1. DESCRIPTION OF PLAN

The following description of the Cutrale USA Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all employees of Cutrale Citrus Juices USA, Inc. (the "Company"), the Plan sponsor and participating affiliated employers. Employees become eligible to participate after attaining age 21 and have at least two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participant

Each year, participants may elect to defer up to 100% of their pre-tax annual compensation excluding bonuses, as defined in the Plan, up to the dollar limitation under Code Section 402(g). Participants may elect to contribute post-tax "Roth" amounts. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions within the limits set by the Plan and Internal Revenue Code ("IRC'). Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans.

Employer

The Company matches a designated percentage of the participant's contribution which is 50% of the participant's contribution up to a maximum of 6% of the participant's salary.

Participant Accounts

Individual accounts are established for each participant. Each participant's account is credited with the participant's elective deferrals, including Roth contributions, rollover contributions, the employer matching contribution, and Plan earnings. The participant's account is reduced by withdrawals, losses on investments, administrative expenses, and any forfeitures. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferrals, including Roth contributions, and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus earnings thereon is based on years of continuous service. Forfeitures of nonvested amounts are used to reduce future employer contributions. Participants vest in the Company's contribution as follows:

Years of Service (as defined)	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Notes Receivable From Participants
Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest as of the date the loan is granted. Interest rates are based on the rates available for similar loans from commercial lending institutions. The rate of interest will be a fixed rate equal to the prime rate of interest plus two percent on the first day of the month before a loan is originated. The interest rate on all notes outstanding at December 31, 2020, ranged from 5.25% to 7.50% and maturities range from 2021 to 2025.

Payment of Benefits
Upon termination of service, retirement, death, or disability, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum amount. In the event that the participant's vested accrued benefit is less than $5,000, the Plan administrator may make a distribution without the election or request of a terminated participant. The Plan requires that such distributions of amounts less than $5,000 but greater than $1,000 be rolled over to an individual retirement account unless the participant elects to receive the distribution directly.

Participants may withdraw all or any part of their account that is 100% vested after attaining age 59½ or for financial hardship. Certain requirements for financial hardship withdrawals are mandated by federal guidelines.

Investment Options
Upon enrollment in the Plan, a participant may direct participant deferral contributions, Roth contributions, participant rollover contributions, and employer contributions in any of the Plan's investment options. Participants may change their contribution allocations and transfer amounts between funds at any time.

Forfeited Accounts
The Plan allocates nonvested or forfeited amounts to reduce employer contributions and/or pay administrative expenses. At December 31, 2020 and 2019, forfeited balances available to offset future employer contributions or pay administrative expenses were $8,474 and $9,384, respectively. During the year ended December 31, 2020, $8,729 was used to reduce employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Plan uses the accrual basis of accounting for the presentation of financial statements.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from these estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisers and trustees and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net change in the fair value of investments during the Plan year is included in the statement of changes in net assets available for benefits. Net appreciation or depreciation in the fair value of investments consists of the net realized gains or losses on investments sold and the net unrealized gains or losses on investments held.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees and consulting fees paid by the Plan. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Payment of Benefits
Benefits are recorded when paid.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodology used for the Plan's assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value at December 31, 2020 and 2019, are comprised of mutual funds. These investments are considered Level 1 investments in the fair value hierarchy.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

At December 31, 2020 and 2019, the Plan has a guaranteed interest account with Massachusetts Mutual Life Insurance Company ("Mass Mutual") which guarantees a rate of return on the contract and is backed by Mass Mutual's general account. This investment contract has been determined to be fully benefit-responsive. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans, or transfers to other investment choices within the Plan. Contract value represents contributions made under each contract plus earnings less participant's withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Repayment of principal and interest credited to the participants is a financial obligation of the insurance company backing the contract.

The effective annual rates of interest are established for the corresponding six-month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six-month period. There is no stated minimum or maximum interest rate.

Events that may limit the Plan's ability to execute transactions at contract value include Plan sponsor bankruptcy, premature termination of the contracts, or a significant decline in the creditworthiness of the custodians. Additionally, certain events exist that would allow the contracts to be terminated. Since the respective fully-benefit responsive investment choices are the obligations of the insurance companies, the occurrence of an event that limits the ability of the investments to transact at contract value between the trustees and the participants holding the investment is not probable.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are managed by Reliance Trust Company and Massachusetts Mutual Life Insurance Company ("Reliance" and "Mass Mutual"). Reliance and Mass Mutual are trustees as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions. In addition, notes receivable from participants and the related interest income are considered party-in-interest transactions. The Plan paid fees for investment management services of $65,641 for the year ended December 31, 2020, which is included in administrative expenses. In addition, there are transaction fees charged by Mass Mutual that are absorbed in investment income that are not readily determinable.

6. INVESTMENTS AND INFORMATION PROVIDED AND CERTIFIED BY CUSTODIAN/TRUSTEE (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Reliance, the custodian of the Plan has certified the completeness and accuracy of all investments and related investment activity for all investments and notes receivable from participants, except for the guaranteed interest account and except for the related investment activity for this account, in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, the statement of changes in net assets available for benefits for the year ended December 31, 2020, and the accompanying supplemental schedule of assets (held at end of year) as of and for the year ended December 31, 2020. No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the custodian/trustee, except for comparing such information with the related information included in the financial statements and supplemental schedule.

Mass Mutual has certified the completeness and accuracy of the guaranteed interest account and the related investment activity in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, the statement of changes in net assets available for benefits for the year ended December 31, 2020, and the accompanying supplemental schedule of assets (held at end of year) as of and for the year ended December 31, 2020.

7. PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. TAX STATUS

The Internal Revenue Service has determined and informed the Plan sponsor by a letter dated March 31, 2014, that the prototype plan adopted by the Company is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified.

Plan management has evaluated tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken uncertain positions that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Furthermore, there are no tax related interest or penalties for periods presented in these financial statements.

9. RISKS AND UNCERTAINTIES

The Plan provides participants with various investment options. All investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events occurring after the statement of net assets available for benefits date through August 26, 2021, the date which the financial statements were available to be issued. Based upon this evaluation, the Plan has determined that no subsequent events have occurred which require adjustment to or disclosure in the financial statements.
