INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Radiance Technologies, Inc. Employee Stock Ownership Plan

We have audited the accompanying financial statements of Radiance Technologies, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2020 and 2019, and the changes in net assets available for benefits for the year ended December 31, 2020, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020 is presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

RADIANCE TECHNOLOGIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following brief description of the Radiance Technologies, Inc. (the Company) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

The Company established the Plan effective as of January 1, 2008. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company's management. Argent Trust Company is the Plan's trustee.

Eligibility

Employees of the Company are generally eligible to participate in the Plan, provided they are age 21 or older. As of January 1, 2014, Division 3 employees were eligible to participate in the Plan. These employees were excluded from participating prior to that effective date. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company may contribute an annual profit-sharing contribution in Company stock or cash to the Plan in an amount equal to a percentage of eligible employees' compensation, as declared for the year by the Company's President. Employee contributions are not permitted.

Payment of Benefits

On termination of service due to death, disability, retirement, resignation or dismissal, distributions will be made or commenced semi-annually, subject to receipt of the current independent stock appraisal. If the participant's vested account does not exceed \$1,000, then a single lump-sum payment will be made, regardless of whether the participant elects to receive it. If the participant's vested account equals or exceeds \$1,000 at the time of distribution, the participant must consent to a distribution that commences prior to normal retirement age. Distributions will be paid in the form of cash. Any terminated participant whose vested account balance exceeds \$1,000, and who has not elected to receive a distribution from the Plan as of the distribution date coinciding with or immediately following the date of severance from employment, shall be transferred to the Company's 401(k) Profit Sharing Plan.

The Plan is designed to allow the Plan to purchase the Company stock from terminated participants. The proceeds used for the purchase of the Company stock shall be held in the participant's account in diversified investment funds and adjusted for allocable appreciation, depreciation, income, gains, losses and/or expenses or other charges as of each valuation date until such time as the participant requests distribution or is transferred to the Company's 401(k) Profit-Sharing Plan as described in the previous paragraph.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – CONTINUED

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Board of Trustees should direct the Trustee to pay all liabilities and expenses of the trust fund.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

All participants employed by the Company prior to January 1, 2014 are vested immediately in the Company's contributions plus actual earnings thereon. All participants hired on or after January 1, 2014 are subject to a three-year vesting period before being 100% vested in the Company's contributions.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

RADIANCE TECHNOLOGIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – CONTINUED

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may elect to receive a cash distribution or rollover to an eligible plan, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants as of December 31, 2020, totaled \$131,325.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 5 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

RADIANCE TECHNOLOGIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

2. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Voluntary Correction Program

In 2020, representatives of the plan administrator discovered that several operational failures had occurred in the 2014 through 2019 plan years. During those plan years, the Company redeemed vested shares of Company stock using the most recent appraised fair market value instead of the appraised fair market value on the date of the redemption. The most recent appraised fair market value of company stock in such cases was the value determined as of the immediately preceding June 30 or December 31, as applicable. Participants whose vested Company stock was redeemed by the Company during those plan years may have experienced underpayments because the proceeds that were credited to their liquidated company stock accounts and transferred to the 401(k) Plan were likely less than the amounts that should have been credited and transferred under the terms of the Plan. The estimated liabilities for these underpayments are included in other liabilities in the accompanying December 31, 2020 and 2019 statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through August 13, 2021, the date the financial statements were available to be issued.

3. CONTRIBUTIONS

In 2020, the Plan recorded the Company contribution of \$2,297,550 as a receivable on the statement of net assets available for benefits as of December 31, 2020. The trustees subsequently signed a consent to release unallocated shares related to this contribution and allocate the shares to the accounts of the participants as of December 31, 2020.

4. INVESTMENTS

The Plan's investments, at December 31, 2020 and 2019, are presented in the following table:

	2020 Allocated	2019 Allocated
Company common stock:		
Number of shares	2,273,042	2,272,188
Cost	\$ 36,613,060	\$ 29,938,532

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) ASC 820 are described as follows:

- Level 1 Fair Value Measurements – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Fair Value Measurements – Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Fair Value Measurements – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

5. FAIR VALUE MEASUREMENTS – CONTINUED

The Radiance Technologies, Inc. Common Stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table

<u>Instrument</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>
Radiance Technology, Inc. Common Stock	\$ 94,399,503	Income	EBITDA, net income, weighted average, cost of capital, discount rate, discount for lack of marketability
		Market	Public comparables, revenue multiple, EBITDA multiple discount for lack of marketability

The valuation process involves the selection of an appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution, which Plan management, along with the ESOP trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock. These are related party and party in interest transactions. As described in Note 1, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

RADIANCE TECHNOLOGIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

7. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

8. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

9. TAX STATUS

The Plan has received a determination letter from the IRS dated February 25, 2016, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Net assets available for benefits per Form 5500	<u>\$ 95,911,498</u>	<u>\$ 68,826,705</u>

11. SUBSEQUENT EVENTS

The Company received approval of the Plan's Voluntary Correction Program (VCP) application, in accordance with the IRS's Voluntary Correction Program under the Employee Plans Compliance Resolution System (EPCRS), concerning these operational failures, and the accompanying financial statements represent management's estimate of these corrections. Upon acceptance of the Plan's VCP application, the Company will make the appropriate contributions to the Plan to correct listed operational failures.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Radiance Technologies, Inc. Employee Stock Ownership Plan

We have audited the accompanying financial statements of Radiance Technologies, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2020 and 2019, and the changes in net assets available for benefits for the year ended December 31, 2020, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020 is presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

RADIANCE TECHNOLOGIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following brief description of the Radiance Technologies, Inc. (the Company) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

The Company established the Plan effective as of January 1, 2008. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company's management. Argent Trust Company is the Plan's trustee.

