Report of Independent Auditors

To the Administrator of
Howmet Aerospace Hourly Retirement Savings Plan,
Howmet Aerospace Salaried Retirement Savings Plan, and
Howmet Aerospace Niles Bargaining Retirement Savings Plan

We have audited the accompanying financial statements of Howmet Aerospace Hourly Retirement Savings Plan, Howmet Aerospace Salaried Retirement Savings Plan, and Howmet Aerospace Niles Bargaining Retirement Savings Plan (the "Plans"), which comprise the statements of the individual plan net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in individual plan net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Individual Financial Statements

Management is responsible for the preparation and fair presentation of the individual plan financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of individual plan financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the individual plan financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the individual plan financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the individual plan financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the individual plan financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the individual plan financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the individual plan financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the individual plan financial statements referred to above present fairly, in all material respects, the net assets available for benefits of each of the Plans as of December 31, 2020 and 2019 and the changes in each of their net assets available for benefits for the year ended December 31, 2020, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 7 to the financial statements, the accounts attributable to all Participants who were employees or former employees of certain locations as defined in the Separation and Distribution Agreement were spun-off from the Howmet Aerospace Salaried Retirement Savings Plan and the Howmet Aerospace Hourly Retirement Savings Plan effective February 1, 2020. Our opinions are not modified with respect to this matter.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the individual plan financial statements as a whole. The supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2020 for each of the Plans are presented for the purpose of additional analysis and are not a required part of the individual plan financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plans' management and was derived from and relates directly to the underlying accounting and other records used to prepare the individual plan financial statements. The information has been subjected to the auditing procedures applied in the audits of the individual plan financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the individual plan financial statements or to the individual plan financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the individual plan financial statements as a whole.

1. Description of Plans

General

The Howmet Aerospace Hourly Retirement Savings Plan ("Hourly Plan"), Howmet Aerospace Salaried Retirement Savings Plan ("Salaried Plan"), and Howmet Aerospace Niles Bargaining Retirement Savings Plan ("Niles Bargaining Plan") (collectively, the "Plans") are defined contribution savings plans maintained pursuant to a master trust agreement (the "Master Trust") between Howmet Aerospace Inc. ("Howmet" or the "Company") and the trustee, The Bank of New York Mellon ("Trustee"). The Arconic Salaried Retirement Savings Plan was renamed as the Howmet Aerospace Salaried Retirement Savings Plan, the Arconic Bargaining Retirement Savings Plan was renamed as the Howmet Aerospace Hourly Retirement Savings Plan, and the Arconic Retirement Savings Plan for ATEP Bargaining Employees Plan was renamed as the Howmet Aerospace Niles Bargaining Retirement Savings Plan. In general, the Plans provide various investment options for amounts withheld from employees' salaries and for company contributions. Plan documents are available to participants upon request.

- Effective February 1, 2020, due to the planned separation of Arconic Inc. into two separate publicly traded companies, the accounts attributable to all Participants who were employees or former employees of certain locations as defined in the Separation and Distribution Agreement were spun-off from the Salaried Plan to the Arconic Corp. Salaried 401(k) Plan and from the Hourly Plan to the Arconic Corp. Hourly 401(k) Plan. \$743,745,456 was transferred from the Salaried Plan to the Arconic Corp. Salaried 401(k) Plan, and \$609,326,385 was transferred from the Hourly Plan to the Arconic Corp. Hourly 401(k) Plan.
- Effective April 1, 2020, Arconic Inc. separated into two separate publicly traded companies. Arconic Inc. was renamed Howmet Aerospace Inc. and began trading under the ticker symbol HWM. Arconic Corporation was spun off from Arconic Inc. and began trading under the ticker symbol ARNC. This resulted in two separate stock funds under the Plan: the Howmet Aerospace Stock Fund (which is an employee stock ownership plan invested primarily in employer securities) and the Arconic Corporation Stock Fund (a nonemployer stock fund). In anticipation of the separation of Arconic Inc., management established the Arconic Corp. Salaried 401(k) Plan and the Arconic Corp. Hourly 401(k) Plan.

