Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Plan Administrator
Cargill, Incorporated and Associated Companies Pension Plan
for Production Employees:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Cargill, Incorporated and Associated Companies Pension Plan for Production Employees (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2019, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 5 to the financial statements, which was certified by The Bank of New York Mellon (the Plan Trustee), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2020 and 2019, and for the years ended December 31, 2020 and 2019 that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of (1) schedule H, line 4i – schedule of assets (held at end of year) and (2) schedule H, line 4j – schedule of reportable transactions as of or for the year ended December 31, 2020 are required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2020 and 2019

(1) Description of Plan

The following is a brief description of the Cargill, Incorporated and Associated Companies Pension Plan for Production Employees (the Plan). Participants should refer to the plan document for more complete information.

(a) General

The Plan is a defined-benefit pension plan designed to provide benefits to eligible employees. The Plan sponsor is Cargill, Incorporated (the Company) and the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan covers certain nonunion production employees who have attained age 21 and completed one year of service. Under the terms of the Plan, participants are entitled to monthly benefits upon reaching age 65, the normal retirement age. Any participant with five years of continuous service is entitled to a vested benefit. Participants who qualify may elect to receive a reduced early retirement benefit. Participants who qualify and are approved for disability retirement do not take a reduction for early commencement of their benefit.

The Plan is administered by the Company. The Cargill, Inc. People Team has overall responsibility for plan design and operations except to the extent it has delegated such responsibilities. Plan investment oversight is provided by the Cargill, Inc. Pension Investment Committee (the Committee), which has responsibility for establishing investment strategy and monitoring investment performance. Both Cargill, Inc. People Team and Cargill, Inc. Pension Investment Committee report to the Cargill, Inc. Board of Directors. Bank of New York Mellon serves as the trustee of the Plan (the Plan Trustee). Transaction are executed by the Trustee, as directed by the Committee in its capacity as Plan Administrator.

(b) Funding Policy

The funded status of the Plan is continually monitored by the Company. The Company makes contributions to the Plan sufficient to provide the Plan with assets with which to fund pension benefits to Plan participants. Contributions to the Plan are determined by the actuary using the Unit Credit method. The Company's contributions for 2020 and 2019 equaled or exceeded the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. No contributions were made in 2020 and \$5,000,000 of contributions were made in 2019.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(c) Pension Benefits

The retirement benefit is computed by multiplying the years of credited service by the benefit level stated in the plan document. The benefit is payable in a monthly annuity beginning at age 65 unless the employee terminates employment after age 55 with 10 years of service in which case the employee is eligible for an early retirement benefit. Any participant with five years of 1,000 hours of service per year is entitled to a vested benefit. The Plan was closed to new participants effective March 1, 2014.

Notes to Financial Statements

December 31, 2020 and 2019

Effective December 31, 2018, the Plan ceased benefit accruals for all active participants and all participants ceased earning benefits.

(d) Death and Disability Benefits

If an employee dies and has a surviving spouse or domestic partner (of at least one continuous year), the benefit is payable to the surviving spouse or domestic partner as an annuity for his or her lifetime. The surviving spouse benefit is payable at the employee's earliest retirement date, which is age 55 if the employee had 10 or more years of service). The benefit is payable to a domestic partner beginning the year following the employee's death or as a lump sum if the employee is not at least age 50 at date of death. An active employee who becomes disabled after obtaining age 45 with 10 years of service is eligible for a disability benefit. If they remain disabled until normal retirement age, they will no longer need to be disabled to continue receiving the benefit.

(2) Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual amounts could differ from those estimates.

(c) Risks and Uncertainties

The Plan has investments across a range of investment strategies. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in these estimates and the assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(d) Investments and Income Recognition

The Company established, effective September 3, 1985, a master trust fund (the Master Trust).

**CARGILL, INCORPORATED
AND ASSOCIATED COMPANIES
PENSION PLAN FOR PRODUCTION EMPLOYEES**

Notes to Financial Statements

December 31, 2020 and 2019

The purpose of the Master Trust is to pool investment transactions and achieve uniform rates of return on comparable funds under each plan in the Master Trust. Each plan deposits investable funds in the Master Trust and each owns an undivided interest in the net assets of the Trust. The Plan's investment in the Master Trust represents its pro rata interest in the net assets of the trust. The unaudited financial statements of the Master Trust are separately filed with the Department of Labor (note 6).

