Note 1 - Plan Description

The following description of CML Security Employees Savings Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees, excluding leased employees and nonresident aliens, of CML Security, LLC (the "Company"). All employees who have completed at least one consecutive month of service are eligible to participate in the Plan. Participation is voluntary and effective the first day of the month coinciding with or following one consecutive month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee salary deferral contributions of any amount subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan allows participants to contribute any amount of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan is operating pursuant to the safe harbor provisions of Internal Revenue Code Section 401(k)(12). The Company has the right to designate all or a portion on the matching safe harbor contributions as qualified. To the extent matching contributions are so designated, they are nonforfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½. Safe harbor contributions totaled $421,603 for the year ended December 31, 2020. The safe harbor employer matching percentage is determined based on the following formula:

Elective Deferral Percentage	Matching Percentage
Less than or equal to 3%	100.00 %
Greater than 3%, but less than or equal to 5%	50.00 %

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately 100 percent vested in employee salary deferral contributions, rollover contributions, all types of employer contributions, and any income or loss thereon.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. The notes receivable are secured by the balance in the participant's account and bear interest between 4.25 and 6.5 percent. Principal and interest are paid ratably through monthly payroll deductions.

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account or in partial installments.

Note 1 - Plan Description (Continued)

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the plan sponsor. Participants may request that all or a portion of their accounts be distributed in the case of financial hardship, as defined in the plan document. The plan administrator must approve any such hardship withdrawals.

Furthermore, the Plan allows for a terminated participant vested account balance of $1,000 or less to be automatically distributed. A terminated participant vested account balance between $1,000 and $5,000 will be automatically distributed to an IRA established for the participant.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. The total amount of forfeitures used during the year ended December 31, 2020 was $34,371. At December 31, 2020 and 2019, forfeited account balances totaled $200 and $28,681, respectively.

Party-in-interest Transactions

The Plan provides for loans to participants, which are party-in-interest transactions that are exempt from the prohibited transaction rules.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks, Uncertainties, and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

At December 31, 2020 and 2019, three investments accounted for 42 and 51 percent, respectively, of total investments at fair value. During the year ended December 31, 2020, three investments accounted for 38 percent of the net investment income. A significant change in the market value of these investments would significantly affect the net assets available for benefits and related investment income of the Plan.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 30, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Ascensus Trust Company holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by Ascensus, on behalf of Ascensus Trust Company.

Note 4 - Tax Status

The Plan is a prototype. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

Note 5 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2020 and 2019:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2020
