NOTES TO FINANCIAL STATEMENTS

NOVEMBER 23, 2020

Note 1 - Description of Plan -

The following description of the Cherry Moving Company, Inc. DBA Cherry Demolition Spin-Off Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Description of Plan and Termination of Plan

Effective January 1, 2020, the Plan was established as a defined contribution plan covering all eligible employees of Cherry Moving Company, Inc. (the “Company”). Assets of the Plan were transferred from a previous multiple employer plan on January 1, 2020 and were held in the Plan until the termination of the Plan on November 23, 2020. During that time, participants were not allowed to make contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Plan management oversees governance of the Plan, determines the appropriateness of the Plan’s investment offerings, and monitors investment performance.

Contributions

Under the provisions of the Plan, participants could contribute a portion of their eligible compensation to the Plan subject to certain limitations of the Internal Revenue Code (the Code). Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants directed the investment of their contributions into various investment options offered by the Plan. The Company could make matching contributions at the Company’s discretion. For the period ended November 23, 2020, there were no contributions made by participants or by the Company.

Participant Accounts

Each participant's account is credited or charged with the participant's contribution and the allocation of the Company’s contribution, the Plan’s investment earnings or losses, and certain plan administration costs not covered by the Company. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Prior to the Plan termination, participants were immediately vested in their voluntary contributions plus actual earnings on these contributions. Vesting in employer contributions plus actual earnings thereon was based on years of continuous service. Vesting schedules were based on annual vesting periods not to exceed five years. Due to the termination of the Plan effective November 23, 2020, all participants became fully vested in their accounts.

Notes Receivable from Participants

Prior to the Plan termination, participants could borrow from their fund accounts a minimum of \$1,000 up to specified limits under the Code. The loans were secured by the balance in the participant's account and with interest at a rate commensurate with local prevailing rates. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, participants could receive a lump sum payment equal to the value of their vested account balance.

Note 2 - Summary of Accounting Policies -

Basis of Accounting

The financial statements of the Plan are prepared in accordance with the accrual basis of accounting. Investments were valued at current fair value as quoted by the custodian of the Plan. All assets of the Plan were participant directed. Effective November 23, 2020, the Plan was terminated and all assets had been distributed to participants.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. As of November 23, 2020, the Plan had no fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Plan custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis of accounting. Dividends are recorded on the ex-dividend date. Net investment income (loss) includes dividends, gains and losses on investments sold during the year as well as appreciation and depreciation of the investments held at the end of the year. Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of November 23, 2020, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. For the period January 1, 2020 to November 23, 2020, there were no deemed distributions.

Risks and Uncertainties

Prior to the Plan termination, the Plan provided for various investment options in any combination of investments of selected funds held by the custodian. The funds are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of the funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees for certain transactions, such as withdrawals and loan processing, are charged directly to the account of the participant reporting such a transaction and included in administrative expenses. Investment related expenses are included in net investment income (loss).

Note 3 - Plan Termination -

On November 23, 2020, the Company discontinued the plan. At that time, all participants became fully vested in their account balances and the individual balances were distributed as directed by the participants.

Note 4 - Tax Status -

The Company adopted a prototype plan which received a favorable determination from the Internal Revenue Service. The Plan itself has not separately applied for recognition of tax-exempt status. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Fair Value Measurements -

The fair value measurement accounting literature provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels. Level 1 inputs to the valuation methodology are based on unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access. Level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets and/or based on inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are unobservable and are based on assumptions market participants would utilize in pricing the asset.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the period from January 1, 2020 to November 23, 2020.

Mutual Funds: The fair value of mutual funds is based on the quoted net asset values of the shares as reported by the fund. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered actively traded.

Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in the changes in net assets available for benefits for the period from January 1, 2020 to November 23, 2020, are reported as part of net investment income (loss).

Due to the Plan termination, the Plan held no assets as of November 23, 2020.