Transactions and assets of the Master Trust are accounted for separately from those of the Plan. Securities transactions are recognized on the date the order to buy or sell is executed. Net appreciation and depreciation of investments include realized and unrealized gains and losses.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Cargill, Inc. Pension Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See note 7 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(e) Derivatives

Derivative financial instruments are used by the Master Trust's investment managers primarily to rebalance the fixed income and equity allocation of the Master Trust's portfolio. The derivatives most commonly used by the investment managers are highly liquid exchange traded equity and fixed-income futures. The fair value of the derivative instruments, none of which are accounted for as hedge instruments under Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 815, *Derivatives and Hedging*, is included in the Master Trust's statement of assets under plan interest in investment income/(loss) of the Master Trust. The use of derivative instruments is not believed to materially increase the credit or market risk of the Master Trust's investments.

(f) Payments to Participants

Payment of benefits to participants is recorded upon distribution.

(g) Administrative Expenses

Some expenses are paid out of the Master Trust by the Plan Trustee. Any expenses that are directly incurred by the Plans, such as Pension Benefit Guaranty Corporation (PBGC) insurance premiums, actuarial fees, and audit fees are allocated to the plans based on actual costs. These expenses totaled \$392,070 and \$1,011,877 for 2020 and 2019, respectively. Expenses incurred by the Master Trust, such as trustee and investment management costs, are allocated to the individual plans based upon beginning of month balances invested in the Master Trust. These expenses totaled \$259,377 and \$523,438 in 2020 and 2019, respectively. Certain plan administration costs are absorbed by the plan administrator.

Notes to Financial Statements

December 31, 2020 and 2019

(h) Recent Accounting Pronouncements

ASU 2018-13 – Changes to the Disclosure Requirements for Fair Value Measurement – In August 2018, the FASB issued guidance on modifying the disclosure requirements on fair value measurements as part of the disclosure framework project. The guidance modified, among other things, the disclosures required for Level 3 fair value measurements, including the range and weighted average of significant unobservable inputs. The guidance removed, among other things, the requirement to disclose transfers between Levels 1 and 2. The guidance was adopted on January 1, 2020 and did not have a material impact on the Plan's financial statements.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable, under the Plan's provisions, to service rendered by employees. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts have been reduced from plan assets and removed from the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits, including both vested (benefits to which participants are entitled, regardless of future service with the Company) and nonvested benefits, is determined as of the beginning of the plan year by the independent actuarial firm Mercer, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements for death, disability, termination, or retirement) between the valuation date and expected dates of payment.

Significant assumptions used in the valuation of the Plan's actuarial present value of accumulated plan benefits include (a) withdrawal and disability rates based upon past experience; (b) assumed mortality rates based upon published statistical data using the PRI-2012 table projected using Scale MMP-2020 for preretirement and the MILES (Mercer Industry Longevity Experience Study) for the Consumer Goods, Food & Drink industry group projected using Scale MMP-2020 for postretirement; (c) assumed retirement age varies from 55 to 65; (d) assumed rate of return of 5.88% and 6.10% for 2020 and 2019, respectively.

(4) Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in the ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date. In the event the Plan terminates, the benefit of any Highly Compensated Employee (and any Highly Compensated Former Employee), as defined in the Plan, is limited to a benefit that is nondiscriminatory under Section 401(a)(4) of the Internal Revenue Code (IRC).

**CARGILL, INCORPORATED
AND ASSOCIATED COMPANIES
PENSION PLAN FOR PRODUCTION EMPLOYEES**

Notes to Financial Statements

December 31, 2020 and 2019

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the PBGC will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan document) and the level of benefits guaranteed by the PBGC at that time.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount that, together with plan assets, will satisfy all benefits accumulated to the date of the plan termination.

(5) Information Certified by Trustee

The Plan Trustee holds the Plan's investment assets, executes transactions therein pursuant to discretionary authority granted to the Plan Trustee concerning purchases and sales of investments in the Master Trust fund, and collects the related investment income.

