Charter School Services of Michigan, Inc. Retirement Plan
Notes to the Financial Statements
December 31, 2020 and 2019

Note 1 – Description of the Plan

The following description of the Charter School Services of Michigan, Inc. Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Charter School Services of Michigan, Inc. (Company), except for members of a collective bargaining unit and non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible for plan participation in the elective deferral portion of the plan and discretionary Company non-elective contributions when they have attained the age of 20.5 years and been employed for 90 days; entry is immediate after satisfying the eligibility requirements. Employees are eligible for the discretionary Company matching contributions when they have attained the age of 20.5 years and have completed one year of service; entry is immediate after satisfying the eligibility requirements. One year of service is defined as any plan year in which 1,000 hours are worked.

Contributions

Each year, participants may contribute a percentage of their annual compensation, not to exceed the limits of the Internal Revenue Code (IRC). A maximum deferral of \$19,500 and \$19,000 was allowed in 2020 and 2019, respectively. Participants who were age 50 or older were allowed to defer an additional \$6,500 and \$6,000 in 2020 and 2019, respectively. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan after 90 days unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated target retirement date fund until changed by the participant. The automatic deferral percentage will increase by 1 percent each year up to a maximum of 5%.

Discretionary Company matching contributions are allocated to each participant based on a percentage of the participant's elective contributions as determined by the Company's Board of Directors. During 2020 and 2019, the Company matched 100% of participant elective contributions up to a maximum of 5% of eligible plan compensation.

Participant Accounts

Each participant's account is credited with the participant's and Company contributions, as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Charter School Services of Michigan, Inc. Retirement Plan
Notes to the Financial Statements
December 31, 2020 and 2019

Vesting

Participants are 100% vested in their voluntary contributions, including any earnings thereon, immediately upon their effective date of participation. Participants are vested on Company contributions as follows:

Vesting Service (Years)	Vesting %
Less than 2	0
2	25
3	50
4	75
5 or more	100

Participants are credited with a year of service for vesting purposes upon completion of 1,000 hours of service during the year.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and must bear reasonable rates of interest which are generally consistent with local borrowing rates as of the date of each loan. Principal and interest are paid ratably through payroll deductions over the term of the loan.

Payment of Benefits

The Plan provides for payment of 100% of the account balance to participants upon normal retirement at age 65, early retirement (age 55, 5 years of service), death, or total and permanent disability. Participants terminating employment for any other reason are entitled to receive 100% of their vested account balances and any remaining non-vested portions would be forfeited. Participant distributions from the Plan will be made in a single lump payment. If the participant's vested benefit under the Plan exceeds \$5,000, then the participant must consent to the distribution before it is made. However, if the participant's vested benefit under the Plan does not exceed \$5,000, then the benefit may be distributed as soon as possible following the event that entitles the participant to a distribution. There are minimum distribution requirements once a participant reaches a certain age as defined in the plan agreement. Generally, a participant may receive a distribution from the Plan prior to termination of employment if certain conditions are satisfied. A participant may be entitled to receive an in-service distribution from their vested account balance if they have reached the age of 59 ½. Participants may also request financial hardship distributions from vested accounts if they meet certain conditions defined in the plan agreement.

Forfeited Accounts

At December 31, 2020 and 2019, forfeited non-vested accounts totaled \$781 and \$5,701, respectively. These accounts are used first to pay certain administrative expenses of the Plan and any remaining funds are applied to reduce Company contributions made to the Plan. The amount of forfeitures used to pay administrative expenses in 2020 was \$10,675. No forfeitures were used to reduce Company contributions in 2020.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Plan's investment adviser, custodian, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Contributions Receivable

Contributions receivable consist of participant and employer contributions receivable. No allowance was recorded as the full balance is deemed collectible.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance has been recorded as of December 31, 2020 and 2019, as the full outstanding balance is deemed collectible. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and recorded in the statement of changes in net assets available for benefits as a deemed distribution of participant notes receivable.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements, unless paid from the Plan's forfeiture account. Fees related to the processing and administration of notes receivable from participants, benefit payments, and general administration are charged directly to the participant's account and are included in administrative expenses on these financial statements. Certain other expenses, such as for recordkeeping, investment advice, etc. are included in investment income as they are paid through revenue sharing. Investment-related expenses are included in investment income.

Accounting Standards Update (ASU)

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement.

The following disclosure requirements were removed from Topic 820:

- The amount of and reasons for transfers between level 1 and level 2 of the fair value hierarchy.
- The policy for timing of transfers between levels.
- The valuation processes for level 3 fair value measurements.
- The changes in unrealized gains and losses for the period included in earnings for recurring level 3 fair value measurements held at the end of the reporting period.

