Independent Auditor's Report

Board of Trustees, Plan Administrator and Plan Participants
University of Saint Joseph 403(b) Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of University of Saint Joseph 403(b) Retirement Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2020, the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA and CREF), as issuer of the registered investment companies, the insurance investment contract and the pooled separate account and as agent for TIAA, FSB, the custodian of the mutual funds, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that TIAA and CREF holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certification from the TIAA and CREF as of December 31, 2020 and 2019, and for the year ended December 31, 2020, that the information provided to the Plan Administrator by TIAA and CREF is complete and accurate.

In addition, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Further, as described in Note 5, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. Under accounting principles generally accepted in the United States of America, these accounts and the related income and distributions should have been included in the accompanying financial statements. The effects of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—Supplemental Schedule

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedule.

Other Matter—2019 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2019 were audited by other auditors whose report, dated October 12, 2020, did not express an opinion on the 2019 financial statements for the same reasons described in the Basis for Disclaimer of Opinion paragraphs.

University of Saint Joseph 403(b) Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the University of Saint Joseph 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established by the University of Saint Joseph (the University) in 1946 as a defined contribution plan. The Plan is administered by certain officers and employees of the University. The Plan is subject to Section 403(b) of the Internal Revenue Code (IRC) and is funded with annuity contracts and custodial accounts that comply with that section. The Plan was most recently restated effective January 1, 2019 under a volume submitter plan document to comply with the requirements of Code Section 403(b). The Plan was amended on June 25, 2020, effective August 16, 2020, to modify the University's matching contributions and non-elective contributions to be discretionary at the discretion of the Board of Trustees. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974. All investments are participant directed.

On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The pandemic and resulting global disruptions caused significant economic uncertainty and volatility in financial markets. As a result in March 2020 the Coronavirus Aid, Relief and Economic Security Act (the "CARES Act") was enacted and changes have been made to some of the plan provisions.

The changes to the plan due to the CARES Act included qualifying participants, as defined within the CARES ACT, being allowed to withdraw under a coronavirus related distribution (CRD) up to the lesser of 100% of their vested account balance or \$100,000 between January 1, 2020 and December 31, 2020. CRD's are also exempt from the 10% early distribution penalty, and mandatory federal withholding, but are still subject to federal income taxation, which may be paid ratably over a three year period. Participants that do take a CRD can also repay the distribution to the plan within the three-year period and would not be subject to federal income taxation.

The CARES Act temporarily waived the requirement for participants taking required minimum distributions during Plan year 2020.

The CARES Act also increased the loan limit for eligible participants to be the lesser of \$100,000 or 100% vested account balance for loans taken between March 27, 2020 and September 23, 2020. In addition, repayments of loans due from March 27, 2020 through December 31, 2020 can be delayed for up to one year for qualifying participants.

Eligibility: All employees of the University, except student employees, are eligible to participate in the Plan. Eligible employees may begin to make elective deferrals and after-tax voluntary contributions into the Plan upon their date of hire. Employees who normally work more than 20 hours per week are eligible to participate in the University's contribution portion of the Plan upon attaining the age of 25 and completing one year of eligible service. A year of eligible service is defined as any year in which the employee works at least 1,000 hours.

University of Saint Joseph 403(b) Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Contributions: Participants may make elective deferrals and after-tax contributions up to 100% of their wages, not to exceed the maximum annual contribution allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Certain classifications of employees receive an employer contribution even if they do not make deferrals under the Plan. All other eligible nonexempt and eligible exempt employees are required to defer a minimum of 2% and 5%, respectively, of their gross compensation in order to receive an employer matching contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (Rollovers). Prior to August 16, 2020, the University made a contribution equal to 11% of gross salary for all eligible employees actively participating in the Plan. Effective as of August 16, 2020, the University will make a discretionary contribution equal to 5% of gross salary for eligible employees actively participating in the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and the University's contributions and their individual investment earnings, and charged with an allocation of administrative expenses and plan servicing credits, if any. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the accumulated balance that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, including rollovers, plus actual earnings thereon. Participants who are benefits-eligible after January 1, 2019 will have the University's contributions vested 100% after three years of service and 0% if less than three years of service. Participants who were benefits eligible prior to January 1, 2019 are immediately vested in all University contributions plus investment results.

Participant investment options: Participants direct their contributions and the University's contributions to any of the Plan's investment options. Investment options available to participants include the Teachers Insurance and Annuity Association (TIAA) fixed annuity contracts, referred to as the TIAA Traditional Annuity, TIAA pooled separate account, referred to as the TIAA Real Estate Account, a variety of College Retirement Equities Fund (CREF) variable annuity contracts, and TIAA-CREF proprietary mutual funds (TIAA-CREF Funds) including the TIAA-CREF Lifecycle Funds, as well as other mutual funds.

