Note 1 Description of Plan

The following description of the Adams Fairacre Farms, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Adams Fairacre Farms, Inc. (the "Company"). There are certain age and service conditions under the Plan, with different minimum age and service requirements, depending on the type of contribution. Employees enter the Plan and are eligible to make elective deferrals and receive employer contributions on the earlier of the first day of each quarter of the Plan year coinciding with or next following their completion of three months of service. The Plan automatically enrolls newly eligible employees into the Plan. The initial participant contribution is 3% of gross pay, increasing 1% annually, but not exceeding 7%. Participants can opt out of the Plan feature or change their contribution amount at any time. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Board of Trustees oversees governance of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to Internal Revenue Service dollar limitations as defined in the Plan. Contributions are subject to certain limitations. Participants are permitted to make contributions as "Roth" contributions. Participants may also contribute rollovers from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty eight investments and a guaranteed fund. The Company matches 50% of the participant's contributions of up to 7% of the employee's salary to the Plan.

Participant's Individual Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with the participants withdrawals or distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. A participant becomes fully vested after six years. In addition, a participant becomes fully vested upon death, disability or attainment of prescribed retirement requirements as defined by the Plan document.

Note 1 Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Loans require repayment within 5 years, or up to 30 years if for the purchase of a primary residence. The Plan allows only one loan per participant at a time. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent, determined at the time of the loan. Principal and interest is paid ratably through weekly payroll deductions or otherwise at least in quarterly installments.

Payment of Benefits

Upon termination of service due to disability or retirement, the participant may elect to receive the value of the participant's vested interest in their account in either lump sum, life annuity, survivor annuity or partial distribution. In the case where the vested balance, excluding rollovers, is less than $5,000, a participant will receive the value of the vested interest as a lump sum distribution. Death Benefits paid to a beneficiary will be paid in a lump sum distribution.

Forfeited Accounts

Forfeited accounts are amounts forfeited by participants who have terminated their employment and who have withdrawn from the Plan before fully vesting. At December 31, 2020 and 2019, forfeited non-vested accounts totaled $49,034 and $23,166, respectively. Forfeitures will first be used to pay any administrative expenses; any remaining forfeitures will be used to reduce employer contributions for the Plan year in which the forfeiture occurs. For the years ended December 31, 2020 and 2019, $10,205 and $41,276 of forfeitures was used to pay Plan administrative expenses.

Funding Policy

The Company remits employee deferral and Company matching contributions to the Plan on a weekly basis.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, except for benefit payments which are recorded when paid.

Note 2 Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reporting amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Contributions

Participant contributions are recorded when the Company makes payroll deductions from eligible Plan participants. Employer contributions are accrued in the period in which they become obligations of the Company.

Investment Valuation and Income Recognition

Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued, but unpaid, interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Professional fees and other administrative expenses are paid by the Plan. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. These methodologies were consistently applied to all assets and liabilities carried by the Plan as of December 31, 2020 and 2019.

Mutual Funds: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 3 Fair Value Measurements - Continued

Collective Trust Funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the NAV. Participant transactions (purchases and sales) may occur daily.

The following sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets	
December 31, 2020	**Level 1**	**Total**
Investments, at Fair Value	$ 5,104,916	$ 5,104,916
Fully Benefit-Responsive Investment Contract at Contract Value	3,615,361	3,615,361
Total Investments	8,720,277	8,720,277
Investments measured at net asset value		26,321,175
Total Investments		$ 35,041,452
December 31, 2019	**Level 1**	**Total**
Investments, at Fair Value	$ 26,755,420	$ 26,755,420
Fully Benefit-Responsive Investment Contract at Contract Value	2,971,567	2,971,567
Total Investments	29,726,987	29,726,987
Investments measured at net asset value		0
Total Investments		$ 29,726,987

Note 3 Fair Value Measurements - Continued

Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 4 Fully Benefit-Responsive Investment Contract

The MassMutual Guaranteed Interest Account (the "GIA") is a stable value investment with a guaranteed rate of return and guarantee of principal that is backed by the MassMutual general investment account. The GIA is provided through a group annuity contract issued by MassMutual. Under the contract, a crediting rate is established for a six month period of time (a "rate period") and all assets invested in the GIA are credited with that rate. At the expiration of each rate period, a new crediting rate is declared. MassMutual assumes market, credit, and interest rate risks for the assets supporting the GIA.

All bona fide participant-initiated withdrawals from the GIA, including benefit payments at termination or retirement, loans and transfers to other non-competing investment options, are paid at contract value. Similar to other stable value alternative, transfers to competing fixed income investments are not allowed. Employer-initiated events such as layoffs, a sale of a business unit, a company merger, or a change in the stable value option offered under a plan are considered market value events and are subject to the plan sponsor liquidity provisions discussed below.

Upon full or partial contract or plan termination and certain other sponsor-initiated events, distributions from the GIA may be subject to a liquidation value (market value) adjustment pursuant to a formula specified in the contract. The market value formula may produce a value that is more or less than the contract value of the Plan's investment in the GIA.

The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (Aa2 as of December 2020), Standard and Poor's (AA+ as of December 2020), A.M. Best (A++ as of December 2020), and Fitch (AA+ as of December 2020). The Plan Administrator does not believe there are any events that would limit the Plan's ability to transact at contract value.

The GIA is fully benefit-responsive and, therefore, is recorded on the statements of net assets available for benefit at December 31, 2020 and 2019 at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Note 5 Information Prepared and Certified by Trustee

The following information, included in the accompanying financial statements and supplemental schedule, was obtained from data that has been prepared and certified to as complete and accurate by the Massachusetts Mutual Life Insurance Company, trustee of the Plan, as of and for the years ending December 31:

	2020	2019
Investments, at Fair Value	$ 31,426,091	$ 26,755,420
Fully Benefit-Responsive Investment Contract at Contract Value	3,615,361	2,971,567
Total Investments	$ 35,041,452	$ 29,726,987
Receivables:		
Notes Receivable from Participant	$ 766,236	$ 811,616
Investment Income	$ 4,006,974	$ 5,179,974

Note 6 Related Party Transactions and Party-in-Interest Transactions

Plan investments are managed by the Massachusetts Mutual Life Insurance Company, trustee and record keeper for the Plan. Transactions involving these investments are considered party-in-interest transactions. These transactions, are not, however, considered prohibited transactions under 29 CFR 408 408(b) of the ERISA regulations.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA.

Note 7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. In the case of a partial termination, only those who separate from service will become fully vested.

Note 8 Tax Status

The Plan Sponsor has adopted a prototype plan in which the IRS stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in accordance with IRC requirements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by federal, state and/or local taxing authorities. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for the years prior to 2017.

Note 9 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 10 Subsequent Events

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued.

Effective January 1, 2021, Empower Retirement acquired Massachusetts Mutual Life Insurance Company ("MassMutual"), the trustee of the Plan. As a result of the acquisition, MassMutual's retirement plan business transitioned to Empower Retirement.

The extent of the impact of the COVID-19 outbreak on the financial performance of the Plan's investments will depend on future developments, including the duration and severity of the outbreak and its impact on the financial markets and the overall economy, all of which are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Plan's investment results may be materially adversely affected.
