Note 1. Plan Description

The following description of the RPC, Inc. Retirement Savings Plan (the Plan) as amended and restated effective June 1, 2015, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, established in 1995, is a defined contribution Plan available to substantially all employees of RPC, Inc. and SITECH North and Central Florida, LLC (the Company or Employer) with no age or service requirements. Eligible employees can enroll on the first day of each quarter. Collectively bargained employees and non-resident aliens are excluded from participation in the Plan.
The Board of Directors of the Company is responsible for oversight of the Plan and the determination of the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan amendment: During 2020, the Plan implemented certain CARES Act provisions to allow for special coronavirus-related distributions, an increase in Plan loan amounts, deferral of loan payments, and waiver of 2020 required minimum distributions.

Contributions: Participants may contribute up to 100% of their compensation to the Plan up to the Internal Revenue Code maximum limits. The maximum allowable pretax voluntary contribution, as determined by the Internal Revenue Service (IRS), was $19,500 for 2020. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions of up to $6,000. A Roth elective contribution feature allows employees to make after-tax contributions into the Plan as well. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company provides for a matching contribution of 50% of participant contributions up to 7% of compensation. The Company may also make discretionary employer contributions to employees who have at least one year of service with a minimum of 1,000 hours in a 12-month consecutive period. During the year ended December 31, 2020, there were $3,500,000 of discretionary employer contributions made. As of December 31, 2020, discretionary employer contributions are included in employer contributions receivable in the accompanying statements of net assets available for benefits. In addition, the Company may make special contributions, which include the qualified non-elective contributions (QNEC). No QNEC was made during the year ended December 31, 2020. Contributions are subject to certain IRS limitations.

Auto-enrollment:
The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Auto increase:
The Plan also includes an auto-escalation provision whereby participants are subject to an annual automatic deferral rate increase of 1% until their deferral rate reaches 10% of eligible compensation. Participants may elect to discontinue their participation in the automatic deferral rate increase at any time.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator in 1% increments. Participants may change their investment options daily.

Note 1. Plan Description (Continued)

Participant accounts: Each participant's account is credited with the participant's contributions, their portion of the Employer's matching contribution and discretionary contribution (if any) and Plan earnings. Participant accounts are charged with an allocation of Plan losses and administrative expenses that are paid by the Plan. Allocations are based on participants' contributions or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and any QNEC plus or minus actual earnings and losses thereon. Participants are vested in the Company contributions plus or minus actual earnings and losses thereon based on years of continuous service. The Plan provides for 20% vesting of a participant's account for each full year of credited service, as defined in the Plan agreement. Participants are 100% vested after five years of credited service.

Regardless of years of service, participants become 100% vested in their accounts upon reaching normal retirement age, death, permanent disability or upon termination of the Plan.

Payment of benefits: On termination of service due to death, disability or reaches retirement age, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or receive regular installments over a set number of years, if such vested interest is greater than $5,000. The normal retirement age, as defined by the Plan, is age 65. For anyone hired after December 2009, the normal retirement ages, as defined by the Plan is the later of age 65 or the fifth anniversary of participation. If a participant terminates before retirement and has a vested account balance in excess of $5,000, they may elect a lump-sum payment or annual installments over a set number of years. Vested account balances less than $5,000 will be distributed as a lump-sum as soon as administratively practicable.

Participants may request hardship withdrawals of elective deferrals, rollover contributions and vested employer contributions under certain circumstances, as defined in the Plan document. Participants may request in-service withdrawal of deferrals or rollovers at age 59½ and in-service withdrawal of the Company's match at 59½ and 15 years of service. In addition, participants and surviving spouses may convert some or all of their distributions of vested account balances to a designated Roth account within the Plan.

Forfeited accounts: Forfeitures of participants' non-vested account balances are to be used to reduce future Company contributions or pay Plan expenses. As of December 31, 2020 and 2019, forfeited non-vested accounts totaled $150,972 and $62,925, respectively, and forfeitures used to reduce employer contributions of the Plan totaled $209,381 for the year ended December 31, 2020.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000, up to the lesser of $50,000 or 50% of the participant's vested balance in the Plan. A participant may not have more than one note outstanding at any time. The notes, which are collateralized by the balance in the participant's account, bear interest at a fixed rate (prime plus 1%), which ranged from 4.25% to 9.25% as of December 31, 2020, and mature through November 2029. Principal and interest are repaid ratably through payroll deductions. All notes are repaid within a period of five years, except notes for the participant's principal residence, which must be repaid in a reasonable period of time, not to exceed 15 years.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment trustee and custodian. See Note 4 for discussion of fair value measurements.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis as earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term, and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits. The guaranteed investment account with Massachusetts Mutual Life Insurance Company (MassMutual) represented 23% and 21% of the Plan's net assets as of December 31, 2020 and 2019, respectively. As such, this investment is considered a concentration of credit risk.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded based on the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Excess contributions payable: Participant contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain administrative expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses reflected in the financial statements include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan (as provided for in the Plan agreement). Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2020) through September 8, 2021, which is the date these financial statements were available to be issued.