Eligibility

Employees of the Company are generally eligible to participate in the Plan, provided they are age 21 or older. As of January 1, 2014, Division 3 employees were eligible to participate in the Plan. These employees were excluded from participating prior to that effective date. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company may contribute an annual profit-sharing contribution in Company stock or cash to the Plan in an amount equal to a percentage of eligible employees' compensation, as declared for the year by the Company's President. Employee contributions are not permitted.

Payment of Benefits

On termination of service due to death, disability, retirement, resignation or dismissal, distributions will be made or commenced semi-annually, subject to receipt of the current independent stock appraisal. If the participant's vested account does not exceed \$1,000, then a single lump-sum payment will be made, regardless of whether the participant elects to receive it. If the participant's vested account equals or exceeds \$1,000 at the time of distribution, the participant must consent to a distribution that commences prior to normal retirement age. Distributions will be paid in the form of cash. Any terminated participant whose vested account balance exceeds \$1,000, and who has not elected to receive a distribution from the Plan as of the distribution date coinciding with or immediately following the date of severance from employment, shall be transferred to the Company's 401(k) Profit Sharing Plan.

The Plan is designed to allow the Plan to purchase the Company stock from terminated participants. The proceeds used for the purchase of the Company stock shall be held in the participant's account in diversified investment funds and adjusted for allocable appreciation, depreciation, income, gains, losses and/or expenses or other charges as of each valuation date until such time as the participant requests distribution or is transferred to the Company's 401(k) Profit-Sharing Plan as described in the previous paragraph.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – CONTINUED

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Board of Trustees should direct the Trustee to pay all liabilities and expenses of the trust fund.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

All participants employed by the Company prior to January 1, 2014 are vested immediately in the Company's contributions plus actual earnings thereon. All participants hired on or after January 1, 2014 are subject to a three-year vesting period before being 100% vested in the Company's contributions.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTES TO THE FINANCIAL STATEMENTS

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – CONTINUED

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may elect to receive a cash distribution or rollover to an eligible plan, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants as of December 31, 2020, totaled \$131,325.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 5 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

2. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Voluntary Correction Program

In 2020, representatives of the plan administrator discovered that several operational failures had occurred in the 2014 through 2019 plan years. During those plan years, the Company redeemed vested shares of Company stock using the most recent appraised fair market value instead of the appraised fair market value on the date of the redemption. The most recent appraised fair market value of company stock in such cases was the value determined as of the immediately preceding June 30 or December 31, as applicable. Participants whose vested Company stock was redeemed by the Company during those plan years may have experienced underpayments because the proceeds that were credited to their liquidated company stock accounts and transferred to the 401(k) Plan were likely less than the amounts that should have been credited and transferred under the terms of the Plan. The estimated liabilities for these underpayments are included in other liabilities in the accompanying December 31, 2020 and 2019 statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through August 13, 2021, the date the financial statements were available to be issued.

3. CONTRIBUTIONS

In 2020, the Plan recorded the Company contribution of \$2,297,550 as a receivable on the statement of net assets available for benefits as of December 31, 2020. The trustees subsequently signed a consent to release unallocated shares related to this contribution and allocate the shares to the accounts of the participants as of December 31, 2020.

4. INVESTMENTS

The Plan's investments, at December 31, 2020 and 2019, are presented in the following table:

	2020 Allocated	2019 Allocated
Company common stock:

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) ASC 820 are described as follows:

- Level 1 Fair Value Measurements – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Fair Value Measurements – Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Fair Value Measurements – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

Description	Assets at Fair Value as of December 31, 2020			Total
	Quoted Prices in Active Markets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3

Investments at fair value	\$ -	\$ -	\$ 65,757,103	\$ 65,757,103

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2020:

Balance at January 1, 2020	\$ 65,757,103
Unrealized appreciation in estimated fair value	29,284,799
Contribution	5,413,194

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in the fair value of investments in the statement of changes in net assets available for benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

RADIANCE TECHNOLOGIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

5. FAIR VALUE MEASUREMENTS – CONTINUED

The Radiance Technologies, Inc. Common Stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Radiance Technology, Inc. Common Stock	\$ 94,399,503	Income	EBITDA, net income, weighted average, cost of capital, discount rate, discount for lack of marketability
		Market	Public comparables, revenue multiple, EBITDA multiple discount for lack of marketability

The valuation process involves the selection of an appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution, which Plan management, along with the ESOP trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock. These are related party and party in interest transactions. As described in Note 1, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

**RADIANCE TECHNOLOGIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

7. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

8. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

9. TAX STATUS

The Plan has received a determination letter from the IRS dated February 25, 2016, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