The Plan Trustee has provided the plan administrator with certifications as to the completeness and accuracy of investment assets and investment income of the Plan and Master Trust as of and for the years ended December 31, 2020 and 2019 as outlined in the following table:

	<u>2020</u>	<u>2019</u>
Plan Interest in Cargill Master Trust:		
Investments at fair value	\$ 111,252,117	93,942,175
Investment income	17,942,311	17,283,911
Cargill Master Trust:		
Investments at fair value	\$ 3,493,573,009	3,047,344,309
Investment income	565,510,010	554,130,826

Such amounts are included in the accompanying financial statements, notes thereto, and supplemental schedules of the Plan based on such certifications from the Plan Trustee.

(6) Interest in Master Trust

Most of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other Cargill, Incorporated and Associated Companies sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Plan Trustee. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Trust plus actual contributions and allocated investment income, including realized and unrealized gains and losses, less actual distributions, and allocated administrative expenses. As of December 31, 2020 and 2019, the Plan's interest in the net assets, including realized and unrealized gains and losses, of the Master Trust was approximately 3.2% and 3.1%, respectively. Investment income related to the Master Trust is allocated to the individual plans based upon beginning of the month balances invested in the Plan.

Notes to Financial Statements

December 31, 2020 and 2019

The Master Trust has \$982,783,381 as of December 31, 2020 of investments in alternative investment funds, which are reported at Net Asset Value (NAV). The NAV is used as a practical expedient to estimate the fair value of the investment. Such investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the Master Trust's interests in the funds.

The following table summarizes the redemption terms and objectives for Master Trust alternative investments, which were measured at fair value using the NAV as a practical expedient as of December 31, 2020.

	<u>Fair value</u>	<u>Unfunded commitments</u>	<u>Objective</u>	<u>Redemption terms and restrictions</u>
Real estate	\$ 244,384,232	65,755,135	Portfolio diversification, yield enhancement, and inflation protection	Redemption not permitted. For these investments, the Master Trust receives distributions through liquidation of underlying assets over their remaining life of up to 10 years.
Private equity	306,006,147	58,548,811	Return enhancement and portfolio diversification	Redemption not permitted. For these investments, the Master Trust receives distributions through liquidation of underlying assets over their remaining life of up to 10 years.
Hedge funds	237,668,120	—	Portfolio diversification	Redemption is permitted. Frequency ranges from monthly to every three years with 30–90 days' notice.

(7) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Basis for fair value measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**CARGILL, INCORPORATED
AND ASSOCIATED COMPANIES
PENSION PLAN FOR PRODUCTION EMPLOYEES**

Notes to Financial Statements

December 31, 2020 and 2019

Level 2 Inputs to the valuation methodology include:

- Quoted prices of similar or identical assets in markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables present the level within the fair value hierarchy at which the Master Trust investment assets are measured on a recurring basis as of December 31, 2020 and 2019.

- (1) Individual securities held directly whose values are based on quoted prices in active markets in which they trade (Level 1), and individual securities held through Collective Investment Trusts where the securities are valued based on quoted prices but the Trust is not actively traded (Level 2).
- (2) Individual securities whose value is based on quoted NAV and corporate bonds with significant inputs which are observable in the market. As such, they are classified as Level 2 within the fair value hierarchy.
- (3) As a result of the application of ASU 2015_07, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. It consists of limited partnership interests that invest in real estate, private equity, hedge funds, and public equities. Real estate includes debt and equity investments in U.S. and non-U.S. securities. Private equity includes debt and equity investments in U.S. and non-U.S. securities across buyouts, growth capital, distressed debt, mezzanine debt, and venture capital. Real estate and private equity valuations require significant management judgment due to the absence of quoted market prices. Hedge fund investments are diversified by manager, geography, and strategy. Hedge funds are valued based on quoted NAV as determined by the fund administrator. Public equities are managed by an investment management fund in domestic and international markets and are highly illiquid.
- (4) Short-term investment funds are valued using the NAV provided by the fund administrator to participants in the fund only. As such, they are classified as Level 2 within the fair value hierarchy.

The Plan did not significantly change valuation techniques from the prior period.