Prior to the separation of Arconic Inc., one of the Plans' investment options was the Arconic Stock Fund, which primarily invested in Arconic Inc. common stock. Upon separation on April 1, 2020, the Arconic Stock Fund was renamed the Howmet Aerospace Stock Fund, and the Arconic Corporation Stock Fund (a nonemployer stock fund holding Arconic Corporation common stock), was established. The Arconic Corporation Stock Fund shall be permitted as an investment option under the Plans for approximately one year after April 1, 2020. No new investments, transfers to, or purchases may be made in the Arconic Corporation Stock Fund on or after April 1, 2020, other than the reinvestment of Arconic Corporation dividends, if any.

Reference should be made to the basic prospectus and to the summary plan description of each Plan for a summary of the important features of each Plan, including eligibility, vesting, employee and company contributions, loans, withdrawals and compliance with the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility and Vesting

The Plans are available to eligible employees of the Company and certain subsidiary locations that have adopted the Plans. The Niles Bargaining Plan is only available to hourly employees of RMI Titanium Co, LLC covered by collective bargaining agreements that provide this benefit.

Employees are immediately eligible for plan participation. Participants are fully vested in the value of their contributions plus actual earnings thereon at all times. Except for the participants in the Niles Bargaining Plan, a participant is immediately vested in company contributions, which are therefore nonforfeitable.

For the Niles Bargaining Plan, employer contributions and the earnings on those contributions vest incrementally: 33% after one year of service, 67% after two years and 100% vested after three years of service. Amounts that are not vested upon termination of employment are forfeited and will be used to reduce plan expenses or future company contributions. Total forfeitures that reduced employer contributions and plan expenses in 2020 are \$21,233.

Employee Contributions

Eligible employees may elect to contribute to the Plans up to 25% of eligible compensation as pre-tax, not to exceed the IRS limit, or up to 10% as after-tax, with a maximum of 25% in the aggregate. Eligible employees in the Hourly Plan may defer as pre-tax savings and/or pre-tax catch-up contributions, a maximum of 50% of amounts earned under the applicable pay for performance plan in increments of 10% and subject to the maximums allowable by the Internal Revenue ("Code") and Department of Treasury regulations.

Negotiated deferrals, as defined in the Hourly Plan document, for certain eligible collective bargained employees will be contributed to their plan accounts as a separate pre-tax contribution.

Eligible employees age 50 or older or who become age 50 during the plan year who meet certain requirements may elect to make additional pre-tax catch-up contributions up to a maximum of \$6,000, or such other amount adjusted for cost-of-living increases.

Elections can be changed effective for the first full payroll period following the election. Participants direct their contributions in multiples of 1% into various investment options offered by the Plans.

Eligible employees hired or rehired on or after August 1, 2006 will be automatically enrolled in the Plans after 60 days of hire or rehire and subject to automatic payroll deductions equal to 3% of eligible compensation, which will be contributed to the Plans as pre-tax savings, unless the employee chooses to either enroll sooner or to not participate. After 90 days of plan participation, the pre-tax savings rate will be increased by 1% on each April 1 until the pre-tax savings rate attains a target rate of 6% of eligible compensation. The employee can change the contribution rate, annual rate increase and target contribution rate or stop automatic enrollment at any time.

The Plans also accept rollover contributions of amounts representing distributions from other qualified defined benefit or defined contribution plans to the extent the rollover is permitted under Section 402(c) of the Code. An eligible employee's rollover contribution is credited to his or her account and thereafter treated like the participant's pre-tax savings with respect to withdrawals, loans, and investment options under the Plans. The Plans do not accept rollover contributions from Roth individual retirement accounts.

Employer Contributions

For the nonbargaining eligible employees of the Hourly Plan, participating locations may elect to make a matching employer contribution up to 6% of the participants' eligible compensation. For the Salaried Plan, participating locations must make a matching employer contribution up to 6% of the participants' eligible compensation. The employer match for contributions to bargained eligible employees of the Hourly Plan and Niles Bargaining Plan is based upon the various collective bargaining agreements. The Company does not match negotiated deferral contributions under the Hourly Plan.

In addition, certain salaried and nonbargaining eligible employees of the Plans and certain bargained employees hired or rehired as of specified dates negotiated under the collective bargaining agreements will receive an employer retirement income contribution in the amount of 3% of applicable eligible compensation per pay period.

The employer match and employer retirement income contributions are contributed in the same manner as the participant's other investment elections. If the participant has not made investment elections, company matching contributions will automatically be invested in the appropriate targeted maturity fund based on the participant's year of birth.

