1st Segment Rate	3.64%
2nd Segment Rate	5.21%
3rd Segment Rate	5.94%

Withdrawal Rates	See Table 2
Disability Rates	See Table 3
Decrement Timing	Beginning of year decrements, with 100% retirement occurring at beginning of year
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$230,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

For Funding Requirements

Interest Rates	Based on segment rates with a four-month lookback (as of September 2019), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor
1st Segment Rate	3.64%
2nd Segment Rate	5.21%
3rd Segment Rate	5.94%
Retirement Age	
Active Participants	See Table 1
Terminated Vested Participants	Age 65
Mortality Rates	
Healthy and Disabled	2020 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(a)(3) and IRS Notice 2019-26
Withdrawal Rates	See Table 2
Disability Rates	See Table 3
Decrement Timing	Beginning of year decrements, with 100% retirement occurring at beginning of year
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$230,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date:	September 1, 2004
Plan Year:	January 1st to December 31 st
Employer Fiscal Year	January 1st to December 31 st

Eligibility

Employees at the Gallipolis Ferry, West Virginia Plant and represented for collectively bargained purposes by the United Steel Workers of America, AFL-CIO-CLC Local Union No. 859-L. Only employees hired on or before July 1, 2007 are eligible.

Service

The first year of vesting service is credited when the employee completes 1,000 hours during a consecutive 12 month period beginning on the employee's date of hire or rehire.

Service shall equal completed years and months worked from date of hire to date of termination of employment.

A break in service occurs at the start of any calendar year in which the employee works 500 hours or less for the Employer in such year. Service will not be interrupted by:

A period of service in the Armed Forces of the United States under which employment rights are granted,

A temporary layoff,

A maternity or paternity leave of absence, or

A leave of absence granted by the Employer not in excess of two years.

Normal Retirement Date

Normal retirement date is the first day of the month coincident with or next following age 65.

Normal Retirement Benefit

\$48 times accrual service less the monthly amount paid to the participant under the Akzo Nobel Plan. For terminations prior to January 1, 2009 the multiplier was \$47.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement a benefit calculated as of his delayed retirement date based on credited service to such date.

Early Retirement Benefit

Upon the attainment of age 55 any participant may retire with an accrued benefit on the early retirement date reduced by 5% per year for each year that early retirement starts between 60 and 65, and reduced an additional 3% per year for years between 55 and 60. See the next section regarding handling of the Azko offset, which applies equally here.

Enhanced Retirement Benefit

A participant that retires prior to age 65, directly from active service with at least 10 years vesting service, can get an immediate benefit with a 6% per year reduction from age 62. In no event can this benefit be less than the Early Retirement Benefit that all employees are eligible for. This includes making whole the portion of the benefit payable from Akzo that is reduced for early retirement under Akzo's plan based upon the employee's age and years of service as of leaving Akzo.

Death Benefit

In the event of an active participant's death after becoming vested his surviving spouse shall receive a benefit calculated as if the participant had terminated on the day before his death, survived to the earliest date he could have commenced his pension, and then elected payment in the form of a joint and 50% survivor annuity.

Disability Benefit

If an active participant becomes disabled while at least age 40 with 10 years of vesting service the participant is due the full unreduced accrued benefit from the plan. This includes making whole the portion of the benefit payable from Akzo that is reduced for early retirement.

Severance Benefit

Upon the termination of employment after 5 or more Years of Service a participant shall have a vested interest in his Accrued Benefit which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

Normal Form of Payment

The Normal Form of Payment is an annuity paid in monthly installments for life.

Optional Methods of Settlement

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

- (1) An actuarial equivalent benefit to be paid during the participant's lifetime with 50% of the reduced benefit to be continued to his beneficiary for her lifetime after his death.
- (2) An actuarial equivalent benefit to be paid during the participant's lifetime with 50%, 75%, or 100% continued to a designated beneficiary.
- (3) A lump sum payment equal to the actuarial equivalent of the accrued benefit, with this payout only applicable for lump sums of \$5,000 or less.

If the present value of a participant's vested accrued benefit is \$5,000 or less, the present value of such benefit shall be paid to the participant in the form of a lump sum payment.

All optional methods of settlement (other than lump sums) are actuarially equivalent to the normal form of annuity based on the table shown in Appendix A of the plan document and 8.00% interest. For lump sums, the interest rate is a three segment rate specified by the Commissioner of Internal Revenue in effect for the first month preceding the first day of the Plan Year prior to distribution of the lump sum. The mortality table to be used is the table as required by the government and updated each plan year.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due.

If the Plan is terminated, the Plan assets will be distributed among the Plan participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law.

Additional Information

The above description is a summary only; for additional details, reference should be made to the formal Plan document.

In the event the plan document varies from this plan summary in any way, the plan document provisions prevail. This plan description is based upon our understanding of the plan.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On August 26, 2021, ICL-IP America, Inc. made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the ICL-IP America Inc. Hourly Employees' Retirement Plan for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.