Notes to Financial Statements

December 31, 2020 and 2019

(8) Tax Status

The Plan obtained its latest tax determination letter on April 6, 2017, in which the Internal Revenue Service stated that the Plan qualified under Section 401(a) of the Internal Revenue Code (IRC) and the Trust created thereunder is exempt from federal income taxes under Section 501(a). The Plan has been amended since this determination letter. However, the Company believes the Plan continues to meet the requirements of Section 401(a) of the IRC and that the related trust is exempt from income tax under Section 501(a) of the IRC. Therefore, no provisions for income taxes have been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(9) Party-in-Interest Transactions

Transactions resulting in plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. The Plan Trustee is a party in interest as defined by ERISA as a result of its investing plan assets in certain of their funds. The Master Trust, a master trust established by the plan administrator, is a party in interest as defined by ERISA as a result of the Plan purchasing participation units of the Master Trust. The transactions described above are exempt under Section 408(b)(8) and are not prohibited by ERISA.

(10) Subsequent Events

The Plan has evaluated subsequent events from the statement of net assets available for benefits date through August 30, 2021, the date at which the financial statements were available to be issued, and determined there are no other items to disclose.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Mortality sponsor elections		
• All participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2014 mortality tables adjusted back to 2006 projected with the MP-2018 mortality improvement scale.

Non-417(e) lump sums	Not applicable	
Other economic assumptions		
• Salary increases	Not applicable	
• Flat-dollar benefit increases	None	
• Social Security wage base	Not applicable	
• Inflation	Not applicable	
• Expected investment return	6.32% for 2018; 6.10% for 2019; 5.88% for 2020	
• Expenses	\$500,000 added to current year normal cost	

Rationale for Economic Assumptions – Funding

- Discount rate – Prescribed by the IRS and based on the company's current elections.
- Expected investment return – The 2020 assumption is equal to the long-term rate of return on assets assumption used to determine the ASC 715 expense for the fiscal year beginning June 1, 2020 limited to the stabilized third segment discount rate. This assumption was confirmed for reasonableness i.e., not higher than the 65th percentile result from Mercer's Portfolio Return Calculator for January 2020, based on the plan's target mix provided by Cargill as of December 31, 2019.
- Expenses – Based on the actual administrative expenses from the prior year (excluding the PBGC premium paid in prior year) plus expected PBGC premiums for the current year.

30	24.40%
35	17.40%
40	13.80%
45	15.25%
50	14.00%

Rationale for Demographic Assumptions – Funding

- Mortality – Prescribed by the IRS.
- Withdrawal – Withdrawal rates are based on an experience study undertaken in 2019 using data from 2013-2017 and the expectation that the future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- Retirement age – Retirement rates are based on an experience study undertaken in 2019 using data from 2013-2017 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- Form of payment – Based on a plan experience study completed in 2019; it is expected that future form of payment elections will not differ significantly from the period studied.

Actuarial methods for funding

Asset methods – effective January 1, 2009

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Participant methods – effective January 1, 2008**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods – effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: January 1, 1964 Restated plan: January 1, 2015 Plan year: January 1 to December 31
Most recent amendment	Amendment adopted December 21, 2018
Status of the plan	The plan is closed to new entrants (i.e., employees hired, rehired or transferred into an eligible position on or after March 1, 2014 are not eligible for the plan) and provides future benefit accruals for active participants. Effective December 31, 2018, credited service and benefits were frozen.
Significant events that occurred during the year	None.
Definitions	
• Eligibility	The Plan covers non-union production employees who have attained age 21 and completed one year of service. The Plan also covers non-union PPD employees (excluding supervisors) who attained age 21 and completed one year of service prior to July 1, 1992. Employees hired, rehired or transferred into an eligible position on or after March 1, 2014 are not eligible for the plan.
• Accrued benefit	Years of Credited Service times the benefit level established by the Associated Company. These benefit levels range from \$8.50 to \$50.00. Effective July 1, 1992, the benefit level for most Associated Companies was reduced 25% (rounded up to the nearest \$0.50). Due to benefit level increases since 1992, for most locations, benefits for service prior to July 1, 1992 and benefits for service after June 30, 1992 are based on the current level. For PPD employees, years of Credited Service as of June 30, 1992 times the benefit level in effect on June 30, 1992 as established by the Associated Company. These benefit levels range from \$5.25 to \$7.50. There is no additional accrual for service after June 30, 1992.
Normal retirement	
• Eligibility	Attainment of age 65
• Benefit	Accrued Benefit based upon a Participant's years of Credited Service at retirement.
Early retirement	
• Eligibility	Early Retirement is available after attainment of age 55 and completion of ten years of continuous service. For transactions occurring on or after March 27, 2017, Participants who are terminated as a result of a sale or other divestiture of a business shall be eligible for an Early Retirement benefit if, as of the date of termination, they are within two years of their Early Retirement Date.
• Benefit	The Accrued Benefit based on Credited Service to the Early Retirement Date. The Accrued Benefit is reduced 6% for each year payments commence prior to age 60. For PPD employees, the Accrued Benefit is reduced 4% for each year the payments commence prior to age 65.

