Note A – Description of Plan

The following description of the Freedom Scientific, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Freedom Scientific, Inc. (the "Company" or "Employer") established the Plan effective as of January 1, 1997. The Plan has since been restated effective December 1, 2016. The Plan operates as a defined contribution plan. It is subject to the applicable provisions of the Employer Retirement Income Security Act of 1974 ("ERISA"). Employees of the Company are eligible to participate in the Plan upon reaching the age of 18 and after completion of one month of service.

Administration

The Company changed custodians on December 15, 2019 from Fidelity Management Trust Company to Reliance Trust Company (collectively the "Trustees"). Massachusetts Mutual Life Insurance Company became the recordkeeper replacing Matrix Trust Company. During the blackout period, participants were unable to direct or diversify their investments and were unable to obtain either loans or distributions from the Plan. Contributions are held by the Trustees, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 60% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code ("IRC") limitations. The maximum participant deferral for December 31, 2019 and 2018 was $19,000 and $18,500, respectively. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,000 for December 31, 2019 and 2018.

All new employees are automatically enrolled at a 4% salary deferral when they become eligible and each new participant would have an automatic annual 1% salary deferral increase until the new participant's salary deferral reaches 10%. New participants may elect to opt out of the Plan or change the salary deferral. Existing participants in the Plan will be treated as having elected not to have the automatic annual 1% salary deferral increase.

The Company may contribute a discretionary matching contribution equal to a percentage of each participant's deferred compensation (the exact percentage to be determined each year by the Employer). Participants are eligible for Employer matching contributions if they have completed three months of service, are currently employed at year end, retired in the current year, or had deceased in the current year. The Company may also contribute a discretionary profit sharing contribution equal to a percentage of each eligible individual's compensation (the exact percentage to be determined each year by the Employer). During the 2019 Plan year, the Company made a discretionary matching contribution of 100%, up to $1,000, for all plan participants eligible to receive the match as of December 31, 2019.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

Note A – Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary and Employer matching contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after three years of credit service as follows:

Years of Services	Vesting Percentage
Less than 1	0%
1	34%
2	67%
3	100%

A participant who reaches normal retirement age 59.5 becomes totally disabled, or dies, whichever comes first while under the Company's employment, shall be 100% vested on such date.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses of the Plan and then reduce future Employer contributions. During the year ended December 31, 2019, Plan expenses and Employer contribution payments were reduced by approximately $20,000 from forfeited non-vested accounts. As of December 31, 2019 and 2018 there was approximately $3,000 and $20,000, respectively, outstanding that could be used to pay administrative expenses and offset future Employer contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions, in multiples of 1%, into various types of investment options. Participants were allowed to select from 34 different investment options with varying investment styles with the Trustees.

Participants may change their investment options during election periods established by the Plan Administrator.

Distribution of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments paid over various periods, as defined in the Plan agreement. If a participant's vested balance is $1,000 or less, the Company may distribute the entire vested account balance to the participant without their consent.

For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution less 20% withheld for taxes.

Benefits may be received when a participant demonstrates a situation of financial hardship as defined by the Internal Revenue Code and the distribution is approved by the Plan's Trustees.

Note A – Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may have two loans outstanding at any given time. Loan terms can range from one to five years. These loans are collateralized by the balance in the participant's account and bear interest at prevailing rates as determined by the Plan Administrator. Principal and interest are paid by payroll deduction in substantially equal payments over the life of the loan, with payments not less frequently than weekly.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the last day of the calendar quarter following the calendar quarter in which the participant made their last payment.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants would become 100% vested in their accounts.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Money market funds: Valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2019, the Plan was in the process of transferring its assets to Reliance Trust Company and as such were not invested. These funds were reflected as interest-bearing cash as of December 31, 2019.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets Measured at Fair Value at 12/31/2018	Quoted Prices in Active Markets (Level 1)
Money market fund	$ 1,692,522	$ 1,692,522
Mutual funds	14,993,589	14,993,589
Total assets in the fair value hierarchy	16,686,111	16,686,111
Investments measured at net asset value	-	
Investments at fair value	$ 16,686,111	

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Note B – Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustees, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustees that the information provided to the Plan Administrator by the Trustees as of December 31, 2019 and 2018, and for the year ended December 31, 2019, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Party-In-Interest Transactions

The Plan invests in shares of certain interest bearing cash and mutual fund accounts managed and held by the Plan Trustees. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Certain Plan investments are held and managed by the Trustees. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid by the Plan to the Trustees totaled approximately $2,000 for the year ended December 31, 2019.

Note E – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2014 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation under Section 401 of the Internal Revenue Code. The Plan Administrator and its qualified tax counsel do not anticipate that changes in the Plan after the date of the amendments covered by the Internal Revenue Service determination letter will affect the qualified and tax-exempt status of the Plan.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2017.

Note F – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note G – Restatement

The previously issued report, dated July 10, 2020, has been restated due to a misstatement of Employer receivables. At both December 31, 2019 and 2018, the Plan had an Employer receivable of $114,029, resulting from missed Employer contributions in 2016 and 2017, which was not recorded on the financial statements. The restated financials include the $114,029 as an Employer receivable at December 31, 2019 and 2018, which resulted in an increase of $114,029 to the beginning net assets available for benefits in 2019.

Note H – Subsequent Events

Effective January 1, 2020, the Plan was amended and restated to change the name of the Plan from Freedom Scientific, Inc. 401(k) Plan to Vispero 401(k) Plan.

Effective January 1, 2020, Enhanced Vision Systems was added as a participating Employer which resulted in a transfer of $3,945,048 into the Plan. TPG Interactive, LLC was also added as a participating Employer with the January 1, 2020 Plan amendment.

Effective January 1, 2020, the Plan was amended and restated to modify the eligibility requirement to age 21 and to modify the Employer match to a fixed percentage of 100% of salary deferrals up to 3% of compensation. The Plan was also amended to allow participants to defer 100% of pretax annual compensation up to the annual limits.

Effective May 1, 2020, the Plan was amended to change the Employer match from a fixed percentage to a discretionary percentage.

Effective January 1, 2021, the Plan was amended to allow for in-service distributions upon attaining the age of 50.

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts are currently being assessed but have not been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Subsequent events have been evaluated through July 19, 2021 which is the date the financial statements were available to be issued.
