Note 1. Description of Plan

The following description of the Sovrn 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary Plan description for more complete information.

General and eligibility: The Plan is a defined contribution plan established on January 1, 2015, to cover eligible employees of Sovrn Holdings, Inc. (the Company or Plan Sponsor), as defined in the Plan document, who have attained the age of 21. Employees are eligible to participate in the Plan on the first of the month following their hire date.

Contributions and investment options: Each year participants may contribute a specified percentage or dollar amount of pretax annual compensation, as defined by the Plan, subject to Internal Revenue Service limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary nonelective contributions and profit-sharing contributions, in accordance with the Plan document. From January 1, 2020 through April 14, 2020, the Company made matching contributions equal to 50% of participant's deferrals that do not exceed 4% of his or her compensation. From April 15, 2020 through December 31, 2020, the Company did not make matching contributions. No profit-sharing contributions were made for the year ended December 31, 2020.

Participants in the Plan direct their contributions and Company contributions into various investment options offered by the Plan. Participants may change their elections daily. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participant contributions and earnings thereon are fully vested and nonforfeitable. The vesting percentage for Company discretionary nonelective contribution is based on years of service under the following schedule:

Years of Service	Vested Percentage
Less than 1 year	0%
1 or more	100%

Vesting in the Company's profit-sharing contribution is based on years of service under the following schedule:

Years of Service	Vested Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 or more years	100%

In the event of Plan termination, death, attainment of age 65 or permanent or total disability, participants will become 100% vested in their account balances.

Note 1. Description of Plan (Continued)

Forfeitures: Participants terminating employment without being 100% vested in the Company's contributions forfeit the nonvested portion of their account. Forfeitures are used to pay administrative expenses of the Plan or used to reduce employer matching contributions. The forfeiture balance as of December 31, 2020 and 2019, was $0 and $10, respectively. During 2020, no forfeitures were used to reduce Company contributions.

Payment of benefits: On termination of service, retirement, death or disability, a participant or their beneficiary may elect to receive a lump sum amount equal to the value of the participant's account, partial amount or in the form of installments. The Plan allows for the automatic lump-sum distribution of participant vested account balances that do not exceed $5,000, unless elected otherwise.

Notes receivable from participants: Participants may borrow from their fund accounts amounts from $1,000 to $50,000 reduced by the excess, if any, of the highest outstanding balance during the prior 12 months over the outstanding balance on the date on which the new note is made and limited to a maximum of 50% of the present value of the participant's vested account balance. The notes bear interest at the Wall Street Journal prime rate on the 14th of each month, plus one percentage point. Notes receivable are collateralized by the participant's vested account balance. The repayment period is limited to five years, except that a note used for the purchase of a principal residence may be repaid over 20 years. The repayment period may not extend beyond the participant's normal retirement date. Principal and interest is paid ratably through payroll deductions. Notes receivable outstanding at December 31, 2020, bear interest at rates ranging from 5.75% to 6.50% and are due through September 2024.

Administrative expenses: Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Administrative expenses of the Plan are charged against earnings, except to the extent expenses are paid by the Company.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Accounting estimates and assumptions: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Recently adopted accounting pronouncement: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to Disclosure Requirements for Fair Value Measurement,* which modifies the disclosure requirements on fair value measurements by removing, modifying, or adding certain disclosures. The adoption of ASU 2018-13 did not have an impact on the financial statements.

Subsequent events: The Plan Administrator evaluated subsequent events through September 15, 2021, which is the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Reliance Trust Company (the Trustee), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is, to the best of their knowledge and belief, complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31, 2020 and 2019:

	2020	2019
Investments, at fair value—mutual funds	$ 8,581,795	$ 7,151,270
Notes receivable from participants	12,824	47,477

The Trustee also certified to the completeness and accuracy of the investment income information (including investments bought, sold and held during the year) and interest income on notes receivable from participants for the year ended December 31, 2020, included on the accompanying statement of changes in net assets available for benefits.

Note 4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities;

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in valuation methodologies at December 31, 2020 compared to December 31, 2019.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Reported at fair value based on quoted market price of the fund and classified within Level 1 of the valuation hierarchy.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,581,795	$ -	$ -	$ 8,581,795

	2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,151,270	$ -	$ -	$ 7,151,270

During the year ended December 31, 2020, the Plan did not make any significant transfers between levels.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at its discretion. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account. Additionally, in the event of Plan Termination, all participants will become 100% vested in their account balances.

Note 6. Tax Status

Effective January 1, 2015, the Plan adopted a standardized form of a prototype plan sponsored by the third-party administrator. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that required adjustments to the financial statements; therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related-Party Transactions

The Plan paid indirect compensation for record keeping services to ADP Retirement Services, an affiliated company to the Trustee. These transactions qualify as exempt party-in-interest transactions. The fees paid during the year ended December 31, 2020, were $33,239.

Note 8. Reconciliation of Financial Statements to Form 5500
