1. Description of the Plan

The Akron Children's Hospital Retirement Security Plan (the "Plan") is a defined contribution plan that covers substantially all Children's Hospital Medical Center of Akron ("Children's" and "Plan Administrator") employees hired after December 31, 2006. The Plan was established January 1, 2007. Participants become fully vested in the Plan after three years of credited service. Children's has agreed to make discretionary contributions for any participant at least 21 years old, employed on the last day of the year, working a minimum of 1,000 hours and not part of a defined excluded classification of employees. The Plan is 100% funded by Children's. Children's will contribute a percentage of pay based on a combination of age and years of eligible service for every year that the eligible employee remains employed through December 31. The contributions are placed in participant-directed investment accounts. Each participant's account is credited with allocations of (1) the company's contribution and (2) plan earnings, and charged with an allocation of administrative expenses. Children's has the right under the Plan to discontinue such contributions at any time and to terminate the Plan.

The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 ("ERISA").

Should the Plan terminate at some future time, all amounts credited to the participant's accounts shall become 100% vested and shall not be subject to forfeiture. Distribution of the assets will be directed by the Plan Administrator based on provisions in the Plan documents.

Information about the Plan agreement, the vesting and benefit provisions are contained in the *Summary Plan Description* ("SPD"). Copies of the SPD are available from the Human Resources Department at Children's.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Fees

Investment management expenses, trustee fees, and other administrative expenses are paid by the Plan. Certain other costs are paid by Children's.

2. Significant Accounting Policies (continued)

Investment Valuation and Investment Income

Investments in mutual funds and money market funds have readily determinable fair values and are measured at fair value in the December 31, 2020 and 2019 Statements of Net Assets Available for Benefits. Fair values of investments in mutual funds and money market funds are based on quoted market prices.

Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at contract value. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses.

Investment income or loss and net realized and unrealized gains and losses are reflected in the Statements of Changes in Net Assets Available for Benefits.

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported based on historical cost.

Fair Value of Financial Assets and Liabilities

Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The framework for measuring fair value is comprised of a three-level hierarchy based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

2. Significant Accounting Policies (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Children's believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Payment of Benefits

Benefits are recorded when paid.

The Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law on March 27, 2020. The CARES Act allowed Plan participants who were impacted from the coronavirus to elect a distribution of up to \$100,000 from the Plan through December 31, 2020, with a waiver of the 10% early withdrawal tax penalty. Participants may pay back the distribution over a three-year period from the date of the distribution, without being subject to income taxes. If the distribution is not repaid to the Plan, participants have the option to pay the income taxes on the distribution over a three-year period. Additionally, under the CARES Act, all required minimum distribution requirements were waived for the year ended December 31, 2020.

Subsequent Events

The Plan has evaluated subsequent events through August 4, 2021, the date the financial statements were available to be issued.

3. Assets and Liabilities Measured at Fair Value

Assets measured at fair value on a recurring basis as of December 31:

	2020

3. Assets and Liabilities Measured at Fair Value (continued)

Valuation methodologies used for assets and liabilities measured at fair value are as follows:

- Mutual funds: Securities and mutual funds listed or traded on securities exchanges are valued at the closing price on the exchange where the security is principally traded. These securities are classified as Level 1 because quoted prices in active markets are available.
- Money market funds: Money market funds are valued at net asset value ("NAV"). NAV is equal to the market value of each money market fund's investments and other assets, less liabilities, divided by the number of fund shares. These funds are valued at a daily close price as reported by the fund. The funds are required to publish their daily NAV and transact at that price. Money market funds are actively traded and are classified as Level 1.

4. Guaranteed Investment Contracts

The Plan has entered into a traditional benefit-responsive guaranteed investment contract with AIG. The account is maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issued is contractually obligated to repay the principal and specified interest rates that are guaranteed to the Plan.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issue or otherwise. The crediting interest rates are based on a formula agreed upon with the issuers.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

5. Income Tax Status

The Internal Revenue Service has determined on March 31, 2008 that the Prototype Non-Standardized 401(a) Profit Sharing Plan, which was adopted by the Plan, is a qualified plan under Section 401 of the Internal Revenue Code ("IRC") and is exempt from tax under present income tax laws. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving this determination. However, the Plan Administrator believes the Plan still complies with the Internal Revenue Service Code Section above.

5. Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, and for the years then ended, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Transactions with Parties in Interest

Variable Annuity Life Insurance Company / AIG Federal Savings Bank ("AIG"), who serves as the Trustee, receives investment management fees. There are also fees deducted directly from investment earnings of the Plan.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

8. Trustee Certification of Investments

AIG has certified that the following information used in preparation of these financial statements is complete and accurate as of and for the years ended December 31:

	2020	2019
Investments, at fair value	\$ 63,396	\$ 50,636
Fully benefit-responsive investment contracts, at contract value	\$ 3,672	\$ 2,328
Interest and dividends	\$ 1,755	\$ 1,532
Net appreciation in fair value of investments	\$ 6,252	\$ 7,835