Certain eligible employees in the Hourly Plan and Niles Bargaining Plan hired or rehired as of specified dates negotiated with the unions will receive retiree medical savings contributions to their accounts in an amount equal to \$0.40 and \$0.35, respectively, per hour worked. These employer contributions are contributed in the appropriate targeted maturity fund based on the participant's year of birth but may be transferred by the participant from the default fund to any eligible fund.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) Plan earnings. Allocations of Plan earnings are based on individual participant investment earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants

Generally, participants may borrow from their individual account balances in the Plans, excluding employer contributions made on or after January 1, 2011, employer retirement income contributions, transitional employer retirement income contributions, retiree medical savings contributions, legacy RTI Money Purchase Plan ("RTI MPP") balances and legacy RTI Roth Balances. However, participants in the Niles Bargaining Plan may borrow against employer contributions.

The minimum loan amount permitted by the Plans is \$1,000. The maximum allowable loan from the Plans is the lesser of 50% of the participant's account balance or \$50,000. Loans are collateralized by a portion of the participant's account balance, and repayments are made by periodic payroll deductions. Interest is charged on all loans at the prime rate plus 1% at the time the loan is executed. Interest rates ranged from 4.25% to 10.50% as of December 31, 2020 and 2019. For each loan request, a \$100 loan processing fee is deducted from the loan amount to cover administrative expenses.

Payment of Benefits

While actively employed, participants have access to account funds through loans, nonhardship withdrawals of after-tax and rollover contributions, withdrawals for participants over age 59½, hardship withdrawals of pre-tax contributions, and, to comply with changes made by the Bipartisan Budget Act of 2018, effective January 1, 2019, the related investment earnings on pre-tax contributions. No portion of a legacy RTI MPP balance shall be available for withdrawals during employment.

On termination of service due to death, disability or retirement, participants with an account balance greater than \$5,000 (\$1,000 for the Niles Bargaining Plan) may elect to leave their investment in the Plans or receive a lump-sum distribution. Participants who leave their investments in the Plans and elect to receive a distribution at a later date are permitted four partial payouts each calendar year, however, each partial payout must be at least \$250. Plan provisions require a lump-sum distribution when the participant attains age 69, except for legacy RTI MPP balances. The default election for RTI MPP distribution is a Qualified Joint and Survivor Annuity, which the Trustee shall purchase from an insurance company. Participants can choose alternative distribution options.

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act)

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act), signed into law March 27, 2020, introduced temporary relief provisions related to the Plans. An eligible participant may take a Coronavirus related distribution up to \$100,000 or his/her total vested account balance, if less. Eligible participants may take a distribution through December 31, 2020, regardless of age or status. Distributions are not subject to the 10% early withdrawal penalty that applies to distributions taken before age 59½ or the 20% mandatory withholding tax. The distributions will be included in the participant's taxable gross income ratably over a three-year tax period beginning with the 2020 tax year. The Plans also suspended the Required Minimum Distributions requirements for 2020 and allow for delays in loan repayments of new and existing loans made between April 9, 2020 and December 31, 2020 for up to one year. The loans will be reamortized at the end of the delay over the original remaining loan period.

Risks and Uncertainties

The Plans invest in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Individual Plan Net Assets Available for Benefits and Statements of Changes in Individual Net Assets Available for Benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plans to terminate the Plans subject to the provisions of ERISA. In the event of a plan termination, any unallocated assets of the Plans shall be allocated to participant accounts and distributed in such a manner as the Company may determine. Also, the Company has the right under the Plans to discontinue its contributions at any time.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plans are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and to disclose contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are reported at contract value. Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plan interest in Howmet Aerospace Retirement Savings Plan Master Trust investment income and other investment gains includes the Plans' unrealized and realized gains and losses on investments.

Payments of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

The Notes Receivable from Participants are reported at the unpaid principal balance of borrowings from individual account balances along with the accrued and unpaid interest. Loans in default are reclassified as benefit payments to participants based upon the terms of the plan.

Administrative Expenses

The Fixed Income Fund, Howmet Aerospace Stock Fund, Arconic Corporation Stock Fund, and Arconic Stock Fund investment management fees are paid by the Plans from assets of their respective funds. The investment management fees for the Fixed Income Fund are based upon a percentage of the fund's net assets. For the Howmet Aerospace Stock Fund, Arconic Corporation Stock Fund, and Arconic Stock Fund, the investment fees are based upon the number of stock transactions within the fund during the year.

