate in the Plan as follows:

With respect to a participant's voluntary contributions and the employer contribution for the Plan year, employees are eligible to participate on the first day of each month of the Plan year following attainment of age 21 and 90 days of service. The service requirement does not apply on March 1, 2018.

c. Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions to the Plan are not compulsory; if a Participant fails to follow election procedures the Participant is not enrolled in the Plan as a contributing Participant. Participants may elect to contribute a percentage or a flat dollar amount of their eligible compensation subject to certain overall limitations. The Company, in turn, will contribute an amount equal to 100% of elective deferrals that are not over 3% of the compensation of qualifying participants, plus 50% of elective deferral contributions which are over 3% but are not over 5% of the compensation of qualifying participants.

d. Participant Accounts

Individual accounts are maintained for each participant to reflect the participant's contributions and related employer matching contributions, as well as the investment income and any administrative expenses. Any required allocations are based on the proportion that each participant's account balance has to the total of all participants' account balances or compensation during the Plan year.

e. Vesting

Participants are fully vested in their pre-tax contributions, qualified matching contributions from the employer and qualified nonelective contributions.

1. Description of the Plan (Continued)

f. Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The form of payment is a lump-sum distribution or fixed period and fixed payment installment options over a specified period of time or a combination thereof, subject to the approval of the Plan Administrator. If the participant account balance is $5,000 or less, benefits will be paid in a lump sum upon termination.

g. Loans to Participants

Loans to a participant are not permitted.

h. Withdrawals

Withdrawal of voluntary contributions is not permitted. A participant may withdraw any part of their vested account resulting from rollover contributions; one withdrawal is permitted in any 12-month period. Once a participant reaches age 59 ½, a participant may withdraw any part of his vested account; two withdrawals are permitted in any 12-month period.

i. Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

2. Summary of Accounting Policies

a. Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

The Plan's investments were stated at fair value based on quoted market prices of the underlying investments. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

d. Payments of Benefits

Benefit payments to participants are recorded upon distribution. During the period ended December 31, 2019, there were no participants who elected to withdraw from the Plan but were not yet paid at December 31, 2019.

3. Fair Value Measurements

VALUATION OF INVESTMENTS – FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

LEVEL 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Pooled Separate Accounts: Valued at the daily closing price as reported by the fund. The Separate Account held by the Plan normally invests the majority of assets in common stocks of companies that are registered with the Securities and Exchange Commission. These underlying investments are required to publish their daily new asset value (NAV) and to transact at that price. The pooled separate account held by the Plan is not registered with the Securities and Exchange commission and is not considered actively traded. Separate accounts are available through a group annuity contract with Principal Life Insurance Co. and funds may not be redeemable daily.

Collective Trust Funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (Continued)

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Common/Collective Trusts	$ -	$101,132	$ -	$ 101,132
Separate Pooled Accounts	-	20,174	-	20,174
Total Investments	$ -	$ 121,306	-	$ 121,306

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Common/Collective Trusts	$ -	$36,097	$ -	$ 36,097
Separate Pooled Accounts	-	7,967	-	7,967
Total Investments	$ -	$ 44,064	-	$ 44,064

5. Information Certified by the Trustee (Unaudited)

Plan Financial Group, The Plan Administrator, has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included on the accompanying financial statements and supplemental schedule is complete and accurate:

a. Total investments as shown on the accompanying Statements of Net Assets Available for Benefits of $121,306 as of December 31, 2019 ($44,064 as of December 31, 2018).

b. Net appreciation in fair value of investments as shown on the accompanying Statements of Changes in Net Assets Available for Benefits of $14,417 for the period ended December 31, 2019 (net investment loss of $4,165 for the period ended December 31, 2018).

Additionally, the Trustee also certified all information on the Schedule of Assets (Held at End of Year) at December 31, 2019. This information may be found in the supplemental schedule.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included on the related financial statements and supplemental schedule.

6. Exempt Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts available through a group annuity contract with Principal Life Insurance Co., an affiliate of Principal Financial Group. Principal Financial Group is the Trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Tax Status

The Company has adopted an approved prototype plan, selecting only options permitted under the terms of the approved plan. The prototype plan was determined to be acceptable under section 401 of the IRC by an Internal Revenue Service letter dated March 31, 2014. While the Plan has not applied for a separate determination letter, the Plan Administrator believed that the Plan is currently designed and being operated in compliance with the applicable sections of the IRC.

The Plan has adopted recently issued accounting principles related to uncertain tax positions and has evaluated its tax positions taken for all open tax years.

Based on evaluation of the Plan's tax positions, the Plan Administrator believes all positions taken would be upheld under an examination. Therefore, no provision for the effects of uncertain tax positions has been recorded for the period ended December 31, 2019.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the Statement of Net Assets Available for Benefits.

10. Subsequent Events

The Plan has evaluated events to the date the financial statements were available to be issued, which is the date of the Independent Auditor's Report.

Covid-19 and Late Filing of Form 5500

The Company has taken a number of measures to monitor and mitigate the effects of Covid-19. At this stage the impact on the Company's operations and Plan's net assets has not been significant. However, resulting disruptions caused by the pandemic in administrative staffing and workflow has led to a late filing of the Plan's Form 5500 for the year ended December 31, 2019. The Company is taking steps to rectify the matter and assure future filings are timely.

Significant uncertainty remains around the breadth and duration of the effects of Covid-19 and, as such, the Organization is unable to determine if it will have a material impact on operations and net assets in future years.