The following disclosure requirements were modified in Topic 820:

- In lieu of a rollforward for level 3 fair value measurements, an entity is required to disclose transfers into and out of level 3 of the fair value hierarchy and purchases and issues of level 3 assets and liabilities.
- For investments in certain entities that calculate net asset value, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly.
- The amendments clarify that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date.

The amendments in this ASU are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019.

Subsequent Events

Management has evaluated subsequent events through July 26, 2021, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under US GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Charter School Services of Michigan, Inc. Retirement Plan
Notes to the Financial Statements
December 31, 2020 and 2019

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts – valued at the net asset value (NAV) of units held by the Plan at year end. The NAV, as provided by Voya Retirement Insurance and Annuity Company is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The NAV is not a publicly quoted price in an active market.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019.

	Fair Value Measurements at Reporting Date Using			
	Fair Value	Level 1	Level 2	Level 3
<u>December 31, 2020</u>				
Investments measured at net asset value *	\$ 1,919,620	\$ -	\$ -	\$ -
<u>December 31, 2019</u>				
Investments measured at net asset value *	\$ 1,585,081	\$ -	\$ -	\$ -

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

For the years ended December 31, 2020 and 2019, there were no significant transfers between levels.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption restrictions noted below are applicable only to the Plan.

(1) The target retirement funds provide an asset allocation based on an investor's targeted retirement date. The asset allocation becomes more conservative as the fund approaches its target retirement date. (2) The real estate fund seeks to provide long-term capital appreciation (3) The income funds seek to provide current income and some capital appreciation. (4) The growth funds seek to provide growth of capital by primarily investing in common stocks of small and large companies (5) The value funds seek to provide long-term capital growth through investing in companies selling at discount.

Note 4 – Related-Party Transactions and Party-In-Interest Transactions

Certain plan investments are managed by the Voya Retirement Insurance and Annuity Company, the custodian of the Plan. The Plan also holds notes receivable representing participant loans. These transactions qualify as party-in-interest transactions.

The Plan made payments to Michigan Benefit Consulting, Inc., third party administrator and/or record-keeper, relating to participant loan processing/maintenance, withdrawals, and general plan administration. Fees incurred by the Plan for these services totaled \$1,556 for the year ended December 31, 2020.

The Plan made payments to Voya Retirement Insurance and Annuity Company, the custodian of the Plan, relating to participant loan processing and withdrawals that were charged directly to participant accounts. Fees incurred by the Plan for these services totaled \$2,505. Other fees related to investment advisory services and record-keeping provided by the Voya Retirement Insurance and Annuity Company are netted with investment income and paid through revenue sharing.

The Plan made payments to Yeo & Yeo, P.C., plan auditor, totaling \$9,250 during the year ended December 31, 2020 to cover the audit fees.

Note 5 – Certification of Investments

The Plan's investment assets, transactions, and income were held and certified by the Voya Retirement Insurance and Annuity Company, the custodian, as of and for the years ended December 31, 2020 and 2019.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their account balances.

Charter School Services of Michigan, Inc. Retirement Plan
Notes to the Financial Statements
December 31, 2020 and 2019

Note 7 – Tax Status

The Company adopted a prototype plan, which received a favorable opinion letter from the Internal Revenue Service (IRS), dated March 31, 2014, indicating that the prototype plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the letter, however, the plan administrator and the Plan's tax counsel believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Non-Exempt Prohibited Transaction

From 2019 through 2020, the Company failed to remit to the Plan's custodian certain participant withholdings (employee deferral contributions and loan repayments) within the period prescribed by Department of Labor (DOL) regulations. These withholdings exceeded \$12,700 over this period and is disclosed in the attached supplementary schedule. These failures to timely remit participant withholdings qualify as non-exempt prohibited transactions. In 2020, the Company remitted a corrective contribution to the Plan for lost opportunity costs associated with the untimely remitted participant withholdings and allocated to the affected participants for the 2019 late contributions. The Company intends to correct the 2020 late contributions in a similar manner.

Note 10 – The Coronavirus Aid Relief, and Economic Security (CARES) Act

The Coronavirus Aid Relief, and Economic Security (CARES) Act was enacted on March 27, 2020, which included some optional changes to retirement plans applicable to 2020. Section 2202 of the CARES Act provides special rules for the use of retirement funds for those participants affected by the coronavirus:

- Tax-favored withdrawals from retirement plans (coronavirus-related distribution)
- Loans from qualified plans

The Company has decided to implement these changes.

In addition, section 2203 of the CARES Act provided a waiver of required minimum distributions applicable to the 2020 calendar year.