Many funds in the Plans are registered investment companies. Registered investment companies incur expenses that reduce the earnings in the fund and are reflected in the daily net asset value ("NAV"). Expenses charged by registered investment companies include asset management and administrative fees.

Notes to Financial Statements

December 31, 2020 and 2019

The funds offered by BlackRock Institutional Trust Company, N.A. as part of the commingled trust, and the Trustee incur expenses that reduce earnings in the fund and are reflected in the NAV. These funds are not available to individual investors and are not publicly traded. Expenses charged by these funds include asset management and administrative fees.

A monthly fee is charged to all participants, including those who have all funds in the self-directed brokerage window. An additional monthly account maintenance fee will apply if any investments are through the brokerage window.

For each loan request, a \$100 loan processing fee is deducted from the loan amount to cover administrative expenses.

The 2020 administrative expenses charged to participants were \$234,855 for the Salaried Plan, \$591,344 for the Hourly Plan, and \$25,026 for the Niles Bargaining Plan.

The fees described above are included within Plan Interest in Howmet Aerospace Retirement Savings Plan Master Trust investment gain.

Recently Adopted Accounting Guidance

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ("ASU") 2017-06 Defined Contribution Pension Plans (Topic 962): Employee Benefit Plan Master Trust Reporting. ASU 2017-06 relates to the presentation and disclosure reporting requirements by an employee benefit plan for its interest in a master trust. The guidance requires, for each master trust in which a plan holds an interest, a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Additionally, the guidance removes the requirement to disclose the percentage interest in the master trust for plans with divided interests and requires that all plans disclose the dollar amount of their interest in each of those general types of investments. Lastly, the guidance requires all plans to disclose their master trust's other asset and liability balances and the dollar amount of the plan's interest in each of those balances. This ASU is effective for fiscal years beginning after December 15, 2018 and is applied retroactively. Management has adopted the ASU on January 1, 2019, and the presentation of the financial statements and notes herein reflect such adoption.

4. Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets held both inside and outside of the Master Trust measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

Cash and Cash Equivalents

Valued at cost which approximates fair value.

Fixed Income Securities

Valued on the basis of valuations furnished by Trustee-approved, (broker/dealer approved for assets held outside of the Master Trust) independent pricing services. These services determine valuations for normal institutional-size trading units of such securities using models or matrix pricing, which incorporates yield and/or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and quotations from bond dealers to determine current value. If these valuations are deemed to be either not reliable or not readily available, the fair value will be determined in good faith by the Trustee.

Equity Securities

Valued at the closing price reported on the active market on which the individual securities are traded.

Employees' Retirement Savings Plans of Howmet Aerospace Inc. and Subsidiary Companies

Notes to Financial Statements

December 31, 2020 and 2019

Mutual Funds

Valued at the daily closing price as reported by the fund.

Commingled Trusts

Valued at the NAV of shares held by the Plans at year end. These funds are not publicly listed.

Self-directed Brokerage Accounts

Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There are no unfunded commitments with respect to commingled trusts. Participants can transact daily with these funds, however, significant withdrawals may be subject to redemption restrictions, at the Trustee's discretion, to the extent that it is determined such actions would disrupt management of the fund.

The following table sets forth by level, within the fair value hierarchy, the Plans' assets at fair value as of December 31, 2020.

5. Investment Contracts

The Plans hold a portfolio of investment contracts, all of which are synthetic. The Investment Contracts are held in the Fixed Income Fund (the "Fund") and are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The wrap providers are contractually obligated to repay the principal by providing a guarantee that the crediting rate will not fall below 0%.

Contract value, as reported to the Plans by the investment manager, represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Investment Contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the Fund's current market value at the Fund's current yield to maturity for a period equal to the Fund's duration. The crediting rate is the discount rate that equates estimated future market value with the Fund's current contract value, but it may not be less than zero.

The crediting rate, and hence the Fund's return, may be affected by many factors, including purchases and redemptions by shareholders. If the market value of the covered assets is higher than their contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under these circumstances, cash from new investors will tend to lower the crediting rate, and redemptions by existing shareholders will tend to increase the crediting rate. The opposite is ordinarily true if the market value of the covered assets is lower than their contract value. There are no reserves against contract value for credit risk of the insurance companies or otherwise.

