Note 1 – Description of the Plan

The following description of K.M.A. Sunbelt Trading Corporation Retirement Savings Plan (the "Plan") provides only general information of the major Plan provisions. Participants should refer to the Plan document for more comprehensive information.

General – The Plan, which was established by K.M.A. Sunbelt Trading Corporation ("K.M.A.") as a defined contribution plan effective July 25, 2005. The Plan was amended and restated effective April 1, 2017, to comply with Internal Revenue Service ("IRS") regulations for periodic plan restatements. The Plan is subject to the provisions of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

On March 29, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was signed into law. Section 2202 of the CARES Act permits eligible Plan participants to request penalty-free benefit payments of up to $100,000 for qualifying coronavirus-related reasons. Such distributions are exempt from the 10 percent premature distribution penalty tax, can be repaid over a three-year period from the day after receipt of the distribution in one or more contributions to the Plan, and are taxable ratably over a three-year period (unless the taxpayer elects income inclusion earlier).

Eligibility – All employees of K.M.A. and IDC Savannah, LLC, a subsidiary of K.M.A., (collectively the "Plan Sponsor") who have completed at three months of continuous service and have attained the age of 21 are eligible to participate in the Plan. The Plan permits entry and participants are automatically enrolled in the Plan on the date the eligibility requirements are met.

Contributions – Participants are permitted to contribute up to 90% of their compensation and are subject to certain limitations under Internal Revenue Code ("IRC") Section 402(g). Participants who have attained the age of 50 are eligible to make pre-tax catch-up contributions, subject to certain limitations. In addition, the Plan accepts rollovers from other tax-qualified plans. The Plan Sponsor may contribute matching contributions and profit-sharing contributions at its discretion. The Plan Sponsor matched 20% of each employee contributions up to 6% of their compensation through March 2020 at which time the match was suspended. The match was reinstated in December 2020. There were no profit sharing contributions made during 2020.

Participant accounts – Each participant's account is credited and/or reduced with the participant's contributions and withdrawals, employer matching and profit-sharing contributions, and allocations of the Plan earnings and losses. Allocations are based on participant earnings, participant elective contributions, or account balances, as defined. The benefit to which a participant is entitled is the vested balance in the participant's account.

Notes receivable from participants – Participants may borrow from their individual accounts a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance and may have no more than two loans outstanding at any given time. Loans are secured by the vested balance in the participants' account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator at the time the loan is approved. Principal and interest is collected ratably through payroll deductions. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. The interest rate on loans outstanding as of December 31, 2020, ranged between 3.25% and 5.25%.

Note 1 – Description of the Plan (continued)

Vesting - Participants are immediately vested in their contributions and rollovers, plus or minus any earnings or losses thereon. Vesting in the employer matching and profit-sharing contributions, plus or minus any earnings or losses thereon, is based on years of continuous service as defined by the Plan. Vesting is determined according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of benefits – Distribution of a participant's vested account balance to the participant or his or her beneficiary may commence upon the earlier of retirement, death, total and permanent disability, or separation from service. A participant or his or her beneficiary may elect to receive the value of the vested interest in his or her account a lump-sum payment, substantially equal installments, partial withdrawal, or direct rollover. Distributions are subject to the applicable provisions of the Plan document.

The Plan allows participants to withdraw the amounts from their account balances while actively employed. A participant experiencing financial hardship, as defined by the Plan document, may, with sufficient evidence, withdraw a portion of their account attributable to fully vested account balances. The amount of the withdrawal may not be greater than the immediate financial need. These hardship withdrawals are subject to IRC restrictions and penalties. The Plan also allows for actively employed participants to withdraw from fully vested account balances once the age of fifty-nine and a half has been reached.

Forfeitures – Any nonvested portion of employer contributions credited to the accounts of participants who withdraw from the Plan are forfeited and used for either payment of eligible administrative expenses or to reduce employer contributions. The Plan had forfeiture balances of approximately $50 and $600 as of December 31, 2020 and 2019, and approximately $1,350 of forfeitures were used to pay administrative expenses during the year ended December 31, 2020.

Termination – Although it has not expressed an intention to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in their accounts.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Note 2 – Summary of Significant Accounting Policies

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investments, investment valuation, and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations, other than those measured using the net asset value ("NAV") as a practical expedient, are made based upon a fair value hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of inputs that may be used to measure fair value:

> Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;
>
> Level 2 – Inputs to the valuation methodology are other-than-quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and,
>
> Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

> *Mutual Funds* – These investments are public investment vehicles valued using NAV provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 2 – Summary of Significant Accounting Policies (continued)

Investments, investment valuation, and income recognition (continued) – Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recognized when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought, sold, and held during the year.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Payments of benefits – Benefits are recorded when processed and paid by the Plan.

Administrative expenses – Administrative expenses paid by the Plan are recorded when incurred. Additionally, the Plan pays administrative expenses through an offset arrangement whereby expenses are netted against income. The Plan Sponsor absorbs a significant amount of the cost of plan administration.

Subsequent events – The Plan administrator has evaluated subsequent events through August 19, 2021, in connection with the preparation of these financial statements, which the date these financial statements were available to be issued.

Note 3 – Information Provided and Certified by the Trustee (unaudited)

The following is a summary of the Plan's financial information and data certified by Voya Institutional Trust Company as complete and accurate in accordance with 29 CFR 2520.103-5(c) of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA:

	December 31,	
	2020	2019
Investments, at fair value	$ 5,311,442	$ 4,925,570

	Year Ended December 31, 2020
Net appreciation in fair value of investments	$ 510,122
Interest and dividends	$ 119,931

Note 4 – Investments, at Fair Value

The following summarizes the Plan's investments based upon the fair value hierarchy levels described in Note 2:

As of December 31, 2020	Level 1	Level 2	Level 3	Total
Mutual funds[(1)]	$ 5,311,442	$ -	$ -	$ 5,311,442

As of December 31, 2019	Level 1	Level 2	Level 3	Total
Mutual funds[(1)]	$ 4,907,159	$ -	$ -	$ 4,907,159

				$ 4,925,570

[(1)] Amounts are unaudited (see Note 3).
[(2)] Certain investments that are measured at fair value using NAV per share (or its equivalent) as a practical expedient that have not been classified in the fair value hierarchy. The fair value of amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amount presented in the statements of the net assets available for benefits.

Note 5 – Party-in-Interest Transactions

Certain investments are managed by Voya Retirement Insurance and Annuity Company ("Voya"), the third-party administrator and recordkeeper of the Plan, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid during the year for services rendered by parties-in-interest were based on customary and reasonable rates for such services. While these transactions qualify as party-in-interest activity, they are expressly exempted from prohibited transactions rules (ERISA, Tittle 1, and Section 408(b)).

Note 6 – Income Tax Status

The Plan is a prototype non-standardized profit sharing plan sponsored by Voya. Voya obtained its latest opinion letter dated September 1, 2014, in which the IRS stated the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 – Risks and Uncertainties

The Plan invests in various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
