Contributions

Participants may defer up to 90% of their compensation to the Plan on an annual basis. The Plan also allows Roth contributions. Accordingly, participant deferrals may either be on a before-tax basis or after-tax Roth contributions. The contributions are subject to limitations determined by the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan has an automatic enrollment provision, whereby all newly eligible employees, as well as active participants with no deferral election, will have an initial pre-tax deferral contribution of 5% made on their behalf, unless they affirmatively elect a different amount. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Society will make safe harbor matching contributions of 100% of the first 3% of a participant's deferrals and 50% of the next 2% of deferrals. In addition, the Society may make an additional discretionary matching contribution, to be determined annually based on a percentage of the participant's deferral contributions. The Society limits the additional matching contributions to 4% of the eligible compensation contributed to the Plan.

Additionally, participants of the Plan who were employed by the Society on the last day of the Plan year may also be allocated an additional discretionary non-elective contribution as determined and approved by the Society's Board of Directors. Additional discretionary non-elective contributions totaled \$129,893 for the year ended December 31, 2020.

Participant accounts

Each participant's account is credited with the participant's elective contributions, an allocation of the Society's safe harbor matching contribution, discretionary matching contribution (if any), an allocation of the Society's discretionary non-elective contribution (if any), and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, employer safe harbor matching contributions and employer non-elective contributions, plus actual earnings thereon. A participant's vested interest in discretionary matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

Forfeited accounts

At December 31, 2020 and 2019, forfeited nonvested accounts totaled \$0. These accounts are used to reduce future employer contributions. During 2020, employer contributions were reduced by \$145 from forfeited nonvested accounts.

Payment of benefits

Upon a participant's retirement, death, total and permanent disability, or other termination of employment with the Society, the participant's account is distributed in one lump sum. The Plan also permits automatic cash out of terminated participant vested balances. The Plan may automatically roll over the balance in a terminated participant's account to an individual retirement account if the balance is greater than \$1,000 but does not exceed \$5,000, without the participant's consent. Balances of \$1,000 or less can be automatically distributed.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 ½. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship", a participant may apply to the plan administrator for approval to withdraw that portion of his or her elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the IRC.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis on a specific item basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Society and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments. Other administrative and transaction fees that are paid by the Plan are included in administrative and investment fees on the statement of changes in net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through the date of the report, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below.

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Money market and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019:

<u>Investments at fair value measurements as of December 31, 2020</u>

4. INFORMATION CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information included on the statements of net assets available for benefits, the statement of changes in net assets available for benefits, and the supplemental schedule of assets (held at end of year), certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

5. TAX STATUS:

The Plan adopted a volume submitter plan designed by Fidelity Management Trust Company. The volume submitter plan has received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the IRC and, therefore, the Plan is exempt from taxation. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, Plan administrator believes that the Plan was qualified, and was tax exempt as of the financial statement date.

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments are investments in mutual funds and a money market fund managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

Several employees of the Society provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Society for the services of these employees to the Plan.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Society has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant will become 100% vested in his or her account.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. SUBSEQUENT EVENT:

The Plan was amended and restated effective February 24, 2021 to bring the Plan into compliance with legislative and regulatory changes. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

10. PLAN OPERATIONS IMPACTED BY COVID-19:

On March 11, 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is on-going and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in net assets available is uncertain and cannot be reasonably estimated at this time.

On March 27, 2020, the U.S. Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act provided temporary relief for retirement plan sponsors and their participants with respect to distributions and participant loans during 2020. The provisions of the CARES Act could be effective and operationalized immediately, prior to amending the plan document.

The Plan Administrator has adopted the distribution relief provisions included in the CARES Act which permitted qualified individuals to request a pre-approved distribution, through participant self-certification of eligibility. The maximum dollar amount that could be requested per participant was \$100,000 through December 30, 2020. The Society intends to formally amend the Plan before the end of the applicable remedial amendment period to reflect such provisions.