Notes to Financial Statements

December 31, 2020 and 2019

Certain events limit the ability of the Plans to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Code, (2) the establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification of the Plan or the administration of the Plan that is not consented to by the insurance companies, (4) complete or partial termination of the Plan, (5) any change in law, regulation or administration ruling applicable to the Plan that could have a material adverse effect on the Fund's cash flow, (6) merger or consolidation of the Plans with another plan, the transfers of the Plans' assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor, (7) any communication given to participants by the plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in the Fund or to transfer assets out of the Fund, (8) exclusion of a group of previously eligible employees from eligibility in the Plan, (9) any early retirement program, group termination, group layoff, facility closing, or similar program or (10) any transfer of assets from the Fund directly to a competing option.

The Plans' administrator does not believe that the occurrence of any such event, which would limit the Plans' ability to transact at contract value with participants, is probable.

The Investment Contracts generally allow the contract issuers (banks or insurance companies) to terminate the agreement. However, the banks or insurance companies would be required to grant the Fund a right to amortize any market to book differential over an agreed upon period of time.

6. Related-Party Transactions

The Plans own shares of common stock of Howmet Aerospace Inc. through the investment in the Howmet Aerospace Stock Fund and formerly owned the common stock of Arconic Inc. through investment in the Arconic Stock Fund, therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt as defined in ERISA Section 408 and the regulations there under. From January 1, 2020 to March 31, 2020, purchases and sales of shares of common stock in the Arconic Stock Fund were \$3,033,481 and \$57,866,076, respectively. From April 1, 2020 to December 31, 2020, purchases and sales of shares of common stock in the Howmet Aerospace Stock Fund were \$13,190,443 and \$19,886,640, respectively. Dividends earned on Howmet Aerospace Inc. common stock during 2020 were \$44,298. As of December 31, 2020, the Plans owned 2,056,974 shares of Howmet Aerospace common stock. As of December 31, 2019, the Plans owned 4,087,310 shares of Arconic Inc. common stock.

The Company pays certain administrative expenses or performs administrative functions on behalf of the Plans.

The Plans invest in funds managed by The Bank of New York Mellon. The Bank of New York Mellon is the trustee as defined by the Plans, and therefore these transactions, and expenses paid to Bank of New York Mellon, qualify as party-in-interest transactions.

Participants may borrow from their individual account balances in the Plans. The loan program is discussed in Note 1. These transactions qualify as party-in-interest transactions.

7. Plan Transfers

Effective February 1, 2020, due to the planned separation of Arconic Inc. into two separate publicly traded companies, the accounts attributable to all Participants who were employees or former employees of certain locations as defined in the Separation and Distribution Agreement were spun-off from the Salaried Plan to the Arconic Corp. Salaried 401(k) Plan and from the Hourly Plan to the Arconic Corp. Hourly 401(k) Plan. \$743,745,456 was transferred from the Salaried Plan to the Arconic Corp. Salaried 401(k) Plan, and \$609,326,385 was transferred from the Hourly Plan to the Arconic Corp. Hourly 401(k) Plan.

8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the plan sponsors by letters dated April 28, 2017 for the Hourly Plan and Salaried Plan and a letter dated April 10, 2018 for the Niles Bargaining Plan that the Plans are qualified and the trust established under the Plans is tax exempt under the appropriate sections of the Code. These Plans have been amended since receiving the determination letters. However, the Plans' administrator and the Plans' tax counsel believe that the Plans are currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe the Plans were qualified and the related trust was tax-exempt as of the financial statements date.

US GAAP require the Plans' management to evaluate tax positions taken by the Plans and recognize a tax liability (or asset) if the organization has taken an uncertain position that would not be sustained upon examination by the IRS. The Plans' administrator and its tax counsel have analyzed the tax positions taken by the Plans and have concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure to the financial statements. As such, no reserve is required under US GAAP. The Plans are subject to audits by the IRS; however, there are no current IRS audits for any tax periods in progress. The Plans' administrator and its tax counsel believe the Plans are no longer subject to IRS audits outside the statutory audit period.

9. Subsequent Events

Management has evaluated the events and transactions that have occurred through June 23, 2021, the date the financial statements were issued, and noted no items requiring adjustment of the financial statements or additional disclosures, other than that which is noted below.

The Arconic Corporation Stock Fund was liquidated as of March 31, 2021. Any funds remaining in the Arconic Corporation Stock Fund at the liquidation date were credited to participant accounts in the applicable targeted maturity fund based on the participant's year of birth.