Payment of benefits: The Plan permits withdrawals of 100% of the participant's vested account balance when a participant terminates employment, retires, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59 ½. Participants may elect to receive their benefit payments in lump-sum payments, installments or annuity distributions as allowed under the applicable funding vehicle.

Forfeitures: Forfeitures may be used to pay administrative expense under the Plan or to reduce future University contributions. Forfeited non-vested accounts totaled \$7,356 and \$0 at December 31, 2020 and 2019, respectively. Total forfeitures amounted to \$7,356 during the year ended December 31, 2020. No forfeitures were used to reduce University contributions or to pay administrative expenses during 2020.

Plan administration: Certain administrative functions are performed by officers or employees of the University. No such officer or employee received compensation from the Plan. The University is the Plan Administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investments valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments. Fees related to certain participant transactions are charged directly to the participant's account and are included in administrative expenses.

On a quarterly basis, the Plan receives revenue credits from TIAA which represent excess revenue generated that is returned to the Plan by TIAA. These funds may be used to pay reasonable and necessary expenses for the plan and can also be used to provide plan servicing credits to participants. During the year ended December 31, 2020, the Plan received \$98,995 in revenue credits which are included in other income on the statement of changes in net assets available for benefits, recognized net appreciation in the fair value of \$1,231, used \$47,233 to pay plan expenses and \$79,340 was allocated back to participants through plan servicing credits. As of December 31, 2020 and 2019, revenue credits totaled \$511 and \$26,858, respectively. The remaining balance as of December 31, 2020 will be used to pay expenses or be allocated to participants in accordance with the terms of the agreement.

Income taxes: U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for fiscal years before 2017.

Note 3. Information Certified and Provided by TIAA and CREF

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by TIAA and CREF, as issuer of the variable annuity contracts, the fixed annuity contracts and the pooled separate account and as agent for TIAA, FSB, the custodian of the mutual funds, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from TIAA and CREF that the information provided to the Plan Administrator by TIAA and CREF related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supporting schedule related to the following assets.

	2020	2019
Investments certified by TIAA and CREF as issuer:		
Investments at fair value:		
Variable annuity contracts	\$ 46,760,911	\$ 42,142,675
Pooled separate account	5,043,488	5,797,378
Non benefit-responsive fixed annuity contracts*	26,381,517	25,624,030
Investments at contract value:		
Fully benefit-responsive fixed annuity contracts	6,845,360	6,658,842
Investments certified by TIAA and CREF as agent for the custodian:		
Investments at fair value:		
Mutual funds	40,200,540	34,023,687
Total investments	<u>\$ 125,231,816</u>	<u>\$ 114,246,612</u>

* Investments certified at contract value which approximates fair value.

TIAA and CREF also certified to the completeness and accuracy of \$11,762,718 of net appreciation in the fair value of investments and \$2,451,399 of interest and dividends related to the aforementioned assets for the year ended December 31, 2020.

Note 4. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

University of Saint Joseph 403(b) Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Variable annuity contracts: TIAA offers eight CREF variable annuities. Unlike fixed annuity contracts, the variable accounts do not provide guaranteed returns. Participation returns depend entirely on the investment performance of each account. The annuities reflect a structure similar to mutual funds and have a readily determinable fair value as published on NASDAQ each day that current transactions are recorded.

Non-benefit responsive fixed annuity contracts: Investments in TIAA Traditional Annuity contracts that are non-benefit responsive are reported at fair value, which approximates contract value (see Note 6). Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. Valuation techniques include a theoretical transfer (exit value) approach and a discounted cash flow value calculated using appropriate risk adjusted market discount rates which correlates closely with TIAA Traditional Annuity's historical crediting rates.

Mutual funds: These funds are registered mutual funds whose fair values are based on quoted market prices.

Pooled separate account: TIAA offers the Real Estate Account (REA) which is a separate account of TIAA. This account is a variable account similar to CREF variable accounts; as such returns are not guaranteed and its accumulations and returns fluctuate based on the performance of the underlying investments. The REA reflects a structure similar to mutual funds and have a readily determinable fair value as published on NASDAQ each day that current transactions are recorded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

University of Saint Joseph 403(b) Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of transfer relative to total net assets available for benefits. For the year ended December 31, 2020, there were no transfers in or out of Level 3.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	December 31, 2020			
	Level 1	Level 2	Level 3	Total
Investments:				
Variable annuity contracts	\$ 46,760,911	\$ -	\$ -	\$ 46,760,911

Total investments	<u>\$ 81,963,740</u>	<u>\$ -</u>	<u>\$ 25,624,030</u>	<u>\$ 107,587,770</u>

During the year ended December 31, 2020, purchases and sales of Level 3 assets totaled \$2,390,386 and \$2,671,004, respectively. There were no issuances or settlements of Level 3 assets during the year ended December 31, 2020.

