Note 1—Description of the Plan

The First Advantage Corporation 401(k) Plan (the "Plan") was adopted on July 1, 2011, and recently amended effective January 1, 2020. The following description is provided for general information purposes only. Reference should be made to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan that covers substantially all U.S.-based employees of First Advantage Corporation and its subsidiaries (the "Company" or the "Employer"). An employee is eligible to participate in the Plan after the employee reaches 18 years of age and has completed one month of service. The Plan excludes nonresident aliens, collective bargaining employees, and part-time employees from eligibility, with the understanding that, legally, if a participant completes 1,000 or more hours of service in a Plan year, he/she will become eligible for Plan participation. Participants are automatically enrolled at 3% deferral rate, with auto escalation equal to 1% each year, to a maximum auto escalation of 6% deferral rate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On March 27, 2020, Congress signed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). The CARES Act took immediate effect and contains several provisions that temporarily impact qualified plans, including a new hardship withdrawal option and a loan payment pause option. The Company incorporated these provisions into the Plan effective March 27, 2020.

Administration – The Plan is administered by the Company's 401(k) Steering Committee (the "Committee"), which is a committee of senior managers of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. These duties include, but are not limited to, establishing procedures, maintaining records, interpreting provisions of the Plan, and making determinations regarding questions which may affect eligibility for benefits. The Plan assets were held by Great-West Life & Annuity Insurance Company (the "Custodian") as of December 31, 2020 and 2019.

Contributions – Each year, participants may elect to contribute up to 60% of their pre-tax annual compensation, as defined by the Plan, not to exceed $19,500 of pre-tax annual compensation subject to certain Internal Revenue Code ("IRC") limitations. Participants may also contribute amounts representing distributions from other qualified plans. The Plan amended effective January 1, 2020, to permit in-plan Roth rollover contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company can make discretionary matching contributions to the Plan. During 2020, the Company elected to make matching contributions to the Plan of up to 30% on the first 5% contributed for each bi-weekly pay period. The Company suspended the payment of the employer match from April to December 2020. For the year ended December 31, 2020, the Company recognized Employer matching contributions in the total amount of $1,012,911. The matching contributions are invested in the same manner as the employee contributions.

Catch-Up Contributions – For the year ended December 31, 2020, if a participant is eligible to make deferrals and turns 50 before the end of the calendar year, the participant may defer an additional $6,500 into the Plan as a pre-tax contribution subject to certain IRC limitations and limits as defined by the Plan.

Participant Accounts – Each participant's account is credited with the participant's contributions, the Company's matching contribution, if any, an allocation of the Company's additional discretionary contribution, if any, and Plan earnings. Each participant's account is charged with an allocation of Plan losses and any applicable administrative expenses, as defined. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1—Description of the Plan (continued)

Vesting Requirements – Participants are immediately 100% vested in their salary deferrals, voluntary rollovers, Company's matching and discretionary contributions, and the actual allocated earnings thereon.

Investment Options – The Plan permits participants to direct the investment of their elective deferrals and Company matching contributions into various investments offered by the Plan.

Notes Receivable from Participants – Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the rate ranging from 4.25% to 6.50% as of December 31, 2020. Principal and interest are paid through payroll deductions.

Benefits Paid to Participants – Upon termination, retirement, attainment of age 59½, death, disability, or financial hardship, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options. A participant may elect to rollover the vested portion of their account to another qualified plan. A participant may also elect to receive a single lump sum payment, subject to withholding for income taxes, or receive installment payments.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts in the statements of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Investment Valuation – The Plan's investments are stated at fair value. The shares of mutual funds and the money market funds are valued at quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date based on quoted market prices. Realized and unrealized gains and losses represent the change in market value of the investments during the year. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2020 and 2019, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions.

Administrative Expenses – The expenses of administering the Plan are paid either by the Company or by the Plan at the discretion of the Company. A majority of the costs were paid by the Company during 2020.

Note 2—Summary of significant accounting policies (continued)

Risks and Uncertainties – The Plan's investments are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

As a result of the spread of the coronavirus ("COVID-19"), economic uncertainties have arisen triggering volatility in financial markets and a significant negative impact on the global economy. As the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of potential losses that will be recognized in subsequent periods, If any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

Note 3—Information certified by the Plan's Custodian (unaudited)

The Plan management has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian of the Plan has certified to the completeness and accuracy of the following data included in the accompanying financial statements as of December 31, 2020 and 2019 and for the year ended December 31, 2020:

- Investments, at fair value, and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2020 and 2019.
- Net appreciation in fair value of investments, interest and dividend income from investments, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2020.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2020.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 5—Income tax status

Great-West Life & Annuity Insurance Company, a sponsor of several prototype plan documents, files for a favorable IRS opinion letter for each plan document. The prototype plan document, which the Plan adopted in July 2011, received a determination letter from IRS dated March 31, 2014 stating the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation under Section 501(a) of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter; however, the Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax exempt.

Note 5—Income tax status (continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator and the Plan's tax counsel have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6—Parties-in-interest

Plan investments, as of December 31, 2020 and 2019, include investments managed by the Custodian and, therefore, these transactions qualify as party-in-interest. Fees incurred by the Plan for investment management services are included in net realized and unrealized appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. Administrative expenses paid to the Custodian totaled $78,545 for the year ended December 31, 2020. These transactions qualify as party-in-interest transactions, as defined in Section 3(14) of ERISA. They are, however, expressly exempted from the prohibited transaction rule. The Company pays other fees related to the Plan's operations.

Notes receivable from participants are also considered to be party-in-interest transactions, because they are transacted with Plan participants.

Note 7—Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to the Form 5500 as of December 31:

Change in excess contributions payable	(17,160)
Change in Employer contributions receivable	(669,777)
Net income per Form 5500	$ 10,699,039

Note 8—Fair value measurements

FASB ASC ("ASC") 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other-than-quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – These investments are valued at quoted market prices in an exchange and active markets, which represent the net asset value ("NAV") of shares held by the Plan at year-end, and classified as Level 1 investments.

Guaranteed Investment Account – This investment is valued using NAV as a practical expedient to estimating fair value provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is not a publicly-quoted price in an active market. The investment objectives seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The guaranteed investment account has not been classified under the fair value hierarchy in accordance with ASC Subtopic 820-10.

Common /Collective Trusts ("CCT") – CCTs are public investment vehicles valued using NAV provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. In accordance with ASC 820-10, these investments have not been classified under the fair value hierarchy.

The Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 8—Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2020			
	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total

(*) In accordance with ASC Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.
