Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable laws and Internal Revenue Service (IRS) guidance.

Contributions

The Plan provides for employee salary 403(b) contributions up to 100% of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Participants are eligible to participate in the Plan upon completion of one year of service and having obtained age 21.

The Plan provides for employer matching contributions of 50% of the participant's contribution on the first 2% of the employee's deferred compensation (not to exceed 1% of overall compensation). The Plan provides for employer discretionary contributions. Participants who have completed one year of service, worked 1,000 hours, and are 21 years of age are eligible to receive a discretionary contribution. During 2020, no such discretionary contributions were made to participants.

Participants' accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are always 100% vested in their contributions plus any earnings thereon. Vesting in the Company's matching portion plus earnings thereon is based on years of continuous service. A participant is 100% vested after 3 years of credited service.

Note 1—Description of the Plan—continued

Forfeitures

Upon termination any unvested portion is forfeited. Forfeitures are used to reduce future company matching contributions. Forfeited non-vested amounts totaled \$0 at December 31, 2020 and 2019.

Retirement benefits

Upon termination of service, retirement, or death if earlier, the balance in the participant's individual account is distributed to the participant or their beneficiary. Disbursement of these amounts will be made through installment payments or in a lump sum amount equal to the vested value of their account.

Pursuant to the CARES Act, participants who were currently receiving required minimum distributions were offered the option to waive their 2020 distribution and participants who were due to receive the first required distribution in 2020 had their distribution automatically waived. Additionally, the CARES Act permitted Plan participants to request up to \$100,000 in coronavirus-related distributions, with repayment terms of up to three years. The ability to request special waivers with respect to required minimum distributions and coronavirus-related distributions under the CARES Act ceased as of December 31, 2020.

Notes receivable from participants

Participants may borrow from their fund accounts an amount not to exceed \$50,000 or 50% of their vested account balance, whichever is less. Only two outstanding notes receivable are permitted at any time and only one can be approved in any 12 month period. The note receivable prepayment schedule can be no longer than a period consistent with commercial home loan practices. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 7.50%, which is commensurate with local prevailing rates and considered reasonable by the Plan Administrator. The notes receivable are secured by the balance in the participant's account.

Pursuant to the CARES Act, Plan participants could request a delay of note repayments for repayments that occurred between March 27, 2020 and December 31, 2020 for one year. The participant's note would be re-amortized and include any interest accrued during the period of delay. The ability to request a delay in note repayments under the CARES Act ceased as of December 31, 2020.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time. In the event of Plan termination, the entire interest of each participant's account is distributed to the participants.

Note 2—Summary of significant accounting policies

Basis of accounting

The Plan maintains its records on the accrual basis, whereby income is recognized when earned and expenses are recognized when the obligations are incurred. Benefit payments are recorded when distributed by the Plan.

NOTES TO FINANCIAL STATEMENTS—CONTINUED

Note 2—Summary of significant accounting policies—continued

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value with the exception of the insurance company general account (a fully benefit-responsive investment), which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly fashion between market participants at the measurement date. See Note 4 for further discussion and disclosure related to fair value measurements. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan.

Net appreciation or depreciation in fair value of investments is reflected in the statements of changes in net assets available for benefits and includes realized gains and losses on investments bought and sold and the change in appreciation from one period to the next. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Contributions

Employee salary deferrals and employer contributions are included in income during the period related salary is earned.

Administrative expenses

The Plan Sponsor pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant. Administrative expenses that are paid by the Plan Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payments of benefits are charged directly to the participant's account and are included in administrative expenses.

Subsequent events

The Plan has evaluated subsequent events through August 19, 2021, the date the financial statements were available to be issued, and has determined there are no subsequent events that require disclosure.

Note 3—Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2020 and 2019, net appreciation (depreciation) in the value of investments, interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2020, were obtained or derived from information supplied to the Plan Administrator and certified by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, Brighthouse Financial, and Lincoln National Life Insurance Company, as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by the independent auditors.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS—CONTINUED

Note 4—Fair value measurements—continued

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2020.

Mutual Funds—valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Pooled Separate Accounts—Pooled separate accounts are proprietary to the Custodians and many invest exclusively in one underlying mutual fund traded on an established market. Pooled separate accounts begin with a price determined by the Custodians and the number of units issued is calculated to match the current fair market value of the underlying mutual fund holdings. All of the pooled separate accounts are valued based on the net asset value at which the current market value of the underlying assets are actually traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis:

Fair Value Measurements at December 31, 2020				
Description	Total	Using		
		Level (1)	Level (2)	Level (3)
Mutual funds	\$ 4,845,196	\$ 4,845,196	\$ 0	\$ 0
Total investments in the fair value hierarchy	4,845,196	\$ 4,845,196	\$ 0	\$ 0
Investments measured at net asset value (a)	109,512			
Total investment assets at fair value	\$ 4,954,708

RETIREMENT PLAN OF ECHOING HILLS VILLAGE, INC.
NOTES TO FINANCIAL STATEMENTS—CONTINUED

Note 4—Fair value measurements—continued

- (a) In accordance with Subtopic 820-10, certain investments that were measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The pooled separate accounts have no unfunded commitments, have a daily redemption frequency and require a 1 day redemption period. The pooled separate accounts' fair value is \$109,512 and \$97,378 at December 31, 2020 and 2019, respectively.

Note 5—Fully benefit-responsive investment contract with insurance company

The Plan has a benefit-responsive unallocated contract ("the GIC") with Principal. Principal maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2020 and 2019 was \$519,624 and \$485,520, respectively. The credit interest rate is based on the Composite Crediting Rate. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting interest rate and the yield for the fixed annuity contract were 1.43% and 1.18% as of December 31, 2020 and 2019, respectively.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on completing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that causes a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

As described in Note 2, because the GIC is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the GIC. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan also has a benefit-responsive investment contract with Lincoln National Life Insurance Company (Lincoln). Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Total value of the contract was \$140,138 and \$135,423 as of December 31, 2020 and 2019, respectively. Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting, with a minimum crediting rate of 0%. When establishing interest credit rates for this product, Lincoln considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Note 5—Fully benefit-responsive investment contract with insurance company—continued

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

The Plan also has a fixed annuity contract with Brighthouse Financial (Brighthouse). Brighthouse maintains the contributions in a general account. The contract is credited with a fixed rate of interest and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Total value of the contract was \$54,456 and \$69,068 as of December 31, 2020 and 2019, respectively. Rates are renewed annually on January 1 and guaranteed through December 31 and are subject to a minimum crediting interest rate. Interest rate guarantees are backed by the financial strength of Brighthouse.

Note 6—Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds or units of a common/collective trust or pooled separate account managed by the Custodians and, therefore, transactions related to these investments qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment. The Plan made direct payments to the Custodians in the amount of \$14,079 during 2020. Notes receivable from participants also qualify as party-in-interest transactions. Notes receivable from participants totaled \$119,523 and \$166,322 as of December 31, 2020 and 2019, respectfully. Interest received on notes receivable from participants totaled \$8,669 for the year ended December 31, 2020.

Note 7—Tax status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code) and therefore, it is not currently eligible to receive a determination letter from the Internal Revenue Service. The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The plan administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