University of Saint Joseph 403(b) Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 investments, the valuation techniques used to measure fair value of those investments and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2020 and 2019.

2020				
Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Fixed annuity contracts:				
TIAA Traditional Annuity: Non-benefit responsive	<u>\$26,381,517</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	2.50%-4.45%
2019				
Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Fixed annuity contracts:				
TIAA Traditional Annuity: Non-benefit responsive	<u>\$25,624,030</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.00% - 4.40%

Note 5. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts that may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the statement of changes in net assets available for benefits. U.S. GAAP requires that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 6. Investment Contracts with TIAA

The Plan has investment contracts with TIAA, classified as fixed annuity contracts. Under these contracts are sub-contracts, some of which are fully benefit-responsive, while others are not. Contracts are determined to be non-benefit responsive due to the restrictions on withdrawals from the contract. TIAA maintains the contributions held under the TIAA Traditional Annuity contract in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

University of Saint Joseph 403(b) Retirement Plan

Notes to Financial Statements

Note 6. Investment Contracts with TIAA (Continued)

For investment contracts that are non-benefit responsive, fair value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. Investment contracts that are non-benefit responsive are included in the financial statements at fair value which approximates contract value as reported by TIAA and CREF. Average yields for non-benefit responsive investment contracts for the year ended December 31, 2020 are as follows:

Non-benefit responsive:

TIAA traditional annuity:

Based on actual earnings	3.99%
Based on interest rate credited to participants	2.95%

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA and CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7. Tax Status

The Plan has adopted a volume submitter plan sponsored by Angell Pension Group. The volume submitter plan has received an advisory letter from the IRS, dated March 31, 2017, as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, benefits will be provided as if all participants were then eligible for retirement.

University of Saint Joseph 403(b) Retirement Plan

Notes to Financial Statements

Note 9. Party-in-interest Transactions

Plan investments consist of certain mutual funds, variable annuity contracts, a pooled separate account and fixed annuity contracts managed by TIAA and CREF. Transactions in such investments qualify as exempt party in interest transactions.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Approximately 27% and 28% of the Plan's investments are held in the TIAA Traditional Annuity at December 31, 2020 and 2019, respectively. Approximately 16% and 17% of the Plan's investments are held in the CREF Stock Account at December 31, 2020 and 2019, respectively. As such, these are considered to be concentrations of credit risk.

U.S. GAAP requires the financial statements to present the fair value of investments. The investments in non-benefit responsive investment contracts outlined in Note 4 have been presented at contract value, which approximates fair value, as reported to the Plan by TIAA and CREF. This determination is based on TIAA and CREF's credit rating and yield during 2020 and 2019 being comparable to similar alternative investments and the interest rate which re-sets quarterly being comparable to a ten year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant.

Note 11. Plan Loans

Participants may borrow from TIAA and CREF using a portion of their plan account as security for the loan. The minimum loan is \$1,000 and may be up to the lesser of \$50,000, minus the difference between the highest outstanding balance of loans in the past twelve months and the outstanding balance of loans from the Plan on the date the loan is made, or 50% of their vested account balance. The maximum number of loans outstanding at any one time is three. The loans bear interest at rates that range from 4.00% to 5.66%, which are commensurate with local prevailing rates at date of loan inception as determined periodically by TIAA and CREF and mature through June 2025. Principal and interest is paid ratably throughout monthly or quarterly automatic transfers by the participant to TIAA and CREF for a period of up to five years (or 10 years if the loan is for the purchase of a principle residence). The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions.

The balances as of December 31, 2020 and 2019 are \$223,797 and \$154,249, respectively. Under the borrowing terms, \$246,177 and \$169,674 of the plan assets serve as collateral to these loans as of December 31, 2020 and 2019, respectively. Interest paid by participants on such loans during the plan year ended December 31, 2020, was approximately \$10,000.

In the event of default, such loans are reportable to Plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the Plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. During the year ended December 31, 2020, nine loans were in default. As of December 31, 2020 and 2019, loans in default amount to \$34,900 and \$21,943, respectively. Such amount includes principal and accumulated interest.

Note 12. Subsequent Events

The Plan has evaluated subsequent events through August 2, 2021, the date on which the financial statements were available to be issued.
