Notes to Financial Statements

Note 1. Plan Description

The following description of Cummins-Allison Corporation Tax-Sheltered Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was a defined contribution plan covered all employees of Cummins-Allison Corporation and Cummins Illinois, Inc. (the Company). The Company's 401(k) committee was responsible for oversight of the Plan including the determination of the appropriateness of the Plan's investment offerings and monitoring of investment performance. Employees who are covered employees of the Company, as defined, were eligible for the Plan. Eligible employees were allowed to start deferring the first of the month following meeting eligibility. Employees were eligible for the Company matching contribution and the Company regular contributions after completing one year of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan merger: On December 31, 2019, the Plan Sponsor was sold to Crane Payment Innovations. Effective July 17, 2020, the Plan merged into the Crane Co. Savings and Investment (401(k)) Plan (Crane Plan). Total assets transferred into the Crane Plan were \$139,589,610.

The Plan merger was announced to all employees on March 17, 2020. In addition, no further employer contributions were allowed subsequent to March 31, 2020 as subsequent contributions were to be deposited into the Crane Plan.

Contributions: A participant was able to elect to contribute in 1% intervals up to a maximum of 75% of his/her annual compensation, as defined in the Plan. Participants were able to contribute up to the maximum allowed by the Internal Revenue Code (IRC) on a pre-tax or post-tax basis. Participants were also able to contribute amounts representing distributions from other qualified retirement plans. The Company made matching contributions of 50% of the first 4% of compensation as defined in the Plan that a participant contributed to the Plan. The Company made additional Company regular contributions of 3% of the compensation for eligible employees. All contributions were subject to certain limitations. Matching contributions were \$391,461 in 2020. Company regular contributions were \$499,874 in 2020.

Participant accounts: Each participant's account was credited with the participant's contribution and Company matching contributions and received an allocation of Company regular contributions, if any, plan earnings and administrative expenses. Allocations were based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Vesting: Prior to the merger of the plan, participants were immediately vested in their contributions plus actual earnings thereon. Participants were fully vested in the Company's matching contributions after one year of employment or upon attaining age 65 or becoming disabled while employed by the Company. Participants' employer profit sharing contributions vested over a period of 6 years according to the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year but less than 2 years	13%
2 years but less than 3 years	26%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

As a result of the decision to merge the Plan during 2020, all participants became fully vested in their account balances.

Investment options: Upon enrollment in the Plan, participants directed the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants were able to change their investment options daily.

Forfeitures: At August 10, 2020 and December 31, 2019, there were no forfeited nonvested accounts. These accounts were used to reduce future Company contributions. In 2020, Company contributions were reduced by approximately \$115,000 from all forfeited nonvested accounts for the year ended.

Notes receivable from participants: Participants were allowed to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans were secured by the balance in the participant's account and bear interest at market rates. Principal and interest were paid ratably through payroll deductions. Due to the Coronavirus Pandemic and the corresponding volatile financial market which delayed the transfer to the Crane Plan, a 401(k) Coronavirus Aid, Relief, and Economic Security Act (CARES) loan application was provided for all employees, except those on layoff status.

Payment of benefits: Participants are allowed to withdraw certain portions of their account, as defined by the Plan upon retirement, age 59 ½, termination, death or determination of financial hardship, as defined by the IRC. Payments in cash will be made in a lump-sum amount, installment payments, or partial withdrawals. Due to the Coronavirus Pandemic leading to a volatile market and delaying the transfer to the Crane Plan, a 401(k) CARES Act Withdrawal form was provided to employees on May 8, 2020. Only employees on layoff status or those affected by the Coronavirus Pandemic and qualified (per CARES Act) could submit a request form. On August 10, 2020, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Cummins-Allison Corporation
Tax-Sheltered Savings and Retirement Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

The Plan's financial statements are prepared in accordance with accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets generally accepted accounting principles in the United States of America (U.S. GAAP) to ensure net assets available for benefits and changes in net assets available for benefits are consistently reported. References to U.S. GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (FASB ASC).

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Excess contribution payable: Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contribution to the applicable participants prior to March 15, 2020.

Payment of benefits: Benefits are recorded when paid.

Notes to Financial Statements

Note 3. Information Certified or Provided by Glenview State Bank, the Trustee

The following is a summary of the Plan's asset and income information as of August 10, 2020 and December 31, 2019, and for the period ended August 10, 2020, included throughout the Plan's financial statements that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2020	2019
Shares of registered investment companies, at fair value	\$ -	\$ 179,066,774
Units of common/collective trust, at fair value	-	19,452,562
Notes receivable from participants	-	2,547,069
Net appreciation in fair value of investments	3,273,283	
Interest and dividends	1,973,835	
Interest income on notes receivable from participants	31,239	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Cummins-Allison Corporation
Tax-Sheltered Savings and Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 10, 2020 and December 31, 2019.

Shares of registered investment companies: Valued at the daily closing price as reported by the registered investment companies. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Units of common/collective trust: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies:	\$ 179,066,774	\$ -	\$ -	\$ 179,066,774
Investments measured at NAV (a)				19,452,562
Investments at fair value				\$ 198,519,336

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Cummins-Allison Corporation
Tax-Sheltered Savings and Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosure of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of August 10, 2020 and December 31, 2019:

Investment	2020 Fair Value	2019 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Federated Capital Preservation Fund	\$ -	\$ 19,452,562	\$ -	Daily	12 months

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments in and out of Level 3..

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 5. Related Party Transactions

Plan assets are held and invested by Glenview State Bank. Glenview State Bank is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid approximately \$32,200 in fees to Glenview State Bank during the period ended August 10, 2020.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services. Other expenses of the Plan are paid by the Company.

Note 6. Tax Status

The IRS has determined and informed the Company by a letter dated September 23, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes the Plan is designed and is being operated in accordance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. We have operated the Plan and trust in a manner that did not jeopardize this tax status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Risks, Uncertainties and Subsequent Events

The Plan Administrator has evaluated subsequent events through June 8, 2021, the date the financial statements were available to be issued.