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
• Eligibility	Any participant with five years of continuous service is entitled to a vested benefit.
• Benefit	The Accrued Benefit based on Credited Service to the date of termination. If the Participant has at least ten years of continuous service, payments may commence prior to age 65, but not earlier than age 55. The Accrued Benefit is reduced 7% for each year benefits commence prior to age 65 with a floor of age 60 and an additional 4% for each year benefits commence prior to age 60.
Disability	
• Eligibility	The Participant must have attained age 45 and have ten years of continuous service and meet the Plan's definition of Total and Permanent Disability.
• Benefit	The Accrued Benefit based on Credited Service to the date of disability. Payments begin six months after the date of disability and cease upon the death or recovery of the Participant. The benefit payable from the pension Plan is reduced by disability benefits payable from the employer's Group Term Life Insurance program and from Workers Compensation.
Pre-retirement death	
• Eligibility	A Vested Participant who dies before benefit commencement and who has a surviving spouse.
• Benefit	The spouse is entitled to the benefit that would be payable if the Participant had separated from service on the date of death, survived to the earliest commencement date, commenced benefits on a 50% Joint and Survivor benefit, and then died one day after the earliest commencement date. Vested employees, upon attaining age 55, may elect 100% Joint and Survivor coverage rather than the automatic 50% coverage. This additional coverage, if elected, is paid for by the Participant by reducing the Accrued Benefit. Effective January 1, 2008, active Participants are covered under the 100% Pre-Retirement Survivor Annuity with no additional cost to the Participant.
Form of benefits	
• Automatic form for unmarried participants	Single life
• Automatic form for married participants	100% Joint and Survivor
• Optional forms	Single Life, 10 Year C&L and 50% and 100% Joint and Survivor; lump sum up to \$25,000.
• Optional form conversion factors	Optional annuity forms of benefit are the actuarial equivalent of the normal form; effective January 1, 2013, actuarial equivalence is based on the RP2000 mortality table (blended 50% males and 50% females, projected to 2020 using Scale AA) and an interest rate of 5% (optional form cannot be less than accrued benefit as of December 31, 2012 based on the prior factors); lump sums based on applicable 417(e) mortality and interest rates (fourth month preceding the plan year)
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2020, the limit is \$230,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through December 21, 2018, are included in this valuation.

- **Most recent plan amendments included:** Amendment adopted December 21, 2018.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Current active employees over age 65 are valued including accruals after age 65.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase to age 75.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

PLAN PROVISIONS SPECIFIC TO FUNDING**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* See below.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

Schedule SB, Part V — Summary of Plan Provisions

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

PLAN PROVISION CHANGES SINCE PRIOR VALUATION

- Maximum benefits amount under IRS rules were updated from 2019 to 2020.

Schedule SB, line 24 — Change in Actuarial Assumptions

ACTUARIAL ASSUMPTION CHANGES SINCE PRIOR VALUATION

Funding

The following changes were made since the January 1, 2019 valuation:

- Interest discounts and mortality rates were updated from 2019 to 2020 in accordance with PPA and the plan sponsor elections.
- The expense component of normal cost was changed from \$900,000 to \$500,000 to reflect expectations for the current plan year.