Note 3. Investment Information Certified or Provided by Reliance Trust Company (Trustee) and MassMutual (Recordkeeper)

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by from Reliance Trust Company the trustee under the Plan and MassMutual, the recordkeeper and custodian of the guaranteed investment account (GIA), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee and custodian related to the following assets and asset activity is complete and accurate to the best of their knowledge and belief and complete and accurate, respectively. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	2020	2019
Investments at fair value:		
Registered investment companies (mutual funds)	$ 38,075,293	$ 17,325,990
Pooled separate accounts	163,089,149	159,405,117
	$ 201,164,442	$ 176,731,107
Investments at contract value:		
Guaranteed investment account	$ 63,225,940	$ 50,881,796
Notes receivable from participants	$ 5,662,377	$ 6,099,513

The trustee and recordkeeper also certified to the completeness and accuracy of $31,405,099 of net appreciation in fair value of investments and $2,016,690 of interest and dividend income related to the aforementioned plan assets for the year ended December 31, 2020.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimizes the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at NAV of shares in each account held by the Plan at year-end. The NAV is not a publicly-quoted price in an active market. The NAV, as provided by the insurance carrier, is used as the practical expedient to estimating fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies (mutual funds)	$ 38,075,293	$ -	$ -	$ 38,075,293
Investments measured at NAV (a)				163,089,149
Investments at fair value				$ 201,164,442

	Assets at Fair Value as of December 31, 2019			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies (mutual funds)	$ 17,325,990	$ -	$ -	$ 17,325,990
Investments measured at NAV (a)				159,405,117
Investments at fair value				$ 176,731,107

(a) In accordance with Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following table summarizes investments for which fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2020 and 2019:

	Fair Value December 31		Unfunded	Redemption	Redemption	Redemption
	2020	2019	Commitment	Frequency	Restrictions	Notice Period

Note 5. Fully Benefit-Responsive Investment Contract

The Plan has a guaranteed investment account with MassMutual, which, as described in Note 2, has been determined to be fully benefit-responsive. The guaranteed investment account is provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed investment account and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees. Because the trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits to the fund. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The principal is guaranteed as long as the contract is in force.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

The crediting interest rate is based on a formula agreed upon with the issuer and guaranteed not to be less than 3%. However, the average yield earned by the Plan and credited to participants may differ from the guaranteed rate due to interest being credited based on contract values, the timing of cash flows and the process by which rates may be reset during the plan year and simplified assumptions used in the calculation of the average yield credited to participants. Such interest rates are reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

Certain events may limit the ability of the Plan to transact at contract value. Such events include, but may not be limited to, the following (1) removal from the Plan of one or more groups or classifications of participants; (2) Plan termination or merger; (3) Plan disqualification; (4) premature termination of the contract; or (5) changes in the Plan prohibition on competing investment options . The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 5. Fully Benefit-Responsive Investment Contract (Continued)

In addition, certain events allow the issuer to fully or partially terminate the contract with the Plan and settle at an amount different from the contract value. Those events may be different under each contract. Examples of such events include, but may not be limited to the following (1) an uncured violation of the Plan's investment guidelines; (2) a breach of material obligation under the contract; or (3) a termination or partial plan termination of the Plan.

Note 6. Related Party and Party-in-Interest Transactions

MassMutual is the recordkeeper and custodian of the GIA of the Plan; therefore, transactions with MassMutual and Fidelity qualify as party-in-interest transactions. Fees paid by the Plan to MassMutual for the above mentioned services amounted to $61,163 for the year ended December 31, 2020. The Sponsor also paid certain administrative expenses of the Plan.

Note 7. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 8. Tax Status

Effective June 1, 2015, the Plan adopted a volume submitter plan sponsored by MassMutual. The volume submitter plan provider received an advisory letter from the IRS as to the volume submitter's plan's qualified status. The volume submitter advisory letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Contingencies and Uncertainties

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a Public Health Emergency of International Concern and, on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas and forced closure for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had, and are expected to continue to have, an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Plan operates. It is unknown how long the conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan's individual investments in response to the changing market conditions.
