403(b) MATCHED RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2020 and 2019

(1) Description of Plan

The following brief description of the University Hospitals Health System 403(b) Matched Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

(a) General

The Plan became effective March 1, 1996 and is a matched defined contribution plan sponsored by University Hospitals Health System, Inc. (the System or Plan Sponsor). The Plan covers substantially all employees of the System. There are no service or age requirements of employees to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act, (the CARES Act), was passed by Congress. The CARES Act contains several provisions that temporarily impact 403(b) plans. The Plan adopted certain provisions to allow coronavirus-related distributions up to \$100,000 before December 31, 2020 and the waivers of required minimum distributions and the deferral of repayment on any existing or new plan loans through December 31, 2020.

(b) Employee Contributions

Each year participants may defer and contribute up to 75% of pretax annual compensation as defined in the Plan, up to the maximum allowed under the Internal Revenue Code (IRC).

(c) Employer Contributions

The Plan Sponsor matches 50% of an eligible participant's contribution to the Plan, up to 6% of the participant's compensation. Matching employer contributions commence after the participant completes one year of service and has reached the age of 18. Matching employer contributions were suspended temporarily beginning the first pay period in May 2020 and reinstated effective with the first full pay period in 2021.

(d) Participant Rollovers

The Plan permits rollover contributions. The Plan may accept rollover contributions at the direction of the Plan Sponsor. Rollover contributions can be contributed from i) a trust under a qualified plan described in IRC Sections 401(a) or 403(a), ii) an annuity contract described in Section 403(b) of the IRC, iii) an eligible deferred compensation plan described IRC Section 457(b) that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of the state, or iv) an individual retirement account described in Section 408(d)(3)(A)(ii) of the IRC.

(e) Participant Accounts

Each participant's account is credited with the employee's and the System's contributions, and investment earnings, appreciation, or depreciation in the fair value of assets. The account balances are participant directed, including the self directed brokerage account, which allows participants to direct their contributions into investments of their choice. Participants may change their investment options at any

403(b) MATCHED RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2020 and 2019

time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Vesting in the System's contribution to the participant's account is based on a three-year cliff-vesting schedule (i.e., a participant vests in full after three years of service). Participants immediately vest in their own contributions.

(g) Payment of Benefits

Upon termination of service, a participant will be entitled to receive the vested portion of his or her account. Benefits are recorded when paid.

(h) Forfeitures

The forfeited balances of terminated participants' nonvested accounts are used to pay administrative expenses or used to reduce future employer matching contributions. Forfeitures were \$513,797 and \$611,377 during the years ended December 31, 2020 and 2019, respectively.

(i) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.50%, which are commensurate with local prevailing rates as determined by the Plan Sponsor. The loans have maturities of various dates through 2041. Principal and interest are repaid in equal installments over the term of the loan, with payments occurring at least quarterly. Participant loans are valued at amortized cost, which represents the unpaid principal.

(j) Expenses

Certain administrative expenses are paid by the Plan and other administrative expenses are paid by the Plan Sponsor.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements, in conformity with the accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**UNIVERSITY HOSPITALS HEALTH SYSTEM
403(b) MATCHED RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2020 and 2019

(c) Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a guaranteed funds contract. Contract value for this guaranteed funds contract is based on the discontinuance value of the fund as reported by the investment advisor. The statements of net assets available for benefits and statements of changes in net assets available for benefits present the contract value of the investment in the guaranteed funds contract.

(d) New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) 2018-13, Fair Value Measurement (Topic 820) Disclosure Framework – *Changes to the Disclosure Requirements for Fair Value Measurement*. The Update modifies fair value disclosure requirements by removing, modifying or adding to the required fair value disclosures which affects our disclosure in Note 4 (*Fair Value Measurements*). The Update is effective for fiscal years beginning after December 15, 2019. The Plan adopted the Update for plan year 2020. The Update did not have a material impact to the statement of net assets available for benefits or the statement of changes in net assets available for benefits.

(3) Information Prepared and Certified by the Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity), Voya Institutional Trust Company and Massachusetts Mutual Life Insurance Company, the custodians of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments from participants:

- Investments, at fair value
- Investments, in fully benefit-responsive investment contracts, at contract value
- Interest and dividends
- Interest income from participant loans
- Net appreciation in fair value of investments
- Schedule of assets (held at end of year)

Notes to Financial Statements

December 31, 2020 and 2019

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Money market mutual funds/Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at net asset value (NAV) per share or its equivalent of the funds, which are based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) Certain investments that are fully benefit-responsive guaranteed funds contracts are measured at contract value and have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the table of fair values of investments and total net assets for the Trustee.

(5) Plan Termination

Although it has not expressed any intention to do so, the System has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. Upon termination, participants will become 100% vested in their accounts.

(6) Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the IRC. A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). The Plan Sponsor and the Plan's tax counsel believes the Plan is currently

being operated in compliance with the applicable provisions of the IRC and, therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2017.

(7) Related Party and Party-in-Interest Transactions

Certain plan investments and shares of mutual funds are managed by the custodians of the Plan. Therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investments.

Fees paid directly to Fidelity to provide investment advisory services totaling \$1,340,170 and \$1,231,952 are included in administrative expenses for the years ended December 31, 2020 and 2019, respectively. Fees paid directly to MassMutual to provide investment advisory services totaling \$1,073 and \$1,170 are included in administrative expenses for the years ended December 31, 2020 and 2019, respectively. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Investment Contracts with Insurance Company

The Plan has two fully benefit-responsive guaranteed investment contracts with Voya Retirement Insurance and Annuity Company (Voya) through the Voya Fixed Plus Account III and Prudential Retirement Insurance and Annuity Company (PRIAC) through the Prudential Guaranteed Income Fund. Voya and PRIAC maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Notes to Financial Statements

December 31, 2020 and 2019

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the financial statements at contract value. Contract value, as reported to the Plan by Voya and PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The guaranteed investment contracts do not permit Voya or PRIAC to terminate the agreement and do not allow the Plan to settle at an amount different than contract value.

(10) Subsequent Events

All activity of the Plan has been evaluated through September 10, 2021, the date the financial statements were available to be issued.

There were no additional reportable events.
